# B.Voc. (TEXTILE & FASHION TECHNOLOGY)

**Title of the Programme:** **Bachelor of Vocation in Textile and Fashion Technology leading to degree "B.Voc. (Textile and Fashion Technology)**

**Preamble:** The wearing of clothing is exclusively a human characteristic and is a feature of most human societies. It is not known when humans began wearing clothes but anthropologists believe that animal skins and vegetation were adapted into coverings as protection from cold, heat and rain, especially as humans migrated to new climates. During the industrial revolution, fabric production was mechanized with machines powered by waterwheels and steam-engines. Production shifted from small cottage based production to mass production based on assembly line organization. Clothing production, on the other hand, continued to be made by hand. Sewing machines emerged in the 19th century streamlining clothing production. This increase in production created a change in industrial methods, such as the use of factories instead of handmade woven materials that families usually made. The vast majority of the people who worked in the factories were women. Women went to work in textile factories for a number of reasons. The work enabled them to see more of the world, to earn something in anticipation of marriage, and to ease the crowding within the home. They also did it to make money for family back home. The money they sent home was to help out with the trouble some of the farmers were having. They also worked in the mill houses because they could gain a sense of independence and growth as a personal goal.

India was the one of the first places where cotton was cultivated and used even as early as 2500 BC during the Harappan Era. The remnants of the ancient Indian clothing can be found in the figurines discovered from the sites of the Indus valley civilization, the rock cut sculptures, the cave paintings, and human art forms found in temples and monuments. These scriptures show the figures of human wearing the clothes which can be wrapped around the body. Taking the instances of the Sari to that of turban and the dhoti, the traditional Indian wears were mostly tied around the body in various ways.

The clothing system was also related to the social and economic status of the person. Clothing and textiles have been important in human history and reflects the materials available to a civilization as well as the technologies that had been mastered. The social significance of the finished product reflects their culture. The upper classes of the society wore fine muslin garments and silk fabrics while the common classes wore garments made up of locally made fabrics. For instance, Women from Rich families wore clothes (Sari specifically) made up of silk from China, but the common women wore sari made up of cotton or local fabrics. The Indus civilization knew the process of silk production. Recent analysis of Harappan silk fibres in beads have shown that silk was made by the process of reeling, the art known only to China till the early centuries AD.

How much what you wear becomes a part of your identity is clearly depicted by the example that during the "Swadeshi Movement" khadi became a revolution, a symbol of identity. The khadi movement aimed at boycotting foreign goods including cotton and promoting Indian goods, thereby improving India's economy. Mahatma Gandhi began promoting the spinning of khadi for rural self-employment and self-reliance (instead of using cloth manufactured industrially in Britain) in 1920s India thus making khadi an integral

part and icon of the Swadeshi movement. The freedom struggle revolved around the use of khadi fabrics and the dumping of foreign-made clothes.

We thus become what we wear. The clothing we support effects us immensely. What one wears inadvertently reflects his personality. No wonder there is a flood of magazines, literature and television shows solely dedicated to dressing and style. As we flip through the pages of history thus, we find that textile technology has always held immense importance effecting GDPs of a nation and producing an array of job profiles which are basically skill based. Textile technology has so flourished that it has become a part of the Fashion Industry and technology in a big way. Everyday a new clothing brand or manufacturer brings the promise of a new tomorrow, everyday a new label is launched, everyday a new designer makes a place for himself in the industry, everyday new fashion houses emerge, everyday new boutiques are opened and surprisingly a majority of them seem to be doing well; catering to diverse needs and sections of society. Within India itself, there is such a vast diversity of cultures and each culture has its own rich heritage of textile, of design, of embroidery, weaving etc.. From kutch embroidery of gujarat, to kashida of kashmir, to luckhnawi chikankaari, to kasuti of karnataka, to zardosi of kalabattu, to innumerable more, fashion redefines itself in every culture and now that each culture is global, we can well imagine to sort of choice based demand the variety may be producing. Understanding this we also understand that there is forever dearth of skilled artisans in the market who are ready to be showcased. Fashion shows too, clearly define at what level this trade is being promoted.

The Textile industry in India traditionally, after agriculture, is the only industry that has generated huge employment for both skilled and unskilled labor in textiles. The textile industry continues to be the second largest employment generating sector in India. It offers direct employment to over 35 million in the country. The share of textiles in total exports was 11.04% during April–July 2010, as per the Ministry of Textiles. During 2009-2010, Indian textiles industry was pegged at US$55 billion, 64% of which services domestic demand. In 2010, there were 2,500 textile weaving factories and 4,135 textile finishing factories in all of India.

According to Kearney's 'Retail Apparel Index' India ranked as the fourth most promising market for apparel retailers in 2009.

There is large scope of improvement in the textile industry of India as there is a huge increase in personal disposable income among the Indians after the 1991 liberalization. There is also a large growth of the organized sector in the Indian textile industries. The foreign brands along with the collaboration of the Indian companies established business in India. Some of these are Puma, Armani, Benetton, Esprit, Levi Strauss, Hugo Boss, Liz Claiborne, Crocs etc.

Textile design is essentially the process of creating designs for woven, knitted or printed fabrics. Textile designers are involved with the production of these designs, which are used, sometimes repetitively, in clothing and interior decor items. The field encompasses the actual pattern making while supervising the production process. In other words, textile design is a process from the raw material into finished product. Fiber, yarn and finishes are the key elements to be considered during the textile design procedure.

Textile designers aim at developing a creative vision of what a finished textile will look like with a deep understanding of the technical aspects of production and the properties of fiber, yarn, and dyes. The creative process often begins with different art mediums to map concepts for the finished product. Traditionally, drawings of woven textile patterns were translated onto special forms of graph paper called point papers, which were used by the weavers in setting up their looms.

