PANJAB UNIVERSITY, CHANDIGARH

(Estted. under the Panjab University Act VII of 1947-enacted by the Govt. of India)

FACULTY OF ARTS

SYLLABI

FOR

FIVE YEAR INTEGRATED PROGRAMME
IN ECONOMICS
(SEMESTER SYSTEM)
EXAMINATIONS, 2015-16

---:O:---

PANJAB UNIVERSITY, CHANDIGARH

OUTLINES OF TESTS, SYLLABI AND COURSES OF READING FOR FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS, EXAMINATIONS 2015-16.

BAHS – ECONOMICS, SEMESTER – I

BAHSECO-101	Economic History of India: 1857-1947	100 MARKS
BAHSECO-102	Principles of Economics	100 MARKS
BAHSECO-103	Mathematics for Economic Analysis- I	100 MARKS
BAHSECO-104	Sociology – I	100 MARKS
BAHSECO-105	English – I	100 MARKS

BAHS – ECONOMICS, SEMESTER – II

BAHSECO-201	History of Economic Thought - I	100 MARKS
BAHSECO-202	Micro Economics - I	100 MARKS
BAHSECO-203	Mathematics for Economic Analysis- II	100 MARKS
BAHSECO-204	Sociology – II	100 MARKS
BAHSECO-205	English – II	100 MARKS

BAHS – ECONOMICS, SEMESTER – III

BAHSECO-301	History of Economic Thought – II	100 MARKS
BAHSECO-302	Micro Economics - II	100 MARKS
BAHSECO-303	Development Economics - I	100 MARKS
BAHSECO-304	Economics of Agriculture	100 MARKS
BAHSECO-305	Statistics for Economic Analysis	100 MARKS

BAHS – ECONOMICS, SEMESTER – IV

BAHSECO-401	Macro Economics – I	100 MARKS
BAHSECO-402	Development Economics – II	100 MARKS
BAHSECO-403	Economics of Industry	100 MARKS
BAHSECO-404	Basic Econometrics	100 MARKS
BAHSECO-405	Economics of Population	100 MARKS

BAHS – ECONOMICS, SEMESTER – V

BAHSECO-501	Contemporary Issues in Indian Economy – I	100 MARKS
BAHSECO-502	Macro Economics - II	100 MARKS
BAHSECO-503	Economics of Public Finance	100 MARKS
BAHSECO-504	International Economics	100 MARKS
BAHSECO-505	Optimization Techniques and Game Theory	100 MARKS

BAHS – ECONOMICS, SEMESTER – VI

BAHSECO-601	Contemporary Issues in Indian Economy – II	100 MARKS
BAHSECO-602	Human Resource Development	100 MARKS
BAHSECO-603	Basics of Financial Markets	100 MARKS
BAHSECO-604	Environmental Economics	100 MARKS
BAHSECO-605	Economic Journalism	100 MARKS

MAHS – ECONOMICS, SEMESTER – I

MAHSECO-101	Advanced Micro Economic Theory	100 MARKS
MAHSECO-102	Advanced Macro Economic Theory	100 MARKS
MAHSECO-103	Econometric Applications - I	100 MARKS
MAHSECO-104	Contemporary Issues in Public Policy	100 MARKS

MAHS – ECONOMICS, SEMESTER – II

MAHSECO-201	Research Methodology	100 MARKS
MAHSECO-202	Econometric Applications – II	100 MARKS
MAHSECO-203	Advanced Industrial Economics	100 MARKS
MAHSECO-204	Money and Banking	100 MARKS

MAHS – ECONOMICS SEMESTER - III

In all, four courses would be offered (two from each area of specialization in a combination) in each of the following **Majoring Areas**:

MAHSECO- 301 (a)	Agriculture and Rural Development	100 MARKS
MAHSECO- 301 (b)	Agriculture and Rural Development	100 MARKS
MAHSECO- 302 (a)	Banking and Insurance	100 MARKS
MAHSECO- 302 (b)	Banking and Insurance	100 MARKS
MAHSECO- 303 (a)	Industry and Trade	100 MARKS
MAHSECO- 303 (b)	Industry and Trade	100 MARKS
MAHSECO- 304 (a)	Money and Finance	100 MARKS
MAHSECO- 304 (b)	Money and Finance	100 MARKS

The student would have the choice of opting for any one of the above combinations. The same would be treated as the Majoring Area (Field of specialization) and would be shown in the M A Honours School in Economics degree as mentioned earlier.

MAHS – ECONOMICS, SEMESTER – IV

No formal teaching would be offered in the department in this semester. However, under the overall supervision of the department, the student would be attached to one or the other Public/ Private organization in her/ his majoring area so as to get on the job training and work experience. This opportunity would also be used to test the candidate's problem solving abilities as well. Each student would be required to submit a Project Report on the topic/ theme assigned by the host organization. The evaluation of the same, however, would be the prerogative of the teacher(s) in charge of the field.

SEMESTER – I

BAHSECO-101 – ECONOMIC HISTOY OF INDIA: 1857-1947

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The objective of this paper I is to acquaint the students with the state of the Indian economy prior to Independence and the economic impact of the British rule on various sectors of the Indian economy.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Why study economic history? The East India Company: its history and Results; Growth of British Empire in India; the state of the Indian Economy on the eve of independence, Systems of land settlements in the Colonial India (Zamindari, Royatwari and Mahalwari).

UNIT - II

Traditional village society and its transformation during the British rule; Commercialization of agriculture – its causes and consequences; Emergence of agricultural labour as a category; Problems of rural indebtedness during the British rule.

UNIT – III

The state of industrial development in mid-nineteenth century India; The de-industrialization thesis – its statement and validity, emergence of modern capitalist industrial enterprise in India (1857-1946); Major industries of India: Textile (Jute and Cotton), Iron & Steel, Cement, Coal, Tea.

UNIT – IV

Foreign capital in Colonial India – its extent and impact; foreign-trade and manufacturing: growth and composition; 'guided under-development' of India under the British rule; evolution of provincial finance, the nature and problem of public debt; Economic drain from India - form, extent and consequences.

Essential Readings:

R.C. Dutt (1902)	:	The Economic History of India under Early British Rule, Vol. I and Vol. II, Kagan Paul Trench, Great Britain.
G. Kaushal (1993)	:	Economic History of India- 1757 to 1966. Kalyani Publishers, New Delhi.
K. Marx (1853)	:	The British Rule in India, New York Tribune, June 25.
K. Marx (1853)	:	The Future Results of British Rule in India, August 9.
K. Marx (1853)	:	The East India Company: Its History and Results, New York Tribune, July 11.

Further Readings:

V B Singh (ed.) (2002)	:	Economic History of India 1857-1956. Allied Publications Private Limited, Bombay, 1965.
Collection of Papers/ Reprints	:	File available in the departmental library.

BAHSECO-102 – PRINCIPLES OF ECONOMICS

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Economic Theory is important in the understanding of economics. Economic theory comprises mainly two branches of economics i.e. Micro economics and Macroeconomics. The basic objective of the course entitled Principles of Economics is to introduce the conceptual framework of micro and macroeconomics to the students so that they can prepare for the advance course in this branch at later stage.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

MICRO ECONOMICS

UNIT – I

The Economic Problem: Scarcity and Choice, Functions of an Economic System. Circular Flow of Economic Activity and Systems of Economic Organization. Nature of Economic Reasoning. Law of Demand and Supply. Elasticity: Concept, Measurement, Determinants and Importance. Market Equilibrium; Excess Demand, Excess Supply and Changes in Equilibrium.

Consumer Choice :Cardinal Analysis and Elasticity of Demand. Ordinal Utility Analysis; Concept, Properties of Indifference Curves, Consumer Equilibrium and Consumer Surplus.

UNIT – II

Production Process: Short Run Theory of Production: Concepts and Law of Variable Proportions; Long Run Production Analysis: Concept of Isoquants and Law of Returns to Scale.

Traditional Cost Analysis: Short Run and Long Run. Profit Maximization Hypothesis. Price and Output Determination under Perfect Competition and Simple Monopoly.

MACRO ECONOMICS

UNIT – III

Micro and Macro Economics: Distinctive Characteristics; Circular Flow of Incomes;
Three markets: Goods and Services, Labour Market and Money Market.
National Output and National Income: Concepts, Methods of Measurement and Limitations.

Consumption, Savings and Investment: Classical and Keynesian Views.

Aggregate Demand and Equilibrium Output: Keynesian Model. The Concept, Operation and Limitations of Multiplier.

UNIT-IV

Government and Fiscal Policy: Government Purchases/ Expenditure, Taxes, Subsidies. Money (Classical and Keynesian Views): Demand and Supply; Equilibrium Rate of Interest and Output.

Inflation: Meaning, Types, Causes, Effects; Control.

Unemployment: Types, Inflation Unemployment Trade Off; The Phillips Curve.

Essential Readings:

Case, Karl E and Fair, Ray C : 'Principles of Economics', 6th edition. Pearson (First Indian Print 2002 Education Asia).

Samuelson, Paul A and Nordhus, William, D (2006) : Economics, 18th Edition, Tata McGraw Hill Publishing Company Limited, New Delhi.

Sloman, John (2004) : 'Economics', 3rd Edition, Princeton Hall of India.

Further Readings:

Diulio, Eugene A (1974) : Macro Economic Theory, 2nd Edition, McGraw-Hills (Schaum Series).

Salvatore, Dominick (2003) : Micro Economics (Theory and Applications), 4th Edition, Oxford, (Schaum Series).

BAHSECO-103 – MATHEMATICS FOR ECONOMIC ANALYSIS – I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To train the students in use of mathematical tools in analyzing economic problems.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Basic Concepts: Functions and their Graphs; Limits and Continuity;
Equations – Simple, Quadratic and Simultaneous and Identities; Equations of a Straight line, Concept of Slope; Equation and Interpretation of Rectangular Hyperbola.

UNIT – II

Series- Arithmetic and Geometric; Rate of Growth and its Measurement, Present Value and its Applications.
Annuities: Types, Amount and Present Value; Simple Differentiation.

UNIT – III

***Calculus*:** Partial and Total Differentiation; Homogeneous Function and Euler's Theorem; Maxima and Minima of Functions of One and Two Variables; Constrained Optimization Problem (with maximum three variables). Integration of a Function; Methods of Substitution and Partial Fractions; Integration.

UNIT – IV

Applications: Simple and Direct Applications of the above Concepts in Economics: Concept of Elasticity; Elasticity of Demand; Average and Marginal Functions; Interrelationships among Total, Marginal and Average Cost and Revenues; Partial Derivatives and Nature of Commodities; Optimization Problems Relating to Revenue, Cost, Profit, Utility and Production; Consumer's Surplus and Producer's Surplus.

Essential Readings:

Chiang, Alpha C (1984)	:	Fundamental Methods of Mathematical Economics (3rd Edition).
Weber, Jean E (1982)	:	Mathematical Analysis Business and Economic Applications (4th Ed.)
Yamane, Taro (1972)	:	Mathematics for Economists.

Further Readings:

Allen, R G D (1983)	:	Mathematical Analysis for Economists.
Kooros, A (1965)	:	Elements of Mathematical Economics.
Monga, G S (2000)	:	Mathematics and Statistics for Economists.
Arora, P N & Arora, S (2000)	:	CA Foundation Course in Mathematics.
Bose, D C (1966)	:	An Introduction to Mathematical Economics.

