HEALTH, FAMILY WELFARE AND POPULATION EDUCATION

EXAMINATIONS, 2014

--:O:---

PANJAB UNIVERSITY, CHANDIGARH

Outlines of tests, syllabi and courses of reading for Postgraduate Diploma in Health, Family Welfare and Population Education for the examinations of 2014.

Scheme of Examination

	Title of the Paper	Theory	Int. Ass.	Total
Paper-I	Fundamentals of Population Education and Population Dynamics	80	20	100
Paper-II	Health Education and Management	80	20	100
Paper-III	Reproductive Health and Family Welfare	80	20	100
Paper-IV	Population Problems and Population Policies	80	20	100

PAPER I: FUNDAMENTALS OF POPULATION EDUCATION AND POPULATION DYNAMICS

Max. Marks : 100
Theory : 80
Internal Assessment : 20
Time : 3 Hrs

OBJECTIVE:

The objective of this paper is to appraise the students about the conceptual framework, historical development and research in population education. The issues and problems in introducing Population Education will also be highlighted. The objective also includes providing an understanding to the phenomena of change in population and the processes involved.

NOTE:

1. There shall be nine questions in all.
2. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The students shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (Total 20 marks).
3. The whole syllabus has been divided into 4 units. Eight questions will be set out of the whole syllabus i.e. 2 from each unit. The students will be required to attempt one question from each unit. Each question will carry 15 marks. These will be in addition to the compulsory question at serial number 1.

UNIT-I

i) Concept, Significance, and Objectives of Population Education.
ii) Scope of Population Education and Approaches to the Study of Population Education.
iii) History of Population Education and Population Awareness.
iv) Population Education Programmes for India.

UNIT-II

v) Issues and Problems in Introducing Population Education.
vi) Integrating Population Education into Formal and Non Formal System of Education at Different Levels in India.
vii) Teaching Population Education: Aspects and Methods in the Formal and Non-Formal Systems of Education
viii) Need for Further Research in Population Education.

UNIT-III

ix) Population Size, Distribution, Age and Sex Structure, Literacy and Economic Composition of Population in India.
x) Dynamics of Population: Concepts, Measurement, Determinants and Consequences (Fertility, Mortality, and Migration).
xi) Quality of Statistics Related to Population Dynamics.

UNIT-IV

xii) Demographic Transition Model. Demographic Transition in Developed and Developing Countries.

xiii) Population Growth-Concept, Determinants and Consequences. World Patterns with Special Reference to India.

PAPER-II: HEALTH EDUCATION AND MANAGEMENT

Max. Marks : 100
Theory : 80
Internal Assessment : 20
Time : 3 Hrs

OBJECTIVE:

The objective of this paper is to familiarize the student with the various aspects of health care and health education. Changes in personal and group attitudes and behavior that promote healthier living and understanding how careful planning and management of health services is essential to the increased demand for medical and health services will be the focus. A comparative study of health problems and health policies of developed and less developed countries and the role of government and non-government agencies will also be discussed.

NOTE:

1. There shall be nine questions in all.
2. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The students shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (Total 20 marks).
3. The whole syllabus has been divided into 4 units. Eight questions will be set out of the whole syllabus i.e. 2 from each unit. The students will be required to attempt one question from each unit. Each question will carry 15 marks. These will be in addition to the compulsory question at serial number 1.

UNIT-I

i) Concept, Significance, Objectives, Contents, Determinants and Principles of Health Education.
ii) Concept, Nature and Scope of Health Care, Health Care System in India, Levels of Health Care.
iii) Principles of Primary Health Care (health for all, health status and health problems) Evaluation of Health Services in India

UNIT-II

iv) Approaches to Public Health Communication in Health Education, and Practice of Health Education.
v) Control of
(a) Communicable Diseases: STD. and AIDS, Alcoholism and Drug Abuse.
(b) Non-Communicable Diseases: Diabetes, Hypertension, Coronary Heart Disease and Cancer.
vi) Agencies of Health Education Public and Private Sectors and NGOs

UNIT-III

vii) Health Management-Health Needs and Demands, Management Methods and Techniques.
viii) Health and Manpower Management and Development.
ix) Health Problems and Policies of Developed and Developing Countries

UNIT-IV

x) Health Planning (needs demands, resources, objectives, goals, management techniques and methods).

xi) National Health Policy and Health Planning in India, National Health Programme in India. Introduction to the Activities of International Agencies. WHO, UNICEF, UNDPA, UNFPA, FAO

xii) Health Work of Bilateral Agencies (Government and Non-Government).

