PANJAB UNIVERSITY, CHANDIGARH

Outlines of tests, syllabi and courses of reading for Postgraduate Diploma in Health, Family Welfare and Population Education (Semester System) Examinations 2015-16

SEMESTER – I

	Title of the Paper	Theory	Int. Ass.	Total
Paper-I	Fundamentals of Population Education	80	20	100
Paper-II	Health Education and Health Care	80	20	100
Paper-III	Reproductive Health	80	20	100
Paper-IV	Population Dynamics	80	20	100

SEMESTER – II

Paper-I	Environmental Health	80	20	100
Paper-II	Family Welfare	80	20	100
Paper-III	Population Problems	80	20	100
Paper-IV	Population Policies	80	20	100

SEMESTER - I

PAPER- I: FUNDAMENTALS OF POPULATION EDUCATION

Marks : 80
Internal Assessment: 20
Total : 100
Time: 3 hours

OBJECTIVES

The objective of this paper is to appraise the students about the conceptual new framework and historical development and research in population education, and to highlight the issues and problems in introducing Population Education.

NOTE: 1. There shall be nine questions in all.

2. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The candidates are required to attempt any 10 short answer type questions in about 25 to 30 words each. Each question shall carry 2 marks (Total 20 Marks).
3. The entire syllabus shall be divided into four units. A total of eight questions will be set out of the whole syllabus, at least two from each unit. The candidates will be required to attempt four questions selecting one from each unit. These will be in addition to the compulsory question at serial number 1 and each question will carry 15 marks. The students shall attempt a total of five questions in all.

UNIT-I

i) Population Education : Concept, Significance, and Objectives
ii) Scope and Approaches to the Study of Population Education.

UNIT-II

iii) History of Population Education and Population Awareness.
iv) Population Education Programmes for India.

UNIT-III

v) Issues and Problems in Introducing Population Education.
vi) Integrating Population Education into Formal and Non Formal System of Education at Different Levels in India.

UNIT-IV

vii) Teaching Population Education: Aspects and Methods in the Formal and Non-Formal Systems of Education
viii) Need for Further Research in Population Education: Areas and Perspectives

Note: Please refer to relevant website of Govt. of India and latest edition of the books given below.

6. World Bank Report (1991) : Gender and Poverty in India.

Paper-II: HEALTH EDUCATION AND HEALTH CARE

Marks : 80
Internal Assessment : 20
Total : 100
Time : 3 hours

Objectives

The objective of this paper is to familiarize the student with the various aspects of health care and health education, changes in personal and group attitudes and behavior that promote healthier living. A comparative study of health problems and health policies of developed and less developed countries and the role of government and non-government agencies will also be discussed.

NOTE: 1. There shall be nine questions in all.

2. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The candidates are required to attempt any 10 short answer type questions in about 25 to 30 words each. Each question shall carry 2 marks (Total 20 Marks).
3. The entire syllabus shall be divided into four units. A total of eight questions will be set out of the whole syllabus, at least two from each unit. The candidates will be required to attempt four questions selecting one from each unit. These will be in addition to the compulsory question at serial number 1 and each question will carry 15 marks. The students shall attempt a total of five questions in all.

UNIT – I

i) Health Education : Concept, Principles and Significance
ii) Health Care: Concept, Nature, Scope and Levels of Health Care.
iii) Principles of Primary Health Care (health for all, health status and health problems)

UNIT – II

iv) Health Problems of Developed and Developing Countries
v) National Health Policy

UNIT – III

vi) Approaches to Public Health, Communication and Practice of Health Education.
vii) Control of
(a) Communicable Diseases: STD and HIV- AIDS
(b) Substance abuse: Alcoholism and Drug Abuse.
(c) Non-Communicable Diseases: Diabetes, Hypertension, Coronary Heart Disease and Cancer.

UNIT – IV

viii) Agencies of Health Education Public, Private and NGOs
ix) Introduction to the Activities of WHO, UNICEF, UNDPA, UNFPA, FAO
x) National Rural Health Mission (NRHM): Scope and Application.

Note: Please refer to relevant website of Govt. of India and latest edition of the books given below.