BAHSECO-104 – SOCIOLOGY – I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The systematic study of human behavior and human society is a relatively recent development. The Central emphasis of the paper would be to develop a conceptual clarity regarding the basic sociological terms and themes, thus leading to a development of a sociological outlook. The course would also discuss the works of founding father which led to the development of Sociological thinking.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Developing Sociological Outlook: Definition and Scope; Significance and Uses of Sociology; Relationship of Sociology with other Social Sciences – Anthropology, Economics, Political Science, Psychology, Philosophy and History.

UNIT – II

Basic Concepts: **Society** – Meaning and Characteristics, Theories of Origin, Individual and Society. Community, Association and Institution – Meaning, Characteristics and Differences. Groups – Definition, Characteristics and Classification.

UNIT – III

Culture and Socialization: Culture-Definition, Cultural Lag, Acculturation, Assimilation, Pluralism. Culture and Personality.

Civilization: Definition, Traditional and Modern. Socialization – Meaning, Stages, Agencies.

UNIT – IV

Development of Sociological Thinking.

Comte: Law of Three Stages. Marx: Materialistic Conception of History. Max Weber: Social Action and Rationality. Emile Durkheim: Social Facts and Social Solidarity.

Essential Readings:

Giddens, Anthony : Sociology, Cambridge, Polity Press, 4th Edition.

Haralambos, Michael (2003) : Sociology: Themes and Perspectives. Oxford University Press, Calcutta.

Davis, Kingley (2002) : Human Society. Surjeet Publications, Delhi.

Maclver, R S & Page Charles : Society: An Introductory Analysis. Macmillan India Ltd. (Latest edition).

Johnson, Harry (2003) : Sociology: A Systematic Introduction. Allied Publishers, New Delhi.

Inkeles Alex, (2004) : What is Sociology? An Introduction to the Discipline and Profession. Prentice-Hall, India.

Bradshaw, York W, et.al. (2001) : Sociology for a New Century, Piner Forge Press, California.

Further Readings:

Johnson, Doley Paul (1986) : Sociological Theory, New York, McMillan, (Or later Edition).

Ritzer, George (1988) : Sociological Theory, London, McGraw-Hill, (Or latest edition).

Coser Lewis, (2004) : Masters of Sociological Thought, Rawat Publications, New Delhi.

BAHSECO-105 – ENGLISH – I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: This paper is intended to enable the students to enrich and enhance their communication skills and strategies in order to effectively communicate their ideas, needs, actions, plans, opinions, expertise, aspirations etc., in different and differing social and professional contexts. The course, therefore, focuses on the various oral and written forms of communication, such as presentations, Interviews, meetings, conservations, seminars, discussions, reports, proposals, letters, advertisements, and so on, not only to empower students to come together and share their ideas in various situations and contexts but also to learn how to progress and prosper ethically by using their creative communication strategies.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- The Question paper will be of two parts i.e. Part A (consisting of Unit I and Unit II) and Part B (consisting of Unit III and Unit IV). In Part A there shall be **8 (Eight)** short answer type(or correctional) questions (word-limit 150 words each) and the candidates shall be required to attempt any **four**. Each question in Part A carries **four marks.** In Part B, there shall be 8 (Eight) questions, uniformly spread over the course, and the candidates shall be required to attempt **any four** questions. Each question in Part B carries 16 marks.

BUSINESS COMMUNICATION

UNIT – I

1.1 Nature and Scope of Communication

Introduction: Functions of Communication, Communication Basics, Communication Networks, Tips for Effective Internal Communication; Case Studies.

1.2 Non-Verbal Communication
Introduction, Forms of Non-Verbal Communication, Interpreting Non-Verbal Messages, Tips for Effective Non-Verbal Communication; Case Studies.

1.3 Effective Listening
Introduction, What does 'listening' mean? Types of Listening, Effective and Ineffective Listening Skills, Active and Passive Listening, Leadership and the role of Listening in Leadership Styles; Case Studies.

1.4 Business Presentations and Public Speaking
Introduction, Business Presentations and Speeches, Business Presentations: Sample Outlines; Effective Sales Presentations; Case Studies.

UNIT – II

2.1 Interviews

Introduction, Fundamental Principles of Interviewing, Types of Interview Questions, Types/Styles of Interview/Interviewing; Case Study.

2.2 Business Writing and Correspondence

Introduction, Written Business Communication, The Seven C's of Business Letter Writing, Effective Business Correspondence: Basic Principles; Kinds of Business Letters; Writing Effective Memos; Case Study.

2.3 Business Reports and Proposals

Introduction, What is a Report? Steps in Writing a Routine Business Report, Format of Proposals, Four Key Elements in Winning Business Proposals; Case Studies.

2.4 Meetings and Conferences

Introductions, How to lead Effective Meetings, Minutes, Planning a Conference, Effective Meetings vis. Video-Conferences, Web Conferences.

UNIT – III

3.1 Group Discussion and Team Presentation

Introduction, Methodology of Group Discussion, Role Functions in Group Discussions, Improving Group Performance, Team Presentations, Case Studies.

3.2 Technology – Enabled Business Communication

Introduction, Technology Based Communication Tools, Impact of Technology enabled Communication, Selection of Appropriate Communication Technology.

3.3 Communication Across Functional Areas

Introduction, Marketing Communication/Integrated Marketing Communication, Direct vs. Indirect Selling, Project Management Communication, Human Resource Communication, Case Studies.

3.4 Persuasive Strategies in Business Communication

Introduction, Advertising, Conflict Management, Negotiation, Case Studies.

UNIT – IV

4.1 Corporate Communication

Introduction, Corporate Communication and Social Responsibility, Cross-Cultural Communication, Case Study.

4.2 Ethics in Business Communication

Introduction, Ethical Communication: Austerity in Speech, Value, Ethics and Communication, Ethical Dilemmas Facing Managers, Ethics in Advertising/Computer Ethics, Case Study.

4.3 Business Communication Aids

Introduction, Elements of Effective English, The Power of Reading, Effective Paragraphs, Punctuation and Capitalization, Referencing Styles, E-mail etiquettes, Business Terms.

4.4 Conversations.

Introduction, Types of Conversation, Essentials of a Business Conversation, Successful Conversation, Case Study.

Essential Readings:

Meenakshi Raman & Parkash Singh (2008)	:	Business Communication. Oxford University Press, New Delhi.

Further Readings:

Adair, John (2002)	:	The Effective Communicator. Jaico Publishing House, Mumbai.
Ludlow, Ron & Fergus Panton (1999)	:	The Essence of Effective Communication, Prentice Hall of India, New Delhi.
Chaturvedi, P D & Mukesh Chaturvedi (2006)	:	Business Communication, Pearson, New Delhi.
Courtland, L Bovee and John V Thill (2008)	:	Business Communication Today, Pearson, New Delhi.

SEMESTER – II

BAHSECO-201 – HISTORY OF ECONOMIC THOUGHT – I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Evolution of economic ideas is both a response to contemporary economic problems and a self-conscious attempt to refine earlier ideas to integrate them as a part of current social thought. The objective of this course is to familiarize the students with the historical evolution of economic ideas into the contemporary economics.

The time-tested method of imparting verbal instructions thought lectures would be used. Examples, in so far as possible, would be selected from everyday life-experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Introduction*:* The Economic Revolution; Scope and Significance of the Study of History of Economic Thought. Techniques of Economic Analysis, The Sociology of Economics. Methodology: Relativism and Absolutism. Deductive and Inductive Method.

UNIT – II

Mercantilism *:* Factors Responsible for the Rise of Mercantilism. The Mercantilist Conception of Foreign Trade, State, Money and Population.

Physiocracy*:* Rise of Physiocracy; Concept of Net Product; Natural Order; Circulation of Wealth.

UNIT – III

Classical School*:* Adam Smith: Theory of Value; Distribution; Growth.
Ricardo: Theory of Value; Distribution; Trade; Views on Machinery.
Malthus: Market Glut and Glut Controversy.
J S Mill: Stationary State.

UNIT – IV

Reactions Against Classicism: Factors Responsible for the Rise of Socialism. Saint Simon and Sismondi.
Karl Marx: Dialectical Materialism, Mode of Production and its Fundamental; Historical Materialism and Pre-Capitalistic Economic Formations (Primitive Communism, Slavery and Feudalism), Rise and Fall of Capitalism.

Essential Readings:

Screpanti (2006) : Outline of History of Economic Thought. Oxford University Press, Calcutta.

Helbroner, R.L. (1953) : The Worldly Philosopher, Touchstone Books, New York.

Hunt, E K (2005) : History of Economic Thought. Spring Books, Gurgaon.

Blaug, M (1983) : Economic Theory in Retrospect, Vikas Publishing House, New Delhi.

O'Brien, D P (1975) : Classical Economists, Clarendon Press, Oxford.

Dobb, Maurice (1973) : Theories of Value and Distribution since Adam Smith. Vibha Publishing House Pvt. Ltd., New Delhi.

Sweezy, Paul M (1952) : The Theory of Capitalist Development, Denis Dobson Ltd., London.

Eric Roll (1993) : A History of Economic Thought, Rupa & Co., New Delhi.

Further Readings:

Dasgupta, A K (1986) : Epochs of Economic Theory Oxford University Press, New Delhi.

Collander, D C (Ed.) : Neo- Classical Economists.

Mandel, E (1971) : Marxist Economic Theory. Upra and Co.

Schumpter, J A (1954) : History of Economic Thought. Oxford University Press.

Samuel Hollander (1987) : Classical Economics.

Tom Bottomore (1980) : Disctionary of Marxist Thought. Basic Blackwell Publishers, England.

BAHSECO-202 – MICRO ECONOMICS – I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To comprehensively equip the students with the theoretical concepts, methodology and process of reasoning involved in analyzing economic behavior of individuals.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Methodology of Positive Economics.
Construction and Appraisal of Economic Theories: Alternative Approaches.

Equilibrium: Concept, Existence and Uniqueness of Equilibrium. Types, Static and Dynamic Equilibrium. Partial and General Equilibrium.

Stability Analysis: Marshallian and Walrashallian Approaches.

UNIT – II

Choice Under Certainty*:* Indifference Curves.
Application of Indifference Curves*:* Cash Subsidy Vs. Kind Subsidy: Income Leisure Choice; Inter-temporal Choice of Consumption.

Revealed Preference (Weak and Strong Axioms) Analysis.
Choice Under Uncertainty: Measurement of Risk. Expected Utility and Preferences towards Risk-Return Trade-Off. Reducing Risk.

Market Demand: The Role of Network Externalities.

UNIT – III

Theory of Production.
Concept of Production Function: Fixed and Variable Proportion Production Function.
Given Technology and One Variable Factor: Returns to Factor Proportion;
Factor Productivity Curve: Stages of Production and Rational Zone of Production.
Given Technology and Two Variables Factors: Returns to Scale, Production Isoquants, Marginal Rate of Technical Substitution, Economic Zone of Production and Ridge Lines Expansion Path Under Different Types of Returns to Scale.
Given Technology and Fixed Amount of One Factor: Production Transformation Curve, Marginal Rate of Transformation in Production.

UNIT – IV

***Producer's Equilibrium*:** Cost Concepts, Derivation of Short Run Cost Curves from Factor Productivity Curves
Long Run Cost Curves: Derivation, shape and Slope. Economies and Diseconomies of Scale and Their Role in the shape and Slope of Long Run Cost Curves.
Concept and Conditions of Producers Equilibrium with Profit Maximization as the Goal: Choice of Cost.
Maximizing Input Combination: Output and Substitution Effects, Elasticity of Factor Substitution. Output Maximization subject to a Given Budget and Cost Minimization subject to a Given Output Constraint.
Choice of Optimal Product Mix: Two Products Case only. Revenue Maximization subject to a given Budget to Purchase Factors of Production.
Dynamic Changes in Costs of Production: The Learning Curve Analysis.

