Computer Science and Applications

Title : Computer Fundamentals and PC Software

Paper Code: CSADSC1

L	T	P	Cr
2	-	4	4

Time Duration: 3 Hrs.

Theory External Marks: 45
Theory Internal Marks : 05
Number of Th. Hrs. : 30
Practical Ext. Marks : 50
Number of Pr. Hrs. : 60

Objectives: The objective of this course is to familiarize students with the fundamentals of computers and packages commonly used in application software.

Course Outcome :

On successful completion of the course, students will be able to:

i. Understand the fundamentals of personal computers, application usages etc.
ii. Get the knowledge of peripherals of personal computer and booting process.
iii. Use word processing packages for writing emails, letters and chapters etc.
iv. Handle statistical data using spreadsheets packages.
v. Design presentations for business analyses, industrial growth etc.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of NINE questions comprising TWO questions from each Unit and ONE compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Introduction to Computers: Characteristics of Computers, Functional Units of Computer System: CPU, registers, system bus, main memory unit, cache memory; Inside a computer: SMPS, Motherboard, Ports and Interfaces, expansion cards, ribbon cables, memory chips, processors

Devices: Input and output devices, Keyboard, Mouse, Joystick, Scanner, OCR, OMR, Bar Code Reader, Web Camera, Monitor, Printer and Plotter; Memory: Primary, Secondary/Auxiliary memory, RAM and ROM and their types, Cache memory, Units of measurement of storage; Storage devices, Hard disks, Optical disks, Memory storage devices: Flash Drive, Memory card; Types of software: System and Application software

Data Representation: Bit, Byte, Binary, Decimal, Hexadecimal, and Octal Systems. Conversions between different number systems; Character Codes: Introduction to ASCII, EBCDIC and Unicode character sets

Understanding Windows Operating System: Anatomy of windows, Taskbar Settings, managing folders and files, Searching Files and folders, Customizing Windows, Recycle Bin, Control Panel.

UNIT - II

Introduction to Word Processing: Opening, Creating, Saving, Printing and closing Documents, Using the Interface (Menu Toolbars), Editing Text (Copy, Delete, Move), Finding and Replacing Text, Spell Check, Autocorrect; Auto-text, Character formatting, Paragraph formatting, Page formatting.

Document Enhancement: Inserting Pictures, Tables, inserting special characters, Adding Borders and shading, Adding Headers and Footers, numbering pages, setting up Multiple columns, Adjusting Margins and Hyphenating Documents, changing document views, Adding comments to a document, Tracking changes to a document.

Using styles and templates: Applying, modifying and creating new (custom) styles; Creating a table of contents, creating indexes and bibliographies

Mail Merge and Macros: Creating Master Document and Data Source, Merging and printing Documents; Creating and using Macros, Creating fill-in forms.

UNIT - III

Introduction to Spreadsheets: Worksheet overview, Row, Column, Cells, Ribbon, Tabs, Groups, Name Box and Formula Bar; Creating, Opening, Saving and printing worksheet; Speeding up data entry: using fill tool, fill series, defining fill series; working with Formulae, Data formatting (number formatting, date formatting),Working with Ranges, Absolute, relative and Mixed addressing; Viewing a spreadsheet: freezing rows and columns, splitting screen; creating, sorting and filtering Data Base; Creating and running Macros, Assigning shortcuts to Macros

Using Functions: Statistical, financial, Mathematical, string, date and time.

Working with sheets: inserting new sheet, moving, deleting and renaming sheets

Creating Charts: Understanding Chart types, Creating Embedded Charts, formatting Charts: Changing Chart types, adding Titles, Legends and Gridlines, Printing Charts

UNIT – IV

Presentation Software: Creating, saving, and printing presentations; selecting design templates, Changing Background and Layout, Inserting tables and images, animations and transitions

Databases: Introduction to database, Creating database using Wizard or from scratch, creating tables using wizard, entering data, using design view, saving, inserting, editing, Changing properties of fields, setting primary key.

Suggested Readings:

2. Prof. Satish Jain, Shashi Singh, M. Geetha, Windows 10 with MS office 2016, BPB Publications
3. Mansfield Ron,Working in MS Office, Tata McGraw Hill.