Paper – III: REPRODUCTIVE HEALTH

Marks : 80
Internal Assessment: 20
Total : 100
Time: 3 hours

Objectives:

The objective of this paper is to apprise the student with different aspects of reproductivity, maternal health, foetal health, child health and immunization.

NOTE: 1. There shall be nine questions in all.

2. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The candidates are required to attempt any 10 short answer type questions in about 25 to 30 words each. Each question shall carry 2 marks (Total 20 Marks).
3. The entire syllabus shall be divided into four units. A total of eight questions will be set out of the whole syllabus, at least two from each unit. The candidates will be required to attempt four questions selecting one from each unit. These will be in addition to the compulsory question at serial number 1 and each question will carry 15 marks. The students shall attempt a total of five questions in all.

UNIT – I

1. Reproductive Health: Concept, Measures And Determinants
2. Determinants of Reproductivity (Biological Factors, Age at Marriage, Duration of Marriage, Female Literacy, Social and Economic Factors)

UNIT – II

3. Maternal Health– Maternal Morbidity, Maternal Mortality, Preventive and Social Measures
4. Maternal Health– Preventive Measures: Social And Administrative

UNIT – III

5. Foetal Health– Development And Morbidity, (Defination, Causes and Prevention)
6. Sex Determination Tests, Female Foeticide And Infanticide

UNIT – IV

7. Child Health – Infant and Child Mortality
8. Immunization– Immunizing Agents, Schedules, Govt. of India (GOI)/ Indian Academy of Paediatrics (IAP), Hazards, Adverse Events Falling Immunization(AEFI) and Precautions

Note: Please refer to relevant website of Govt. of India and latest edition of the books given below.

ESSENTIAL READINGS:

Paper- IV: POPULATION DYNAMICS

Marks : 80
Internal Assessment: 20
Total : 100
Time: 3 hours

Objectives:
The objective includes providing an understanding to the phenomena of change in a population and the processes involved.

NOTE: 1. There shall be nine questions in all.
2. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The candidates are required to attempt any 10 short answer type questions in about 25 to 30 words each. Each question shall carry 2 marks (Total 20 Marks).
3. The entire syllabus shall be divided into four units. A total of eight questions will be set out of the whole syllabus, at least two from each unit. The candidates will be required to attempt four questions selecting one from each unit. These will be in addition to the compulsory question at serial number 1 and each question will carry 15 marks. The students shall attempt a total of five questions in all.

UNIT – I

1. Population Data: Sources, Quality and Availabilaity
2. Dynamics of Population: Concepts, Measurement and Determinants (Fertility, Mortality, and Migration).

UNIT – II

3. India: Population Size, Distribution, Rural- Urban Composition, Age and Sex Structure
4. India: Literacy and Economic Composition of Population.

UNIT – III

5. Demographic Transition Model.
6. Demographic Transition in Developed and Developing Countries.

UNIT – IV

7. Population Growth-Concept, Determinants and Consequences.
8. World Patterns of Population with Special Reference to India.

Note: Please refer to relevant website of Govt. of India and latest edition of the books given below.

SEMESTER – II

PAPER- I: ENVIRONMENTAL HEALTH

Marks : 80
Internal Assessment: 20
Total : 100
Time: 3 hours

OBJECTIVES:

Environmental health is a branch of public health that is concerned with all aspects of the natural and built environment that may affect human health. It also refers to the theory and practices of assessing and controlling factors in the environment. The objective of the paper is to appraise the students about various aspects of environmental health and its impact on human health. The objective is also to familarise the students with related health problems and protection through legislation

NOTE: 1. There shall be nine questions in all.
2. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The candidates are required to attempt any 10 short answer type questions in about 25 to 30 words each. Each question shall carry 2 marks (Total 20 Marks).
3. The entire syllabus shall be divided into four units. A total of eight questions will be set out of the whole syllabus, at least two from each unit. The candidates will be required to attempt four questions selecting one from each unit. These will be in addition to the compulsory question at serial number 1 and each question will carry 15 marks. The students shall attempt a total of five questions in all.