Essential Readings:

Briet, W and Hochman, H M (Ed.)	:	Readings in Micro Economics, Dryden Press, Hindala, Illinos.

BAHSECO-203 – MATHEMATICS FOR ECONOMIC ANALYSIS – II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To train the students in use of mathematical tools in analyzing economic problems.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Matrices and Determinants: Types; Transpose, Trace, Ad joint and Inverse of Matrices; Solution of a System of Two and Three Equations by Matrix Inverse and Cramer's Methods; Linear Independence and Linear Dependence of Vectors; Rank of Matrix; Simple Application Questions. Application in Input-Output Analysis.

UNIT – II

Differential Equation: Introduction; Solution: Variable Separable Case, Homogeneous Case, Standard Linear Differential Equation, Bernoulli's form, Exact Equation; Solution of Linear Differential Equation with Constant Coefficients; Simple Application Questions.

UNIT – III

Difference Equation: Introduction; Solution of Difference Equations upto 2nd Order. Simple Application Questions.

UNIT – IV

Linear Programming: Formulation and Solution by Graphic Method & Simplex Methods.

Essential Readings:

Chiang, Alpha C (1984)	:	Fundamental Methods of Mathematical Economics (3rd Edition).

BAHSECO-204 – SOCIOLOGY – II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The systematic study of human behavior and human society is a relatively recent development. The Central emphasis of the paper would be to develop a conceptual clarity regarding the basic sociological terms and themes, thus leading to a development of a sociological outlook. India has a history extending over nearly four millennia, and indeed is a complex civilization. The course would through sociological concepts develop an perspective which would help in arriving at understanding the contemporary and the Social Change it has undergone since ages.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Social Stratification: Concept - Social Stratification, Inequalities and Differentiation. Elements: Position, Role and Status. Perspectives on Stratification – Functionalist: Davis and Moore, Tumin; Conflict – Marx, Dahrendorf; Weberian.

UNIT - II

Forms of Stratification and Social Mobility: Forms of Stratification – Caste, Class, Race and Gender. Social Mobility: Definition; Indicators – Social, Economic, Political; Types – Horizontal and Vertical (Upward and Downward) and Intergenerational.

UNIT – III

Social Change: Social Change – Definition. Factors: Demographic, Technological, Educational, Legislative. Processes of Change: Sanskritization, Westernization and Globalization.

UNIT – IV

Social Change in India: Change in Caste Structure; Rise of Middle and Neo-Middle Class; Changing Status of Women; Resurgence of Ethnicity.

Essential Readings:

Beteille, Andre (2002)	:	Equality and Universality – Essays in Political Theory, Oxford University Press.
Tumin, Melvin, (Latest edition)	:	Social Stratification, Prentice Hall, New Delhi.
Singh, G (1985)	:	The New Middle Class in India – A Sociological Analysis, Jaipur, Rawat.
Singh, Yogendra (1973)	:	Modernization of Indian Tradition, Jaipur, Rawat (or latest edition).
Srinivas, M N (2004)	:	Social Change in Modern India, Orient Longman (Latest Edition).
Sharma, K L (2006)	:	Social Stratification and Mobility, Rawat Publication, New Delhi.
Abraham Francis, M (2004)	:	Modern Sociological Theory – An Introduction, Oxford University Press, Delhi.

Further Readings:

D'Souza, V S (1981)	:	Inequality and Its Perpetuation, Manohar Publications, New Delhi.
Singh, K S (ed.) (1992)	:	Ethnicity Caste and People: India and Soviet Union. Manohar Publications, New Delhi.
Singer Milton, Coha Beemard (2001)	:	Structure and Change in Indian Society, Rawat Publications, New Delhi.
Atal Yogesh,(2006)	:	Changing Indian Society, Rawat Publications, New Delhi.

BAHSECO-205 – ENGLISH – II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To introduce literature for the purpose of developing comprehension and analytical skills in the students.

To teach the students to understand and appreciate cultural contexts in order to know how literature represents society.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- Question paper will be of two parts i.e. Part A (consisting of Unit I and Unit II) and Part B (consisting of Unit III and Unit IV). In Part A there shall be **8 (Eight)** short answer type(or correctional) questions (word-limit 150 words) and the candidates are required to attempt any **four**. Each question carries **four marks** and in Part B, there shall be 8 (Eight) questions, uniformly spread over the course, and the candidates would be required to attempt **any four** questions. Each question carries 16 marks.

UNIT – I

POETRY

1. Makarand Pranjape, "Free Fall" (p.65) I Partial Disclosure, N Delhi, Mantra, 2004
   (Poem No. XXXV from GITANJALI)

AGHA SAHID ALI – "Postcard from Kashmir" (P.141) from The Oxford India Anthology of Twelve Modern Indian Poets (ed. A K Malhotra) New Delhi, OUP 2003

IMTIAZ DHARKER: "Blessing" and "A Woman's Place" from PURDAH AND OTHER POEMS, Delhi, OUP, 1989 (P. 37 and PP. 32-34).

UNIT – II

PROSE FOR CRITICAL THINKING

1. M. K. Gandhi – "What is True Civilization?" (PP. 54-57) in Hind Swaraj or Indian Home Rule, Ahmedabad, Navjivan, 1995.

2. J L Nehru – "The Importance of the National Idea: Changes Necessary in India" (PP 528 – 37) from The Discovery of India.

3. Nirmal Verma – "The Indian Culture and Nation" from India and Europe (PP 95-104).

4. Amrtya Sen – "The Argumentative Indian" (PP. 3-33) from his The Argumentative Indian (2005).

UNIT – III

SHORT STORIES

1. Saadat Hasan Manto – "Toba Tek Singh" (PP. 141 – 148) from For Freedom's Sake.
2. Mahasweta Devi – "The Hunt" in Imaginary Maps (1-17).

UNIT – IV

NOVEL

1. Raja Rao : KANTHAPURA

Essential Readings:

Gandhi, M K	:	Hind Swaraj
Aurobindo Sri	:	Foundations of Indian Culture
Verma Nirmal	:	India and Europe: Selected Essays
Nehru J L	:	The Discovery of India
Sen Amartya	:	The Argumentative India

SEMESTER – III

BAHSECO-301 – HISTORY OF ECONOMIC THOUGHT – II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Evolution of economic ideas is both a response to contemporary economic problems and a self-conscious attempt to refine earlier ideas to integrate them as a part of current social thought. The objective of this course is to familiarize the students with the historical evolution of economic ideas into the contemporary economics.

The time-tested method of imparting verbal instructions thought lectures would be used. Examples, in so far as possible, would be selected from everyday life-experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

***Marginalism*:** Origin of Marginal Revolution.
Jevons: Mathematical Character of Science, Logical Method of Economics, Relation of Economics to Ethics, The origin of Value.
Bohm-Bawork: Theory of Capital and Interest.

UNIT - II

Neo Classical Economics – Main Features.
Marshall: Scope and Method of Economics; Value and Utility.
***Pigou*:** The concept of Welfare and Economic Welfare.
***Schumpeter*:** Theory of Economic Development.

UNIT-III

Keynes: The Postulates of the Classical Economics; Principle of Effective Demand; Consumption Function and Propensity to Consume; Investment and Inducement to Investment.
***Kalecki*:** Political aspects of full employment; Distribution of National Income.

UNIT – IV

***Friedman*:** The role of government in free society; Capitalism and discrimination; Social welfare measures.
Phases of Neo-Liberalism: 1980s and 1990s; Rise of finance capital and stagnation in world economy.

Essential Readings:

Jevons, W. S. (1888) : The Theory of Political Economy, Macmillan and Co., New York and London. Chapter 1 and 6.

Marshall, (1890) : Principles of Economics 8th Edition, Macmillan and Co., New York and London Book III, Chapter 6 and Appendix C51.

Pigou, A.C. (1920) : The Economic of Welfare, Macmillan and Co., New York and London, Chapter 20.

Keynes J.M. (1936) : The General Theory of Employment, Interest and Money, Reprinted by Atlantic Publication, New Delhi. Chapter 2,3,8,9,10 and12.

Kalecki M. (1971) : Selected Essays on the Dynamics of Capitalism, University Press, Cambridge.

Friedman, M. (1962) : Capitalism and Freedom, The University of Chicago Press, Chicago and London.

Foster, J. B. and McChesney (2012) : The Endless Crisis, Monthly Review Press.

Harvey, D. (2005) : A Brief History of Neoliberalism, Oxford University Press, New York.

Steger M.B. and Roy, R.K. (2010) : Neoliberalism: A very Short Introduction, Oxford University Press, New York.

Further Readings:

Screpanti (2006) : Outline of History of Economic Thought. Oxford University Press, Calcutta.

Blaug, M (1983) : Economic Theory in Retrospect. Vikas Publishing House, New Delhi.

Dasgupta, A K (1986) : Epochs of Economic Theory. Oxford University Press, New Delhi.

Collander, D C (1984) : Neo-Classical Political Economy, Ballinger, Cambridge, M A.

Mandel, E (1971) : Marxist Economic Theory. Upra & Co.

Schumpter, J A (1954) : History of Economic Analysis, Oxford University Press, Oxford.

BAHSECO-302– MICRO ECONOMICS – II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To rigorously train the students with the concepts, methodology and reasoning involved in analyzing the economic behavior of firms and markets, in general, a static and partial equilibrium frameworks.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Market Structure and Pricing: Alternative Objectives of a Firm. Profit Maximization and Competitive Markets, Short and Long Run Supply Curves of a Competitive Firm and Industry. Functioning of Competitive Markets and Efficiency of Resource Allocation. Consumer's and Producer's Surplus and Aggregate Welfare. Evaluating the Gains and Losses from Governmental Intervention in Competitive Markets.

Monopoly: Source of Monopoly; Price Determination and Equilibrium under Monopoly; Measuring Monopoly Power: Performance and Structure based Measures of Monopoly Power; Multi Plant Monopoly; Welfare Losses under Monopoly; Public Regulation of Monopoly. Natural Monopolies.

Pricing Under Market Power: Price Discrimination, Inter-temporal Price Discrimination and Peak Load Pricing. Two Part Tariffs, Tying and Bundling. Pricing of Public Utilities and Efficiency of Resource allocation.

UNIT -II

Monopolistic Competition: Chamberlin and the Theory of Monopolistic Competition: The Concept of Industry and Product Group Product Differentiation; Selling Costs/Advertisement: Short and Long Run Equilibrium of a Firm/Group with and without Selling Costs; The Issue of Excess Capacity.

Non-Collusive Oligopoly: The Nash Equilibrium (Basic Idea): Cournot, Stackelberg and Bertrand Models. Kinked Demand Curve Analysis; The Prisoner's Dilemma: Rivalry Versus Collusion: Collusive Oligopoly: Informal Collusion; Price Leadership Models, Price signaling, Basing Point Systems, Formal Collusion; Cartels and Mergers.

Baumol's Sales Maximization Model (without Advertisement).
Non-Price Competition: Advertisement and Quality Spending on Advertisement by a Firm; Advertisement and Prices; Advertisement and Quality of the Products.
Barriers to Entry. Contestable Markets; Limit Pricing; Concept only.

