PANJAB UNIVERSITY, CHANDIGARH

(Estted. under the Panjab University Act VII of 1947-enacted by the Govt. of India)

FACULTY OF ARTS

SYLLABI

FOR

FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS (SEMESTER SYSTEM) EXAMINATIONS, 2011-12

---:O:---

SYLLABI AND COURSES OF READING FOR FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS, EXAMINATION, 2011 - 12

BAHS – ECONOMICS, Semester-I

BAHSECO- 101	Economic History of India: 1857 - 1947	100 MARKS
BAHSECO- 102	Principles of Economics	100 MARKS
BAHSECO- 103	Mathematics for Economic Analysis –I	100 MARKS
BAHSECO- 104	Sociology – I	100 MARKS
BAHSECO- 105	English –I	100 MARKS

BAHS – ECONOMICS, Semester-II

BAHSECO- 201	History of Economic Thought – I	100 MARKS
BAHSECO- 202	Micro Economics-I	100 MARKS
BAHSECO- 203	Mathematics for Economic Analysis – II	100 MARKS
BAHSECO- 204	Sociology -II	100 MARKS
BAHSECO- 205	English –II	100 MARKS

BAHS – ECONOMICS, Semester-III

BAHSECO- 301	History of Economic Thought – II	100 MARKS
BAHSECO- 302	Micro Economics-II	100 MARKS
BAHSECO- 303	Development Economics – I	100 MARKS
BAHSECO- 304	Economics of Agriculture	100 MARKS
BAHSECO- 305	Statistics for Economic Analysis	100 MARKS

BAHS – ECONOMICS, Semester-IV

BAHSECO- 401	Macro Economics – I	100 MARKS.
BAHSECO- 402	Development Economics- II	100 MARKS
BAHSECO- 403	Economics of Industry	100 MARKS
BAHSECO- 404	Econometrics	100 MARKS
BAHSECO- 405	Economics of Population	100 MARKS

Semester V

BAHSECO- 501	Contemporary Issues in Indian Economy-I	100 MARKS
BAHSECO- 502	Macro Economics– II	100 MARKS
BAHSECO- 503	Economics of Public Finance	100 MARKS
BAHSECO- 504	International Economics	100 MARKS
BAHSECO- 505	Optimization Techniques and Game Theory	100 MARKS

Semester-VI

BAHSECO- 601	Contemporary Issues in Indian Economy-II	100 MARKS
BAHSECO- 602	Human Resource Development	100 MARKS
BAHSECO- 603	Basics of Financial Markets	100 MARKS
BAHSECO- 604	Environmental Economics	100 MARKS
BAHSECO- 605	Economic Journalism	100 MARKS

Interim Period Additional Courses (For the First Three Years)

At the end of Even Semesters (II, IV, VI), the students would be assigned a mandatory task as per the following scheme:

A-II Book Review / Review Article/Survey of Literature

A-IV Group –Task: Undertaking a Primary Survey (on a subject to be decided by the Group Leader, a Faculty member)

A-VI Field Trip and Reporting/ Market – Survey (Rural Areas/Urban Areas).

MAHS – ECONOMICS, SEMESTER - I

MAHSECO- 101	Advanced Economic Theory- I	100 MARKS
MAHSECO- 102	Econometric Applications- I	100 MARKS
MAHSECO- 103	Operations Research	100 MARKS
MAHSECO- 104	Contemporary Issues in Public Policy	100 MARKS

MAHS – ECONOMICS, SEMESTER – II

MAHSECO- 201	Advanced Economic Theory- II	100 MARKS
MAHSECO- 202	Econometric Applications- II	100 MARKS
MAHSECO- 203	Law and Economics	100 MARKS
MAHSECO- 204	World Trading System: Theory and Practice	100 MARKS

MAHS – ECONOMICS SEMESTER - III

In all, four courses would be offered (two from each area of specialization in a combination) in each of the following **Majoring Areas**:

MAHSECO- 301 (a)	Agriculture and Rural Development	100 MARKS
MAHSECO- 301 (b)	Agriculture and Rural Development	100 MARKS
MAHSECO- 302 (a)	Banking and Insurance	100 MARKS
MAHSECO- 302 (b)	Banking and Insurance	100 MARKS
MAHSECO- 303 (a)	Industry and Trade	100 MARKS
MAHSECO- 303 (b)	Industry and Trade	100 MARKS
MAHSECO- 304 (a)	Money and Finance	100 MARKS
MAHSECO- 304 (b)	Money and Finance	100 MARKS

The student would have the choice of opting for any one of the above combinations. The same would be treated as the Majoring Area (Field of specialization) and would be shown in the M A Honour School in Economics degree as mentioned earlier.

MAHS – ECONOMICS, SEMESTER – IV

No formal teaching would be offered in the department in this semester. However, under the overall supervision of the department, the student would be attached to one or the other Public/ Private organization in her/ his majoring area so as to get on the job training and work experience. This opportunity would also be used to test the candidate's problem solving abilities as well. Each student would be required to submit a Project Report on the topic/ theme assigned by the host organization. The evaluation of the same, however, would be the prerogative of the teacher(s) in charge of the field.

SYLLABI AND COURSES OF READING FOR FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS, EXAMINATION, 2011 – 12, SEMESTER - I

BAHSECO-101 : ECONOMIC HISTORY OF INDIA : 1857 - 1947

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The objective of this paper is to acquaint the students with the state of the Indian economy prior to Independence and the economic impact of the British rule on various sectors of the Indian economy.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Why study economic history, the problems in interpreting India' past, the state of the Indian Economy on the eve of independence, Indian Economy in the mid-nineteenth century, growth of the empire and systems of land settlements in the Colonial India.

UNIT - II

Transformation of the traditional village – economy during the British rule, Commercialization of agriculture – its causes and consequences, Emergence of agricultural labour as a category, movement of agricultural wages and prices during the period – problems of rural indebtedness.

UNIT – III

The state of industrial development in mid-nineteenth century India, the de-industrialization thesis – its statement and validity, emergence of modern capitalist industrial enterprise in India – Textile (Jute and Cotton), Iron & Steel, Cement, Coal, Tea.

UNIT – IV

Foreign capital in Colonial India – its extent and impact; foreign-trade-growth and composition; 'guided under-development' of India under the British rule; evolution of provincial finance, the nature and problem of public debt; Economic drain from India - form, extent and consequences.

Essential Readings:

G. Kaushal (1993) : Economic History of India- 1757 to 1966. Kalyani Publishers, New Delhi.

Further Readings:

V B Singh (ed.) (2002) : Economic History of India 1857-1956. Allied Publications Private Limited, Bombay, 1965.

Collection of Papers/ Reprints : File available in the departmental library.

BAHSECO-102 : PRINCIPLES OF ECONOMICS

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Economic Theory is important in the understanding of economics. Economic theory comprises mainly two branches of economics i.e. Micro economics and Macro economics. The basic objective of the course entitled Principles of Economics is to introduce the conceptual framework of micro and macro economics to the students so that they can prepare for the advance course in this branch at later stage.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

MICRO ECONOMICS

UNIT– I

The Economic Problem: Scarcity and Choice, Functions of an Economic System. Circular flow of Economic activity and systems of economic organization. Nature of Economic reasoning.

Laws of demand and Supply. Elasticity: Concept, measurement, determinant and importance. Market equilibrium; excess demand, excess supply and changes in equilibrium. Government intervention in terms of fixing maximum and minimum prices.

Consumer choice: Cardinal and Ordinal utility analysis. Concept of Consumer's Surplus.

UNIT - II

Production process: Short run theory of Production. Choice of Technology and Long run production analysis.

Traditional cost analysis: Short run and long run.

Profit maximization hypothesis. Price and output determination under Perfect Competition and simple Monopoly.

MACRO ECONOMICS

UNIT - III

Micro and Macro Economics: Distinctive characteristics; Circular flow of incomes, Three Markets: Goods and Services, Labor Market and Money Market.

National Output and National Income: Concepts, Methods of measurement and limitations.

Consumption, Savings and Investment: Classical and Keynesian views.

Aggregate Demand and Equilibrium Output: Keynesian model. The concept, operation and limitations of Multiplier.

UNIT - IV

Govt. and Fiscal Policy: Govt. purchases/expenditure, Taxes, Subsidies.

Money: Demand and Supply; equilibrium rate of interest and output.

Inflation: Meaning, types, causes, effects; control.

Unemployment: Types, Inflation unemployment trade off; The Phillips Curve.

Essential Readings

Case, Karl E and Fair, Ray C : 'Principles of Economics' 6th edition. Pearson (First Indian Print 2002 Education Asia)

Samuelson, Paul A and Nordhaus, William D (2006) : Economics, 18th Edition, Tata McGraw Hill Publishing Company Limited, New Delhi.

Sloman, John (2004) : 'Economics', 3rd Edition, Prentice Hall of India,

Further Readings:

Diulio, Eugene A. (1974) : Macro Economic Theory, 2nd Edition, McGraw -Hills (Schaum Series)

Salvatore, Dominick (2003) : Micro Economics (Theory and Applications), 4th Edition, Oxford. (Schaum Series)

BAHSECO – 103 : Mathematics for Economic Analysis – I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To train the students in use of mathematical tools in analyzing economic problems.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Basic Concepts : Functions and their graphs; Limits and Continuity;
Equations – simple, quadratic and simultaneous and Identities; Equations of a straight line, concept of slope; Equation and interpretation of Rectangular Hyperbola.

