SYLLABI FOR M.PHIL. COURSE IN ECONOMICS FOR THE SESSION - 2018-19

SEMESTER – I

Paper-I	Research Methodology	100 marks (4 credits) (50+50 internal assessment)
Paper-II	Applied Econometrics	100 marks (4 credits) (50+50 internal assessment)

SEMESTER-II

Paper-III	Economic Methodology	100 marks (4 credits) (50+50 internal assessment)
Paper IV	Optional (Any one of the following):	
(i)	Public Policy and Governance	100 marks (4 credits) (50+50 internal assessment)
(ii)	Industrial Economics	100 marks (4 credits) (50+50 internal assessment)
(iii)	Money, Banking and Finance	100 marks (4 credits) (50+50 internal assessment)
(iv)	International Economics	100 marks (4 credits) (50+50 internal assessment)
Paper- V	Dissertation	200 marks (8 credits) (Dissertation 150 + viva-voce 50 marks)

The students will carry out their research work from the beginning of their 1st semester and complete the same within a period of two semesters.

....

SYLLABI FOR M.PHIL. COURSE IN ECONOMICS FOR THE SESSION 2018-19

SEMESTER-I

PAPER-I: RESEARCH METHODOLOGY

4 Credits
100 marks
(50+50 internal assessment)
Teaching Hour : 40
Time : 3 Hours

Objective of the Course: The objectives of this paper are (i) to acquaint the students with the advances in the filed of Research Methodology; and (ii) develop research methodological skills for undertaking research in social sciences in general and in a discipline in particular.

Pedagogy: Class Room Teaching, Term Paper/Assignment, Presentations, Book Reviews & Seminars.

INSTRUCTIONS FOR THE PAPER-SETTERS:

Nine questions will be set in all with two from each unit and one question spread over the entire syllabus.
The 1st question consisting of 2 short notes, each carrying 5 marks, set out of the entire syllabus would be compulsory. Additionally, the students are required to attempt one question from each Unit carrying 10 marks.

Unit-I

Philosophy of Social Sciences:
Approaches to Social Sciences Research: Quantitative and Qualitative.
Inter-disciplinary Research in Social Sciences: Rationale and Approaches.
Social Science Research Process.
Selection and Formulation of Research Problem under Quantitative and Qualitative research approach.
Research Synopsis: Concept, Format and Writing.

Unit-II

Hypothesis: Concepts, Types, Features and Testing.
Sampling: Concepts, Types, Size, Sampling Error.
Triangulation: Concept, Rationale and Process.
Meta Analysis: Concept, Rationale and Process.

Unit-III

Methods of Data Collection.
Data Processing
Data Analysis
Report and Thesis Writing.

Unit-IV

Data Sources of Indian Economy
Nature and Sources of Micro and Macro statistical data relating to: Agriculture, Industry, Public Finance, Banking & Finance, External Trade, Consumption, Employment, and National Income.

PAPER II – APPLIED ECONOMETRICS

4 Credits
100 marks
(50+50 internal assessment)
Teaching Hour : 40
Time : 3 Hours

OBJECTIVES: Application of economic theory needs a reasonable understanding of economic relationships and relevant statistical methods. The econometric theory thus becomes a very powerful tool for understanding of applied economic relationships and for meaningful research in economics. This paper accordingly is devoted to equip the students with basic theory of econometrics and relevant applications of the methods. The topics covered in the course include methods to develop and implement various econometric models (both single equations and simultaneous equation models) in advance statistical/econometrics packages (i.e., STATA/Eviews/SPSS/Gretl/R).

Pedagogy: 50 marks allotted for class room teaching and 50 marks for Lab Practical. The Lab practical comprising 25 marks for successful execution of computer task, 10 marks for computer file, and 15 marks for viva-voce on implementing the econometric techniques in a given package on research topic assigned by the examiner. **Student may use any software among STATA/Eviews/SPSS/Gretl/R to answer the question during written exam and viva-voce**.

INSTRUCTIONS FOR THE PAPER-SETTERS:

Nine questions will be set in all with two from each unit and one question spread over the entire syllabus.
The 1st question consisting of 2 short notes, each carrying 5 marks, set out of the entire syllabus would be compulsory. Additionally, the students are required to attempt one question from each Unit carrying 10 marks.

Unit-I

Introductory Econometrics: Introduction to Nature, Role and Significance of Econometrics, Notes of Caution while Developing and Using Econometric Models.
Classical Econometrics: Bi-variate and Multivariate Regression Analysis Using STATA/Eviews/SPSS/Gretl/R; interpretation of coefficients, test of hypotheses and restrictions, goodness of fit statistics. Testing the Existence and Solving the Problems of Non-normality, Heteroscedasticity, Autocorrelation and Multicollinearity using STATA/Eviews/SPSS/Gretl/R.