Title : Practical Based on Paper – CSA01
(Computer Fundamentals and PC Software)

Paper Code: CSADSC1

Time Duration: 3 Hrs. Number of Hours: 60

Note : Paper will be set at the time of examination. Due weight-age may be given to the practical note-book and Assignments in evaluation.

Title : Programming in C

Paper Code :CSADSC2

L	T	P	Cr
2	-	4	4

Time Duration: 3 Hrs.

Theory External Marks: 45
Theory Internal Marks : 05
Number of Th. Hrs. : 30
Practical Ext. Marks : 50
Number of Pr. Hrs. : 60

Objectives: The objective of this course is to familiarize students with programming language "C" and its use in Problem solving.

Course Outcome :
On successful completion of the course, students will be able to:

i. Understand the programming concepts.
ii. Learn the C programming in practical usage.
iii. Solve programming problems using C programming language.
iv. Gain the in depth knowledge of strings, arrays, functions and file handling etc.
v. Develop applications based on programming concepts.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of NINE questions comprising TWO questions from each Unit and ONE compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Programming Process: Steps in developing of a program, Algorithm development, Flowchart, Testing and Debugging.
Fundamentals of C Languages: History of C, Character Set, Identifiers and Keywords, Constants, Types of C Constants, Rules for Constructing Integer, Real and character Constants, Variables, Data Types, rules for constructing variables.
Operators and Expressions: C Instructions, Arithmetic operators, Relational operators, Logical operators, Assignment Operators, Type Conversion in Assignments, Hierarchy of Operations, Standard and Formatted Statements, Structure of a C program, Compilation and Execution.

UNIT - II

Decision Control Structure: Decision making with IF-statement, IF-Else and Nested IF-Else, The else if Clause.
Loop Control Structure: While and do-while, for loop and Nested for loop, Case Control Structure: Decision using switch, The goto statement.
Functions: Library functions and user defined functions, Global and Local variables, Function Declaration, Calling and definition of function, Methods of parameter passing to functions, recursion.

UNIT - III

Arrays: Introduction, Array declaration, accessing values in an array, initializing values in an array, Single- and Two-Dimensional Arrays, initializing a 2-Dimensional Array, Memory Map of a 2-Dimensional Array, Arrays of characters, Insertion and deletion operations, Searching the elements in an array, Using matrices in arrays.
Pointers: Pointer declaration, Address operator "&", Indirection operator "*", Array of Pointers.

UNIT - IV

Storage Classes in C :Auto, Extern ,Register and Static with their Scope, Storage & Lifetime.
String Manipulation in C: Declaring and Initializing string variables, Reading and writing strings, String Handling functions (strlen(), strcpy(), strcmp(), strcat()).
Structures and Unions: Definition. Advantages of Structure, Declaration of structures, Structure Initialization, Accessing Structure members, Arrays of Structures, Union Definition, Difference between Structure and Union.

Suggested Readings:

ENGLISH

Learning Objectives of the Programme

- English is not merely a language but also a complect subject in itself. Thus, while training in the language, one is introduced to the rich reservoir of English literature. So, a student is trained both in language as well as literature.
- Since English is a global language, learning it opens several and varied avenues across borders. It is a language of transaction and transformation. Even within the nation, it is English that brings the North and the South of the country closer and bridges all gaps. Thus, a student is equipped with a tool that is universally recognized, accepted and promoted.
- English is no longer an alien or a colonial language. It has been Indianized with Indian Writings in English forming an essential subset of the English curriculum across the universities of the country.
- English as a language and English literature are studied in the context of postcolonial emancipation and are regarded as tools of not only critiquing the colonial project but also rewriting the native and indigenous histories. Thus, the subject of English has come to acquire a greater relevance from political as well as socio-cultural perspectives.
- The domain of English has borrowed from various other fields like sociology, philosophy and political science, and hence allows students to engage with other disciplines.
- Within its frame, it has also incorporated new trajectories like Cultural Studies, including cinema. music and art, and the New Media Writings.