UNIT – II

Series – Arithmetic and Geometric; Rate of growth and its Measurement, Present Value and its Applications. Annuities: Types, Amount and Present value; Simple Differentiation

UNIT – III

CALCULUS: Partial and Total differentiation; Homogenous function and Euler's Theorem; Maxima and Minima of Functions of one and two variables; Constrained Optimization Problem (with maximum three variables). Integration of a function; Methods of Substitution and Partial fractions; Integration

UNIT – IV

Applications: Simple and Direct Applications of the above Concepts in economics: Concept of elasticity; Elasticity of demand; Average and Marginal functions; Interrelationships among total, marginal and average cost and revenues; Partial derivatives and nature of commodities; Optimization problems relating to revenue, cost, profit, utility and production; Consumers surplus and producer's surplus.

Essential Readings

Chiang, Alpha C (1984) : Fundamental Methods of Mathematical Economics (3rd Ed.)

Weber, Jean E (1982) : Mathematical Analysis Business and Economic Applications (4th Ed.)

Yamane, Taro (1972) : Mathematics for Economists

Further Readings

Allen, R G D (1983) : Mathematical Analysis for Economists

Kooros, A (1965) : Elements of Mathematical Economics

Monga, G S (2000) : Mathematics and Statistics for Economists

Arora, P N & Arora S (2000) : CA Foundation Course in Mathematics.

Bose, D C (1996) : An Introduction to Mathematical Economics.

BAHSECO-104 : Sociology – I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The systematic study of human behaviour and human society is a relatively recent development. The central emphasis of the paper would be to develop a conceptual clarity regarding the basic sociological terms and themes, thus leading to a development of a sociological outlook. The course would also discuss the works of founding father which led to the development of Sociological thinking.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT I

Developing Sociological Outlook : Definition and Scope; Significance and uses of Sociology; Relationship of Sociology with other social sciences- Anthropology, Economics, Political Science, Psychology, Philosophy and History.

UNIT – II

Basic Concepts : Society – Meaning and Characteristics, theories of origin, individual and society. Community, Association and Institution – meaning, characteristics and differences. Groups – Definition, characteristics and classification.

UNIT - III

Culture and Socialization: Culture-Definition, cultural lag, acculturation, assimilation, pluralism. Culture and personality.
Civilization: Definition, traditional and modern. Socialization – Meaning, stages, agencies.

UNIT – IV

Development of Sociological Thinking

Comte: Law of three stages. Marx: Materialistic Conception of History. Max Weber: Social Action and Rationality. Emile Durkheim : Social Facts and Social Solidarity.

Essential Readings :

Giddens, Anthony : Sociology, Cambridge, Polity Press, 4th edition.

Haralambos, Michael (2003) : Sociology: Themes and Perspectives. Calcutta, Oxford University Press,

Davis Kingsley (2002) : Human Society. Surjeet Publications, Delhi

MacIver, R M & Page Charles: Society : An Introductory Analysis. Macmillan India Ltd. (Latest)

Johnson, Harry (2003) : Sociology: A Systematic Introduction Allied Publishers, New Delhi (Latest edition)

Inkeles Alex, (2004) : What is Sociology? An Introduction to the Discipline and Profession. Prentice -Hall, India.

Bradshaw, York W, et.al. (2001) : Sociology for a New Century, Piner Forge Press, California

Further Readings:

Johnson, Doyle Paul (1986) : Sociological Theory, New York, McMillan, (Or later edition)

Ritzer, George (1988) : Sociological Theory, London, McGraw-Hill, (Or latest edition)

Coser Lewis, (2004) : Masters of Sociological Thought, Rawat Publications, New Delhi.

BAHSECO – 105 : English - I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: This paper is intended to enable the students to enrich and enhance their communication skills and strategies in order to effectively communicate their ideas, needs, actions, plans, opinions, expertise, aspirations etc. in different and differing social and professional contexts. The course, therefore, focuses on the various oral and written forms of communication, such as presentations, Interviews, meetings, conservations, seminars, discussions, reports, proposals, letters, advertisements, and so on, not only to empower students to come together and share their ideas in various situations and contexts but also to learn how to progress and prosper ethically by using their creative communication strategies.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- The Question Paper will be of two parts i.e. Part A (consisting of Unit I and Unit II) and Part B (consisting of Unit III and IV). In Part A, there shall be **Eight** short answer type (or correctional) questions (word limit – 150 words each) and the candidates shall be required to attempt any **four**. Each question in Part A carries **four marks**. In Part B, there shall be eight questions, uniformly spread over the course, and the candidates shall be required to attempt any **four** question. Each question in Part B carries 16 marks.

BUSINESS COMMUNICATION

UNIT – I

1.1 Nature and Scope of Communication

Introduction: Functions of Communication, Communication Basics, Communication Networks, Tips for effective Internal Communication; Case Studies.

1.2 Non-Verbal Communication

Introduction, Forms of Non-Verbal Communication, Interpreting Non-Verbal Messages, Tips for effective non-verbal Communication; Case Studies

1.3 Effective Listening

Introduction, What does 'listening' mean? Types of Listening, Effective and Ineffective Listening Skills, Active and Passive Listening , Leadership and the role of Listening in Leadership Styles; Case Studies.

1.4 Business Presentations and Public Speaking

Introduction, Business Presentations and Speeches, Business Presentations: Sample Outlines; Effective Sales Presentations; Case Studies.

UNIT – II

2.1 Interviews

Introduction, Fundamental Principles of Interviewing , Types of Interview Questions, Types/Styles of Interview/ Interviewing; Case Study

2.2 Business Writing and Correspondence

Introduction, Written Business Communication, The Seven C's of Business Letter Writing, Effective Business Correspondence: Basic Principles; Kinds of Business Letters; Writing Effective Memos; Case Study.

2.3 Business Reports and Proposals

Introduction, What is a Report? Steps in Writing a Routine Business Report, Format of Proposals, Four Key Elements in Winning Business Proposals; Case Studies.

2.4 Meetings and Conferences

Introductions, How to lead Effective Meetings, Minutes, Planning a Conference, Effective Meetings vis Video-Conferencing Web Conferences.

UNIT – III

3.1 Group Discussion and Team Presentation

Introduction, Methodology of Group Discussion, Role Functions in Group Discussions, Improving Group Performance, Team Presentations, Case Studies

3.2 Technology – Enabled Business Communication

Introduction, Technology Based Communication Tools, Impact of Technology-enabled Communication, Selection of Appropriate Communication Technology.

3.3 Communication Across Functional Areas

Introduction, Marketing Communication/Integrated Marketing Communication, Direct vs. Indirect Selling, Project Management Communication, Human Resource Communication, Case Studies.

3.4 Persuasive Strategies in Business Communication
Introduction, Advertising, Conflict Management, Negotiation, Case Studies

UNIT – IV

4.1 Corporate Communication
Introduction, Corporate Communication and Social Responsibility, Cross-Cultural Communication, Case Study.

4.2 Ethics in Business Communication
Introduction, Ethical Communication: Austerity in Speech, Value, Ethics and Communication, Ethical Dilemmas Facing Managers, Ethics in Advertising /Computer Ethics, Case Study.

4.3 Business Communication Aids
Introduction, Elements of Effective English, The Power of Reading, Effective Paragraphs, Punctuation and Capitalization, Referencing Styles, E-mail etiquettes, Business Terms.

4.4 Conversations
Introduction, Types of Conversation, Essentials of a Business Conversation, Successful Conversation, Case Study.

Essential Readings:

Meenakshi Raman & Parkash Singh (2008) : Business Communication
Oxford University Press, New Delhi.

Further Readings:

Adair, John (2002) : The Effective Communicator
Jaico Publishing House, Mumbai

Ludlow, Ron & Fergus Panton (1999) : The Essence of Effective Communication
Prentice Hall of India, New Delhi

Chaturvedi, P D & Mukesh Chaturvedi (2006) : Business Communication
Pearson, New Delhi

Courtland, L Bovee and John V. Thill (2008) : Business Communication Today, Pearson, New Delhi

SYLLABI AND COURSES OF READING FOR FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS, EXAMINATION, 2011 – 12, SEMESTER - II

BAHSECO- 201 : History of Economic Thought - I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Evolution of economic ideas is both a response to contemporary economic problems and a self-conscious attempt to refine earlier ideas to integrate them as a part of current social thought. The objective of this course is to familiarize the students with the historical evolution of economic ideas into the contemporary economics.

The time-tested method of imparting verbal instructions thought lectures would be used. Examples, in so far as possible, would be selected from everyday life-experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT - I

Nature and Importance of Economic Thought. Relativist and Absolute approaches to Economic Thought.
Mercantilism: Views on Trade, Money and Prices. Wages and Employment.

UNIT - II

Physiocracy: Natural Order; Net product and Circulation of Wealth.
Classical Political Economy. Adam Smith: Theories of Value, Distribution and Growth.

UNIT – III

Ricardian Economics: Value Analysis Theories of Trade and Distribution, Views on Machinery and Employment, Ricardo-Malthus glut controversy.

UNIT – IV

J S Mill: Theory of Value, Views on Production and Distribution. Classical Stationary State with special reference to Mill's views.

Essential Readings:

O'Brien, D P (1975)	:	Classical Economists, Clarendon Press, Oxford.
Dobb, Maurice (1973) Smith.	:	Theories of Value and Distribution since Adam Vibha Publishsing House Pvt. Ltd., New Delhi
Sweezy, Paul M (1945)	:	The Theory of Capitalist Development Denis Dobson Ltd., London, 1952.
Blaug, M (1961)	:	Economic Theory in Retrospect Cambridge University Press, Cambridge, 1978
Eric Roll (1993)	:	A History of Economic Thought Rupa & Co.
Guide, Charles and Rist, Charles (1973)	:	A History of Economic Doctrine, Oxford University Press, Calcutta

Further Readings:

Dasgupta, A K (1986)	:	Epochs of Economic Theory Oxford University Press, New Delhi.
Collander, D C (Ed.)	:	Neo-Classical Economists
Mandel, E (1971)	:	Marxist Economic Theory Upra and Co.