Today, most professional textile designers use some form of computer-aided design software created expressly for this purpose. Some of the latest advances in textile printing have been in the area of digital printing. The process is similar to the computer controlled paper printers used for office applications. In addition, heat-transfer printing is another popular printing method to be used in the textile design. Patterns are often designed in repeat to maintain a balanced design even when fabric is made into yardage. Repeat size is the distance directly across or down from any motif in a design to the next place that same motif occurs. The size of the repeat is determined by the production method. For example, printed repeat patterns must fit within particular screen sizes while woven repeat patterns must fit within certain loom sizes. There are several different types of layouts for repeated patterns. Some of the most common repeats are straight and half drop. Often, the same design is produced in many different colored versions, which are called color ways. Once a pattern is complete, the design process shifts to choosing the proper fabrics to get the design printed on or woven into the fabric.

Fashion designers commonly rely on textile designs to set their fashion collections apart from others. Marisol Deluna, Nicole Miller, Lilly Pulitzer, the late Gianni Versace and Emilio Pucci can be easily recognized by their signature print driven designs. Designers might want to use the method of dyeing or printing to create their design.

These examples illustrate the significance of textiles in our daily lives. The creations of textiles are not only important for their use, but also for the role they play in the fashion industry. Textile designers have the ability to inspire collections, trends, and styles. The textile industry, while being a creative art form, is a very business savvy industry.

All this defined; we recognize that there are innumerable ways in which arenas of employment open for those having expertise in Textile and Fashion Design. Entrepreneurship and a plethora of job profiles both become available options for a student who has had vocational training in the field.

We do agree that there are numerous institutions offering courses in the same but not every students affords those, moreover displacement too becomes an issue. Vocational courses specially at backward and border area towns like ours serve to provide ground level support for initiating employability and for those who probably need it the most.

**BACHELOR OF VOCATION**
**(TEXTILE AND FASHION TECHNOLOGY)**

| **Semester 1** | | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| **Paper Code** | **Title** | **Generic/Skill Component** | **Theory/ Practical** | **Internal (Theory)** | **External (Theory)** | **Internal (Practical)** | **External (Practical)** | **Credits** |
| *GEN - 101 | Communication Skills | Generic Component | Theory | 20 | 80 | ---- | ---- | 6 |
| *GEN-102 | Fundamentals of Information Technology | Generic Component | Theory | 20 | 80 | ---- | ---- | 6 |
| TFT-103 | Basic Construction Skills | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT -104 | Basic Fashion Illustration | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT -105 | Computer Application in Fashion Designing | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT-106 | Industrial Training & Viva Voce | | | -- | -- | -- | -- | Non Credit |

**Semester 2**

| Paper Code | Title | Generic/Skill Component | Theory/ Practical | Internal (Theory) | External (Theory) | Internal (Practical) | External (Practical) | Credits |
|---|---|---|---|---|---|---|---|---|
| *GEN - 201 | Soft Skills and Personality Development | Generic Component | Theory | 20 | 80 | ---- | ---- | 6 |
| TFT-108 | Basic Textiles | Generic Component | Theory | 20 | 80 | ---- | ---- | 6 |
| TFT-109 | Advanced Fashion Illustration | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT-110 | Surface Embellishments | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT-111 | Textile Designing & Printing | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT-112 | Industrial Training & Viva Voce | | | -- | -- | -- | -- | Non Credit |

***Refers to all Generic Components common to all B.Voc. Courses**
**Industrial Training of 5-6 weeks of 6 credits in each year followed by Report Writing and Viva-voce**
**These credits will be evaluated in Semester VI**

| Semester 3 | | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| **Paper Code** | **Title** | **Generic/Skill Component** | **Theory/ Practical** | **Internal (Theory)** | **External (Theory)** | **Internal (Practical)** | **External (Practical)** | **Credits** |
| *GEN - 301 | Value Education And Human Rights | Generic Component | Theory | 20 | 80 | ---- | ---- | 6 |
| TFT 202 | Fashion & Apparel Designing | Generic Component | Theory | 20 | 80 | ---- | ---- | 6 |
| TFT 203 | Accessory Designing | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT 204 | Basic Draping | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |

| TFT 302 | Retailing & Fashion Promotion | Generic Component | Theory | 20 | 80 | ---- | ---- | 6 |
| TFT 303 | Fashion Portfolio Development & Fashion Show | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT 304 | Men's Apparel | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT 305 | CAD-II | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT 306 | Industrial Training & Viva-Voce | - | - | -- | -- | -- | -- | Non Credit |

**Semester 6**

| Paper Code | Title | Generic/Skill Component | Theory/ Practical | Internal (Theory) | External (Theory) | Internal (Practical) | External (Practical) | Credits |
|---|---|---|---|---|---|---|---|---|
| *GEN - 601 | Entrepreneurship Development Programme | Generic Component | Theory | 20 | 80 | ---- | ---- | 6 |
| TFT 308 | Research Methodology | Generic Component | Theory | 20 | 80 | ---- | ---- | 6 |
| TFT 309 | Fabric Science | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT 310 | Advance Garment Construction Technique | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT 311 | Construction of Soft Furnishings | Skill Component | Theory & Practical | 10 | 40 | 10 | 40 | 6 |
| TFT 312 | Industrial Training & Viva-Voce | - | - | -- | -- | -- | -- | Non Credit |

***Refers to all Generic Components common to all B.Voc. Courses**
**Industrial Training of 5-6 weeks of 6 credits in each year followed by Report Writing and Viva-voce**
**These credits will be evaluated in Semester VI**

At the end of the respective semester's the students should compulsorily undergo two week industrial training TFT 106, TFT-112, TFT 206, TFT 212, TFT 306 and TFT 309 and 312 the relevant certificate has to be submitted.