PAPER-III: REPRODUCTIVE HEALTH AND FAMILY WELFARE

Max. Marks : 100
Theory : 80
Internal Assessment : 20
Time : 3 Hrs

OBJECTIVE:

The objective of this paper is to appraise the students of different aspects of maternal health, reproductivity, woman's health, foetal health and child health. The comprehensive concept of family welfare and all its related aspects will also be discussed.

NOTE:

1. There shall be nine questions in all.
2. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The students shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (Total 20 marks).
3. The whole syllabus has been divided into 4 units. Eight questions will be set out of the whole syllabus i.e. 2 from each unit. The students will be required to attempt one question from each unit. Each question will carry 15 marks. These will be in addition to the compulsory question at serial number 1.

UNIT-I

i) Maternal Health, Reproductivity and Measurment of Reproductivity: Conventional and Improved Methods of Measuring Reproductivity.
ii) Determinants of Reproductivity: Age at Marriage, Duration of Marriage, Female Literacy, Social and Economic factors.

UNIT-II

iii) Family Welfare and Health: Life Cycle Approach to Women's Health in Reproductive and Post-Reproductive Age Groups; Nutritional Status, Pregnancy and Abortion.
iv) Foetal Health (Foetal mortality, female foeticide and infanticide).
v) Child Health (infant and child mortality).

UNIT-III

vi) Organizational Structure of Family Welfare Program at National, State, District and Local Levels.
vii) Motivation, IEC (Information, Education and Communication) Activities, their Management and Limitations (Organizational and Socio-Cultural).

UNIT-IV

viii) National Family Welfare Program: Objectives, Implementation of the Programme and Associated Problems.
ix) Family Planning Programmes and Five Years Plans, Evaluation and Critique, Reproductive and Child Health.

x) Family Welfare Methods: Preventive, Corrective and Paralla Methods; Medical Termination of Pregnancy Act 1971 of India; Foeticide (New Act), Social Response to Family Welfare Methods.

PAPER- IV: POPULATION PROBLEMS AND POPULATION POLICIES

Max. Marks : 100
Theory : 80
Internal Assessment : 20
Time : 3 Hrs

OBJECTIVE:

The objective of this paper is to understand the innumerable problems related to population such as poverty, illiteracy, unemployment, aging etc. and the intricate relationship between socio-economic development and the quality of life. The objective is also to discuss the population problems faced by both the developed and developing countries and the policies being evolved to tackle them within their respective contexts. The aim is also to study the evolution of the population policy of India and its imperatives.

NOTE:

1. There shall be nine questions in all.
2. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The students shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (Total 20 marks).
3. The whole syllabus has been divided into 4 units. Eight questions will be set out of the whole syllabus i.e. 2 from each unit. The students will be required to attempt one question from each unit. Each question will carry 15 marks. These will be in addition to the compulsory question at serial number 1.

UNIT-I

1. Population Problem in India Social (ageing, imbalanced sex-ratio, illiteracy, gender inequality) and Economic (poverty, employment structure and unemployment) Aspects.
2. Relationship Between Population Quality of Life and Socio-Economic Development.

UNIT-II

3. Population Problems of the Developed Countries, With Special Reference to Japan, U.S.A. Sweden.
4. Population Problems of the Developing Countries With Special Reference to China, Pakistan, Brazil.

UNIT-III

5. Population Policy-Concept, Objectives and Scope.
6. Population Policies Pertaining to Fertility, Mortality and Migration of the Developed Countries With Special Reference to Japan, U.S.A., Sweden.
7. Population Policies Pertaining to Fertility, Mortality and Migration of the Developing Countries With Special Reference to China, Pakistan, Brazil.

UNIT-IV

8. Evolution of Population Policy of India-Pre and Post Independence Eras.
9. India's Population Policy 2000 and its Critique.
10. Population Projections and Strategies for Future Population Dynamics.