Schumpter, J A (1954) : History of Economic Thought
Oxford University Press

Samuel Hollander (1987) : Classical Economics

Tom Bottomore (1980) : Dictionary of Marxist Thought, Basic
Blackwell Publishers, England

BAHSECO – 202 : Micro Economics - I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To comprehensively equip the students with the theoretical concepts, methodology and process of reasoning involved in analysing economic behaviour of individuals.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignment and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Methodology of Positive Economics.
Construction of economic theories: alternative approaches. Appraisal of Economic theories: Different approaches.
Equilibrium: Concept, Types, Static and Dynamic equilibrium. Partial and General equilibrium:Marshallian and Walrashallian approaches. Stability, existence and uniqueness of equilibrium.

UNIT - II

Consumer choice: (a) Under certainty: Indifference curves and Revealed preference (Weak and strong Axioms) Analysis.

(b) Under uncertainty: N-M Analysis.

Market Demand**:** From household demand to Market Demand: The role of network Externalities.

UNIT-III

Theory of production.

Concept of Production function: Fixed and variable proportion production function.

Given technology and one variable factor: Returns to factor proportion; factor productivity curve: stages of production and rational zone of production.

Given technology and two variables factors: Returns to scale, production Isoquants, Marginal rate of Technical Substitution, economic zone of production and ridge lines expansion path under different types of returns to scale.

Given Technology and fixed amount of one factor: Production Transformation Curve, Marginal rate of Transformation in production.

UNIT- IV

Producer's Equilibrium

Cost concepts, Derivation of short run cost curves from factor productivity Curves.

Long run cost curves: Derivation shape and slope. Economics an diseconomies of scale and their and in the shape and slope of long run cost curves.

Concept and condition of producers equilibrium with profit maximization the goal.

Choice of cost maximizing input combination: Output and substitution effects, Elasticity of factor substitution. Output maximization subject to a given budget and cost minimization subject to a given output constraint

Choice of optimal product mix: Two products case only. Revenue Maximization Subject to a given budget to purchase factors of production.

Dynamic changes in costs of production: The learning curve analysis.

Essential Readings

Ryan W J L and Pearce, D W (1977) : Price Theory, Mc Millan India, New Delhi

Ferguson, C E and Gould J P (1989) : Micro Economic Theory (6th Edition) All India Traveller Bookseller.

Briet, W and Hochman, H M (Ed.) : Readings in Micro Economics, Dryden Press, Hindsala, illinos.

BAHSECO- 203: Mathematics for Economic Analysis – II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To train the students in use of mathematical tools in analyzing economic problems.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT - I

Matrices and Determinants : Types; Transpose, trace, ad joint and Inverse of matrices; Solution of a system of two and three equations by Matrix Inverse and Cramer's methods; Linear independence and Linear dependence of vectors; Rank of a matrix; Simple Application questions. Application in Input-Output analysis.

UNIT - II

Differential Equation : Introduction; Solution: Variable separable case, Homogeneous case, Standard linear differential equation, Bernoulli's form, Exact equation; Solution of linear differential equation with constant coefficients; Simple Application questions.

UNIT - III

Difference Equation: Introduction; Solution of difference equations up to 2nd order. Simple Application questions.

UNIT - IV

Linear Programming: Formulation and Solution by Graphic method & Simplex method.

BAHSECO-204 : Sociology – II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The systematic study of human behaviour and human society is a relatively recent development. The central emphasis of the paper would be to develop a conceptual clarity regarding the basic sociological terms and themes, thus leading to a development of a sociological outlook. India has a history extending over nearly four millennia, and indeed is a complex civilization. The course would through sociological concepts develop an perspective which would help in arriving at understanding the contemporary India and the Social change it has undergone since ages.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Social Stratification: Concept-social stratification, inequalities and differentiation. Elements: Position, role and status. Perspectives on stratification – Functionalist: Davis & Moore, Tumin; Conflict-Marx, Dahrendorf; Weberian.

UNIT - II

Forms of Stratification and Social Mobility: Forms of stratification-Caste, class, race and Gender. Social Mobility: Definition; Indicators – social, economic, political; Types-Horizontal and Vertical (upward and downward) and Intergenerational.

UNIT – III

Social Change: Social Change – Definition. Factors: Demographic, technological, educational, legislative. Processes of Change: Sanskritization, westernization, and globalization.

UNIT - IV

Social Change in India: Change in caste structure; Rise of Middle and Neo-middle Class; Changing Status of Women; Resurgence of Ethnicity.

Essential Readings:

Beteille, Andre, (2002) : Equality and Universality – Essays in Political Theory, Oxford University Press,.

Tumin,Melvin, (latest edition): Social Stratification, Prentice Hall, New Delhi

Singh,G., (1985) : The New Middle Class in India – A sociological analysis, Jaipur, Rawat,

Singh, Yogendra, (1973) (or latest edition) : Modernization of Indian Tradition, Jaipur,Rawat

Srinivas, M N (2004) : Social Change in Modern India, Orient Longman (Latest edition)

Sharma, K L (2006) : Social Stratification and Mobility, Rawat Publication, New Delhi

Abraham Francis, M (2004) : Modern Sociological Theory – An Introduction, Oxford University Press, Delhi

Further Readings:

D'Souza,V.S., 1981 : Inequality and its Perpetuation, New Delhi, Manohar Publications,

Singh, K S (ed.) (1992) : Ethnicity Caste and People : India and Soviet Union. Manohar Publications, New Delhi

Singer Milton, Coha Beemard: (2001) Structure and Change in Indian Society, Rawat Publications, New Delhi

Atal Yogesh, (2006) : Changing Indian Society, Rawat Publiciations, New Delhi.

BAHSECO-205 : English-II

Max. Marks: 80 **Time: 3 Hrs.**

Objective:

To introduce literature for the purpose of developing comprehension and analytical skills in the students.
To teach the students to understand and appreciate cultural contexts in order to know how literature represents society.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

Question paper will be of two parts i.e. Part A (consisting of Unit I and Unit II) and Part B (consisting of Unit III and Unit IV). In Part A there shall be 8 (Eight) short answer type (or correctional) questions (word-limit 150 words and the candidates are required to attempt any four. Each question carries four marks and in Part B, there shall be 8 (Eight) questions, uniformly spread over the course, and the candidates would be required to attempt any four. Each question carries 16 marks.

UNIT – I : POETRY

1. Makarand Paranjape, "Free Fall" (p.65) in Partial Disclosure, N Delhi, Mantra, 2004 (poem No. XXXV from GITANJALI)

AGHA SHAHID ALI – "Postcard from Kashmir" (P.141) from The Oxford India Anthology of Twelve Modern Indian Poets (ed. A K Mehrotra), New Delhi, OUP 2003.

IMTIAZ DHARKER : "Blessing" and "A Woman's Place" from PURDAH AND OTHER POEMS, Delhi, OUP, 1989 (p.37 and pp. 32-34)

UNIT – II : PROSE FOR CRITICAL THINKING

1. M K Gandhi – "What Is True Civilization?" (pp. 54-57) in Hind Swaraj or Indian Home Rule, Ahmedabad, Navjivan, 1995.

2. J L Nehru – "The Importance of the National Idea : Changes Necessary in India" (pp 528 – 37) from The Discovery of India.

3. Nirmal Verma – "The Indian Culture and Nation" from India and Europe (pp 95 – 104)

4. Amartya Sen – "The Argumentative Indian" (pp. 3-33) from his The Argumentative Indian (2005).

UNIT – III : SHORT STORIES

1. Saadat Hasan Manto – "Toba Tek Singh" (pp. 141-148) from For Freedom's Sake

2. Mahasweta Devi – "The Hunt" in Imaginary Maps (1 - 17)

UNIT IV – NOVEL

1. Raja Rao : KANTHAPURA

Essential Readings

M K Gandhi : Hind Swaraj

Sri Aurobindo : Foundations of Indian Culture

Nirmal Verma : India and Europe : Selected Essays

J L Nehru : The Discovery of India

Amartya Sen : The Argumentative India

SYLLABI AND COURSES OF READING FOR FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS, EXAMINATION, 2011 – 12, SEMESTER - III

BAHSECO-301: HISTORY OF ECONOMIC THOUGHT - II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Evolution of economic ideas is both a response to contemporary economic problems and a self-conscious attempt to refine earlier ideas to integrate them as a part of current social thought. The objective of this course is to familiarize the students with the historical evolution of economic ideas into the contemporary economics.

The time-tested method of imparting verbal instructions thought lectures would be used. Examples, in so far as possible, would be selected from everyday life-experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Marxian Economics: Historical Materialism, Theory of Value, Theory of Capital Accumulation, Theories of Crisis, Simple Reproduction Scheme.
Veblen's theory of Leisure Class. Essential features of Marginalism.

Unit-II

Jevon's Theory of Value, Bohm-Bawerk's Theory of Capital.

Unit-III

Walras's Theory of General Equilibrium.
A General Overview of Marshall's Contribution.

Unit-IV

Features of Neo-classical economics. Recent contributions with reference to select Nobel Laureates

Essential Readings

Tom Bottomore (1980)	:	Dictionary of Marxist Thought, Basic Blackwell Publishers, England

BAHSECO - 302 : Micro Economics – II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To rigorously train the students with the concepts, methodology and reasoning involved in analyzing the economic behavior of firms and markets, in general, a static and partial equilibrium frameworks.

Pedagogy of the Course Work: 80% Class room teach
20% Internal Assessment comprising Unit test, Snap test, Assignments, attendance and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Market Structure and Pricing: Alternative objectives of a firm. Profit Maximization and Competitive Markets, Short and Long run supply curves of a competitive firm and industry .Functioning of competitive markets and efficiency of resource allocation. Consumer's and Producer's Surplus and aggregate welfare. Evaluating the Gains and losses from Governmental intervention in competitive markets.