UNIT – III

Markets for Factor Inputs: (largely with reference to Labour): A Firm's and Market Demand for a labor (with one and several Variable Inputs) and its Determinants. Supply of labor to a firm and the Market.
Equilibrium Wage Rate and Employment Under:

i) Competitive Factor and Product Market
ii) Monopsonistic Buyer of Labor and Perfect Competition in Labor Market
iii) Imperfect Competition in Product Market and Trade Union Monopoly in Labor Market,
iv) Bilateral Monopoly.

UNIT – IV

Welfare Economics: Pareto Efficient Resource Allocation; Pareto Criterion Welfare Function: Compensation Criteria; Kaldor-Hicks and Scitovisky. Arrow's Impossibility Theorem.
Market Failure and its Causes:

i) Markets with Imperfect Competition
ii) Markets with Asymmetric Information: Adverse Selection and Moral Hazards.
iii) Consumption and Production Externalities.
iv) Common Property Resources
v) Public Goods.

Essential Readings:

Mankiw, Gregory N (1968) : Principles of Economics, 3rd Edition, Thomson, 3rd Indian Reprint (2007).

Boumol, William J and Blinder : Microeconomics: Principles and Policy 9th Edition, Thomson, 1st Indian Edition (2007).

BAHSECO-303– DEVELOPMENT ECONOMICS – I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: As a sequel to the post-second war developments, the study of Economic Development gained impetus primarily because three-fourth so humanity was experiencing wretched conditions of existence. There was a pressing need in those countries for uplifting their economic conditions by restructuring their economies to acquire greater diversity, efficiency and equity, in consonance with their priorities.

Since a variety of perspectives were available, the policy makers were eager to acquaint themselves with various policy options in their bid to re-construct their dilapidated economies. In addition, various international bodies were also keen to help and guide the laggards. Consequently, the study of development economics assumed greater significance.

In recent times, the resurgence of markets and greater focus on areas like education, health, sanitation, energy and environment, and infrastructure development, hitherto relegated to the background, have reopened some of the old debate besides opening up new area for investigation. Growth and Development economists are making earnest efforts at theorizing to break fresh grounds. Consequently, study of this discipline continues to be of prime importance.

Modules incorporated in this paper are devoted to the theories of growth and development, importance of Agriculture, and the rationale and pattern of industrialization developing countries. The other important issued in the context of development such as infrastructure-linkages, role of international trade, importance of economic policies and relevance of planning have been included in the modules of this paper

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Understanding Development: Living in a Hetrogeneous World-Islands of Prosperity and How the Other Three Quarters Live. Dividing the World and Levels of Development (Development as an Evolving Concept i.e. Development, Growth and Change; Goulet's Three Core Values of Development; Sen's Conception of Development; Income/Output Based Measures and their Inadequacies; PQLI and HDI as Indicators of Development).

UNIT – II

Diverse Structures and Common Characteristics of Developing Nations: Size and Income Level (The Vicious Circle of Poverty and Low Level Equilibrium Trap), Historical Background (Colonialism and Dependence), Meaning of Dualism, its Characteristics and forms, Resources and Technology (Quantum and Quality of Natural Resources, Physical Capital and Technology); Values and Institutions.

UNIT – III

Theories of Development: David Ricardo; Karl Marx; Schumpeter and Rostow's Theory of Stages of Economic Growth.

UNIT – IV

Population Growth, Economic Development and Environment: The Historical Changes in World Population, Demographic Transition, Interrelation between Population Growth and Economic Development (from Pessimism to Optimism), Sustainable Development (Conceptualization, Concerns, Indicators and Remedial Measures).

Essential Readings:

Thirlwall, A.P.(2003) : "Growth and Development", Seventh edition, Palgrave Mcmillan, New York.

Todaro, Michael P and Stephen C Smith (2004) : "Economic Development:, Pearson Education (Singapore) Pvt. Ltd., Indian Branch, Delhi.

BAHSECO-304– ECONOMICS OF AGRICULTRUE

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The focus of this course is to introduce students to the importance of agricultural sector and to the issues associated with agricultural transformation, agricultural production and demand of and supply for agricultural commodities. The objective is to equip students to analyze and critically assess issues, policies and programmes in this areas with particular emphasis on Indian Agriculture.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Introduction*:* Nature and Scope of Economics of Agriculture; Specificities of Farm Organization, Agricultural Production and Markets; Inter-sector Linkages of Agriculture.

Role of Agriculture in Economic Development*:* Contribution of Agriculture to Economic Development; Historical Perspective (Experience of England, United States, Japan and India).

UNIT – II

Agricultural Production: Uniqueness of Agricultural Production; Various Types of Factor-Product, Factor-Factor and Product-Product Relations; Cobb-Douglas and CES Production Functions.

Farm Size – Productivity and Tenancy Efficiency Debate.

UNIT – III

Agricultural Transformation*:* Schultz Theory of Transformation of Traditional Agriculture; Hayami-Ruttan Induced Innovation Model (HRIM) of Agricultural Development.

Land Reforms in Indian Agriculture.

UNIT – IV

Risk and Uncertainty in Agriculture*:* Nature and Types of Risks and Uncertainties in Agriculture, Public Policies and Farm Level Measures to Reduce Risk and Uncertainties.

Terms of Trade between Agriculture and Industry; Agricultural Price Policy since Independence.

Essential Readings:

BAHSECO-305– STATISTICS FOR ECONOMIC ANALYSIS

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The Objective of this paper is to train the students in the use of statistical tools in analyzing economic problems. The course content contains simple tools and techniques, considered necessary for data collection, presentation, analysis and drawing inferences about various statistical hypotheses.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Introduction: Basic Concepts: Population, Sample, Parameters, Statistic, Frequency Distribution, Cumulative Frequency Distribution; Graphic and Diagrammatic Representation of data; Techniques of Data Collection. Sampling Vs. Population, Primary and Secondary Data.

Central Tendency and Dispersion: Measures of Central Tendency: Mean, Median, Mode, Geometric Mean, Harmonic Mean; Measures of Dispersion; Range, Quartile Deviation Mean Deviation, Standard Deviation; Skewness and Kurtosis, Moments.

UNIT – II

Correlation and Regression: Correlation: Simple; Coefficient of Correlation; Karls Pearsons and Rank Correlation; Partial and Multiple Correlation Analysis; Regression Analysis – Estimation of a Regression line in a Bivariate Distribution, Least Squares Method: Interpretation of Correlation and Regression Coefficients; Coefficient of Determination.

UNIT – III

Time Series and Index Numbers: Time Series Analysis – Concept and Components, Determination of trend (Linear, Quadratic and Exponential); Index Numbers – Concept, Price Relative, Quantity Relative and Value Relative, Laspeyer's, Paasche's and Fisher's Index Numbers; Family Budget Method; Problems in the Construction and Limitation of Index Numbers; Tests of an Ideal Index Number.

UNIT – IV

Probability and Distribution: Probability; Concepts, Rule of Probability (Addition and Multiplication); Random Variables; Mathematical Expectation; Theoretical Distribution – Binomial, Poisson and Normal; Their Properties, Uses and Application.

Sampling and Testing of Hypothesis: Random Sample; Concept of Sampling Distribution; Concepts of Testing of Hypothesis and Test of Significance; Tests of Significance of Proportion, Mean, Variance and Regression Coefficients (Based on z, t and F Distributions only).

SEMESTER – IV

BAHSECO-401– MACRO ECONOMICS – I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Macroeconomics or aggregate economics analysis establishes the functional relationship between the large aggregates. After the great depression of 1930s, the analysis of aggregates such as aggregate production, employment and price level has assumed great significance. And to understand the nature of overall economic problems such as recession, boom, depression, unemployment, inflation, instability, stagnation etc. a priori understanding of macroeconomic theoretical structure is considered essential. Macro economics now is not only a scientific method of analysis, but also a body of empirical economic knowledge.

The paper entitled Macro economics equips the students at the undergraduate levels to understand systematic facts and latest theoretical developments for empirical analysis.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type). The scripts would be evaluated by the examiners having adequate postgraduate teaching experience in the paper/option concerned.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Consumption Function: Absolute Income Hypothesis, Empirical Evidence on Consumption Function and Consumption Puzzle, Relative Income, Permanent Income and Life Cycle Hypotheses, Consumption under Uncertainty – Modern Approach.

UNIT – II

Investment Function: Keynesian Theory, Accelerator Theory, Neo-Classical Theory and Tobin's Q Theory.

UNIT – III

Supply of Money: Theoretical Debate and Empirical Attempts to Define Money and Money Supply, Components of Money Supply, Credit Creation by Commercial Banks, High Powered Money and Money Multiplier.

Demand for Money: Classical Quantity Theory of Money, Keynesian Theory, Baumol (Inventory Theoretic Approach) and Tobin (Risk Aversion Approach), Friedman's Restatement of Quantity Theory of Money.

UNIT – IV

Derivation, Properties, Shifts, Rotations of IS and LM Curves; Simultaneous Equilibrium in Money and Product Markets.

Essential Readings:

Branson W (1989)	:	Macro economic Theory and Policy. 3rd Edition, Harper Collins.
Dornusch, R (1980)	:	Open Economy Macroeconomics Basic Books.

BAHSECO-402– DEVELOPMENT ECONOMICS – II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The main objective of this course is to look at the process of growth and development in terms of its characteristics such as structural transformation, pattern of distribution of income, its inter-sectoral interface. In addition, it also aims to take up issues pertaining to the emerging global scenario and the debate concerning the planning vs. marketism which is so vital for development theorists and practitioners.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Economic Growth and Structural Change: Structural Changes in the Composition of Gross Domestic Product, Occupational Structure, Structure of Capital Accumulation; and Accumulation of Human Capital; Exploring the Relationship between Economic Development and Income Distribution (Kuznets' Inverted U – shaped Curve and Augmented Kuznets' Curve).

UNIT – II

Agriculture – Industry Interface: Interdependence between Agriculture and Industry; Industrialization and Urbanization (The Models of Lewis, Fei and Ranis and Todaro); The Balanced Growth Doctrine (Review of Rosenstein, Nurkse and Lewis); The Strategy of Unbalanced Growth (Hirschman's version), and the Reconciliation of the two.

UNIT – III

Economic Isolation and Integration with the Global Market: International Trade and Economic Development (Three Stories about the Trade and Development Relationship); Developmental Aid-Role, Trends and Constraints; Role of Foreign Direct Investment (FDI) and Multi-National Corporations (MNCs) in the Emerging Scenario.

UNIT – IV

Market and State: An Overview of the Economic Functions of the Market and State; Efficiency of the Competitive Market, Market Failure, Government Failure, on the Choice of Economic System, Market Failure in a Dynamic Economy.

Essential Readings:

BAHSECO-403– ECONOMICS OF INDUSTRY

Max. Marks: 80 **Time: 3 Hrs.**

Objective: In the Contemporary world with globalization and liberalization more and more attention is being given to industry. Since industry performance critically depends on firms' behavior allowing equilibrium outcome, the course intends to provide a rigorous knowledge of different long-run equilibrium outcome of firms under different conditions from the point of view of public policy. The students are also equipped to deal with debates involved in the industrial development in a cogent and analytical manner, particularly in the Indian context.

However, it should be noted that Game Theoretic approach to any topic/problem is outside the scope of the present syllabus.