## *TFT-103- BASIC CONSTRUCTION SKILLS*

***Course Objective:***

The course will help the students obtain the job oriented constructional skills and develop and recognize their individual creative identity and locate an appropriate fashion or textile design context for their skills and ideas.

**Instructions:**

- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**

Data Entry operator, IT Help Desk, Sewing Mechanist, Saddler, Illustrator (Expert in basic Figure Drawing), Adobe Illustrator, Digital Operator, Analytical Textile Technologies, Textile Designer, Illustrator (Expert in Figure Drawing), Trainer in fashion Institute, Clothing Designer, Fashion Entrepreneur, Career Counsellor, Front Desk, Assistant in Export house/ Garment industry.

**UNIT –I**

Parts and functions of a single needle machine, essential tools - cutting tools, measuring tools, marking tools, general tools, pressing tools.
Making Samples of
Types of seams (any 5)-plain, Top Stitched, Flat fell, piped seam.

**UNIT-II**

Seam finishes (any 3)- overcast, Hem, Edge stitched, bound.
Fullness-darts, tucks (any 3)-pin, cross, group tucking with scalloped effect, Pleats (any 3)-knife, box, kick, gathering by machine, elastic. Ruffles- single, double.
Plackets and fasteners-continuous, bound, faced and zipper plackets, button and buttonhole, press button, hook and eye.

**UNIT – III**

**Making Samples of**
Sleeves-plain sleeve, puff sleeve (any one type), raglon or cap sleeve.
Yokes -simple yoke, yoke supporting fullness.
Collars - Peterman collar, shirt collar.

**UNIT-IV**

Soft Toy making techniques.
Drafting and construction of: Layette set – Bib, Jhabla, Diaper, Panty and bloomer.

## *TFT-104 - BASIC FASHION ILLUSTRATION*

***Course Objective:***
To enable students gain the knowledge of figure sketching & drawing. Elements such as life drawing, figure drawing, a comparison of the standard and the fashion figure, creating developmental sheets using croquis, preparing a working drawing, illustrating fabric and texture form just part of the learning in this course.

**Instructions:**
- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**
Data Entry operator, IT Help Desk, Sewing Mechanist, Saddler, Illustrator (Expert in basic Figure Drawing), Adobe Illustrator, Digital Operator, Analytical Textile Technologies, Textile Designer, Illustrator (Expert in Figure Drawing), Trainer in fashion Institute, Clothing Designer, Fashion Entrepreneur, Career Counsellor, Front Desk, Assistant in Export house/ Garment industry.

### UNIT – I

Lines and line drawings - object drawing and perspective view drawings, enlarging and reducing motifs. Learning the usage of various drawing and sketching mediums- pencils, ink, charcoal, brushes, crayons, water color and poster colors.

### UNIT-II

Drawing a stick figure for both normal and fashion figure. Forming a fleshy figure over a stick figure.
Dividing the figure into various parts using lines like plumb line, center front line, Princess line, waistline, side seam, armholes, jewel neckline, panty line, bust line etc. Practicing the art of creating textures.

### UNIT – III

Illustrating pattern details- pockets, sleeves, yokes, skirts, trousers, tops etc., Illustrating different type of ornaments and accessories.

### UNIT-IV

Illustrating details of ruffles, cowls, shirring, smocking, quilting, draping, gathers, pleats, frills and flounces. Basic concept and types of silhouette

## *TFT-105- COMPUTER APPLICATION IN FASHION DESIGNING*

***Course Objective:***

To impart the basic knowledge in computer field and use of computers in fashion designing. Introduction to the software tools used for the design and the communication of a collection, developing various techniques applied to fashion designing.

**Instructions:**

- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**

Data Entry operator, IT Help Desk, Sewing Mechanist, Saddler, Illustrator (Expert in basic Figure Drawing), Adobe Illustrator, Digital Operator, Analytical Textile Technologies, Textile Designer, Illustrator (Expert in Figure Drawing), Trainer in fashion Institute, Clothing Designer, Fashion Entrepreneur, Career Counsellor, Front Desk, Assistant in Export house/ Garment industry.

### UNIT – I

***Designing in Adobe Photoshop***

***Creating effects***

Black and white effect
Sketch effect
Painting effect
Rain effect
Rainbow effect
Light effect
Paper and cloth effect

### UNIT-II

**Creating Effects**

Mixing photographs
Photo mosaic effect
Text effect
3D effect
Frames

### UNIT – III

Designing greeting cards and posters in Photoshop
Creating theme related mood boards in Photoshop

### UNIT-IV

Developing one's own pallet according to fashion forecast.

## *TFT-106- INDUSTRIAL TRAINING*

***Objective:-***

- Allow students to explore the prevalent commercial/industrial practices in order to reinforce theoretical knowledge with practical experience.

**Job Roles:-**

Data Entry operator, IT Help Desk, Sewing Mechanist, Saddler, Illustrator (Expert in basic Figure Drawing), Adobe Illustrator, Digital Operator, Analytical Textile Technologies, Textile Designer, Illustrator (Expert in Figure Drawing), Trainer in fashion Institute, Clothing Designer, Fashion Entrepreneur, Career Counsellor, Front Desk, Assistant in Export house/ Garment industry.

At the end of the semester, students should compulsory undergo two week industrial training (TFT 106) and relevant certificate and report has to be submitted.

## SEMESTER-II
## TFT-108- BASIC TEXTILES

***Course Objectives:***

The objective of this paper is to provide broad understanding about basic concepts and techniques related to textiles. The course covers broader aspects of textiles and fabrics and further relates the importance and impact of textiles in fashion.