Monopoly: Sources of Monopoly; Price determination and equilibrium under monopoly; Measuring Monopoly Power: Performance and structure based measures of monopoly power; Multi plant Monopoly; Welfare losses under monopoly; Public regulation of Monopoly. Natural Monopolies.

Pricing under Market power; Price Discrimination, Inter-temporal price discrimination and Peak load pricing .Two Part Tariffs, Tying and Bundling. Pricing of Public Utilities and efficiency of resource allocation.

Unit-II

Monopolistic Competition: Chamberlain and the theory of Monopolistic competition: the concept of industry and product group Product Differentiation; Selling Costs/Advertisement; Short and long run equilibrium of a firm/ Group with and without selling costs; the issue of Excess capacity

Non-Collusive Oligopoly: The Nash equilibrium (Basic idea): Cournot, Stackelberg and Bertrand models. Kinked demand curve analysis;

The Prisoner's Dilemma: Rivalry versus Collusion: Collusive Oligopoly: Informal Collusion: Price Leadership Models, Price signaling, Basing Point systems, Formal collusion: Cartels and mergers

Baumols Sales maximization model (without advertisement)

Non-Price Competition: Advertisement: Optimum spending on advertisement by a firm; Advertisement and prices; Advertisement and quality of the products.

Barriers to Entry. Contestable markets;

Limit Pricing; Concept only

Unit-III

Markets for Factor Inputs: (largely with reference to Labor).: A Firm's and Market Demand for a labor (with one and several variable inputs) and its determinants.
Supply of labor to a firm and the Market.
Equilibrium Wage Rate and Employment under:

(i) Competitive Factor and Product Market,
(ii) Monopsonistic buyer of Labor and perfect competition in Labor market,
(iii) Imperfect competition in product market and Trade Union Monopoly in labor market,
(iv) Bilateral Monopoly.

Unit-IV

Welfare economics: Pareto efficient resource allocation; Pareto criterion Welfare Functions: Compensation criteria; Kaldor –Hicks and Scitovisky
Pareto efficiency and competitive markets: First and second theorem of welfare economics, Arrow's impossibility theorem.
Market failure and its causes:

(i) Markets with Imperfect Competition;
(ii) Markets with Asymmetric information: Adverse Selection and Moral Hazards.
(iii) Consumption and Production Externalities;
(iv) Common Property Resources,
(v) Public goods.

Essential Readings

BAHSECO-303 : DEVELOPMENT ECONOMICS - I

Max. Marks: 80 **Time: 3 Hrs.**

Objective:

As a sequel to the post-second war developments, the study of Economic Development gained impetus primarily because three-fourths of humanity was experiencing wretched conditions of existence. There was a pressing need in those countries for uplifting their economic conditions by restructuring their economies to acquire greater diversity, efficiency and equity, in consonance with their priorities.

Since a variety of perspectives were available, the policy makers were eager to acquaint themselves with various policy options in their bid to re-construct their dilapidated economies. In addition, various international bodies were also keen to help and guide the laggards. Consequently, the study of development economics assumed greater significance.

In recent times, the resurgence of marketism and greater focus on areas like education, health, sanitation, energy and environment, and infrastructure development, hitherto relegated to the background, have reopened some of the old debates besides opening up new areas of investigation. Growth and Development economists are making earnest efforts at theorizing to break fresh grounds. Consequently, study of this discipline continues to be of prime importance.

Modules incorporated in this paper are devoted to the theories of growth and development, importance of agriculture, and the rationale and pattern of industrialization in developing countries. The other important issues in the context of development such as infrastructure-linkages, role of international trade, importance of economic policies and relevance of planning have been included in the modules of this paper.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Understanding Development: Living in a heterogeneous world-Islands of prosperity and how the other three quarters live. Dividing the world and levels of development(Development as an evolving concept i.e. Development, Growth and Change; Goulet's three core values of development; Sen's Conception of Development; Income/Output based measures and their inadequacies; PQLI and HDI as indicators of development).

Unit-II

Diverse Structures and Common Characteristics of Developing Nations: Size and income level(The Vicious Circle of Poverty and Low Level Equilibrium Trap), Historical Background (Colonialism and Dependence), Meaning of dualism, its characteristics and forms, Resources and Technology(Quantum and Quality of Natural Resources, Physical Capital, and Technology); Values and Institutions.

Unit-III

Theories of Development: David Ricardo; Karl Marx; Schumpeter and Rostow's Theory of Stages of Economic Growth.

Unit-IV

Population Growth, Economic Development and environment : The Historical Changes in World Population, Demographic Transition, interrelation between population growth and economic development (from pessimism to optimism), Sustainable development(conceptualization., concerns, indicators, and remedial measures).

Essential Readings:

Thirlwall, A. P.(2003), : "Growth and Development", Seventh edition, Palgrave Macmillan, New York.

BAHSECO-304 : Economics of Agriculture

Max. Marks: 80 **Time: 3 Hrs.**

Objective:
The focus of this course is to introduce students to the importance of agricultural sector and to the issues associated with agricultural transformation, agricultural production, and demand of and supply for agricultural commodities. The objective is to equip students to analyze and critically assess issues, policies and programmes in these areas with particular emphasis on Indian agriculture.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Introduction: Definition, scope and nature of agricultural economics; Need for a separate study of agricultural economics. Agricultural Linkages with other sectors, Role of agriculture in economic development (historical evidence from Europe, USA and Japan) and Declining importance of agriculture in Economic development.

Unit-II

Production Function Analysis: Factor-Product, Factor-Factor and Product-Product relationships. Types of farm organisations and their comparative production efficiency.

Unit-III

Transformation of Agriculture: Schultz thesis of transformation of traditional agriculture and Green Revolution in Indian agriculture.

Agricultural Markets: Aim, Types and Functions of agricultural markets, Criteria for judging efficiency of agricultural market systems.

Unit-IV

Agricultural Credit: Importance of credit, Need for Government intervention, agricultural credit system in India.

Agricultural Price Policy: Need, Objectives, and instruments of agricultural price policy; Agricultural price policy in India.

Essential Readings

Soni R.N (2005) : Leading Issues in Agricultural Economics

Further Readings

Heady, E O (1964) : Economics of Agricultural Production and Resource Use. Prentice-Hall of India Pvt. Ltd., New Delhi.

BAHSECO-305 : - Statistics for Economic Analysis

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The objective of this paper is to train the students in the use of statistical tools in analyzing economic problems. The course content contains simple tools and techniques**,** considered necessary for data collection, presentation, analysis and drawing inferences about various statistical hypotheses.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Introduction : Basic concepts: Population, Sample, Parameter, Statistic, frequency distribution, Cumulative frequency distribution; Graphic and diagrammatic representation of data; Techniques of data collection. Sampling vs. Population, primary and secondary data.

Central Tendency and Dispersion: Measures of Central tendency: Mean, Median, Mode, Geometric mean, Harmonic mean; Measures of dispersion ; Range, Quartile deviation Mean deviation, Standard deviation; Skewness and Kurtosis, Moments.

Unit-II

Correlation and Regression: Correlation: Simple; Coefficient of correlation; Karl Pearson and Rank correlation; Partial and Multiple Correlation analysis; Regression analysis – Estimation of a regression line in a bivariate distribution, Least squares method; Interpretation of Correlation and regression coefficients; Coefficient of determination.

Unit-III

Time Series and Index Numbers: Time Series Analysis - Concept and components, Determination of trend (Linear, Quadratic and Exponential) and seasonal indices; Index Numbers – Concept, price relative, quantity relative and value relative, Laspeyer's, Paasche's and Fisher's index numbers; Family budget method; Problems in the construction and Limitations of index numbers; Tests of an ideal index number.

Unit-IV

Probability and Distribution: Probability: Concepts, Rules of probability (Addition and Multiplication); Random Variables; Mathematical expectation; Theoretical distribution – Binomial, Poisson and Normal; their properties, uses and application.

Sampling and Testing of Hypotheses: Random Sample; concept of sampling distribution; Concepts of testing of hypothesis and test of significance; tests of significance of proportion, mean, variance and regression coefficients (based on z, t, and F distributions only).

SYLLABI AND COURSES OF READING FOR FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS, EXAMINATION, 2011 – 12, SEMESTER - IV

BAHSECO – 401: Macro Economics - I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Macro economics or aggregative economics analysis establishes the functional relationship between the large aggregates. After the great depression of 1930s, the analysis of aggregates such as aggregate production, employment and price level has assumed great significance. And to understand the nature of overall economic problems such as recession, boom, depression, unemployment, inflation, instability, stagnation etc. a priori understanding of macroeconomic theoretical structure is considered essential. Macro economics now is not only a scientific method of analysis, but also a body of empirical economic knowledge.

The paper entitled Macro economics equips the students at the undergraduate levels to understand systematic facts and latest theoretical developments for empirical analysis.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type). The scripts would be evaluated by the examiners having adequate postgraduate teaching experience in the paper/option concerned.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Meaning and Importance of Macro Economics.

Concepts of Income, Output and employment – Gross Domestic Product (GDP), GNP, GNI and NNP – methods of measurement of GDP and limitations;

Price Level at the macro level – WPI and CPI.

UNIT – II

Theories of Consumption spending: Absolute, Relative, Permanent Income and Life-Cycle hypotheses. Consumption under uncertainty.

UNIT – III

Theories of Investment spending: Keynesian, Accelerator and Neo-classical.

Determination of Money Supply: Functions and Post-war controversy on definition of Money. Credit creation by Banks and Money Multiplier.

UNIT – IV

Theories of Demand for Money: Quantity Theory and Keynes approach. Baumol and Tobin Contributions and Friedman's restatement of quantity theory.

IS and LM curves: Derivation, their shifts and rotations. Simultaneous equilibrium of product market and money market.