The time-tested method of in parting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Basic Concepts of Firm, Industry and Market; Organizational Forms. Separation of Ownership from Management and Control. Alternative Goals of Firm: Contributions of R Marris and Williamson.

UNIT – II

Elements of Market Structure: Sellers' and Buyers' Concentration, Product Differentiation, Conditions of Entry. Measurement of Sellers's Concentration. Determinants: Economies of Scale and Barriers to Entry.

Growth of Firms: Vertical Integration, Diversification; Concepts of Mergers and Acquisitions.

UNIT – III

Oligopolisitic Conduct: Evolution of Market Structure – Conduct – Performance Paradigm, Economics of Advertisement: Concepts, Market Structure and Advertisement. Economics of R & D: Concepts, Measurement and Market Structure and Innovation.

UNIT – IV

Allocative Efficiency: Market Structure and Profitability. Productive Efficiency: Degree of Sub Optimal Capacity.

Essential Readings:

BAHSECO-404– BASIC ECONOMETRICS

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Application of economic theory need a reasonable understanding of economic relationship and relevant statistical methods. The econometric theory thus becomes a very powerful tool for understanding of applied economic relationships and for meaningful research in economics. This paper accordingly is devoted to equip the students with basic theory of econometrics and relevant applications of the methods. The topics covered in the course include various problems faced in estimation of both single equations and simultaneous equations models.

Besides the time-tested method of imparting verbal instructions through lectures, description and derivation of econometric models would be demonstrated by extensive use of blackboard. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments and written examinations.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Introduction: Definition, Scope, and Methodology of Econometrics; Nature and Source of Data for Econometric Analysis; Specification of an Econometric Model.

Simple and Multiple Regression Models: Estimators (OLS) and their Properties; Statistical Inference; Tests of Significance of Regression Estimates; Maximum Likelihood Estimation.

UNIT – II

Econometric Problems: Nature, Consequences, Detection and Remedial Measures for the Problems of Multicollinearity, Hetroscedasticity and Autocorrelation.

UNIT - III

Test Procedures and Model Selection: Specification Errors: Nature, Types, Consequences, Tests and Remedial Measures.

Dynamic Models: Introduction to Distributed Lags and Autoregressive Models, Koyck Model, Rationalization of Koyck Model.

UNIT – IV

Simultaneous Equation Models (SEM): Introduction, Simultaneous Equation Bias. Identification Status of SEM (with and without restrictions) Problem.

Methods of Estimation: 1LS, 2SLS, 3SLS and LIML.

Essential Readings:

Gurjarati Damodar, N (2004)	:	Basic Econometrics (4th Ed.), McGraw Hills Co.
Kemanta, J (2008)	:	Elements of Econometrics (2nd Ed.), Macmillan, New York.
Maddala, G S (2007)	:	Introduction to Econometrics (3rd Ed.) Wiley India.

Johnston, J & Dinardo, J (1997)	:	Econometric Methods (4th Ed.) McGraw Hills.
Wooldridge, Jeffery M (2000)	:	Introductory Econometrics, South Western College Publishing.

BAHSECO-405– ECONOMICS OF POPULATION

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The main objective of this paper is to make the students aware of the importance of population in economic development and the various theories that explain the growth of population in a country. The study of Quantitative and Qualitative composition of population is also required to understand the dynamics of population growth. Migration and urbanization are the characteristics of structural changes taking place in the economy.

The time-tested method of in parting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching.

20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Theories of Population: Malthus, Optimum, Marxian, Leibenstein, Becker, Demographic Transition Theory and Optimum Population Theory.

Population and Economic Development: Utilization of Resources (Boserup Thesis) Technology and Production of Food, Population and Environment.

UNIT – II

Population Structure and Characteristics: Impact of Population Growth on the Age and Gender Structure. Aging of Population.

Fertility: Concepts of Fertility Transition. Measurement of Fertility and Fertility Differentials in India.

Mortality: Components and Measurement. Mortality Differentials in India.

UNIT – III

Migration: Concepts, Types, Measurement, Migration Selectivity, Causes and Consequences (Economic and Demographic) of Migration.

Migration in India: Causes and Trends, Migration Differentials in India: Rural-Urban, Male-Female.

Urbanization: Concepts, Determinants and Consequences. Trends of Urbanization in India.

UNIT – IV

Growth and Structure of Indian Population.

Literacy: Literacy Transition in India, Pattern of Literacy and Literacy Differentials in India.

Economic Composition of Indian Population: Work Force Participation and Occupational Structure.

Population in Estimation of India: Census, Sampling and Vital Registration Methods.

Population Policy in India since Independence.

SEMESTER –V

BAHSECO-501– CONTEMPORARY ISSUES IN INDIAN ECONOMY – I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The objective of this paper is to acquaint the students with the strategy of economic development of the Indian Economy since Independence. The paper also aims at creating an awareness among the students regarding the contemporary issues pertaining to various sectors of the economy.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Development Process of the Indian Economy: Adoption of Planning in India: Objectives, Strategy and Assessment (Plan wise details to be excluded). State of the Economy in 1991. Features of the Economic Reforms and Structural Adjustment Programme: Liberalization, Privatization and Globalization. Appraisal of Economic Reform Programme.

UNIT – II

Agricultural Development: Pattern of Growth of Indian Agriculture since 1950 – Role of Green Revolution Agricultural Development. Deceleration in the 1990s – Causes and Future Challenges. Economic Liberalization and Emerging Trends in Indian Agriculture.

UNIT – III

Industrial Development Strategy: Trends in Growth and Structure of Indian Industry. Critique of Regulatory Industrial Policy Regime. Deregulation and Liberalization of the Private Sector. Privatization – Nature and Extent in India. Impact of New Economic Policy on Indian Indstry.

UNIT – IV

Indian Public Finances: Fiscal Federalism in India – Centre State Financial Relations, Inter-Governmental Transfers. Fiscal Reforms. Fiscal Responsibility and Budget Management Act, 203. Need for Expenditure Reforms – Expenditure Reforms Commission.

Essential Readings:

Brahmananda, P R & Panchmukhi (Eds.) (1987)	:	The Development Process of Indian Economy, Himalaya Publishing House, Bombay.
Lucas, E B & Papanek, GF (eds) (1988)	:	The Indian Economy – Recent Development and Future Prospects, Oxford University Press,

BAHSECO-502– MACRO ECONOMICS – II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Macroeconomics or aggregate economics analysis establishes the functional relationship between the large aggregates. After the great depression of 1930s, the analysis of aggregates such as aggregate production, employment and price level has assumed great significance. And to understand the nature of overall economic problems such as recession, boom, depression, unemployment, inflation, instability, stagnation etc. a priori understanding of macroeconomic theoretical structure is considered essential. Macro economics now is not only a scientific method of analysis, but also a body of empirical economic knowledge.

The paper entitled Macro economics equips the students at the undergraduate levels to understand systematic facts and latest theoretical developments for empirical analysis.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type). The scripts would be evaluated by the examiners having adequate postgraduate teaching experience in the paper/option concerned.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

***Labour Market*:** Demand for and Supply of Labour Curves, Labour Market
Equilibrium – Classical and Keynesian Views.
Classical and Keynesian Models of Income and Employment Determination.
Wage-Price Flexibility and Automatic Full Employment – Classical Versus Keynesian Approach.

UNIT – II

***Inflation**:* Effects, Quantity Theory, Keynes' Theory, Phillips Curve Analysis – Short Run and Long Run, Structuralist Theory.

***Trade Cycle**:* Hansen-Samuelson Accelerator – Multiplier Interaction Model, Hicks Model, Kaldor Model. Causes and Consequences of Great Depression and Global Economic Crisis.

UNIT – III

***Balance of Payments**:* Capital and Current Accounts, Causes and Consequences of Disequilibrium in Balance of Payments, Balance of Payments Adjustment Policies under Fixed and Flexible Exchange Rates.

***Monetary and Fiscal Policies**:* Objectives, Conflicts among Objectives, Mundell Model, Swan Model, Relative Effectiveness of Monetary and Fiscal Policies under Different Situations in IS-LM Framework.

UNIT – IV

Features of Monetarism.
The New Classical School – Rational Expectations Hypothesis, Policy Ineffectiveness Proposition, Real Business Cycle Theory.
The New-Keynesian School – Core Features and Propositions.

Essential Readings:

Branson W (1989) : Macro economic Theory and Policy. 3rd Edition, Harper Collins

BAHSECO-503 – ECONOMICS OF PUBLIC FINANCE

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Government Budget is increasingly playing a very important role in market economies to achieve better economic outcome. The course is designed to familiarize the BAHS students with the relevant concepts and educate them about the theoretical issues to study the broader implications of the budget.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Introduction to Public Finance: Nature, Scope and Importance. Theory of Maximum Social Advantage. Private Goods, Public Goods and Merit Goods. Overview of Different Role of Government: Allocation, Stabilization and Distribution. Optimal Provision of Public Goods.

UNIT – II

Types of Government Budgets: Revenue Account, Capital Account and Different Concepts of Budgetary Deficits in the Indian Context. Economic and Functional Classification of Central Govt. Budgets.

UNIT – III

Sources of Public Revenue: Tax and Non-tax Sources, Ad Valorem and Specific Taxes, Progressive and Proportional Taxes, Direct and Indirect Taxes.

Approaches to Tax Equity: Benefit Principle; Ability to Pay Principle. Theory of Incidence of Indirect Taxes. Taxable Capacity: Meaning and Determinants.

UNIT- IV

Public Expenditure: Rational for The Growth of Public Expenditure: Wagner's Law of Increasing State Activities; Peacock-Wiseman Hypothesis. Canons of Public Expenditure.

Changing Trends and Pattern of Direct and Indirect Taxes in India. Changing Trends and Pattern of Government Expenditure in India. Recent Tax and Expenditure Reforms in India.

Essential Readings:

BAHSECO-504 – INTERNATIONAL ECONOMICS

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The course intends to provide a deep understanding about the braod principles and theories, which tend to govern the free flow of trade in goods, services and capital – both short-term and long-term – at the global level. The contents of the paper sread over the different modules, lay stress on the theory and nature of the subject which, in turn, will greatly help them to examine the impact of the trade policies followed both as the national and international levels as also their welfare implications at macro level and the distribution of gains from trade.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Importance of Trade and Trade Theories: Importance of the Study of International Economics: Inter-Regional and International Trade, Theories of Absolute Advantage, Comparative Advantage and Opportunity Costs, Heckscher-Ohlin Theory of Trade – Its main Features, Assumptions and Limitations.

New Approaches to Trade Theory: The Product Cycle Theory, Technology Gap Theory.

UNIT – II

Terms of Trade: Concept, Measurement and Effects on Nation's Welfare.

Trade Policy: Free Trade and Protective Trade.

Tariff and Non-Tariff Barriers: Economic Effects of Tariff under Partial Equilibrium Analysis.

Political Economy of Non-Tariff Barriers.

Economic Integration: Concept and Forms of Regional Integration; Static and Dynamic Effects of Custom Union.

UNIT – III

The Balance of Payments and Adjustments: Concepts and Components of Balance of Payments. Causes and Consequences of Dis-equilibrium in the Balance of Payments. The Process of Adjustment in the Balance of Payments under Gold Standard, Fixed and Flexible Exchange Rate Systems.

UNIT – IV

Foreign Exchange Market: Concept, Role and Types of Foreign Exchange Transactions, Forward and Future Markets.

Speculation, Arbitrage and Hedging: Concept and Significance.

WTO: Objectives, Functions and Role.