***Job Roles:-***

Data Entry operator, IT Help Desk, Sewing Mechanist, Saddler, Illustrator (Expert in basic Figure Drawing), Adobe Illustrator, Digital Operator, Analytical Textile Technologies, Textile Designer, Illustrator (Expert in Figure Drawing), Trainer in fashion Institute, Clothing Designer, Fashion Entrepreneur, Career Counsellor, Front Desk, Assistant in Export house/ Garment industry.

**UNIT- I**

*Introduction to the field of Textiles* - major goals- classification of fibers - natural and chemical - primary and secondary characteristics of textile fibers.

**UNIT-II**

Manufacturing process, properties and uses of natural fibers - cotton, linen, jute, pineapple, hemp, silk, wool, hair fibers, Manmade fibers - viscose rayon, acetate rayon- nylon, polyester, acrylic

**UNIT III**

***Spinning*** - definition, classification - chemical and mechanical spinning - blending, opening, cleaning, doubling, carding, combing, drawing, roving, spinning.

***Yarn classification*** - definition classification - simple fancy yarns, sewing threads and its properties.

**UNIT-IV**

***Wovens*** - basic weaves- plain twill, satin, fancy weaves - pile, double cloth, leno, swivel, lapper, dobby and jacquard.

***Non- wovens***- felting, fusing, bonding.

# TFT-109- ADVANCED FASHION ILLUSTRATION

***Course Objective:***

To enable students to have designing skill by taking inspiration from different themes. Elements such as life drawing, figure drawing, a comparison of the standard and the fashion figure, creating developmental sheets using croquis, preparing a working drawing, illustrating fabric and texture form just part of the learning in this course.

**Instructions:**

- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**
Data Entry operator, IT Help Desk, Sewing Mechanist, Saddler, Illustrator (Expert in basic Figure Drawing), Adobe Illustrator, Digital Operator, Analytical Textile Technologies, Textile Designer, Illustrator (Expert in Figure Drawing), Trainer in fashion Institute, Clothing Designer, Fashion Entrepreneur, Career Counsellor, Front Desk, Assistant in Export house/ Garment industry.

## UNIT-I

Developing illustrations from the pictures of magazine: Analyzing a normal figure into fashion figure - front face to be done using pictures from magazines, analyzing profile using of a normal figure into fashion figure and analyzing back of a normal figure into fashion figure using magazine.

## UNIT-II

Creating illustrations with various garment styles for Men, Women and Children - for casual wear, party wear and sportswear.

## UNIT-III

Drawing the stylized figures of Men, Women and Children (using 10 heads or 12 heads).

## UNIT-IV

Drawing garments for different seasons - summer, winter, autumn and spring - for Men, Women and Children. Men and Women illustration on the background of party and office, children illustration on the background of party and picnic.

# TFT-110- SURFACE EMBELLISHMENTS

***Course Objective:***
To enable students learn methods of surface ornamentation of fabric using different techniques to produce value added products.

**Instructions:**
- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**
Data Entry operator, IT Help Desk, Sewing Mechanist, Saddler, Illustrator (Expert in basic Figure Drawing), Adobe Illustrator, Digital Operator, Analytical Textile Technologies, Textile Designer, Illustrator (Expert in Figure Drawing), Trainer in fashion Institute, Clothing Designer, Fashion Entrepreneur, Career Counsellor, Front Desk, Assistant in Export house/ Garment industry.

## UNIT-I

Hand embroidery - 10 stitches -10 samples: Stem, Chain, Long & Short, Satin, Feather, Button Hole, Cross-Stitch, Couching, Lazy-Daisy, Fern.

## UNIT-II

Hand embroidery-10 stitches-10 Samples: Overcastting, Back Stitch, Loop, Fly, French Knot, Bullion, blanket, scroll, Shadow Work, Kutch.

## UNIT-III

Special techniques: smoking, ribbon work, beads and sequins work.

## UNIT-IV

Patchwork and quilting: Introduction, tools, materials and techniques.

## TFT-111- TEXTILE DESIGNING & PRINTING

***Course Objective:***
The main objective of this course is to acquaint the students with general techniques of designing & printing. This will help them achieve foundation skills in design as well as get a broader perspective on art, design, media and fashion industries.

**Instructions:**
- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**
Data Entry operator, IT Help Desk, Sewing Mechanist, Saddler, Illustrator (Expert in basic Figure Drawing), Adobe Illustrator, Digital Operator, Analytical Textile Technologies, Textile Designer, Illustrator (Expert in Figure Drawing), Trainer in fashion Institute, Clothing Designer, Fashion Entrepreneur, Career Counsellor, Front Desk, Assistant in Export house/ Garment industry.

### UNIT-I

***Textile Designing***
Make Designs for Printing (minimum three design sheets for each**)**
**(i)** Ladies Kurta (Block Printing)
**(ii)** Table napkins (Spray Printing)
**(iii)** Apron (Stencil Printing)

### UNIT-II

**Printing** - Introduction to printing, differences between printing and dyeing, preparation of fabric for printing - cotton, linen, polyester, wool and silk, methods of printing, preparation of printing paste, selection of thickening agents.

### UNIT-III

***Textile Printing:***
Make samples for- Block Printing, Spray Printing, Stencil Printing and screen printing.

### UNIT-IV

***Projects on Printing:-***
(i) Block Printing(Ladies Kurta)
(ii) Spray printing(Table Napkins)
(iii) Stencil Printing(Apron)
(iv) Screen Printing (Bed Sheet)

## TFT-112- INDUSTRIAL TRAINING

***Objective:-***

- Allow students to explore the prevalent commercial/industrial practices in order to reinforce theoretical knowledge with practical experience.

**Job Roles:-**

Data Entry operator, IT Help Desk, Sewing Mechanist, Saddler, Illustrator (Expert in basic Figure Drawing), Adobe Illustrator, Digital Operator, Analytical Textile Technologies, Textile Designer, Illustrator (Expert in Figure Drawing), Trainer in fashion Institute, Clothing Designer, Fashion Entrepreneur, Career Counsellor, Front Desk, Assistant in Export house/ Garment industry.