Unit – II

Econometrics of Categorical Variables: Role of Categorical Variables in Econometric Modeling. Creating Categorical/Polychotomous Variables in STATA/Eviews/SPSS/Gretl/R. Estimating and interpreting the models with categorical variables as independent variables in STATA/Eviews/SPSS/Gretl/R.

Categorical Dependent Variable Models: Models with Dichotomous Response; Logit, Probit and Tobit estimation using STATA/Eviews/SPSS/Gretl/R. Models with Polychotomous Response; Multinomial Logit/Probit and Ordered Response Models Estimation using STATA/Eviews/SPSS/Gretl/R. Interpretation of Coefficients and Marginal Effects. Test of Significance and Goodness of Fit Statistics for Categorical Response Variable Models in STATA/Eviews/SPSS/Gretl/R.

Unit – III

Simultaneous Equation Models: Estimating Simultaneous Equation Models using STATA/Eviews/SPSS/Gretl/R. Basic Discussion on Identification Problem; Rank and Order Conditions for Identification. Estimating the Simultaneous equations models using Indirect Least Squares (ILS), Two Stage Least Squares (2SLS), Full Information Maximum Likelihood (FIML) and Seemingly Unrelated Regression (SUR) methods in STATA/Eviews/SPSS/Gretl/R.

Time Series Analysis: Using Distributed Lag, Autoregressive, and Moving Average terms in STATA/Eviews/SPSS/Gretl/R. Testing and Interpreting the Presence of Unit-root, Seasonality and Structural Breaks in Time Series Variables using STATA/Eviews/SPSS/Gretl/R. Estimating and Interpreting Co-integration, VAR/VECM and Impulse Response models/coefficients using STATA/Eviews/SPSS/Gretl/R.

Unit – IV

Panel Data Analysis: Testing Significance of Cross-section and Time-specific Effects in STATA/Eviews/SPSS/Gretl/R. Estimation and Interpretation of the Coefficients of Fixed and Random Effect Models in STATA/Eviews/SPSS/Gretl/R. Hausman Specification Test and Model Selection criteria in STATA/Eviews/SPSS/Gretl/R. Random Coefficient models estimation using STATA/Eviews/SPSS/Gretl/R. An Introduction to Panel Data Unit-root and Co-integration testing using STATA/Eviews/SPSS/Gretl/R.

SEMESTER-II

PAPER III – ECONOMIC METHODOLOGY

4 Credits
100 marks
(50+50 internal assessment)
Teaching Hour : 40
Time : 3 Hours

Objectives: The economic crisis that has affected the world economy since 2008 has unfolded deep flaws in the content and the teaching methods of economics. Courses such as economic methodology and history of economic thought have slowly been removed from the economics curriculum around the world. This new module provides students the opportunity to participate in the revival of interest in studying economic methodology and history of economic ideas. The study of the evolution of economic ideas and of the economics profession remains relevant to understand how theory and methods have developed historically in economics. The course will bring the necessary elements of plurality and interdisciplinary that economics research students need in order to understand the depth of economic ideas and policy stances but also that there is no absolute economic truth and that we need to contest existent and accepted economic wisdom.

Pedagogy: Class Room Teaching, Term Paper/Assignment, Book Reviews and Seminar.

INSTRUCTIONS FOR THE PAPER-SETTERS:

Nine questions will be set in all with two from each unit and one question spread over the entire syllabus.
The 1st question consisting of 2 short notes, each carrying 5 marks, set out of the entire syllabus would be compulsory. Additionally, the students are required to attempt one question from each Unit carrying 10 marks.

Unit-I

Methodology of Positive Science: Hypothetical deductive model, The symmetry thesis, Norms versus actual practice, Popper's falsification, The problem of induction.
Kuhn's paradigms; Methodology verses history, Scientific research programs, Feyerabend's anarchism, Back to principles, Case for methodological monism.

Unit-II

Sociology of Economics; Science and ideology in economics: Essays of Schumpeter and Solow.
Robinson's essay and positivism in economic methodology and its philosophical and ideological critique.
Neoclassical Economics and its critique; Rationality in economic theory and its critics.

Unit-III

Friedman's methodological instrumentalism: Philosophical evaluation and rejection of instrumentalism, Ideological and methodological critique of Friedman's position.
Keynes on economic modes and econometrics: Debate with Tinbergen

Unit-IV

Marx's position on ideology and method in economics; Dialectical and historical materialism as method of inquiry; Mode of production and superstructure model.
Methodology of heterodox economic tradition.