Essential Readings:

BAHSECO-505: Optimization Techniques and Game Theory

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The paper aims to make the students familiar with some of the mathematical techniques which have been developed in the last few decades to solve the basic and one of the fundamental problems faced by economic agents, i.e. economizing at a particular point of time or over a period of time.

Pedagogy of the Course Work: 80% Class room teaching, 20% Computer Practical and Viva-voce examination.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100.
- The theory question paper will be of 80 marks and computer practical of 20 marks.
- Time allowed in theory paper will be 3 hours.
- The computer practical will be conducted by the teacher concerned in the computer lab of the department and marks in practical paper will be awarded in following categories:

a) 10 marks to successful execution of the program/assignment on computer using MatLab. Each student will be given 1 hour to run the given computer program in MatLab;
b) 5 marks to File work on MatLab programming; and
c) 5 marks to viva-voce on practical application of OTGT.

For theory paper, the paper setter must put a note in the question paper in this regard. There shall be 9 questions in all. The first question is compulsory comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of two marks (10 x 2 = 20). Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT-I

Advance topic in optimization: Nonlinear programming and Kuhn-Tucker condition. The constraint qualification. Economic Applications: Peak Load pricing and war time rationing.

Advance topics in linear Programming: Dual Simplex Method, Revised Simplex Method, Sensitivity and Parametric Analysis, Integer Programming, Goal Programming.

UNIT-II

Dynamic Optimization: A Brief introduction to the calculus of variations (Eulere quation), end point (transversality) conditions. The control problem, Statement and types of control. Pontryagin's Maximum principle, finite and infinite time horizon, interpretation of hamiltomian, costate variables, equation of motion; end point conditions. Constructing a phase diagram and its analysis. Economic Applications of Calculus of variations and Optimum Control theory.

UNIT-III

Game Theory*:* Two persons Zero Sum Game, Max-Min Strategy. Non-Zero Sum Game, Static Games in Complete Information, Strongly and Weakly Dominant Strategies, Dominant Strategy Equilibrium; Pure and Mixed Strategies; Concept of Nash Equilibrium-Examples such as Prisoner's Dilemma, Battle of Sex, Matching Pennies, Co-ordination Problem and Multiple Equilibria, etc., Focal Points, Dynamic Games in Complete Information, Sub-Games and Sub-Game Perfect Nash Equilibrium.

UNIT-IV

Optimization using MATLAB*:* Basic Commands of MATLAB, Solving Matrices using MATLAB, Solving Linear Programming, Non-Linear Programming and Dynamic Optimization problems Using MATLAB. Solution of Games in MATLAB through Linear Programming.

SEMESTER – VI

BAHSECO – 601 – CONTEMPORARY ISSUES IN INDIAN ECONOMY - II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The objective of this paper is to acquaint the students with the strategy of economic development of the Indian economy since Independence. The paper also aims at creating an awareness among the students regarding the contemporary issues pertaining to various sectors of the economy.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Structural Changes in the Indian Economy: Service Sector Growth – Pattern and Future Prospects. Sustainability of Services Led Growth in India. Nature, Causes and Changes in Sector Income Distribution and Occupational Structure. Inter-State Disparities in the Pattern of Development in the Post-Reform Period.

UNIT – II

Financial Sector Developments: Structure of the Financial System in India. Nationalization of Banks – Causes and Evaluation of Performance. Banking Sector Reforms since 1991.

Capital Market – Growth, Problems and Reforms Since 1991. Role of Securities Exchange Board of India (SEBI).

UNIT – III

External Sector: Trade Policy during Pre and Post Reform Period. Liberalized Exchange Rate Management System. Foreign Direct Investment – Trends and Issues. India and the World Trade Organization.

UNIT – IV

Other Contemporary Issue : Poverty and Unemployment in the Post-Reform Period. Infrastructure Development – Need, Performance and Government Strategy on Infrastructure Development with Special Emphasis on Special Economic Zones (SEZs) and Public Private Partnerships.

Essential Readings:

Ahluwalia, I J & Liittle, IMD (Eds.): (1998) India's Economic Reforms and Development, (Essays in Honour of Manmohan Singh), OUP, New Delhi.

Nagaraj, R (2006) : Aspects of India's Economic Growth and Reforms, Academic Foundation, New Delhi.

Further Readings:

Rosen, George, (1988) : Industrial Change in India 1970-2000 Allied Publishers, New Delhi.

Economic Survey : Government of India: Various Issues.

Economic and Political Weekly : Various Issues

BAHSECO-602– HUMAN RESOURCE DEVELOPMENT

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The objective of this paper is to rigorously and comprehensively equip the students with issues involved in study of Human Resource Market in analyzing economic behavior of individuals, firms and markets using, in general, a static and partial equilibrium framework.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Human Resource Development (HRD): Human Resource Development in National Perspective. Relevance of Human Resource Development in India.

Human Resource Development in organizational perspective. Traditional and Modern approach to study Human Resource Development.

The Global Perspectives on Human Resource Development: Emerging Human Resource Management Concepts in the New Millennium; Human Resource Information System.

UNIT –II

Human Capital:

Concept and measurement of human capital.
Investing in Human Capital: Becker's Model. Concept of ' On the Job training' and 'retraining'.
Endogenous Growth: Role of Education, Research and Knowledge: Arrow, Romar and Lucas Model.

UNIT- III

Managing Human Resource:

Techniques of labour Demand forecasting, Establishing pay plans. Various incentive schemes. Internal Labour Market.
Asymmetric Information in the Functioning of the human Resource Market: Principle Agent Problem, Market Signaling, Efficiency Wage Theory.

UNIT –IV

Human Resource Development and Challenges:

Migration : Migration as Human Capital Investment, Rural Urban Migration (Harris-Todaro Model), Welfare Implications of International Migration; Emerging Challenges of Migration and Issue of Brain Drain.

Economics of Discrimination- Concept, Types and Models of Discrimination (Becker, Crowding Model and Theory of Statistical Discrimination).

Essential Readings:

Stoney, John J (ed.)	:	Human Resource Management: A Critical Text, Routledge, London.

BAHSECO-603– BASICS OF FINANCIAL MARKETS

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The Operation of financial markets and their regulations are to be studied to appreciate their key-role in an economy, especially after far reaching banking and financial sector reforms in India and elsewhere. The present course is designed to acquaint the students fully with theory and practice of different financial markets and institutions to understand and analyze their development role and limitations in shaping and influencing the monetary and related policies both at the national and international levels.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Financial Markets: Role, Functions and Structure, Types and Distinctive Features of Financial Instruments, Functions of Financial Institutions.

UNIT – II

Risk and Return: Sources and Types of Risk and Return – Historical and Expected, Measurement of Risk, Efficient Portfolio, Minimum Variance Portfolio, Capital Asset Pricing Model, Efficient Market Hypothesis, Speculation, Arbitrage and Hedging – Concept and Significance.

UNIT – III

Indian Financial Markets:

Indian Money Market: Participants, Structure and Instruments, Banking Sector Reforms since 1991

Indian Capital Market: Primary and Secondary Market, Growth, Problems and Reforms since 1991.

Market for Derivatives – Futures and Options.

UNIT – IV

Role and Structure of Non Banking Financial Institutions.
RBI – Role and Functions, Monetary Policy of RBI.
SEBI – Role and Functions.
International Financial Markets – Structure and Significance.

Essential Readings:

Bhole, L M (2003)	:	Financial Institutions and Markets, Tata McGraw Hill Company Ltd., New Delhi (4th Ed.)
Bhole, L M (2000)	:	Indian Financial System, Chugh Publications, Allahabad.

Fabozzi Frank, J Modigliani	:	Foundation of Financial Markets and Institutions, Pearson Ed.

Further Readings:

Khan, M Y (1996)	:	Indian Financial System, Tata McGraw Hill, New York.
Prasad, K N (2001)	:	Development of India's Financial System, Sarup & Sons, New Delhi.
Reserve Bank of India	:	Various Reports
Government of India	:	Economic Survey

BAHSECO-604 – ENVIRONMENTAL ECONOMICS

Max. Marks: 80 **Time: 3 Hrs.**

Objective: This paper aims to make aware students about the importance of environment in economics and vice-versa. It helps them to know the ways of sustaining our natural resources by optimally allocating them for future use.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

***Introduction*:** Basic concepts of Environment, Economics and Ecology. Relation between Environment and Economy (inter linkages), the natural environment and the human economy-the neoclassical economics (introductory) and first two laws of thermodynamic under ecological perspective.

Pollution and resource degradation as externalities: the open access and the public good problem; common property resources and economic problem.

UNIT- II

Economics of pollution: Damage and abatement cost functions; Marginal decision; Optimum level of pollution; Property Rights or Coasian Theorem; role of state in environment preservation-review of environment legislation in India.

UNIT- III

Cost-Benefit Analysis and Environment: measuring the costs and benefits of environment protection. Environment regulations and legislations- Air, Water, Land, chemicals and pesticides; Understanding Environment Impact Assessment (EIA), Green National Accounts and Environmental Accounting.

UNIT- IV

Global Environmental Pollution: acid rain, ozone depletion and global warming (causes, consequences and solutions or international responses); Earth Summits 1992 and 2002.

Economic growth and development; the environmental Kuznets curve; Economics of sustainable development; Trade, development and environment under WTO regime.

Essential Readings:

Eugine, T. (2005) : Environmental Economics. Varinda Publications, Delhi.

Goodstein, E.S. (2002) : Economics and the Environment (third edition) John Wiley & Sons., Inc.

Hussen, Ahmed (2004) : Principles of Environmental Economics (second edition), Routledge, Taylore & Francis Group, London & New York.

Kolstad. C.D. (2011) : Intermediate Environmental Economics (second edition), Oxford University Press Inc.

Nandimath, O.V. (2009) : Handbook of Environmental Decision Making in India, Oxford Univ. Press.

BAHSECO-605 – ECONOMIC JOURNALISM

Max. Marks: 80 **Time: 3 Hrs.**

Objective: In the context of the prevailing media environment this condensed course would provide exposure to the students in the essentials of journalism/economic journalism. The following aspects of the discipline would be emphasized:

Communication
Reporting/Writing
Interpretative/Special Report Writing, and Editing.

Besides classroom teaching and lab work, students would have interactive sessions with professionals in the area of print journalism, particularly those who are covering economic issues.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Communication:

Part – I – Meaning, Forms of Communication such as Intrapersonal, Intrapersonal, Group and Mass Communication.

- Functions of Communication, 7C's of Communication
- Basic Models of Communication: Berlo, Scgramm, Osgood Shannon and Weaver.
- Introduction to the Normative Theories of Media.
- Communication Exercise.

Part – II – Media and Entertainment Industry in India – An Overview.

UNIT – II

Reporting and Writing for Media
Part I - Introduction to Print Media, Basics of Journalism.

News – Definition and Values, News Story Structure, 5Ws and 1H, Inverted Pyramid Pattern. News Writing, Leads.

Part – II – Process of Newsgathering, Making and Maintaining Sources. Exercises in Reporting.

UNIT – III

Specialized Writing/Interpretation:
Part – I – Meaning of Interpretation, Back Grounding, Observation, Analysis and Opinion. Changing Concept of News and Changing Style of News Writing.

Part – II – Economic Journalism and its Importance, Writing for Business Papers, Practical Exercises.

UNIT – IV

Editing:
Part I – Organization of a Newsroom, Sources of News Copy, Importance of Editing. Headline Writing – Significance, Dos and Don'ts.