At the end of the semester, students should compulsory undergo two week industrial training (TFT 112) and relevant certificate and report has to be submitted.

## Semester III

## TFT -202 FASHION &APAREL DESIGNING

***Course Objective:***
To enable the students, understand the skill of object drawing, that conveys the essential basics for "Fashion Drawing". It also imparts creative and technical skills required to develop student's design skills to match industry professional standards.

**Instructions:**

- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**
Motivation Speaker, Councellor, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Accessory Designer, Dressmaker, Fashion Designer, Own Boutique, Pattern and Product Development, Technical assistant, Fashion Entrepreneur, Sales Manager, Sales representative

### UNIT-I

Fashion Terminologies: Fashion, Style, Design, Change, Acceptance, Taste, Classics, Fad, High Fashion, Mass Fashion, Fashion Trend, Silhouette, Boutique, Mannequin, Custom made, Collection, Chic, Haute Couture, Pret A porter, Fashion shows.

### UNIT-II

Fashion Theory: Trickledown theory, trickle across theory, bottom up theory, Fashion Cycle, Fashion cycle for classic, fashion cycle for Fad.

### UNIT-III

Fashion Forecasts Aims of forecasting, Role of fashion predictors, six disciplines of fore casting, Analysis of consumer preference, Components of fashion forecasting.

### UNIT-IV

Western costume based on historic perceptive Egypt, French, Greece and Rome.

# TFT-203- ACCESSORY DESIGNING

***Course Objective:***
Students will understand the essential basics of Art & Design. Sessions on designing will give students a holistic perspective on how the creative industry works in a global context.

**Instructions:**
- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**
Motivation Speaker, Councellor, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Accessory Designer, Dressmaker, Fashion Designer, Own Boutique, Pattern and Product Development, Technical assistant, Fashion Entrepreneur, Sales Manager, Sales representative

**UNIT-I**

***Introduction to accessory design:*** Various types of shoes, handbags, hats and gloves etc.

***UNIT-II***

***Collection of materials related to the accessories based on different themes:*** Tribal, ethnic, contemporary, traditional and fusion (file work with theory picture sample).

**UNIT-III**

***Collection and presentation of materials related to the accessories based on different themes:*** Tribal, ethnic, contemporary, traditional, and fusion (file work with articles).

**UNIT-IV**

***To create accessories from each theme (head dress, foot wears, handbags, jewelry, belts, gloves etc.)***

## TFT-204- BASIC DRAPING

***Course Objective:***
To make the students aware about the draping techniques used in designing and construction of garments. The course aims at understanding the process and stages involved in design development from an initial concept to a final creation.

**Job Roles:-**
Motivation Speaker, Councellor, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Accessory Designer, Dressmaker, Fashion Designer, Own Boutique, Pattern and Product Development, Technical assistant, Fashion Entrepreneur, Sales Manager, Sales representative

**UNIT-I**

Introduction to draping and dress forms, Draping basic front Draping basic back

**UNIT-II**

Draping basic skirt, Draping Yokes - shirt yoke, Midriff yoke, Draping Collars - Peter pan, Mandarin.

**UNIT-III**

Designing and construction of following garments using different constructions and decorative features:- Shirt/Top (Female/male), Skirt, Gown.

**UNIT-IV**

Preparation of one dress using draping techniques.

## TFT-205- CHILDREN'S APPAREL

***Course Objective:***
To acquaint the student with skills of clothing construction. Students learn elements of draping, drafting, pattern making, cutting and stitching.

**Job Roles:-**
Motivation Speaker, Councellor, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Accessory Designer, Dressmaker, Fashion Designer, Own Boutique, Pattern and Product Development, Technical assistant, Fashion Entrepreneur, Sales Manager, Sales representative

**UNIT-I**

***Designing, drafting and constructing the following garments:***
Jabla- without sleeve, front open (or) Magyar sleeve, back opens
Baba suit- knickers with chest piece attached (or) Romper

**UNIT-II**

***Designing, drafting and constructing the following garments:***
A-Line petticoat- double pointed dart, neck line and arm hole finished with facing (or)petticoat with gathered waist.

**UNIT-III**

***Designing, drafting and constructing the following garments:***
Summer frock- with suspenders at shoulder line, without sleeve/collars (or) Angel top with raglan sleeve, fullness at neck line

**UNIT-IV**

***Designing, drafting and constructing the following garments:***
Yoke frock- yoke at chest line, with open, puff sleeve, gathered skirt (or) frock- with collar, without sleeve, gathered/ circular skirt at waist line(or)Princess line frock.
Shirt- open collar, with pocket

## TFT-206- INDUSTRIAL TRAINING

***Objective:-***

- Allow students to explore the prevalent commercial/industrial practices in order to reinforce theoretical knowledge with practical experience.

**Job Roles:-**

Motivation Speaker, Councellor, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Accessory Designer, Dressmaker, Fashion Designer, Own Boutique, Pattern and Product Development, Technical assistant, Fashion Entrepreneur, Sales Manager, Sales representative

At the end of the semester, students should compulsory undergo two week industrial training (TFT 206) and relevant certificate and report has to be submitted.

## SEMESTER-IV

## TFT-208- PATTERN MAKING & GRADING

*Course Objectives**:***
**To impart the basic knowledge in developing pattern. Through this course students will explore the progressive stages involved in the manufacturing process, and the influence of the process on design decisions.**

**Instructions:**

- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**
Motivation Speaker, Councellor, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Accessory Designer, Dressmaker, Fashion Designer, Own Boutique, Pattern and Product Development, Technical assistant, Fashion Entrepreneur, Sales Manager, Sales representative

### UNIT-I

***Body Measurement***- importance, preparing for measuring, ladies measurements, boys and men's measurements. Standardizing body measurements -importance, techniques used. Relative length and girth measures in ladies /gentlemen
***Preparation of Fabric for Cutting***-importance of grain in cutting and construction, steps in preparing the fabric for cutting.