ENVIRONMENT CONSERVATION

SEMESTER-I

ENVIRONMENTAL CONSERVATION: NATURAL RESOURCE MANAGEMENT

Course Code: ENCDSC1 **Credits= 4 (T=3 + P=1)**

Course Title: Environmental Conservation: Natural Resources management

Total Hours = 60 (Theory=45+Practical=15)
Total Marks = 100 (Theory=75+Practical=25)
Internal Assessment =20%

Course Outcomes

1. *The students will be able to understand about natural resources, their types and realize the importance of resources.*
2. *The students will be able to acquire deep knowledge about land and forest resources.*
3. *The students will be able to describe energy resources.*
4. *The students will be able to analyse Indian as well as global statusof natural resources.*
5. *The students will be able to study conservation methods of natural resources.*

THEORY

Unit-I (15 Hrs)

Natural and Energy Resources:
1.1 Natural resources-Classification and types of resources
1.2 Renewable and non-renewable resources
1.3 Concept of conventional and non-conventional sources of energy
1.4 Fossil fuels- coal, crude oils and natural gas
1.5 Solar energy
1.6 Wind energy
1.7 Biomass energy
1.8 Geothermal energy

Unit-II (15 Hrs)

Forest Resources
2.1 Importance of forest;
2.2 Productive functions, protective and ameliorative functions,
2.3 Non-timber forest products
2.4 Major forest types in India
2.5 Conservation of forest resources
2.6 Global status of forest conservation efforts

Unit-III (15 Hrs)

Land Resources
3.1 Land Resources: Global land use patterns
3.2 Soil degradation – causes; Soil erosion, Desertification
3.3 Wasteland Reclamation. Land degradation
3.4 Land cover, land use changes; land degradation and its control
3.5 Water logging and salinity
3.6 Organic farming

PRACTICALS (15 Hrs)

1. Prepare a report on promotion of green energy in India
2. To do a survey of water consumption and conservation practises of a selected area.
3. To visit and make a list of forest and non-forest products in the market.
4. Identify the sources of energy used in your area
5. Visit to a local area to document environmental assets river/ forest/grassland/hill/mountain
6. To determine soil quality parameters using portable soil analysis kit

SEMESTER-II

ENVIRONMENTAL CONSERVATION: ENVIRONMENTAL POLLUTION AND MANAGEMENT

Course Code: ENCDSC2 **Credits= 4 (T=3 + P=1)**
CourseTitle: Environmental Conservation: Environmental Pollution and Management

Total Hours = 60 (Theory = 45 + Practical = 15)
Total Marks = 100 (Theory = 75 + Practical = 25)
Internal Assessment = 20%

Course Outcomes

1. *The students will be able to understand about causes, sources and effects of environmental pollution.*
2. *Thestudentswillbeableto learn about atmospheric structure and processes*
3. *ThestudentswillacquireknowledgeaboutGlobal Water Balance and Hydrological cycle.*
4. *Thestudentswill get practical knowledge of water quality parameters and soil parameters.*

THEORY

Unit-I (15 Hrs)

Hydrosphere and Water Resources
1.1 Composition of Hydrosphere, Global Water Balance
1.2 Hydrological Cycle; Major Sources of Water, Surface and subsurface water sources
1.3 Water Anomalies including Floods and Droughts
1.4 Overutilization of Water and Water Scarcity
1.5 Conflicts Over Water – National and International
1.6 Case Studies; Satluj Yamuna Link Canal Issue, Kaveri Issue

Unit-II (15 Hrs)

Water Pollution and Control Measures
2.1 Water Pollution: Concept, Causes and Sources
2.2 Water Pollutants and categories
2.3 Effect of water pollution on plants , animals and humans
2.4 Basics of Water Testing , Potable water
2.5 Control Measures; Waste Water Treatment
2.6 Root Zone technology

Unit-III(15 Hrs)

Air Pollution and Control Measures
3.1 Composition and Structure of Atmosphere
3.2 Air Pollution: Concept and Sources; Noise Pollution
3.3 Air Pollutants and Categories
3.4 Effects of Air Pollution
3.5 Major Air Pollution Issues: Global Warming, Acid rain, Ozone Depletion
3.7 Control Measures; Air Pollution Control Devices

PRACTICALS (15 Hrs)

1. Draw the pie diagram showing the global water balance.
2. To study the structure of the atmosphere with the help of a label diagram
3. To determine water quality parameters (pH, EC and TDS) using analysis kit.
4. To study air quality parameter like SPM using Air Quality Monitor
5. To visit, collect data and prepare report regarding air and water pollution of a site.