Part II – Importance of Design/makeup. Significance of Pictures and Illustrations. Use of Illustrations in Business Stories.

Practical Exercises.

SYLLABI AND COURSES OF READING FOR FIVE YEAR INTEGRATED PROGRAMME IN ECONOMICS, EXAMINATIONS 2015-16.

MAHS - SEMESTER – I

MAHSECO-101– ADVANCED MICRO ECONOMIC THEORY

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To rigorously train the students with the concepts, methodology and reasoning involved in analyzing the economic behavior of firms and markets, in general, a static and partial equilibrium frameworks.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignments and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Choice Under Uncertainty:
Concept of Elasticities – Generalization upto n-variable case; Indirect Utility Function, Roy's Identity, Expenditure Function. Hotteling's and Shepherd's Lemmas.

Modern Derivation of the Slutsky Equation. Composite Commodity Theorem. Integrability Problem and Consumer Surplus.

UNIT - II

Choice Under Uncertainty:

Concept of Contingent Commodities; Measures of Risk Aversion, Risk Preference, Risk Neutrality and the Shape of Indifference Curves between Contingent Commodities. Consumer equilibrium under different risk preferences.
Expected Utility under Uncertain Outcomes: Von Neumann Morgenstern Utility and Consumer Choice.

Intertemporal Choice: Stocks and Flows, Present Discounted Values, Capital Investment , Decisions by Consumers; Determination of Interest Rates.

UNIT - III

Production Analysis: Homogeneous and Homothetic Production Functions; Eulers Theorem; Elasticity of Substitution; Cobb-Douglas, CES and VES Production Function.

Output and Profit Maximization, Cost Minimization; Analysis of Joint Profit Maximization and Multi-Product Firm; Production Possibility Curve.
Duality in Production.

UNIT - IV

Price and Output under Perfect Competition; Monopoly, Oligopoly Models; Cournot, Bertrand and Stackleberg.

Dynamic Equilibrium with Lagged Adjustment; Cobweb Model. Multi-Market Equilibrium, Walras's Law and the Existence of General Equilibrium.

Essential Readings:

Comerer, Colin, F, George Loewenstien and Mathew Robin (2006)	:	Behavioural Economics. New Age International Publishing (Ed.) Princeton.

Varian, H R (1992)	:	Microeconomic Analysis (3rd Ed,), Norton & Company, New York.
Mas-Coell, Adrew, W M D and J R (1995)	:	Microeconomic Theory, Oxford University Green, Press, New York.
Pyndick, R S and Robinfield, D L (2003):		Microeconomics, Pearson Education, Inc.

MAHSECO-102– ADVANCED MACRO ECONOMIC THEORY

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The paper aims to make the students familiar with some of the recent developments in macro economics which have wide range of applicability to solve and explain economic phenomena; and some of which can provide new insights into the empirical estimation of economic relationships.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type). The scripts would be evaluated by the examiners having adequate postgraduate teaching experience in the paper/option concerned.
.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

The Monetarist School: Stagflation and Demise of the Keynesian Orthodoxy, Monetarist-Keynesian Debate on Macro Theory and Policy, Monetarist views on Inflation and Trade Cycles. The Expectations Augmented Philips Curve Analysis. The Monetary Approach to Balance of Payments Theory and Exchange Rate Determination. The Orthodox Monetarist School and Stabilization Policy.

UNIT - II

New Classical School*:* The Rational Expectations Hypothesis. The Policy Ineffectiveness Propositions. The Real Cost of Disinflation, Dynamic Time Inconsistency, Solutions to the Time-Inconsistency Problem. The Random Walk Model of Consumption, The Real Business Cycle Theory, An Assessment of the New Classical School.

UNIT – III

The New Keynesian School*:* Core Features and Propositions of New Keynesian School, Real and Nominal Wage-Price Rigidity Models - Menu Costs Model, Implicit Wage Contract Models, Efficiency Wage Models, Insider-Outsider Models and Hysteresis. An Assessment of New Keynesian School.

UNIT- IV

The Mundell-Fleming Open Economy Model, Macro Economic Theory for India, Phillips Curve in Indian Context, Causes and Consequences of the Global Economic Crisis, India and the Global Economic Crisis.

Essential Readings:

Branson W (1989) : Macro economic Theory and Policy. 3rd Edition, Harper Collins.

Dornusch, R (1980) : Open Economy Macroeconomics Basic Books.

Dornbusch, Fisher and Startz (2002) : Macroeconomics, Ninth Edition, Tata McGraw Hills, New Delhi.

Froyen, R (2002) : Macro Economics, 7th Edition, Pearson Education Inc., New Delhi.

Makin, A J : International Macroeconomics, Princeton Hall.

Supplementary Readings:

Abel Andrew B, Bernanke Ben S (2007) : Macroeconomics. Pearson Education Inc., (5th Edition) New Delhi.

Heijdra Ben J & Ploeg Frederick Van der (2008) : The Foundations of Modern Macroeconomics, Oxford University Press.

D'Souza Errol (2008) : Macroeconomics. Pearson Education Inc., New Delhi.

MAHSECO-103– ECONOMETRICS APPLICATIONS – I

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The aim of this course is to provide an overview of the state-of-the-art of econometric tools and the techniques applicable empirical modeling in applied Micro- and Macro- economics. The focus is on building, estimating and interpreting output from models using actual data. The course intends to equip students with application skills, necessary to execute independent research projects.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Dummy as Independent Variable(s):
Dummy variables and uses of dummy as independent variables.

Dummy as Dependent Variable:
Description, Assumption and Estimation of Linear Probability Model.
Logit [both Binomial and Multinomial] and Probit Model.

Limited Dependent Variables: Tobit Model.

UNIT – II

Time Series Analysis:

Basic Concepts: Stationarity, Tests of Stationarity (both Correlogramme and unit root based), Cointegration, Tests of Cointegration, Error Correction Mechanism.

Univariate Forecasting: AR, MA, ARIMA, Box, Jenking Methodology.

Multivariate Forecasting: VAR and VECM Models.

Variations: ARCH and GARCH Models.

UNIT – III

Panel Data Models: Sources and Types and Advantages of Panel of Panel Data; The Simplest Case – The Pooled Estimates.

Fixed Effects Model: Testing the Significance of the Group of Effects, LSDV Estimation, Unbalanced panel and fixed effects.

Random Coefficient Models: FGLS and MLE estimation, Testing for Random Effects and Hausman's Specification Test.

Random Coefficient Model: Rational and Estimation of the Random Coefficient Model.

UNIT-IV

Estimation of Regression, Qualitative Response, Time Series and Panel Data Models using Standard Econometric Packages. (SPSS/E-View/STATA).

Interpretation of Estimation and Hypothesis Testing.

Essential Readings:

Gujarati, Damodar (2002) : Basic Econometrics, 4th Edition, McGraw Hill.

Kemanta, J (2008) : Elements of Econometrics (2nd Ed.), McMillan, New York.

Madala, G S (2007) : Introduction to Econometrics (3rd Ed.), Wiley India.

Koutsoyiannis, A (1973) : A Theory of Econometrics, Harper & Row, New York.

MAHSECO-104 – CONTEMPORARY ISSUES IN PUBLIC POLICY

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To rigorously train the students with the concepts, methodology and reasoning involved in analyzing the economic behavior of firms and markets, in general, a static and partial equilibrium frameworks.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT-I

Introduction to public policy: Definition, Scope and Need for Public Policy. Role of the Government in Public Policy Making. Policy Making Process . Policy Implementation. Policy Evaluation – Assessing the Impact of Public Policy. Policy Analysis.

UNIT-II

Models of Public Policy - Institutional, Process, Incremental, Group, Elite, Public Choice and Game Theory Model. Attributes of a Good Policy Making Process. Problems in Policy Making. Policy Memo – Writing an Effective Policy Memo.

UNIT –III

***Institutions and Governance*:** Political Institutions and Governance. Role of Good Governance in Public Policy. Economic Governance. Policy Failure - Limits to public policy and State Capacity. Public Policy vs. Populism.

UNIT-IV

Economic Policy: Economic Theories as Policy Guides. Overall Economic Policy Framework in India with Special Reference to the Relevance of Planning Commission of India. Weaknesses in India's Public Policy Making Process. Reforming the Process and Institutions. Competition Policy, Consumer Protection Act.

Essential Readings:

SEMESTER – II

MAHSECO-201– RESEARCH METHODOLOGY

Max. Marks: 80 **Time: 3 Hrs.**

Objective: To rigorously train the students with the concepts, methodology and reasoning involved in analyzing the economic behavior of firms and markets, in general, a static and partial equilibrium frameworks.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Introduction to Research Methodology: Meaning and Objectives of Research, Types of Research and its Approaches, Techniques of Defining the Research Problem. Reviewing the Literature, Used Mendeley in Citing the Literature. Research Design: Meaning, need and Types.

UNIT – II

***Data Collection Techniques*:** *Questionnaire Method*: Types, Format and Pre-Testing of Questionnaires. Techniques for Increasing Response of Respondents. *Interview Method:* Types, Process and Rules of Interviews. Factors affecting interview. Interviewer's Bias. Selection and Training of Interviewers. *Observation Method:* Types of Observations.

UNIT – III

Measurement and Scaling Techniques: Measurement Scales: Types of Measurement Scales, Types and Components of Measurement. Accuracy of Measurement and Reliability Testing. Increasing Reliability.

Sampling Techniques: Simple Random Sampling; PPS Sampling; Stratified Random Sampling; Multistage Sampling (Applications only).

UNIT – IV

Testing of Hypotheses: *Parametric Tests:* Applications of *t, z,* and *F*-test Statistics. *Non-Parametric Tests:* Application of χ^{2}-, McNemar, Kolmogorov-Smirnov, Sign, Wilcoxon Signed, Mann Whitney, Rank-Sum, Kriskal-Wallis, Kendall's Coefficient Tests.

Essential Readings:

MAHSECO-202– ECONOMETRIC APPLICATIONS – II

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The aim of this course is to provide an overview of the State-of-the-art of econometric tools and techniques applicable empirical modeling in applied Micro- and Macro-economics. The focus is on building, estimating and interpreting output from models using Actual data. The Course intends to equip students with application skills, necessary to execute independent research projects.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Forecasting

- Introduction: Nature, Importance and Evaluation of Forecast.
- Univariate Methods: Smoothing Methods.
- Multivariate Methods: Regression Models.
- Non-Parametric Methods: Judgment Methods; Technological Forecasting.
- Comparison of Forecasts: Combination of Forecasts – Techniques and Benefits.

UNIT – II

Applications to Demand Analysis

- Theory of Household.
- Single-equation Approaches: Engle Functions, Demand for Durable and Non-Durable Goods and Services.
- System Estimation: Rationale, Functions Forms, Identification, Aggregation, Estimation Procedures.
- Dynamic Demand Analysis: Habit Formation Models; Modeling Change in Taste.

UNIT – III

Application to Firms

- Production Functions: Cobb-Douglas, CES, Translog Production Function.
- Total Factor Productivity, Technical Progress and Measurement.
- Analysis of Efficiency: Technical, Allocation and Economic Efficiency [Frontier Production Function and Data Development Analysis Approaches]

UNIT – IV

Macroeconometric Model

- Modeling Consumption, Finance, Investment, Inflation and Trade.

Note: Students would be required to Undertake Econometric Projects [using Secondary Data Source] on Assigned Topic (from Syllabus) by the Teacher concerned. It would be part of Internal Assessment.