READING LIST:
Essential Readings:

Shapiro, E (2003) : Macroeconomic Analysis, Galotia Publications, New Delhi

Eugene Diulio (2005) : Macro Economics, 4th Edition, Tata McGraw Hills Publishing Co. Ltd., New Delhi

Further Readings:

Dornbusch, R, Fisher, S and Startz, R (2002)	:	Macro Economics, 8th Edition, Tata Mc-Graw Hills Publishing Vo. Ltd., New Delhi

BAHSECO-402 : Development Economics - II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The main objective of this course is to look at the process of growth and development in terms of its characteristics such as structural transformation, pattern of distribution of income, its inter-sectoral interface. In addition, it also aims to take up issues pertaining to the emerging global scenario and the debate concerning the planning vs marketism which is so vital for development theorists and practitioners.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Economic Growth and Structural Change: Structural Changes in the composition of gross domestic product, occupational structure, Structure of capital accumulation; and accumulation of human capital; exploring the relationship between economic development and income distribution(Kuznets' inverted U – shaped curve and augmented Kuznets' curve).

Unit-II

Agriculture- industry interface: interdependence between agriculture and industry; industrialization and urbanization (The models of Lewis, Fei and Ranis and Todaro); The Balanced Growth Doctrine (Review of Rosenstein, Nurkse and Lewis); The Strategy of Unbalanced Growth (Hirschman's version), and the reconciliation of the two.

Unit-III

Economic isolation and integration with the Global Market: International trade and economic Development (Three stories about trade and development relationship); Developmental aid- Role, trends and Constraints; Role of Foreign Direct Investment (FDI) and Multi-national Corporations (MNCs) in the emerging scenario.

Unit-IV

Market and State: An Overview of the Economic Functions of the Market and State; Efficiency of the Competitive Market, Market Failure, Government Failure, on the Choice of Economic System, Market failure in a dynamic economy.

BAHSECO – 403: Economics of Industry

Max. Marks: 80 **Time: 3 Hrs.**

Objective: In the contemporary world with globalization and liberalization more and more attention is being given to industry. Since industry performance critically depends on firms' behaviour allowing equilibrium outcome, the course intends to provide a rigorous knowledge of different long-run equilibrium outcome of firms under different conditions from the point of view of public policy. The students are also equipped to deal with debates involved in the industrial development in a cogent and analytical manner, particularly in the Indian context. However, it should be noted that Game Theoretic approach to any topic/problem is outside the scope of the present syllabus.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Basic concepts of firm, industry and market; organizational forms. Separation of ownership from management and control. Alternative goals of firm: contributions of R Marris and Williamson.

Unit-II

Elements of Market Structure: Sellers' and buyers' concentration, product differentiation, conditions of entry. Measurement of sellers's concentration. Determinants: Economies of Scale and Barriers to entry.

Growth of firms: Vertical integration, diversification (Concepts of mergers and acquisitions.

Unit-III

Oligopolistic Conduct: Evolution of Market structure – conduct - performance paradigm. Economics of Advertisement: concepts, market structure and advertisement. Economics of R & D: Concepts, measurement and market structure and innovation.

Unit-IV

Allocative efficiency: Market structure and profitability. Productive efficiency: Degree of sub optimal capacity.

Essential Readings:

BAHSECO-404 : Econometrics

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Application of economic theory need a reasonable understanding of economic relationships and relevant statistical methods. The econometric theory thus becomes a very powerful tool for understanding of applied economic relationships and for meaningful research in economics. This paper accordingly is devoted to equip the students with basic theory of econometrics and relevant applications of the methods. The topics covered in the course include various problems faced in estimation of both single equations and simultaneous equations models.

Besides the time-tested method of imparting verbal instructions through lectures, description and derivation of econometric models would be demonstrated by extensive use of blackboard. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments and written examinations.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, snap test, Assignments, attendance and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Introduction: Definition, Scope, and Methodology of econometrics; Nature and sources of data for econometric analysis; Specification of an econometric model.

Simple and Multiple Regression Models: Estimators (OLS) and their properties; Statistical inference; Tests of significance and tests of restrictions.

Unit-II

Econometric Problems: Nature, consequences, detection and remedial measures of the problems of multicollinearity, hetroscedasticity and autocorrelation.

Unit-III

Test Procedures and Model Selection: Tests of specification and mis-specification, measurement errors, encompassing models, and criteria for model selection.

Unit-IV

Dynamic Models: Lags in econometrics, Distributed and autoregressive lags, Koyck model, Adaptive Expectation and Partial Adjustment appraoches for rationalization of koyck model; Granger Causality and exogeneity.

Simultaneous Equation Models: Introduction, Identification problem, Simultaneous equation bias and ILS and 2SLS methods of estimation.

BAHSECO-405 : ECONOMICS OF POPULATION

M Marks: 80 **Time : 3 hrs.**

Objective: The main objective of this paper is to make the students aware of the importance of population in economic development and the various theories that explain the growth of population in a country. The study of Quantitative and Qualitative composition of population is also required to understand the dynamics of population growth. Migration and urbanization are the characteristics of structural changes taking place in the economy.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students' written assignments, tutorials and seminars.

The students would be evaluated at the end of the academic year through subject type questions/answers (both short and essay type). The scripts would be evaluated by the examiners have adequate postgraduate teaching experience in the paper/option concerned.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Theories of Population: Malthus, Optimum, Marxian, Leibenstein, Becker.
Demographic transition theory and Optimum population theory.

Population and Economic Development: Utilization of resources (Boserup thesis) technology and production of food, Population and Environment.

UNIT – II

Population Structure and Characteristics: Impact of Population growth on the age and gender structure. Aging of population.

Fertility: Concepts of fertility transition. Measurement of fertility and fertility differentials in India.

Mortality: Components and Measurement. Mortality differentials in India.

UNIT – III

Migration: Concepts, Types, measurement, migration selectivity, causes and consequences (economic and demographic) of migration.

Migration I India: Causes and Trends, Migration Differentials in India: Rural-Urban, Male-Female.

Urbanization: Concepts, Determinants and Consequences. Trends of Urbanization in India.

UNIT – IV

Growth and Structure of Indian Population.

Literacy: Literacy transition in India, pattern of literacy and literacy differentials in India.

Economic Composition of Indian Population: Work force participation and occupational structure.

Estimation of Population in India: Census, sampling and vital registration methods.

Population Policy in India since Independence.

SYLLABI AND COURSES OF READING FOR FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS, EXAMINATION, 2011 – 12, SEMESTER - V

BAHSECO-501 – Contemporary Issues in Indian Economy –I

M Marks: 80 **Time : 3 hrs.**

Objective: The objective of this paper is to acquaint the students with the strategy of economic development of the Indian economy since Independence. The paper also aims at creating an awareness among the students regarding the contemporary issues pertaining to various sectors of the economy.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Development Process of the Indian Economy: Adoption of Planning in India: Objectives, Strategy and Assessment (Plan wise details to be excluded). State of the economy in 1991. Features of the Economic Reform and Structural Adjustment Programme: Liberalization, Privatization and Globalization. Appraisal of economic reform programme.

Unit – II

Agricultural Development*:* Pattern of growth of Indian agriculture since 1950 - role of Green Revolution agricultural development . Deceleration in the 1990s – Causes and future challenges. Economic liberalisation and emerging trends in Indian Agriculture.

Unit-III

Industrial Development Strategy: Trends in growth and structure of Indian industry. Critique of Regulatory Industrial Policy Regime. Deregulation and liberalization of the private sector. Privatization- nature and extent in India. Impact of New Economic Policy on Indian industry.

Unit – IV

Indian Public Finances: Fiscal Federalism in India- fiscal imbalances and intergovernmental transfers. Fiscal reforms. Fiscal Responsibility and Budget Management Act,2003. Need for expenditure reforms.

Essential Readings:

Brahmananda, P.R. and Panchmukhi V.R. (eds.) 1987 : The Development Process of Indian Economy, Himalaya Publishing House, Bombay.

BAHSECO – 502: MACRO ECONOMIC - II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Macro economics or aggregative economics analysis establishes the functional relationship between the large aggregates. After the great depression of 1930s, the analysis of aggregates such as aggregate production, employment and price level has assumed great significance. And to understand the nature of overall economic problems such as recession, boom, depression, unemployment, inflation, instability, stagnation etc. a priori understanding of macroeconomic theoretical structure is considered essential. Macro economics now is not only a scientific method of analysis, but also a body of empirical economic knowledge.

The paper entitled Macro economics equips the students at the undergraduate levels to understand systematic facts and latest theoretical developments for empirical analysis.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type). The scripts would be evaluated by the examiners having adequate postgraduate teaching experience in the paper/option concerned.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Demand and Supply of Labour : Classical and Keynesian views.

Classical and Keynesian Models of income and employment determination. Wage –price flexibility and automatic full employment debate.

UNIT – II

Effects of Inflation. Theories of Inflation: Quantity Theory, Keynes' views, Phillips curve analysis of Inflation and unemployment.

Balance of payments disequilibrium and its consequences. Balance of payments adjustment policies under fixed and flexible exchange rates.

UNIT – III

Trade Cycle Explanations: Multiplier – Acceleratory Theory and Hicks Theory.

Economic Growth: meaning and theories. Harrod – Domar Theory and Neo-classical Theory.

UNIT – IV

Macro Policy : Types and objectives. Conflict among objectives and its consequences.

Effectiveness of Monetary and Fiscal policies under different situations in terms of IS-LM framework.

Essential Reading:

Shapairo, E (2003)	:	Macroeconomic Analysis. Galotia Publications, New Delhi.
Eugene Diulio (2005)	:	Macro Economics, 4th Edition, Tata McGraw Hills Publishisng Co. Ltd., New Delhi.

