SYLLABUS
POST GRADUATE DIPLOMA IN LIBRARY AUTOMATION AND NETWORKING (PGDLAN)
FOR THE ACADEMIC SESSION 2010-2011

Paper Code	Title of the Paper	Marks			
		Internal Assessment*	**EXT. EXAM**	**TOTAL**	
LAN-01	Basics of Computers and Communication	20	80	100	3
LAN-02	Library Automation	20	80	100	3
LAN-03	Information System	20	80	100	3
LAN-04	Networking and Internet Technology	20	80	100	3
LAN-05	Internet Resources and Development	20	80	100	3
LAN-06	Project / Dissertation	20 Viva	80 Thesis	100	3

***** For the purpose of internal Assessment in all papers two assignments will be given (10 marks each), which will be compulsory.

SYLLABUS
POST GRADUATE DIPLOMA IN LIBRARY AUTOMATION AND NETWORKING (PGDLAN)
FOR THE ACADEMIC SESSION 2010-2011

Paper Code: LAN-01:
Paper Title: Basics of Computers and Communication

Instructions for the Paper-Setters / Examiners:
The Paper carries 80 marks. Duration of the paper is 3 hours. There should be 9 questions in all, out of which the candidate be asked to attempt 5 questions, selecting one question from each unit. The first question shall be short answer type, containing 15 short questions spread over the whole syllabus, to be answered in about 25-30 words each. The candidate is required to attempt any 10 short answer type questions. It shall carry 20 marks @ 2 marks for each short question and shall be compulsory question. Rest of the paper shall contain 4 units. Each unit shall have 2 questions and the candidates shall be given internal choice i. e. the candidate shall attempt one question from each unit. The questions should be evenly distributed within the units. In no case a question should be asked from outside the syllabus .The question paper should be strictly according to the instructions mentioned above.

Unit-1
Hardware
Need for Computerization of Libraries
Computers and their Components
Storage Media

Unit-2
Software
Introduction to Operating System
Operating Systems (Dos, Windows, Unix and Linux)
Application Software

Unit-3
Computers and Society
National Information Infrastructure (NII)
Information Society

Unit-4
Communications
Elements of Data Communication

Essential Readings

The questions should be evenly distributed within the units. In no case a question should be asked from outside the syllabus. The question paper should be strictly according to the instructions mentioned above.

Unit -1
Introduction to Library Automation
- Historical Perspective : Need and Purpose
- Approaches to Library Automation
- Library Security : CCTV, RFID

Unit-2
Management of Library Automation
- Planning
- Retrospective Conversion
- Formats and Standards
- Implementation and Evaluation

Unit-3
Library Software
- SOUL
- GRANTHALAYA
- KOHA

Unit-4
Computerized Information Services
- Reference Services
- Document Delivery Services
- Bibliographic Services
- Alerting Services

Essential Readings

The questions should be evenly distributed within the units. In no case a question should be asked from outside the syllabus. The question paper should be strictly according to the instructions mentioned above.

Unit-1
System Analysis and Design
- General Systems Theory
- Information System Design and Development

Unit-2
Type of Information Systems
- Information Retrieval Systems
- Knowledge Based Retrieval Systems
- Management Information Systems and Decision Support Systems
- Database Management Systems

Unit-3
Data Models and Database Design

Data Structures and File Organization
Data Models
Database Systems and Architecture

Unit-4

Query Language and Query Processing

Query Language
Boolean Logic
Structured Query Formulation

Paper Code: LAN-04
Paper Title : Networking and Internet Technology
Instructions for the Paper-Setters / Examiners:

The Paper carries 80 marks. Duration of the paper is 3 hours. There should be 9 questions in all, out of which the candidate be asked to attempt 5 questions, selecting one question from each unit. The first question shall be short answer type, containing 15 short questions spread over the whole syllabus, to be answered in about 25-30 words each. The candidate is required to attempt any 10 short answer type questions. It shall carry 20 marks @ 2 marks for each short question and shall be compulsory question. Rest of the paper shall contain 4 units. Each unit shall have 2 questions and the candidates shall be given internal choice i.e. the candidate shall attempt one question from each unit. The questions should be evenly distributed within the units. In no case a question should be asked from outside the syllabus. The question paper should be strictly according to the instructions mentioned above.

Unit- 1

Introduction to Networks

Types of Networks
Network Technology
Data Networks
Network Softwares

Unit-2

Library and Information Networks

Resource Sharing Technology
Overview of Library and Information Networks
Network-based Information Services
Management of Library and Information Networks

Unit-3

Internet Technology

What is Internet
Internet Services
Intranet, Extranet and Internet

Unit-4

Web 2.0
Web 3.0
