PANJAB UNIVERSITY , CHANDIGARH

Outlines of tests, syllabi and courses of reading in the subject of Psychology for M.Phil. Course (Semester System) for the examination of 2011-12.

The total course will spread over 24 credits and 2 semesters. Each Semester will have 12 credits.

There will be two compulsory papers worth 4 credits each i.e. (1) Research Methodology and Statistics 4 credits and (2) Dissertation- 4 credits in Semester-I. There will be 8 credits course for Dissertation in Semester II.

1st Semester

Paper 1	Research Methodology and Statistics	4 credits
Paper 2	Dissertation	4 credits
Paper 3	Any one out of the 12 optional courses given below	4 credits

2nd Semester

Paper 1	Dissertation	8 credits
Paper 2	Any one out of the 12 optional courses other than the one course taken in the 1st Semester	4 credits

NAME OF THE OPTIONAL COURSES:

I. Human Motivation
II. Child and Adolescent Psychopathology
III. Vocational Guidance
IV. Factorial Approaches to Personality
V. Social Change
VI. Psychoanalysis and Humanistic Psychology
VII. Verbal Learning and Memory
VIII. Psychological basis of Effective Teaching
IX. Mental Retardation
X. Leadership in Organisation
XI. Health Psychology
XII. Stress Management

MODE OF INSTRUCTION:

It will be through lectures/discussions and seminars. Out of a total of 45 contact hours per course approximately 2/3 will be used for lecture/discussion according to the nature of courses and the number of the students in each course. The remaining 1/3 contact hours will be for seminars. Each student will have to present a minimum of 2 seminars.

M.PHIL. COURSES

SEMESTER-I

PAPER : RESEARCH METHODOLOGY AND STATISTICS — 4 credits

1. Multifactorial designs.
   a) Assumptions of ANOVA and transformation of data
   b) One way ANOVA and multiple comparisons
   c) Two, three and higher dimensional designs
   d) Latin square and Greco-Latin square designs
   e) Trend analysis and mixed designs
   f) Multivariate ANOVA
   g) Random, fixed, and mixed models

2. Analysis of covariance- one way, application to other designs.

3. Multiple regression: Theory and principles of multiple correlation, multiple regression equations with 2 and more independent variables.

4. Theory and applications of
   a) Path analysis
   b) Discriminant function analysis
   c) Logistic regression analysis

5. Factor analysis: Theory, designs and application.
   Procedures- Principal axes method of factoring, orthogonal and oblique rotations. Analytic rotations.

11. Stanley, J.C. and Hopkins, J.D. Educational and Psychological measurement and evaluation. New Delhi, Prentice Hall, 1978.

OPTIONS FOR SEMESTER I AND II **(4 Credits for each Course)**

PAPER I : HUMAN MOTIVATION

1. General Introduction to Human Motivation.
2. Drive Theory (Hull, Spence) Knowledge of results.
3. Field Theory (Lewin).
4. Achievement: Construct, Measurement and Research.
5. Affiliation: Construct, Measurement and Research.
6. Power: Construct, Measurement and Research.
7. Avoidance Motives.
8. Motivational Training.

PAPER II: CHILD AND ADOLESCENT PSYCHOPATHOLOGY

1. Assessment: Observation, Interview, Case history, psychological tests, Neurological and Psycho neurological examination.

2. Causes, Symptoms, and treatment of **:**
   Communication disorders and Learning disorders.
   Disruptive behaviour disorders: Oppositional defiant and conduct disorders.

3. Attention deficit hyperactivity disorder.
   Autism
   Feeding, eating and elimination disorders.

4**.** Child Mal treatment and Non accidental trauma

5. Kline P. Psychology of Vocational Guidance. B.T. Batsford Ltd. London. Sydney, 1975
6. Some reports of Secondary Education Commission reforms. Govt. of India Publications.

PAPER IV: FACTORIAL APPROACHES TO PERSONALITY

1. General Introduction to factorial approaches in personality.
2. Eysenck's theory of personality.
    i) Formulation of the theory.
    ii) Physiological concomitants of extraversion and neuroticism.
    iii) Research related to Eysenck's personality theory as applied to Sress, Performance, Achievement, Political Behaviour, Aesthetics etc.
3. Cattell's factor theory of personality.
    i) Temperament factors arising from L.Q. and T data.
    ii) Dynamic factors – ergs and sentiments.
    iii) Development of Personality.
    iv) Research related to Cattell's personality theory.
4. Costa and McCrae's Big Five theory of personality.
5. Cross Cultural research trends in Factorial Approaches to personality.

8. Rogers, C., & Stevens, B. Person to Person: The problem of being human. N.Y.: Simon Schuster Pocket Book. 1971.

PAPER VII : VERBAL LEARNING AND MEMORY

1. Properties of verbal material and verbal learning.

2. Problems and Issues in serial learning, paired associates learning and free recall.

3. Transfer, Interference and forgetting.

REFERENCES:

1. Kling, J.W. and Riggs, L.A. (eds.) Woodworth and Schlosberg's experimental psychology. London. Methuen, 1971.

2. Hulse, S.H., Deese, J., and Egeth, H. The Psychology of Learning. Tokyo, McGraw-Hill Kogakusha Ltd. 1975.

3. Kintsch, W. Learning, Memory and Conceptual Processes, New York, John Willey, 1970.

4. Sidowski, J.B. (ed.) Experimental methods & Instrumentation in Psychology, New York: McGraw- Hill, 1966.

PAPER VIII: PSYCHOLOGICAL BASIS OF EFFECTIVE TEACHING

1. Definition of teaching: Teaching at different levels a Memory; b) Understanding; c) Skilled level, domains of behavioural objectives; d) Cognitive; e) Affective; f) Psychometer.
2. Learning; Hierarchy and types, conditions of learning, optimizing learning.
3. Teacher behaviour: Its analysis and characteristics; Microteaching and teaching behaviour.
4. Teaching Strategies: Programmed learning and other Individualized methods of instruction.
5. Managing teaching: Motivational principles Feedback (KR) Maslow and class room teaching n-achievement .Use of group techniques in managing class rooms
6. Evaluation: Criterion based evaluation of teaching. Techniques for evaluation a) Observation schedules; b) Rating scales; c) Check-lists.

PAPER XII: STRESS MANAGEMENT

1. Conceptual and Methodological issues in Stress research.
   Gender and Stress.
2. Stress and Illness. Role of Personality, Emotions, Social support, quality of life and coping.

3. Relaxation techniques and Stress Management.

4. Life style and Stress Management
   a) Exercise and Eating Habits.
   b) Cigarette smoking and cessation
   c) Alcohol consumption.

5. Cognitive approaches to managing stress with special emphasis on Beck, Ellis, and Meichenbaum's work.

6. Behavioural approaches for Managing stress.
   a) Self Management: Increasing self awareness.
   b) Time Management
   c) Assertiveness Training