### *UNIT-II*

***Pattern making***-method of pattern making - (Drafting and draping), merits and demerits. Types of paper patterns (Patterns for personal measurements and commercial patterns)
Principles of pattern drafting. Pattern details, steps in drafting basic bodice front and back and sleeve.

### UNIT-III

Styles created by shifting of blouse darts, adding fullness to the bodice, converting darts to seam and partial yokes and incorporating darts in to seams forming yokes.
***Fitting*** - Standards of a good fit, steps in preparing a blouse for fitting, checking the fit of a blouse, solving fitting problems in a blouse fitting techniques.

### UNIT-IV

***Pattern Alteration*** -importance of altering patterns, general principles for pattern alteration, common pattern alteration in a blouse.
***Pattern Grading*** -definition, types, manual -master grades, basic front, basic back basic sleeve, basic collar and basic grading.

***Reference;***

- Mary Mathews "Practical clothing construction-part I and part-II", Cosmic Press Chennai.

## TFT 209- TRADITIONAL TEXTILES

***Course Objective:***
To create awareness among the students about clothing culture & embroideries of different states. The course aims at understanding the process & stages involved in design development from an initial concept to a final creation.

**Instructions:**
- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**
Motivation Speaker, Councellor, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Accessory Designer, Dressmaker, Fashion Designer, Own Boutique, Pattern and Product Development, Technical assistant, Fashion Entrepreneur, Sales Manager, Sales representative

**UNIT-I**

Dyeing of Cotton and Silk-Acid basic, Direct, Napthol,

**UNIT-II**

Tie and Dye, Batik, Fabric Painting.

**UNIT-III**

Traditional embroidery-Kashida of Kashmir, Phulkari of Punjab, Gujarat - Kutch embroidery, embroidery of Rajasthan, Kasuti of Karnataka, Chicken work of lucknow, Kantha of Bengal.

**UNIT-IV**

Machine Embroidery- 3 samples.

# TFT-210-CAD-I

***Course Objective:***
To impart the knowledge of clothing communication and fashion expression. Mastery of Photoshop and Illustration in order to complete projects.

**Instructions:**
- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**
Motivation Speaker, Councellor, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Accessory Designer, Dressmaker, Fashion Designer, Own Boutique, Pattern and Product Development, Technical assistant, Fashion Entrepreneur, Sales Manager, Sales representative

**UNIT-I**

Introduction to Adobe Illustrator.
Study about tools of Adobe Illustrator.

**UNIT-II**

Color and motif: traditional, floral and geometric.

**UNIT-III**

Figure and profile: profile of male and female silhouettes.
Accessories: party, casual and formal.

**UNIT-IV**

Project board: logo, label, brochure and window display.

***Reference:***

## TFT-211-WOMEN'S APPAREL

***Course Objective:***

To introduce the concept of advanced garment construction. **Through this course students will explore the progressive stages involved in the manufacturing process, and the influence of the process on design decisions.**

**Instructions:**

- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**

Motivation Speaker, Councellor, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Accessory Designer, Dressmaker, Fashion Designer, Own Boutique, Pattern and Product Development, Technical assistant, Fashion Entrepreneur, Sales Manager, Sales representative

**UNIT-I**

***Designing, Drafting and Constructing the following Garments:-***

Short Kurta/top - Decorative/surface design in tailored placket, with or without collar.
Skirts - Circular/umbrella/panel with style variations.

**UNIT-II**

***Designing, Drafting and Constructing the following Garments:-***

Salwar (or) Churidhar (or) Parallels (or) Bell Bottom
Kameez - with /without slit, with or without flare, with /without opening, with or without panels, with/without yoke.

**UNIT-III**

***Designing, drafting and constructing the following garments:***

Saree Petticoat- Six Panel, Decorated bottom.
Blouse- front open, Fashioned neck, Waist band at front, with sleeve.

**UNIT-IV**

***Designing, drafting and constructing the following garments:***

Nightie-With yoke, Front open, With Sleeve, full length.

## TFT-212- INDUSTRIAL TRAINING

***Objective:-***

Allow students to explore the prevalent commercial/industrial practices in order to reinforce theoretical knowledge with practical experience.

**Job Roles:-**

Motivation Speaker, Councellor, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Accessory Designer, Dressmaker, Fashion Designer, Own Boutique, Pattern and Product Development, Technical assistant, Fashion Entrepreneur, Sales Manager, Sales representative

At the end of the semester, students should compulsory undergo two week industrial training (TFT 212) and relevant certificate and report has to be submitted.

## *SEMESTER-V*

## TFT-302 RETAILING & FASHION PROMOTION

***Course Objective:***

To acquire the professional skills and qualities required for the continued professional and creative development including initiative, autonomy, objective judgement and decision making, communication, working with others, time and resource management and safe working practices.

**Instructions:**

- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**

Quality Supervisor, Fashion Forecaster, Retail Merchandiser, Store Manager, Product tester, Production manager, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Sales Manager, Sales representative, Pattern Maker, Pattern Grader, Pattern and Product Development, Technical assistant, Researcher.

### UNIT-I

- ***Retailing***

1. Introduction to fashion retailing:- fashion retailing in the past and its changing dimensions.
2. Types of retailers and ownerships:- specialty stores, department stores, mass stores, promotional stores, multiple-unit store (chain, department store group), retail organization (small and large store), discount retailing, mail order houses.
3. Elements of retail mix.