Fashion Designing

Semester I
Paper - Fundamentals of Clothing (FDEDSC1)
Theory

Credit: 3 **Maximum Marks: 75**
Duration of Class: 3 hours per week **Paper: 60**
Duration of Exam: 3 hours **Internal Assessment: 15**

Instructions for Paper Setter:
The question paper will have four sections, A, B, C, and D. Two questions will be framed from each unit: A, B, and C. Students are required to attempt four questions in total, selecting at least one question from each section. Section D is compulsory, which includes questions from the whole syllabus. All questions carry equal marks.

Learning Objectives:
On successful completion of the course, the students will be able to:
1. Take correct body measurements for garment construction
2. Construct various seams and seam finishes
3. Identify traditional embroideries of India
4. Draft and construct basic garments

UNIT-I

I. A study of tools and equipment:
   a) Measuring Tools
   b) Marking Tools
   c) Cutting Tools
   d) Finishing tools

II. Sewing machine parts and types.
III. Functioning, maintenance, and defects of the Sewing machine.

UNIT-II

IV. Basic Terminology:
Haute Couture, Custom clothes, Pret-a-porter, Fashion, fads, classics, taste, Hi-style, silhouette, accessories, notions, draping, drafting, design, motif, trimmings, braids, bias, yokes, grain, selvage, fray, notch, pucker, style reading, frills, flounces, ruffles, style lines: princess line and empire line.

UNIT-III

V. A study of anthropometric/body measurements:
   a) List of measurements
   b) Locating landmarks
   c) Taking body measurements

VI. Traditional embroideries of India:

a) Kantha
b) Phulkari
c) Chikankari
d) Chamba
e) Kasuti
f) Kasida
g) Kutch and Sindhi

Semester I
Paper - Basic Construction Techniques and Sketching
(Practical)

Credit: 1 **Maximum Marks: 25**
Duration of Class: 2 hours per week **Paper: 20**
Duration of Exam: 3 hours **Internal Assessment: 05**

Instructions for Paper Setter and Candidates:

1. The question paper will be set on the spot.
2. The duration of the paper will be three hours.
3. The candidate is required to prepare and submit a practical file.

Content:

I. Basic Samples:
   a) Stitching samples - straight, circular, square, spiral, curvilinear, and chevrons.
   b) Seams and seam finishes - Plain, French, Lap, Run and fell, Mantua Maker, tailor's tack, Pinking, Overlocking, turned and stitched.
   c) Basting - Even, Uneven, diagonal
   d) Hemming - vertical (invisible), Slanting (visible), Slip stitching, blind stitching.

II. Drafting & Construction of bloomer and A-line frock
III. a) Sketching of – Fashion Figure - 8 ½, 10, and 12 head
   b) Sketching of fashion accessories, frills, flounce, ruffles, style lines, and yokes

Semester II

Paper-Fabric Study and Design Concept (FDEDSC2)
(Theory)

Credit: 3 **Maximum Marks: 75**
Duration of Class: 3 hours per week **Paper: 60**
Duration of Exam: 3 hours **Internal Assessment: 15**

Instructions for Paper Setter:
The question paper will have four sections, A B C, and D. Two questions will be framed from each unit A, B, and C. Students are required to attempt four questions in total, selecting at least one question from each section. Section D is compulsory which includes questions from the whole syllabus. All questions carry equal marks.

Learning Objectives:

On successful completion of the course, the students will be able to

1. Identify fibers and their properties
2. Learn about yarn size and properties.
3. Apply principles and elements of art in clothing
4. Draft and construct basic garments and products.

UNIT-I

I. Fiber Fundamentals- classifications of fibers
II. Fiber-to-fabric processing(with special reference to the properties)
   a. Natural fibres-cotton, silk and wool
   b. Synthetic fibers-polyester

UNIT-II

III. Yarn construction- yarn classification and yarn twist
IV. Fabric construction- weaving, knitting, braiding, felting, bonding, lace making
V. Weaves- Basic and novelty

UNIT-III

Fundamentals of design (with apparelillustrations)

VI. Elements of Art
   a. Line
   b. Form/shape
   c. Colour
   d. Texture

VII. Principlesofdesign
   a. Balance
   b. harmony
   b. emphasis
   c. rhythm
   d. proportion

VIII. Application of the elements and principles of design to the basic figure types
   a. Short and thin
   b. short and stout
   c. tall and thin
   d. Tall and stout

Semester II
Paper-Basic Construction Techniques and Sketching-II
(Practical)

Credit: 1 **Maximum Marks: 25**
Duration of Class: 2 hours per week **Paper: 20**
Duration of Exam: 3 hours **Internal Assessment: 05**

Instructions for Paper Setter and Candidates:

1. The question paper will be set on the spot.
2. The duration of the paper will be for three hours.
3. The candidate is required to prepare and submit a practical file.