Suggested Readings :-

1. Mark Blaug (1997), Methodology of Economics: How Economists Explain, Cambridge University Press.
2. Daniel M. Hausman Eds. (1984), The Philosophy of Economics: An Anthology, Cambridge University Press.
3. Bruce J. Caldwell (2003), Beyond Positivism: Economic Methodology in the 20th Century, Routledge Publication.
4. Milton Friedman (1953), Essays in Positive Economics, University of Chicago Press.
5. Joseph Schumpeter (1976), History of Economic analysis, Oxford University Press.
6. Tony Lawson (2013), What is this 'school' called neoclassical economics?, *Cambridge Journal of Economics*, Vol. 37, No. 5, pp. 947-983.
7. Frederic S. Lee and Bruce Cronin Eds. (2016), Handbook of Research Methods and Applications in Heterodox Economics, Edward Elgar Publishing Ltd.
8. John M. Keynes (1939), Professor Tinbergen's' Method, *The Economic Journal*, Vol. 49, No.195, pp. 558-577.
9. Amaryta K. Sen (1977), Rational Fools: A Critique of the Behavioral Foundations of Economic Theory, *Philosophy & Public Affairs*, Vol. 6, No. 4, pp. 317-344.
10. Richard D. Wolff and Stephen A. Resnick (2012), Contending Economic Theories: Neoclassical, Keynesian and Marxian, The MIT Press.

PAPER IV : OPTION (i): PUBLIC POLICY AND GOVERNANCE

4 Credits
100 marks
(50+50 internal assessment)
Teaching Hour : 40
Time : 3 Hours

OBJECTIVES:- Policy Analysis has increasingly evolved into a structured set of steps that help policy makers, decision makers in the government, and society at large, to explore ways to improve the provision of public goods and services. The study of Public Policy process with a special focus on economic policy and governance is imperative to build the capacity to conduct research in economic issues of contemporary relevance.

Pedagogy of Course Work: The course relies on a combination of lectures, solving problems, and discussing of academic articles or real-life situations. Teacher will assign topic for assignments on contemporary themes and issues from the syllabi. Special tutorials/contact hour for one-to-one student-teacher interactions.

INSTRUCTIONS FOR THE PAPER-SETTERS:

Nine questions will be set in all with two from each unit and one question spread over the entire syllabus.
The 1st question consisting of 2 short notes, each carrying 5 marks, set out of the entire syllabus would be compulsory. Additionally, the students are required to attempt one question from each Unit carrying 10 marks.

Unit-I

Role of the State in Policy Making: Market Failure and Need for Government Intervention. Government Failure. Alternatives to Market and Government Failure. Meaning and Role of Centre of Government.

Unit-II

Policy Process: Need for Public Policy. Policy making process. Models of Public Policy - Institutional, Process, Incremental, Group, Elite, Public Choice and Game Theory model. Attributes of a good policy making process.

Unit-III

Governance: Concept and Need for Good Governance. Dynamic Governance. Transparency and Governance. Concept of Fragile State – Failed Governance.

Unit-IV

Economic Policies: Economic theories as policy guides. Economic Governance. Governance Issues in India's Economic Reforms . Governance and Policy Implementation in India.

Suggested Readings :-

1. R. Dye, Thomas. (2002). *Understanding Public Policy*, Pearson Education, New Delhi.
2. Nagel, Stuart S., (1984). *Public Policy – Goals, Means and Methods*, St. Martin's Press, N.Y.
3. Nagel, Stuart S., (2000). *India's Development and Public Policy*, Ashgate Publication Co.
4. Hill, M and Hupe, P (2002).*Implementing Public Policy,*Sage, London.
5. World Bank (2017). *World Development Report*: 'Governance and the Law' Washington D.C.
6. Government of India. Twelfth Plan Document Several Articles and Working Papers.

PAPER IV: OPTION (ii): INDUSTRIAL ECONOMICS

4 Credits
100 marks
(50+50 internal assessment)
Teaching Hour : 40
Time : 3 Hours

Objectives: In the 21st century, efficiency and competitiveness in all spheres of economic life and more 500 industrial sectors are at the core of success. The present syllabus is designed for the students to capture the contemporary issues in industrial development both in theory and in the Indian context.

Pedagogy of the Course Work: The course relies on a combination of lectures, solving problems, and discussing of academic articles or real-life situations. Teacher will assign topic for assignments on contemporary themes and issues from the syllabi. Special tutorials/contact hour for one-to-one student-teacher interactions.

INSTRUCTIONS FOR THE PAPER-SETTERS:

Nine questions will be set in all with two from each unit and one question spread over the entire syllabus.
The 1st question consisting of 2 short notes, each carrying 5 marks, set out of the entire syllabus would be compulsory. Additionally, the students are required to attempt one question from each Unit carrying 10 marks.