### UNIT-II

- ***Strategies***

1. Retail strategies:- value directed retailing, service oriented retailing, unique merchandising, shopping as entertainment, main street retailing, global expansion.
2. Retail pricing:- role of price decision within marketing strategies, external and internal factors influencing price decision, main methods of setting prices, pricing strategies for new products, price changes.
3. Record keeping:- unit control, inventory and physical control.

### UNIT-III

- ***Fashion promotion***
    1. Planning and direction
    2. Fashion advertising:- kinds of advertising, co-operative advertising, scheduling and planning, media.
    3. Publicity:- campaigning, special events and fashion shows.

### UNIT-IV

- ***Visual merchandising***
    1. Store planning and design
    2. Windows & interiors,

3. Elements of visual merchandising
4. Departments and evaluations.

***References:***

- Frings, Gini Stephes, “Fashion: from Concept to Consumer”, Pearson publication, 6th edition.

## TFT- 303- FASHION PORFOLIO DEVELOPMENT & FASHION SHOW

***Course Objective:***
Make Students understand the fashion portfolio concepts. Students will develop interpersonal skills, understand the commercial aspects of the industry and achieve individual objectives of either being trained to work within the industry or start an independent fashion venture.

**Instructions:**
- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**
Quality Supervisor, Fashion Forecaster, Retail Merchandiser, Store Manager, Product tester, Production manager, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Sales Manager, Sales representative, Pattern Maker, Pattern Grader, Pattern and Product Development, Technical assistant, Researcher.

**UNIT-I**

*Developing portfolio for mass production*
***Male:-*** Casual wear, Formal wear, Party Wear, Sportswear, Power wear, Preparation of spec sheet, swatch sheet, flat sketch sheet.
***Kids:-*** Casual wear, Formal wear, Party wear, Sportswear, Power wear, Preparation of spec sheet, swatch sheet, flat sketch sheet.

**UNIT-II**

***Developing portfolio for High Fashion***
***Mood Board Preparation for Male:-*** Preparation of Inspiration sheet, Theme sheet, Forecast color sheet, Client profile sheet, Design Preparation sheet, construction of any one garment with spec sheet.

***UNIT-III***

***Developing portfolio for High Fashion***
***Mood Board Preparation for Kids:-***Preparation of Inspiration sheet, Theme sheet, Forecast color sheet, Client profile sheet, Design Preparation sheet, construction of any one garment with spec sheet.

***UNIT-IV***

***Design presentation through Fashion Show.***

1. Global Apparel
2. Image Business of Fashion.
3. India Vogue/International Vogue.
4. Fashion ELLE.

## TFT-304-MEN'S APPAREL

***Course Objective:***

**To impart the knowledge of different garment components. Through this course students will explore the progressive stages involved in the manufacturing process, and the influence of the process on design decisions.**

**Instructions:**

- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**

Quality Supervisor, Fashion Forecaster, Retail Merchandiser, Store Manager, Product tester, Production manager, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Sales Manager, Sales representative, Pattern Maker, Pattern Grader, Pattern and Product Development, Technical assistant, Researcher.

### UNIT-I

***Designing, drafting and constructing the following garments.***

Full sleeve shirt - full open, shirt collar, patch pocket, full sleeve with cuff
T-Shirt -open collar, zip attached

### UNIT-II

***Designing, drafting and constructing the following garments.***

Kalidhar kurtha - kali piece, side pocket, round neck, half open

### UNIT-III

***Designing, drafting and constructing the following garments.***

Pyjama- Elastic /Tape attached waist.
Bermudas -patch pocket

### UNIT-IV

***Designing, drafting and constructing the following garments.***

Pleated trousers - pleats in front, Darts at back, side pocket, fly with button /zip.

## TFT-305-CAD-II

***Course Objective:***

To acquaint the students with the knowledge of CAD based applications in fashion designing. Introduction to the software tools use for the design and communication of a collection, developing various techniques applied to fashion designing.

**Instructions:**

- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**

Quality Supervisor, Fashion Forecaster, Retail Merchandiser, Store Manager, Product tester, Production manager, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Sales Manager, Sales representative, Pattern Maker, Pattern Grader, Pattern and Product Development, Technical assistant, Researcher.

**UNIT-I**

***Pattern Making***(Skirt, Trouser, Shirt, Girls Top etc.)

**UNIT-II**

**Grading** (Skirt, Trouser, Shirt, Girls Top etc.)

**UNIT-III**

**Marker Making:** Marker making of one garment, marker making of various garments having same size, marker making of various garments of different sizes.

**UNIT-IV**

**Use of Software:** Garment CAD, Textile CAD.

***Reference:***

- Bina Abling. “Fashion Sketch Book” Fairchild Publications.
- Druid Elisabeth and Pace Tiziana. “Figure Drawing for Fashion Design” Peplin Press.
- Ireland Patrick John. “Fashion Design Drawing and Presentation”. Bastsford.

## TFT-306- INDUSTRIAL TRAINING

***Objective:-***

- Allow students to explore the prevalent commercial/industrial practices in order to reinforce theoretical knowledge with practical experience.

**Job Roles:-**

Quality Supervisor, Fashion Forecaster, Retail Merchandiser, Store Manager, Product tester, Production manager, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Sales Manager, Sales representative, Pattern Maker, Pattern Grader, Pattern and Product Development, Technical assistant, Researcher.

At the end of the semester, students should compulsory undergo two week industrial training (TFT 306) and relevant certificate and report has to be submitted.

## SEMESTER-VI

## TFT-308: RESEARCH METHODOLOGY

***OBJECTIVES:***
To equip the students with the basic understanding of research methodology and various tools used for the same.

**Instructions:**
- The syllabus of this paper has been divided into FOUR units.
- Examiner will set a total of **NINE** questions comprising Two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.
- The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.
- All questions carry equal marks.