Content:

I. Basic Samples:
   a) Neckline Finishes: (Facings and bindings) - Round, square, 'V' shape, and shaped necklines.
   b) Plackets and fasteners - Two pieces (Kurta placket and blouse placket), one piece, extended bodice, Zipper placket.
   c) Fullness treatment - gathers into a band, shirring, smocking, tucks, darts, and pleats.

II. Drafting & Construction of petticoat and skirt
III. Sketching of

   a) Sketching of garments - shirts, skirts, and trousers using different elements and principles of design
   b) Colour wheel

Fine Arts

Semester I

History of Art (Theory) – Part A, Fine Arts Practical - Part B
Total Credit 4 (Theory: 1 credits) + Practical: 3 credits
ARTDSC1

Max. Marks: 100

History of Art (Theory) - Part A

Max. Marks:30- 20+ 10 (MST)
Theory paper: 20 marks
Time: 3 Hrs.

Program Outcome:
The course comprises of Fine Arts practical and History of Art, and aims to familiarize the students with a holistic concept of the subject through study of both practical and theory together.

PO I: Students will learn about the basic elements of Visual Arts i.e. line, proportion and colour. Students will be able to avail the awareness of implementing the different elements of art in art works.
PO II Students will understand the concept of principal of arts by studying Perspective, Foreshortening and Chairoscuro.
PO III: The students will understand about the different phases of development of art in India. Student will also learn about the material, technique and characteristics of **Indian Painting of** Prehistoric Indian Painting and Ajanta Cave Painting.
PO IV: Students will learn about the technique and characteristics of Palm Leaf Miniature Painting and Mughal Miniature Paintings.

The students will be encouraged to familiarize themselves with the art forms as seen from the books, slides and related films. Visits to Museums, exhibitions and art galleries are a part of study.

Instructions for Paper-setter and candidates:

i. There shall be 9 questions in all. Student has to attempt total 5 question in which first question is compulsory. The first question shall be of short answer type containing 8 questions, spread over the whole syllabus and answered in about 25 to 30 words. The candidate is required to attempt any 4 short answer type questions i.e., 1 marks for each. Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidate shall be given internal choice i.e., the candidates shall attempt one question from each Unit. Each long question shall be of 4 marks.

ii. For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will propotionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Course Outline

Unit-I Key Terms and Concepts

- Line
- Proportion
- Colour

Unit-II

- Perspective
- Foreshortening
- Chairoscuro

Unit-III: Introduction to Indian Painting

- Material, Technique and Characteristics of Prehistoric Indian Painting- Bhimbetka .
- Material, Technique and Characteristics of Ajanta Cave Painting- Vessantra Jataka.

Unit-IV: Introduction to Indian Painting

- Material and Characteristics of Palm Leaf Miniature Painting- Western Indian Miniature
- Material and Characteristics of Mughal Miniature Paintings

Fine Arts Practical: Part B

Max. Marks: 70
Practical paper: 15+15+40*(submission)=70 marks

Part B: The practical paper consists of two section:-

Section 1: Still Life Study

This study will enable students to understand the basics of drawing and painting in the subjects of still-life. They will also be taught the creative use of the mediums of pencil, colour pencil, charcoal, pastels, water colour, acrylic colours and oil colours.

Section B: Design

This study will enable students about all aspects of design like balance, unity, proportion, harmony, rhythm, space, line, shape in art. The skills learnt through this course will be utilized for preparing geometric design oriented layouts. Students will learn the black & white or Grey scale in design.

SECTION-I
STILL LIFE STUDY

Max. Marks: 15 **Time: 5 Hrs.**

Instruction to Paper-setter and candidates:

- The paper will be of 15 marks and maximum time allowed would be 5 hours. A still life study shall be set up with three objects and display at the back. The study shall be done in any one of the following mediums – pencil, charcoal or pastel colours on a ½ Imperial size sheet.