Dornbusch, R, Fisher S and Startz, R (2002)	:	Macro Economic, 8th Edition, Tata Mc-Graw Hills Publishing Co. Ltd., New Delhi
Froyen, R T (2002)	:	Macro Economics, 7th Edition, Pearson Education Inc., New Delhi.

BAHSECO - 503: Economics of Public Finance

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Government Budget is increasingly playing a very important role in maket economies to achieve better economic outcome. The course is designed to familiarize the BAHS students with the relevant concepts and educate them about the theoretical issues to study the broader implications of the budget.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Introduction to Public Finance: Nature, Scope and Importance. Theory of Maximum Social advantage. Private goods, Public goods and Merit goods. Overview of different role of government: allocation, stabilization and distribution. Optimal provision of public goods.

Unit-II

Types of Government Budgets: Revenue account, Capital Account and different concepts of budgetary deficits in the Indian context. Economic and functional classification of Central Govt. Budgets.

Unit-III

Sources of Public Revenue: Tax and Non-tax sources, ad valorem and specific taxes, progressive and proportional taxes, direct and indirect taxes.

Approaches to tax equity: Benefit principle; Ability to pay principle. Theory of Incidence of Indirect taxes. Taxable capacity: meaning and determinants.

Unit-IV

Public expenditure: Rationale for the growth of public expenditure: Wagner's law of increasing state activities; peacock-Wiseman hypothesis. Canons of public expenditure.

Changing Trends and Pattern of direct and indirect taxes in India. Changing trends and pattern of government expenditure in India. Recent tax and expenditure reforms in India.

Essential Readings :

Musgrave, R & Musgrave, P B : Public Finance in Theory and Practice. McGraw –Hill International eds.

Houghton, R W (ed.) (1970) : Public Finance

Atkinson, A B and Stigltz, J E	:	Lectures on Public Finance

Govt. of India, Ministry of Finance (1988)	:	Sarkaria Commission Report on Centre State Financial Relations.

BAHSECO-504: INTERNATIONAL ECONOMICS

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The course intends to provide a deep understanding about the broad principles and theories, which tend to govern the free flow of trade in goods, services and capital – both short-term and long-term – at the global level. The contents of the paper spread over the different modules, lay stress on the theory and nature of the subject which, in turn, will greatly help them to examine the impact of the trade policies followed both as the national and international levels as also their welfare implications at macro level and the distribution of gains from trade.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Importance of Trade and Trade Theories: Importance of the study of international economics: Inter-regional and international trade, Theories of absolute advantage, comparative advantage and opportunity costs, Heckscher-Ohlin theory of trade – its main features, assumptions and limitations.

Unit-II

Theory of Interventions: Trade as an engine of economic growth; Terms of Trade: Concepts and measurements of terms of trade, Secular Deterioration Hypothesis. Doctrine of reciprocal demand – its importance and limitations in the theory of trade. Types of Tariffs and quotas; their impact in partial equilibrium analysis; Free trade and policy of tariffs in relation to economic growth with special reference to India. Various forms of economic integration; The Theory of Custom Union. Static and Dynamic effects of customs union.

Unit-III

The Balance of Payments and Adjustments: Concepts and components of Balance of Payments. Causes and consequences of dis-equilibrium in the balance of payments. The process of adjustment in the Balance of Payments under Gold Standard, fixed and flexible exchange rate systems.

Unit-IV

International Economic Institutions: Functions and Achievements of GATT/WTO. Impact of WTO on different sectors of Indian Economy. Problems of International Liquidity. Proposals for International Monetary Reforms and IMF. Developing Countries and the reform of International Monetary System.

Recent Trends towards Trade Liberalization Policies in India and their implications for Trade and Growth. Role of Multinational Corporations in Developing Countries with special reference to India.

BAHSECO-505 : Optimization Techniques and Game Theory

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The paper aims to make the students familiar with some of the mathematical techniques which have been developed in the last few decades to solve the basic and one of the fundamental problems faced by economic agents, i.e. economizing at a particular point of time or over a period of time.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

The General optimizing problem. Types of Maxima, the Weierstrass theorem, and local Global theorem.
The linear programming. The Dual problem of linear programming. Economic interpretation of dual. The simplex algorithm.

Unit-II

Nonlinear programming and Kuhn - Tucker condition. Interpretation of Kuhn - Tucker conditions, the constraint qualification.

Economic application : Peak Load pricing and water time rationing. Sufficiency theorems in Nonlinear Programming: The Kuhun Tucker sufficiency theorem and the Arrow – Enthoven sufficiency theorem and the Arrow – Enthoven sufficiency Theorem: quasiconcave programming.

Unit-III

Dynamic Optimization: The control problem, Statement and types of control. The control problem as one of programming problem in an infinit dimensional spaces; the generalized weierstrass theorem. TheBrief introduction to the calculus of variations (Euler equation), end point (transversality) conditions. Autonomus problem.

Pontryagin's Maximum principle, finite and infinite time horizon, interpretation of hamiltomian, costate variables, equation of motion; end point conditions. Constructing a phase diagram and its analysis. Economic Applications: Lifetime utility maximization, exhaustible resources Approaches to control problem: (a) calculus of variation; Euler equation, necessary conditions and transversality conditions, constraints; (b) Dynamic programming: The principle of optimality and Bellmen's equation. Dynamic programming solution of multistage optimization problem. (c) Maximum Principles : costate, the hamiltonion and the maximum principle, the interpretation of the costate variables.

Unit-IV

Game Theory: Classification and description of Games, Two person-zero sum games. two person non-zero sum games. Cooperative games. Games with infinitely many players.

Essential Readings :

Dixit, A (1976) : Optimization in Economic Theory, Oxford University Press.

SYLLABI AND COURSES OF READING FOR FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS, EXAMINATION, 2011 – 12, SEMESTER - VI

BAHSECO-601: Contemporary Issues in Indian Economy –II

Max.Marks: 80 **Time: 3 Hrs.**

Objective: The objective of this paper is to acquaint the students with the strategy of economic development of the Indian economy since Independence. The paper also aims at creating an awareness among the students regarding the contemporary issues pertaining to various sectors of the economy.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Structural Changes in the Indian Economy: Service sector growth - pattern and future prospects. Sustainability of services led growth in India. Nature, causes and changes in sectoral income distribution and occupational structure. Inter-state disparities in the pattern of development in the post-reform period.

Unit-II

Financial Sector Developments: Structure of the financial system in India. Nationalisation of banks- causes and evaluation of performance. Banking Sector Reforms since 1991. Capital market—growth, problems and reforms since 1991. Role of Securities Exchange Board of India (SEBI).

Unit-III

External Sector: Trade policy during pre and post reform period. Liberalised Exchange Rate Management System . Foreign Direct Investment – Trends and issues. India and the World Trade Organisation.

Unit-IV

Other Contemporary Issues: Poverty and Unemployment in the post-reform period. Infrastructure Development- Need, performance and government strategy on infrastructure development with special emphasis on Special Economic Zones (SEZs) and Public Private Partnerships.

Essential Readings:

Ahluwalia, I.J. and Little, IMD (eds.) 1998 : India's Economic Reforms and Development. (Essays in Honour of Manmohan Singh), OUP, New Delhi.

BAHSECO - 602 : HUMAN RESOURCE DEVELOPMENT

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The objective of this paper is to rigorously and comprehensively equip the students with theoretical concepts, methodology and process of reasoning involved in analyzing economic behaviour of individuals, firms and markets using, in general, a static and partial equilibrium framework.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Human Resource Development (HRD): Concept, significance, objectives and functions; Traditional and modern approaches; Human Resource Development and Manpower Planning (Genesis, Growth and Thrust Areas).

UNIT – II

Human Capital: Concept of human capital and its determinants, problems of measurement; An appraisal of underlying theories of Human capital formation particularly in the context of developing economies; Role of public and private investment in human capital formation; Economics of education (formal, informal, on the job training and re-training), Becker's model.
An Introduction to Economics of health and nutrition

UNIT – III

Functioning of Market for Human Resources: Internal allocation and brain drain, asymmetric information and functioning of the human resource market; Migration (Theories and the emerging challenges); Managing Human Resources (Demand and supply forecasting, wages, incentives – productivity relationship, economics of discrimination).

UNIT – IV

Human Resource Management Practices: Human Resource Management in developed countries, and India (in Public Enterprises and small undertakings); Emerging human resource management concepts and systems in the new millennium; Human Resource Information System.

Essential Readings:

Bellante, Don and Mark Jackson : Labor Economics: Choice in Labor Markets McGraw-Hill Book Company, New York

Campbell, R McDonnel and Brue Stanley, L : Contemporary Labor Economics, McGraw – Hill Book Company, New York

Venkata Ratnam, C S (2001) : Globalization and Labour-Management Relations: Dynamics of Change, Sage Publications/Response Books, New Delhi.

BAHSECO - 603 : Basics of Financial Markets

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The operation of financial markets and their regulations are to be studied to appreciate their key-role in an economy, especially after far reaching banking and financial sector reforms in India and elsewhere. The present course is designed to acquaint the students fully with theory and practice of different financial markets and institutions to understand and analyze their development role and limitations in shaping and influencing the monetary and related policies both at the national and international levels.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Financial Markets – Role, Functions and structure, Types and Distinctive Features of Financial Instruments.

UNIT – II

Risk and Return – Sources and Types of Risk, Measurement of risk and return – Historical and Expected, Efficient Portfolio, Minimum Variance Portfolio, Optimal Portfolio. Capital Asset Pricing Model, Efficient Market Hypothesis.

UNIT – III

Indian Financial Markets –

Indian Money Market – Participants, Structure and Instruments.

Indian Capital Market – Primary and Secondary Market.

Market for derivatives – Futures and Options.
Recent Reforms in Financial Sector.

UNIT – IV

Regulation of Financial Market - RBI – Role and Functions, SEBI – Role and Functions.

