--:O:---

PANJAB UNIVERSITY, CHANDIGARH

Outlines of tests, syllabi and courses of reading for Postgraduate Diploma in Health, Family Welfare and Population Education for the examination of 2012.

Scheme of Examination

	Title of the Paper	Marks	Time
Paper-I	Fundamentals of Population Education and Population Dynamics	100	3
Paper-II	Health Education and Management	100	3
Paper-III	Reproductive Health and Family Welfare	100	3
Paper-IV	Population Problems and Population Policies	100	3

PAPER I: FUNDAMENTALS OF POPULATION EDUCATION AND POPULATION DYNAMICS

Marks: 100
Time: 3 hrs.

OBJECTIVES

The objective of this paper is to appraise the students about the conceptual new framework and historical development and research in population education, and to highlight the issues and problems in introducing Population Education. The objectives also include providing an understanding to the phenomena of change in a population and the processes involved.

NOTE: There shall be 9 questions in all. The first question shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions of 2 marks each. It shall carry 20 marks and shall be a compulsory question. The entire syllabus shall be divided into four units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each unit-4 in all.

UNIT-I

i) Concept, Significance, and Objectives of Population Education.
ii) Scope of Population Education and Approaches to the Study of Population Education.
iii) History of Population Education and Population Awareness.
iv) Population Education Programmes for India.

UNIT-II

v) Issues and Problems in Introducing Population Education.
vi) Integrating Population Education into Formal and Non Formal System of Education at different Levels in India.
vii) Teaching Population Education: Aspects and Methods in the Formal and Non-Formal Systems of Education
viii) Need for Further Research in Population Education: Areas and Perspectives.

UNIT-III

ix) Population Size, Distribution, Age and Sex Structure, Literacy and Economic Composition of Population in India.
x) Dynamics of Population: Concepts, Measurement, Determinants and Consequences (Fertility, Mortality, and Migration).
xi) Quality of Statistics Related to Population Dynamics.

UNIT-IV

xii) Demographic Transition Model. Demographic Transition in Developed and Developing Countries.

xiii) Population Growth-Concept, Determinants and Consequences. World Patterns with Special Reference to India.