- For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in practical paper will propotionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Course Outline

- Drawing and Painting of a number of objects and to study the proportion, volume and rhythmic relationship of masses, study and rendering of texture of different objects.
- Number of objects : Three objects with display at the back.
  Medium : Pencil, charcoal, Pastel colours, water colour, acrylic colours and oil colours.
- Size : ½ Imperial size 6 sheets (3 in shading+ 3 in Colour)

SECTION-II
DESIGN

Max. Marks: 15 **Time: 5 Hrs.**

Instruction to Paper-setter and candidates:

i. The paper will be of **15** marks and maximum time allowed would be 5 hours. A visual arrangement of geometric and freehand design has to be done by students. An exercise in Black and white or grey scale. Create a design in any one of the following mediums – pencil, charcoal on half Imperial size sheet.

ii. For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in practical paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Course Outline

- Arrangement of Basic forms and elements of art to create a design to study the line, proportion, volume, balance and rhythm
- Medium : Pencil, charcoal (Black & white or Grey Scale).
- Size : ½ Imperial size 3 sheets

***SUBMISSION OF ART WORKS : 40 Marks (Based on work related to the paper).**

Submission marks will be given on the basis of the work done during the session. At least, 9 works will be submitted along with one sketch book. Submission marks shall be given by external and internal examiners jointly. In case of difference of opinion, marking may be done separately by each examiner giving marks out of 50% of the aggregate of the submission marks.

NOTE: 1. Choice of option to be offered would depend on the facility available in each Institution concerned.

2. Minimum of 7 hours teaching per week be assigned to the subjects out of which 6 hours be earmarked for practical classes and 1 hours for theory classes per week.

NOTE 2:

∗ **1. Instructions to Paper setter, division of marks and hours of teaching will be given as per NEP/ PU evaluation norms.**

2. Being a practical subject the total teaching hours will be 8 hours per week.

3. This paper will be offered for both discipline specific course (major and minor course).

Semester II

History of Art (Theory) – Part A, Fine Arts Practical - Part B

Total Credit 4 (Theory: 1 credits) + Practical: 3 credits

ARTDSC2

Max. Marks: 100

History of Art (Theory) - Unit 1

Max. Marks:30- 20+ 10 (MST)
Theory paper: 20 marks
Time: 3 Hrs.

Program Outcomes:

The course comprises of Fine Arts practical and History of Art, and aims to familiarize the students with a holistic concept of the subject through study of practical and theory.

Part A: **Part A:**

PO I : Students will learn about the basic elements of Visual Arts i.e. texture, form and shape. Students will be able to enhance skills, artistic ability, creativity.

PO II: Students will understand the concept of studying about the making of a composition, balance in art and the types of sculpture in round and relief.

PO III: Students will learn about material and characteristics of Sculptures of Indus Valley Civilisation.

PO IV: Students will learn about material and characteristics of sculptures of Mauryan Dynasty.

The students will be encouraged to familiarize themselves with the art forms as seen from the books, slides and related films. Visits to Museums, exhibitions and art galleries are a part of study.

Unit-I Key Terms and Concepts

- Texture
- Form
- Shape

Unit-II

- Composition
- Balance
- Sculpture in Relief and Round

Unit-III: Introduction to Indian Sculpture

- Material and Characteristics of Sculptures of Indus Valley Civilisation - Pashupati Seal and Dancing Girl.
- Material and Characteristics of Sculptures of Mauryan Dynasty –Lion Capital from Sarnath

Unit-IV: Introduction to Indian Sculpture

- Material and Characteristics of Sculpture of Kushan Dynasty- Fasting Buddha (Gandhara)
- Material and Characteristics of Sculpture of Gupta Dynasty- Standing Buddha (Sarnath)

Fine Arts Practical: Part B

Max. Marks: 70
Practical paper: 15+15+40*(submission)=70 marks

Part B: This paper consists of the following paper –

Section I: Landscape Painting
The paper will introduce students to the basics of drawing and painting in the subjects of landscape painting. They will also be taught the creative use of the mediums of Charcoal, Pastels, Oils, Acrylics and Water colours.