Essential Readings :

Prasad, K. N. (2001)	:	Development of India's Financial System, Sarup & Sons, New Delhi.

Reserve Bank of India : Various Reports

Government of India : Economic Survey

BAHSECO - 604 : Environmental Economics

Max. Marks: 80 **Time: 3 Hrs.**

Objective: This paper aims to make aware students about the importance of environment in economics and vice-versa. It helps them to know the ways of sustaining our natural resources by optimally allocating them for future use.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit - I

Introduction to Environmental Economics : Introduction; The economy and the environment: inter-linkages; First two laws of thermodynamics

Economic Efficiency and Market Failures: Market solutions and efficiency; Market failures; Problem of externalities; Public goods and public bads; Common property resources; Non-convexities; Asymmetric information.

Unit - II

Economics of Pollution: Damage functions and abatement cost functions; Marginal decisions; Optimal level of pollution; Market solutions and government actions; Economic incentives and least-cost solutions; Command and control policies.

Unit - III

Valuing the Environment: Economic valuation of environmental goods; Types of environmental values; Monetary valuation techniques; Non-monetary valuation techniques; Comparing methodologies.

Unit – IV

Cost-Benefit Analysis and the Environment: The theory of cost-benefit analysis; Idea of discounting and choice of discount rate; Framework for cost-benefit analysis; Discounting and future generations.

Economic Growth and Sustainable Development: Economic growth and development; The environmental Kuznets curve; Economics of sustainable development

International Environmental Issues: Economics of climate change; Trade and the environment

Book recommended:

Goodstein, E.S (2002) : Economics and the Environment (3rd ed) Prentice Hall

BAHSECO - 605 : Economic Journalism

Max. Marks: 80 **Time: 3 Hrs.**

Objective: In the context of the prevailing media environment this condensed course would provide exposure to the students in the essentials of journalism /economic journalism. The following aspects of the discipline would be emphasized:
Communication,
Reporting / writing,
Interpretative / Special Report Writing, and
Editing.
Besides classroom teaching and lab work, students would have interactive sessions with professionals in the area of print journalism, particularly those who are covering economic issues.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Communication

Part – I – Meaning, Forms of Communication such as intrapersonal, interpersonal, group and mass communication.

- Functions of communication, 7C's of Communication
- Basic Models of Communication: Berlo, Scgramm, Osgood Shannon and Weaver.
- Introduction to the normative theories of media.
- Communication Exercise.

Part – II – Media and Entertainment Industry in India – an overview.

UNIT – II

Reporting and Writing for Media

Part – I – Introduction to Print Media, Basics of Journalism.
News – Definition and Values, News Story Structure, 5Ws and 1H, Inverted Pyramid pattern. News writing, Leads.

Part II – Process of Newsgathering, Making and maintaining sources. Exercises in Reporting.

UNIT – III

Specialized writing/Interpretation

Part I – Meaning of interpretation, back grounding, observation, analysis and opinion. Changing concept of news and changing style of news writing.

Part II – Economic Journalism and its importance, writing for business papers, Practical Exercises.

UNIT – IV

Editing

Part I - Organisation of a newsroom, Sources of news copy, Importance of editing. Headline writing – Significance, Dos and Don'ts

Part II – Importance of design/makeup. Significance of pictures and illustrations. Use of illustrations in business stories.

Practical Exercises.

SYLLABI AND COURSES OF READING FOR FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS, EXAMINATION, 2011 – 12, MAHS –SEMESTER - I

MAHSECO- 101: ADVANCED ECONOMIC THEORY - I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The paper aims to make the students familiar with some of the recent developments in micro economics which have wide range of applicability to solve and explain economic phenomena; and some of which can provide new insights into the empirical estimation of economic relationships.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Choice Under Uncertainty: Concept of Contingent Commodities; Measures of risk aversion, risk preference, risk neutrality and the shape of indifference curves between contingent commodities. Consumer equilibrium under different risk preferences. Expected utility under uncertain outcomes: Von Neumann Morgenstern utility and consumer choice.

UNIT – II

Indirect utility function, Roy's identity, Expenditure function. Hotteling's & shepherd's lemmas. Modern derivation of the slutsky equation. Composite commodity theorem. Integrability Problem.

UNIT – III

Empirical Estimation of Demands: Interview and Experimental Approaches to Demand determination.
The statistical Approach to Demand Estimation.
The form of Demand Relationship.
Duality in production and its role in empirical estimation of demand functions.

UNIT – IV

Markets with asymmetric information: Issues of hidden characteristics/actions and adverse selection / moral hazards in insurance and labour markets.

Essential Reading:

Comerer, Colin, F, George	:	Behavioural Economics
Loewenstien and Mathew Robin (Ed.) (2006)		(New Age International Publishing Princeton.

Mas-Colell, Adrew, W M D and Green, J R (1995)	:	Microeconomic Theory New York, Oxford University Press
Pyndick, R S and Rubinfield, D L (2001)	:	Microeconomics Patparganj: Pearson Education.

MAHSECO - 102: Econometric Applications - I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The aim of this course is to provide an overview of the state-of-the-art of econometric tools and techniques applicable empirical modeling in applied Micro- and Macro-economics. The focus is on building, estimating and interpreting output from models using Actual data. The course intends to equip students with application skills, necessary to execute independent research projects.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT I

Applications to Demand Analysis-I

- Theory of Household
- Single-equation Approaches: Engle Functions, Demand for Durable Goods.
- System Estimation: Rational, Functional Forms, Identification, Aggregation, Estimation Procedures, and Assumptions about Error Structure.
- Dynamic Demand Analysis: Habit Formation Models; Modelling Change in Taste

UNIT – II

Applications to Demand Analysis-II

- Demographically Extended Demand Sysytems: Translation and Scaling Approaches
- Applications of Demand Analysis:
  Demand for Food and Nurtition (LES, AIDS and FCDS Models), and Non-market Goods.

UNIT – III

Applications to Firms-I

- Introduction to the Theory of Firm
- *Production, Cost and Profit Functions:* Functional Forms, Quality Principle, Elasticity, Measurement of Input Sustitutability, Homotheticity;
- Econometric Estimation Issues*:* Multicollinearity and Heteroscedasticity;
  Problems and Ridge Regression and Principal Component Regression Methods.

Total Factor Productivity and Technical Progress.

UNIT-IV

Applications to Firms- II

- *Analysis of Efficiency:* Technical, Allocation, and Economic Efficiency [Frontier Production Function and Data Envelopment Analysis Approaches]

- *Modelling and Measuring Time Variant and Time Invariant Efficiency.*

- Measuring Firm and Input-specific Efficiency.

Note: Students would be required to undertake Econometric Projects [using Secondary data sources] on Assigned Topic [from Syllabus] by the Teacher concerned. It would form the part of Internal Assessment.

Essential Readings

MAHSECO - 103: Operations Research

Max. Marks: 80 **Time: 3 Hrs.**

Objective: This is an introductory course on operations research designed for graduate level students in economics, that will give them the essential tools of operations research to enable them model and make scientifically based decisions.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Transportation Problem; North West Corner Rule; Vogel approximation Method and MODI algorithm, Assignment problem (Hungarian Method), Network flow Problem; Shortest route Problem; maximal flow Algorithm, Network scheduling by CPM and PERT.

UNIT – II

Replacement Models, Sequencing theory, Inventory problems, Deterministic Inventory Models, EOQ model.

UNIT – III

Integer Linear programming, Applications of Integer programming, Cutting Plane Algorithm; Branch and Bound Algorithm, traveling salesman's problem, Goal Programming, Decision Theory (Analysis).

UNIT – IV

Introduction to Markov Chains and applications, n-step transition probabilities, classification of states, Steady state probabilities, Queueing Models: M/M/1 and M/M/c (only introduction, definitions and applications without derivation of formulae).

Essential Readings:

H A Taha (2007) : Operations Research: An Introduction (Eighth Edition), Prentice Hall India.

R Bronson	:	Schaum's Outline Series: Theory and problems of Operations Research.

MAHSECO - 104 : Contemporary Issues in Public Policy

Max. Marks: 80 **Time: 3 Hrs.**

Objective: This course offers an introduction to the study of Public Policy. The focus of this course, examines policy as an intellectual exercise, to study why and how policy is developed, applied, evaluated, and generally conducted as it is and how policies develop over time. In the presence of a more globalized environment all over the world, the policies of a country act as a key determinant for getting the real benefits of the same. Particularly for the developing nations, the Government's policies largely affect its economic environments.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

Unit-I

Introduction to public policy: Definition, scope and need for public policy. Role of the government in public policy making. Policy making process . Policy implementation. Policy evaluation – assessing the impact of public policy.

Unit-II

Policy analysis: Models of Public Policy - Institutional, Process, Incremental, Group, Elite, Public Choice and Game Theory model. Attributes of a good policy making process . Limits to public policy.

Unit-III

Economic policy : Economic theories as policy guides. Public policy vs. polpulism. Indian public policy with special emphasis on economic policy : Policy making in India. Weaknesses in India's public policy making process. Reforming the process and institutions.

Unit-IV

Economic policies in India: Overall economic policy framework with special reference to Competition Policy, Consumer Protection Act, Foreign Direct Investment Policy.

Essential Readings:

R. Dye, Thomas(2002) : Understanding Public Policy.

The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper setter must put a note in the question paper in this regard.

There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT-I

Monetarist – Keynesian debate on Macro Theory and Policy.
Monetarists Views on Inflation and Trade Cycles.
The Phillips Curve – Short run and Long run

UNIT - II

Rational Expectations and the New Classical Macro Economics :
Lucas critique.
Policy ineffectiveness,

Time inconsistency,
The Random Walk model – modern approach to consumption.
Real Business Theory.