Unit – I

Structure Conduct Performance Paradigm of Bains; Oligopolisitc Rivalry; Collusion possibility; Dominant firm Behavior: Limit Price and Strategic Conduct.

Unit- II

Economics of Takeovers and Mergers: Types, Objectives and Effects. Public Policy for business combinations with special reference to India: Takeover code of SEBI and Competition Policy.

Unit – III

Technological Progress: Concepts, Optimal Technological Change; Patents and Innovations.

Unit – IV

Porter's Five Competitive Forces: Bargaining Power of Customers,
The Bargaining power of Suppliers, The Threat of New Entrants,
and The Threat of Substitute Products -- Combined with Other Variables
to Influence a Fifth Force, The Level of Competition in an Industry.
Determinants and Strategy Formation.

Suggested Readings :-

PAPER IV-OPTION (iii) - MONEY, BANKING AND FINANCE

4 Credits
100 marks
(50+50 internal assessment)
Teaching Hour : 40
Time : 3 Hours

OBJECTIVE: This course aims to provide the doctoral students exposure to the recent developments in money, banking and financial issues in Indian economy.

Pedagogy: Class Room Teaching, Term Paper/Assignment, Presentations, Book Reviews & Seminars.

INSTRUCTIONS FOR THE PAPER-SETTERS:

Nine questions will be set in all with two from each unit and one question spread over the entire syllabus.
The 1st question consisting of 2 short notes, each carrying 5 marks, set out of the entire syllabus would be compulsory. Additionally, the students are required to attempt one question from each Unit carrying 10 marks.

Unit – I

Money Inflation and Growth.
Reserve Bank of India and Money Supply Growth Rule.
Estimating Money Multiplier for India.

Unit – II

Empirical Demand Function for money for India.
The Banking Sector in India: Emerging issues and challenges.
Recent Developments in the Theory and Role of Central Banks with special reference to the issues of Role, Autonomy and Monetary Policy of Reserve Bank of India.

Unit – III

Recent Developments in the Theory of Financial Markets and Asset Pricing.
Current state of the Indian Capital Market.

Unit – IV

Financial Liberalization in India: An Assessment.
Financial Sector Regulation in India.

Suggested Readings :-

1. Benjamin M. Friedman and Frank H. Haun (2000) (ed.). *Handbook of Monetary Economics*; Volume I and Volume II.
2. Peter Bofinger (2001). *Monetary Policy: Goals, Institutions*, Strategies and Instruments, Oxford University Press.

3. Rakesh Mohan (2009). *Monetary Policy in a Globalized Economy*: A Practioner's View, Oxford University Press.
4. *Economic and Political Weekly*: Various Issues.
5. *The Indian Economic Journal*: Recent Issues.
6. *Government of India: Economic Survey*; Latest Issue.
7. *Reserve Bank of India*: Report on Currency and Finance, Current Issues.

PAPER IV-OPTION (iv) - INTERNATIONAL ECONOMICS

4 Credits
100 marks
(50+50 internal assessment)
Teaching Hour : 40
Time : 3 Hours

Objective : The course intends to provide a deep understanding about the broad principles and theories, which tend to govern the free flow of trade in goods, services and capital at the global level. The contents of the paper spread over different modules, lay stress on the theory and nature of the subject which, in turn, will greatly help them to examine the impact of the trade theories and policies followed both at the national and international levels also their welfare implications at macro level and the distribution of gains from trade.
The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.

Pedagogy: Class Room Teaching, Term Paper/Assignment, Presentations, Book Reviews & Seminars

.

INSTRUCTIONS FOR THE PAPER-SETTERS:

Nine questions will be set in all with two from each unit and one question spread over the entire syllabus.
The 1st question consisting of 2 short notes, each carrying 5 marks, set out of the entire syllabus would be compulsory. Additionally, the students are required to attempt one question from each Unit carrying 10 marks.

Unit-I

Trade Based on Competitive Advantage: Imperfect Competition and Intra Industry Trade. Economics of Services Trade.

Unit-II

Global Financial Institutions – Role, Functions and Working of International Financial Corporation, World Bank, International Development Association, International Financial Corporation and Asian Development Bank.

Unit-III

Financial Crises: Explanations, Types and Implications.
East Asian Crisis, 2008 US Recession and Eurozone Debt Crisis.

Unit-IV

Global Environmental Problems: Global Warming Ozone Depletion and Acid Rain (Consequences and Solutions or International Responses); Earth Summits 1992, 2002 and 2012.

Trade and Environment: Environmental Effects of International Trade; Environmental Concerns, the Global Commons and the Indian Economy.