UNIT – I

i. Environmental Health: Meaning, Concept and Concerns
ii. Effects of Air and Noise Pollution on Health
iii. Water Pollution: Sources of Water Pollution, Water Quality Standards and Impact on Human Health

UNIT – II

iv. Soil and Microbial Pollution: Sources and Impact on Human Health
v. Waste Disposal Including Hazardous and Biomedical Wastes
vi. Food Surveillance

UNIT – III

vii. Occupational Health: Factors in Occupational Environment Which May Effect Health-Physical, Chemical, Radiological, Biological Agents and Social Factors
viii. Occupational Hazards and Occupational Diseases, Prevention of Occupational Diseases
ix. Health Problems due to Industrialization

UNIT – IV

x. Health Protection Through Legislation
xi. Vector - Borne Diseases and their Control Measures
    a) Mosquitoes
    b) Flies
    c) Cockroaches
    d) Human Lice
    e) Rodents
xii. Introduction to Integrated Disease Surveillance Project (IDSP)

Paper – II: FAMILY WELFARE

Marks : 80
Internal Assessment: 20
Total : 100
Time: 3 hours

OBJECTIVES:

The objective of this paper is to apprise the student about the organizational structure and familarise them with the various activities of IEC, National Family Welfare Programme through different five year plans and all its related aspects.

NOTE: 1. There shall be nine questions in all.

2. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The candidates are required to attempt any 10 short answer type questions in about 25 to 30 words each. Each question shall carry 2 marks (Total 20 Marks).
3. The entire syllabus shall be divided into four units. A total of eight questions will be set out of the whole syllabus, at least two from each unit. The candidates will be required to attempt four questions selecting one from each unit. These will be in addition to the compulsory question at serial number 1 and each question will carry 15 marks. The students shall attempt a total of five questions in all.

UNIT – I

1. Organizational Structure of Family Welfare Programme at National, State and District Level
2. Motivation Activities: Information Education and Community (IEC) and Their Management

UNIT – II

3. National Family Welfare Programme: Its Implementation, Associate Problems and Critique
4. Anaemia Prevention– Iron Plus Initiative: Rashtsiya Bal Swasttya Program; Integrated Child Development Scheme (ICDS); Integrated Child Protection Scheme (ICPD)

UNIT – III

5. Family Welfare Programme and Five Years Plans: Evaluation and Critique
6. Family Welfare Methods: Preventive and Corrective With Special Emphasis on Contraception

UNIT – IV

7. M. T. P. Act (Medical Termination of Pregnancy Act)
8. Social Response to Family Welfare Programmes and PCPNDT Acts

PAPER- III: POPULATION PROBLEMS

Marks : 80
Internal Assessment: 20
Total : 100
Time: 3 hours

Objectives: The objective of the paper is to understand the innumerable problems related to population such as poverty, illiteracy, unemployment, ageing etc and the intricate relationship between soco- economic development and the quality of life. The objective is also to discuss that population problems faced by both the developed and the developing countries.

NOTE: 1. There shall be nine questions in all.

2. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The candidates are required to attempt any 10 short answer type questions in about 25 to 30 words each. Each question shall carry 2 marks (Total 20 Marks).
3. The entire syllabus shall be divided into four units. A total of eight questions will be set out of the whole syllabus, at least two from each unit. The candidates will be required to attempt four questions selecting one from each unit. These will be in addition to the compulsory question at serial number 1 and each question will carry 15 marks. The students shall attempt a total of five questions in all.

UNIT- I

1. The Problem of Population
2. Population Problems in India: Social Aspects (Ageing, Sex-Ratio, Illiteracy, Gender, Inequality)
3. Population Problem in India: Economic Aspects (Poverty, Employment, Unemployment and Food Security)

UNIT – II

4. Relationship Between Population Quality of Life and Socio-Economic Development
5. Regional Disparities in Socio- Economic Development

UNIT – III

6. Population Problems of the Developed and Developing Countries
7. Population Problems and Sustainable Development

UNIT – IV

8. Population Problems of Developed Countries: Japan, U.S.A. and Sweden
9. Population Problems of Developing Countries: China, Pakistan and Brazil

Note: Please refer to relevant website of Govt. of India and latest edition of the books given below.