**Job Roles:-**
Quality Supervisor, Fashion Forecaster, Retail Merchandiser, Store Manager, Product tester, Production manager, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Sales Manager, Sales representative, Pattern Maker, Pattern Grader, Pattern and Product Development, Technical assistant, Researcher.

**UNIT-I**

Nature and scope of Research Methodology. Importance of Research in important Areas.

**UNIT-II**

Process of Research-Exploratory Research, Prescriptive Research, Experimental Research.

**UNIT-III**

Methods of data collection-Primary data-Secondary data. Designing of a Questionnaire, Sampling - Probability sampling & Non-Probability sampling methods.

**UNIT-IV**

Hypothesis-

Test of Significance - T Text (for small samples)
F-(Association of attributes)
X2 test of attributes

***References -***

- Research methodology by P.K. Manoharam
- Research methodology by Dr. C. Rajindra Kumar

## TFT 309- FABRIC SCIENCE

**Time: 3 Hrs.**

***Objectives:***

- To impart knowledge of fibres, sources of fibres, their definitions and properties.
- To provide students with knowledge of yarn science and yarn properties.
- To enable students to develop practical skills of dyeing.

***Job Roles:-***

Quality Supervisor, Fashion Forecaster, Retail Merchandiser, Store Manager, Product tester, Production manager, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Sales Manager, Sales representative, Pattern Maker, Pattern Grader, Pattern and Product Designer, Technical assistant, Researcher, Design Developer & Trainer in Fashion Institute.

### UNIT I

Microscopic appearance, Burning Test and Solubility test for different fibres- Cotton, Wool, Nylon, Polyester, Rayon and Jute.

### UNIT II

Visual identification of Spun, filaments, cords, cable and fancy yarns.
Collection of different types of yarns.
Count of yarns.
Twist of yarns using Twist tester
Yarn properties- Linear density, Size, Twist, Twist direction, Strength, Uniformity.

### UNIT III

Testing of Fabrics-- Colour fastness to water, Test of Shrinkage and Absorbency

### UNIT IV

Dyeing of Fibres, Yarns, Fabric and Decorative Dyeing- Tie dye, Batik, Resist and Discharge dye.

***References***

1. Textiles – Sara J Kadolph and Anna L Langford- Prentice Hall, New Jersey, USA.
2. Fiber to Fabric- Porter and Corbman- Mc Graw Hill Book Company, New York.
3. Essentials of Textiles – Marjory. L. Joseph- Holt Rinehart & Winston, Austin, Texas, USA.

## TFT 310- ADVANCE GARMENT CONSTRUCTION TECHNIQUE

**Time: 3 Hrs.**

***Objectives***

- To teach different aspects of drafting and designing.
- To help the students to develop their own design.
- To acquaint the students with skills of innovative clothing construction.

***Job Roles:-***

Quality Supervisor, Fashion Forecaster, Retail Merchandiser, Store Manager, Product tester, Production manager, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Sales Manager, Sales representative, Pattern Maker, Pattern Grader, Pattern and Product Designer, Technical assistant, Researcher, Design Developer & Trainer in Fashion Institute.

### UNIT I

Metric method of drafting of bodice for a child.
Metric method of drafting of bodice for an adult.
Metric method of drafting of sleeve and collar for a child.
Metric method of drafting of sleeve and collar for an adult.

### UNIT II

Application of metric method of drafting any one innovative Sleeve, Collar, Top and a Skirt.

### UNIT III

Study of fashion forecast, market survey, interpretation.
Designing of costumes of varied themes, silhouettes, fabrics, surface ornamentation etc. based on forecast study.
Creating full scaled patterns of these self designed costumes.

### UNIT IV

Construction of any eight innovative garments for all age groups, for different themes, occasions, seasons.
After cutting and sewing of the garment, students will also be taught quality control check, finishing and packaging of the garment.

***References***

- Advanced drafting and draping by Manmeet Sodhia, Kalyani Publishers.
- The Art of Fashion Draping by Connie Amaden Crawford Fairchild.

## TFT 311- CONSTRUCTION OF SOFT FURNISHINGS

**Time: 3 Hrs.**

***Objectives***

- To help the students to venture into the field of furnishings by designing and construction of various articles
- To teach the students various methods of making major home decorating articles.

***Job Roles:-***

Quality Supervisor, Fashion Forecaster, Retail Merchandiser, Store Manager, Product tester, Production manager, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Sales Manager, Sales representative, Pattern Maker, Pattern Grader, Pattern and Product Designer, Technical assistant, Researcher, Design Developer & Trainer in Fashion Institute.

**UNIT I**

Introduction

History of Furnishing

Fabric used for furnishing

Surface embellishment of Furnishing

**UNIT II**

Stitching of Place mats

Stitching of pocketed wall panel

Stitching of Picnic tote or table cloth

**UNIT III**

Construction of Apron (Reversible apron e.g. finishing using self faced technique) with patch pocket.

Construction of Shoulder bag or beach bag (any one)

Construction of Pillow case (Knife edge form or rectangular box edge form) (any one)

**UNIT IV**

Construction of Curtain – Draw draperies or ruffled glass curtain (any one)

Constructions of Quilt for baby coat or slip cover for sofa or throw for single coat (any one).

## TFT-312- INDUSTRIAL TRAINING

***Objective:-***

Allow students to explore the prevalent commercial/industrial practices in order to reinforce theoretical knowledge with practical experience.

**Job Roles:-**

Quality Supervisor, Fashion Forecaster, Retail Merchandiser, Store Manager, Product tester, Production manager, Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Sales Manager, Sales representative, Pattern Maker, Pattern Grader, Pattern and Product Development, Technical assistant, Researcher.

At the end of the semester, students should compulsory undergo two week industrial training (TFT 312) and relevant certificate and report has to be submitted.