Essential Readings:

Aggarwal, Ramgopal (1970) : *An Econometric Model of India: 1948-1961,* London: Farnk Case & Co. Ltd.

MAHSECO- 203 – ADVANCED INDUSTRIAL ECONOMICS

Max. Marks: 80 **Time: 3 Hrs.**

Objective: In the Contemporary world with globalization and liberalization more and more attention is being given to industry. Since industry performance critically depends on firms' behavior allowing equilibrium outcome, the course intends to provide a rigorous knowledge of different long-run equilibrium outcome of firms under different conditions from the point of view of public policy. The students are also equipped to deal with debates involved in the industrial development in a cogent and analytical manner, particularly in the Indian context. However, it should be noted that Game Theoretic approach to any topic/problem is outside the scope of the present syllabus.

The time-tested method of in parting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Rivalry, Conditions Facilitating and Hindering Collusive Conduct. Potential Competition: Limit Price and Strategy by Dominant Firm.

Relationship between Market Structure and Technological Progress; Oligopoly and Timing of Innovation, Logic of Patent Protection.

UNIT – II

Causes and Consequences of Merger and Takeovers: Theoretical Issues, Empirical Evidence from Abroad: Merger Policies and Evaluation of Merger Policy: Distinguishing Features of Merger in 1991.

UNIT – III

Macro Economic Issues: Means Thesis on Administered Pricing by Firms; The Kinked Demand Curve and Full Cost Pricing; Transaction Costs and Price Rigidity.

Issues of Price Discrimination: Nature of Price Discrimination. Effects of Price Discrimination.

UNIT – IV

Public Policy towards Market Structure, Conduct and Performance. Optimality of Perfect Competition. Costs of Monopoly. Theoretical Issues and Empirical Measurement of Social Welfare Loses. Evolution of Govt. of Indian Policy towards Monopolistic and Restrictive Practices.

Essential Readings:

Martin, Stephen (1989)	:	Industrial Economics McMillan Publishing Co., New Delhi.
Scherer, F M & Ross David (1990)	:	Industrial Market Structure and Economic Performance (Boston Houghton Mifflin Company, 3rd Edn).
Hay, D A & Morris, D J (1979)	:	Industrial Economics and Organization (New York, Oxford University Press).
Shephered, Wiliam, G (1990)	:	The Economics of Industrial Organization Analysis, Market Policies. (Prentice Hall International, 4th Edition).

MAHSECO-204 – MONEY AND BANKING

Max. Marks: 80 **Time: 3 Hrs.**

Objective: Money and Banking constitute important components towards understanding of economics. A clear understanding of the operations of money and banking and their interaction with the rest of the economy is essential to realize how monetary forces operate through a multitude channels – market, non-market, institutions and among others, the state. The operation of financial markets and their regulations are to be studied to appreciate their key-role in an economy, especially after the far reaching banking and financial sector reforms in India and elsewhere. The present course is designed to acquaint the students fully with the changing role of financial institutions in the process of growth and development. Accordingly, the paper on 'Economics of Money and Banking' is an optimal integration of monetary theory, banking and non-banking financial institutions, which combines with itself a systematic discussion of the theory, institutions and policy with special reference to India.

The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type). The scripts would be evaluated by the examiners have adequate postgraduate teaching experience in the paper/option concerned.

Pedagogy of the Course Work: 80% Class room teaching.
20% Internal Assessment Comprising Unit Test, Assignment and Class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper-setter must put a note in the question paper in this regard.

- There shall be **9** questions in all.

  The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2= 20).

  Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Theoretical Debate and Empirical Attempts to Define Money. Types of Monetary Standards and Qualities of Good Monetary Standard.

Supply of Money: Components, High Powered Money and Money Multiplier, Banks and the Money Supply, Measures of Money Supply in India.

Demand for Money: Interest Responsiveness of ther Transaction Demand for Money (Boumal and Tobin Contributions), The Portfolio Approach (Tobin Contributions). Friedman's Restatement of Quantity Theory of Money. Empirical Demand for Money Function.

Monetary Policy: Targets, Goals, Policy Tools, Policy Lags, Rule versus Discretion, Channels of Transmission Mechanism, Monetary Policy in the Open Economy.

UNIT – II

Money Market and Capital Market : Role, Constituents and Functions.

Recent Monetary Policy of Reserve Bank of India (RBI), RBI's Autonomy and Monetary Policy, Convertibility of Indian Rupee on Current and Capital Accounts.

Term Structure of Interest Rates: The Expectations Theory, Liquidity Premium Theory, Market Segmented Theory, Preferred Habitat Theory, Structure of Interest Rates in India.

UNIT – III

Commercial Banking: Balance sheet and Portfolio Management. Developments and Reforms in Indian Banking System since 1991.

Non Banking Financial Institutions: Role and Structure of NBFIs in India, Need and Control of Non Banking Financial Companies by RBI.

UNIT- IV

International Monetary System – IMF as Provider of International Liquidity. European
Monetary System – Features of Maastricht Treaty and Post Maastricht Treaty Developments.
Euro Currency Market – Features and Role.
World Bank – Features and Role.

Essential Readings:

MAHS - SEMESTER - III

MAHSECO-301 (a): AGRICULTURE AND RURAL DEVELOPMENT

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The objective of this course is to provide a detailed treatment of issues pertaining to agriculture and rural development to those intending to specialize in this area. Its objective is to familiarize students with the theory of agricultural economics and rural development issues that are relevant to Indian countryside and enable them to understand and analyze the problems of rural development.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students' written assignments, tutorials and seminars.

The students would be evaluated at the end of the semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test,
Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Rural Development: Concept, nature, indicators and importance.

Agriculture and Rural Development Interface: The issues, role, challenges and the prospects.

UNIT – II

Rural Institutions and Infrastructure.

Rural Institutional Set-up and its Impact on the Process of Rural Development in India:

Panchayati Raj Institutions, Village Co-operatives, Gender Issues and Rural Development in India.

Rural Infrastructure in India: Rural Roads, Banks, Drinking Water Supply and Sewerage System, Electricity, Educational facilities and Healthcare facilities, and Marketing Networks.

UNIT – III

Disparities in Rural Development.

Inter-state Disparities in Rural Development: Nature, Causes, Consequences and Remedial Measures.

Rural-Urban Disparities in Living Standards: Nature, Extent, Causes, Consequences, and Solutions.

UNIT – IV

Deprived Sections and Rural Development: Rural Poverty, Nature and Extent, Causes and Consequences and Remedial measures.

Rural Economic Scene in India: An overview of Pattern of Assets, Income and Expenditure Distribution.

Essential Readings:

MAHSECO-301(b) : AGRICULTURE AND RURAL DEVELOPMENT

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The objective of this course is to provide a detailed treatment of issues pertaining to agriculture and rural development to those intending to specialize in this area. Its objective is to familiarize students with the theory of agricultural economics and rural development issues that are relevant to Indian countryside and enable them to understand and analyze the problems of rural development.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students' written assignments, tutorials and seminars.

The students would be evaluated at the end of the semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test,
Assignments and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT – I

Emerging Pattern and Issues of Rural Development in India.

Emerging Issues: Food Security and the PDS: The Problem, Objectives and the Remedial Measures.

UNIT – II

Approaches to Rural Development:

Nurksian Approach, the Cluster Approach to Rural Development.

Gandhian Approach on Rural Development.

UNIT – III

Strategies of Rural Development:

Focusing on Agriculture: Sustainability, Conservation of Resources such as water management, shifting of people out of agriculture.

Alternatives in Rural Development: Dairying and Poultry Farming, Employment Generation for Rural Development: The Role, Scope and Prospects of Rural Non-Farm Enterprises; Rural-Urban nexus and its impact on Rural Development.

UNIT IV

Planning for Rural Development: Policy and Allocation under plans for rural Development.

The Role of Non-Government Organizations in India.

Appraisal of Rural Development in India since Independence.

Comparative Study of India and China.

MAHSECO-302(a): BANKING AND INSURANCE

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The positive and significant role of financial institutions in the process of growth and development has been very well recognized in the literature and indeed has become more important during the last two decades as the financial systems of different countries have become integrated in the process of globalization. India is no exception and has taken far reaching measures since 1991 in this direction.

The present course is designed to acquaint the students in-depth knowledge of the theory, practice, regulation and changing role of different financial institutions in the process of growth and development both at national and international levels.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, snap test, Assignments, attendance and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT-I

Central Banking: Origin and Evolution; Rationale; Main Functions, Policy Tools, RBI– Role, Functions, Autonomy and monetary management.

UNIT – II

Commercial Banking : Functions, Risk Management – Types of Risk, Risk Management process, Assets/Liabilities Management. Major Developments in Commercial Banking in India since nationalization. Banking Sector Reforms.

UNIT – III

Development Financial Institutions: Role, growth and structure of Development Financial Institutions (DFIs) in India, Types and control of NBFCs by RBI.

UNIT – IV

International Banking: Demand for and Supply of International Reserves – International Monetary Fund (IMF) and International Liquidity. European Monetary System - Features of Maastricht Treaty and Post Maastricht Treaty Developments. The Euro currency Market – Development and Financial Implications.

Essential Readings

Supplementary Reading

Economic Survey (Govt. of India)	:	Different Issues.
Reserve Bank of India	:	Different Reports.

MAHSECO-302(b): BANKING AND INSURANCE

Max. Marks: 80 **Time: 3 Hrs.**

Objective: The positive and significant role of financial institutions in the process of growth and development has been very well recognized in the literature and indeed has become more important during the last two decades as the financial systems of different countries have become integrated in the process of globalization. India is no exception and has taken far reaching measures since 1991 in this direction.

The present course is designed to acquaint the students in-depth knowledge of the theory, practice, regulation and changing role of different financial institutions in the process of growth and development both at national and international levels.

The basic purpose of this course is to develop an understanding of the underlying concepts and all aspects of insurance business.

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, snap test, Assignments, attendance and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).

UNIT-I

Introduction to Insurance: Concept, Principles and relevance. Insurance and economic development. Types of Insurance.

UNIT – II

Life Insurance: Types, Principles, Growth of Life Insurance Corporation in India; Investment pattern of LIC Funds.

UNIT – III

General Insurance: Types, Principles, Growth of General Insurance Corporation in India. Investment Pattern of GIC Funds, Underwriting procedure.

UNIT – IV

Regulation of Insurance: Nationalisation of Insurance business in India after independence. Malhotra Committee Report. IRDA Act 1999 – salient features. Entry of private players.

Essential Readings:

MAHSECO-303(a): INDUSTRY AND TRADE

Max. Marks: 80 **Time: 3 Hrs.**

Objective: In the contemporary world with globalization and liberalization more and more attention is being given to industry. Since industry performance critically depends on firms' behaviour allowing equilibrium outcome, the course intends to provide a rigorous knowledge of different long-run equilibrium outcome of firms under different conditions from the point of view of public policy. The students are also equipped to deal with debates involved in the industrial development in a cogent and analytical manner, particularly in the Indian context. However, it should be noted that Game Theoretic approach to any topic/problem is outside the scope of the present syllabus.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type).

Pedagogy of the Course Work: 80% Class room teaching
20% Internal Assessment comprising Unit test, snap test, Assignments, attendance and class room participation.

Instructions for Paper-setter and candidates:

- The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

  The paper setter must put a note in the question paper in this regard.

- There shall be 9 questions in all.

The first question is **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10x2 = 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4 = 60).