UNIT – III

The New Keynesian Theories of Sticky Wages and Unemployment
Implicit Wage Contracts
Efficiency Wage Models
Insider – Outsider models
Menu Costs

UNIT IV

Macroeconomic Policy in an open economy – The Mundell Fleming Model.

The Assignment Problem in International Macro economics – Mundell Model, Swan Model

Essential Readings

MAHSECO – 202 : Econometric Applications - II

Max. Marks: 80 **Time: 3 Hrs.**

Objective:

The aim of this course is to provide an overview of the state-of-the-art of econometric tools and techniques applicable empirical modeling in applied Micro-and Macro-economics. The focus is on building, estimating and interpreting output from models using Actual data. The course intends to equip students with application skills, necessary to execute independent research projects.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper setter must put a note in the question paper in this regard.

There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT-I

Forecasting-I

- Introduction: Nature, Importance and Evaluation of forecast
- Short-and Long-Term Forecast
- Univariate Methods: Smoothing Methods and Box-Jenkins approach
- Multivariate Methods: Regression Models

UNIT-II

Forecasting-II

- Cointegration Analysis: Testing for Unit Roots and Cointegration
- Non-parametric Methods: Judgment Methods; Technological Forecasting
- Comparison of Forecasts: Combination of Forecasts-Techniques and Benefits

UNIT-III

Macroeconometric Model-I

- Introduction to Macroeconomic Modelling
- Framework for Modelling
- Development and Comparison of Models
- Key components of Macroeconometric Models
- Modeling Consumption, Saving, Finance, Investment , Inflation and Trade

UNIT-IV

Macroeconometric Model-II

- Some Macroeconometric Models of Indian Economy

Note: Student would be required to Undertake Econometric Projects[using Secondary data source] on Assigned Topic [from Syllabus] by the Teacher concerned. It would from the part of Internal Assessment.

MAHSECO - 203 : Law And Economics

Max. Marks: 80 **Time: 3 Hrs.**

Objective:

The aim of this course is to provide an overview of the state-of-the-art of econometric tools and techniques applicable empirical modeling in applied Micro- and Macro-economics. The focus is on building, estimating and interpreting output from models using Actual data. The course intends to equip students with application skills, necessary to execute independent research projects.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper setter must put a note in the question paper in this regard.

There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Introduction of Law and Economics:

I Economic Analysis of Law: An Introduction
- (a) Why do economists need to be concerned about law?
- (b) Relationship between law and Economics

II Economic Concepts and their relevance to Law.

III Legal Concepts
- (a) The Common Law and the Civil Law Traditions
- (b) Introduction to Judicial System in India
- (c) Economic Approach to Legal Rules
- (d) Methodological Aspects of Legal Rules
- (e) Efficiency, Justices and the Inherent Rationality of Private Law
- (f) Development of Efficient Rules: Selected Cases.

UNIT II

Economics of Property Laws

I Introduction

II An Economic Theory of Property

III Economics of Property Law
- (a) Market strategies
- (b) Non-market stratifies

IV Allocation of Property Rights
- A. First come first served
- B. Good faith purchase
- C. Title to land
- D. Establishment of entitlements
  - i Property Rule
  - ii. Liability Rule
  - iii. Inalienability Rule

V. Property Rights
- (a) Property, Social Discrimination and law: Need for Affirmative Action/ Protective Discrimination
- (b) Inequalities and Distributive Justice

VI Intellectual Property Rights
- i. Copy Rights
- ii. Patent rights
- iii. Trademark
- iv. Geographical Indicators

UNIT-III

Economic Analysis of Contract and Tort Laws

(A) Contract Law

I Introduction

II Economic Theory of Contract
- (a) Perfect Contracts
- (b) Imperfect Contracts

III Economics of Contract Law
- (A) Unconscionability
  - (i) Distress
  - (ii) Transactional Incapacity
  - (iii) Unfair persuasion
  - (iv) Price Ignorance
- (B) Fraud
- (C) Monopoly: Sales (Standard Form) of Contracts and Warranties

IV Economics of Remedies for Breach of Contract

(B) Tort Law

I Introduction

II Economic Theory of Torts Law
- A. Accident Costs and their Minimization
- B. Liability Rules
  - (i) Negligence
  - (ii) Contributory Negligence
  - (iii) Comparative Negligence
  - (iv) Strict liability

III. Economic of Tort liability

- A. Liability v Regulation
- B. Causation in Torts
- C Joint and multiple liabilities
- D Product Liability: Products' Responsibility
- E Immaterial Damages: Pain and Suffering

UNIT-IV

Economics of Criminal and Public laws

(A) Criminal Law and Economics

I Introduction
II Principal Types of Crime
III Optimal Criminal Sanctions: Economics of Crime and Punishment
IV Criminal Intent
V The Defence of Necessity
VI The Economics of organized Crime

(B) Public law and Economics

I Introduction
II Maximisation of Social Welfare (Firms and Consumers): Legislative and Executive Participation and Discretion
III Economic Analysis of Judicial Review
IV General Applications to Indian Institutions

MAHSECO -204 : World Trading System: Theory and Practice

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The course intends to provide a deep understanding about the broad principles and environment, which govern the free flow of trade in goods, services and capital – both short-term and long-term – at the global level. The contents of the paper spread over different modules, lay stress on the theory and nature of the subject which, in turn, will greatly help them to examine the impact of the trade policies followed both at the national and international levels as also their welfare implications at macro level and the distribution of gains from trade.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, snap test, Assignments, attendance and class room participation.

Instructions for Paper-setter and candidates:

The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper setter must put a note in the question paper in this regard.

There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

The global trading system in perspective: Trade and global integration; trade and trade agreements in history; functions of the multilateral trading system.

UNIT – II

World monetary system: The Bretton Woods system and its breakdown; the European monetary system. Euro currency market.

UNIT – III

The origin, objectives, structure, achievements and limitations of IMF, ITO and IBRD. The origin, objectives, structure, principles of GATT, Various GATT rounds. Evaluation of GATT.

UNIT – IV

The World Trade Organization: Scope, functions and structure of the WTO. The multilateral trade agreements and their different components. Dispute settlement and enforcement of rules. Trade remedies: safeguards and exceptions. Doha declaration and its evaluation. Challenges for the trading system.

SYLLABI AND COURSES OF READING FOR FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS, EXAMINATION, 2011 – 12, MAHS - SEMESTER - III

MAHSECO-301 (a) : AGRICULTURE AND RURAL DEVELOPMENT

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The objective of this course is to provide a detailed treatment of issues pertaining to agriculture and rural development to those intending to specialize in this area. Its objective is to familiarize students with the theory of agricultural economics and rural development issues that are relevant to Indian countryside and enable them to understand and analyze the problems of rural development.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students' written assignments, tutorials and seminars.

The students would be evaluated at the end of the semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Rural Development: Concept, nature, indicators and importance.

Agriculture and Rural Development Interface: The issues, role, challenges and the prospects.

UNIT – II

Rural Institutions and Infrastructure.

Rural Institutional Set-up and its Impact on the Process of Rural Development in India:
Panchayati Raj Institutions, Village Co-operatives, Gender Issues and Rural Development in India.

Rural Infrastructure in India: Rural Roads, Banks, Drinking Water Supply and Sewerage System, Electricity, Educational facilities and Healthcare facilities, and Marketing Networks.

UNIT – III

Disparities in Rural Development.

Inter-state Disparities in Rural Development: Nature, Causes, Consequences and Remedial Measures.

Rural-Urban Disparities in Living Standards: Nature, Extent, Causes, Consequences, and Solutions.

UNIT – IV

Deprived Sections and Rural Development: Rural Poverty, Nature and Extent, Causes and Consequences and Remedial measures.

Rural Economic Scene in India: An overview of Pattern of Assets, Income and Expenditure Distribution.

Essential Readings:

MAHSECO-302(a): BANKING AND INSURANCE

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The positive and significant role of financial institutions in the process of growth and development has been very well recognized in the literature and indeed has become more important during the last two decades as the financial systems of different countries have become integrated in the process of globalization. India is no exception and has taken far reaching measures since 1991 in this direction.

The present course is designed to acquaint the students in-depth knowledge of the theory, practice, regulation and changing role of different financial institutions in the process of growth and development both at national and international levels.

Pedagogy of the Course Work: 80% Class room teach
20% Internal Assessment comprising Unit test, snap test, Assignments, attendance and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT-I

Central Banking: Origin and Evolution; Rationale; Main Functions, Policy Tools, RBI – Role, Functions, Autonomy and monetary management..

UNIT – II

Commercial Banking : Functions, Risk Management – Types of Risk, Risk Management process, Assets/Liabilities Management. Major Developments in Commercial Banking in India since nationalization. Banking Sector Reforms .

UNIT – III

Development Financial Institutions: Role, growth and structure of Development Financial Institutions (DFIs) in India, Types and control of NBFCs by RBI.

UNIT – IV

MAHSECO-302(b) : BANKING AND INSURANCE

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Objective: The positive and significant role of financial institutions in the process of growth and development has been very well recognized in the literature and indeed has become more important during the last two decades as the financial systems of different countries have become integrated in the process of globalization. India is no exception and has taken far reaching measures since 1991 in this direction.

The present course is designed to acquaint the students in-depth knowledge of the theory, practice, regulation and changing role of different financial institutions in the process of growth and development both at national and international levels.

The basic purpose of this course is to develop an understanding of the underlying concepts and all aspects of insurance business.

Pedagogy of the Course Work: 80% Class room teach
20% Internal Assessment comprising Unit test, snap test, Assignments, attendance and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT-I

Introduction to Insurance: Concept, Principles and relevance. Insurance and economic development. Types of Insurance.

UNIT – II

Life Insurance: Types, Principles, Growth of Life Insurance Corporation in India; Investment pattern of LIC Funds.