Section II: Design

This study will enable students about all aspects of design like balance, unity, proportion, harmony, rhythm, variety, relation, mass, volume, weight, space, line, shape in art. The skills learnt through this course will be utilized for preparing geometric, free hand design oriented layouts. Students will learn the Poster colour, water colour or acrylic Colour in design.

SECTION-I
LANDSCAPE PAINTING (ON THE SPOT)

Max. Marks: 15 **Time: 5 Hrs.**

Instruction to Paper-setter and candidates:

i. The paper will be of 15 marks and maximum time allowed would be 5 hours. A landscape painting shall be done on the spot. The work shall be done in any one of the following mediums – oils, acrylics or water colours on a ½ Imperial size sheet or Canvas Pad.

ii. For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in practical paper will propotionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Course Outline

- To study nature with relationship of objects, buildings and their arrangements in the foreground, middle and distance, texture, relative size of masses, tones and colours, use of linear and aerial perspective.
- Landscape painting: On the spot
- Medium : sketching, shading, charcoal, Oil colours, acrylic or Water colours
- Size : ½ Imperial - 6 sheets (3 in shading+ 3 in Colour)

SECTION-II
DESIGN

Max. Marks: 15 **Time: 5 Hrs.**

Instruction to Paper-setter and candidates:

i. The paper will be of **15** marks and maximum time allowed would be 5 hours. A visual arrangement of elements of geometric or freehand design has to be done by students. An exercise in Colour on the basis of principles of design in various proportion to create a design in any one of the following mediums – Poster colour, water colour or acrylic Colour on ½ Imperial size sheet.

ii. For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in practical paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper-setter must put note (ii) in the question paper.

Course Outline

- Arrangement of Basic forms and elements of art to create a geometric or freehand design to study the line, proportion, volume, balance and rhythm.
- Medium : Poster colour, water colour or acrylic Colour etc.
- Size : ½ Imperial size 3 sheets

***SUBMISSION OF ART WORKS : 40 Marks (Based on work related to the paper).**

GEOGRAPHY

SEMESTER I

COURSE TITLE: INTRODUCTION TO GEOGRAPHY

Typology of Course: **Subject A-1**
Course Code: GEODSC1
Level of Course: **100-199**
Total Credits: **4 (Theory 3 + Tutorial 1)**
Maximum Marks: **100 (90 Theory + 10 Internal Assessment)**
Course Duration: **Total = 60 Hours (Lectures – 45 Hours; Tutorial – 15 Hours)**

Evaluation:Maximum Marks: **100 (90 Theory + 10 Internal Assessment)**

- Terminal Examination: 90 Marks
- Internal Assessment: 10 Marks
- Examination Time: 3 Hours

COURCE OBJECTIVE: The course intends to introduce the students with fundamental concepts of geography to build the foundations of the discipline. The course is designed to ignite geographical thinking and raise geographical awareness among students and relate these to the larger context of development of knowledge.

COURSE OUTCOMES: At the end of the course the students will be able to:

- Recount the distinctiveness of geography as a field of learning in Social Sciences
- Synthesize the nature, scope and significance of geography
- Critically understand various processes shaping the Earth
- Evaluate various landforms on earth's surface

PEDAGOGY: The introduction of philosophical, conceptual and methodological foundations shall form the core of teaching and learning. The students are to be encouraged to have active interactions with the teacher and the peer group. The learning shall be based on creative assignments, interactive & innovative activities, discussions and learning by doing activities.

INSTRUCTIONS FOR PAPER SETTER AND CANDIDATES:

1. A compulsory question containing 12 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 9 parts in about 25-30 words each. Each part shall carry 2 marks (Total 9x2= 18 marks).
2. A total of eight questions will be set out of the whole syllabus at least *two* from each unit. The candidates will attempt *four* questions selecting one from each unit and each question will carry 18 marks (Total 4x18= 72 marks). These will be in addition to the compulsory question at serial number 1.
3. Special credit will be given to suitable use of maps and diagrams. Use of unmarked map stencils and colour pens/pencils are allowed.
4. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.
5. For CDOE, reappear/improvement candidates(s), who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will be increased proportionally to maximum marks of the paper in lieu of internal assessment. The paper setter must put note (5) in the question paper.

COURSE CONTENT

Unit I: Placing Geography in Context

1. Meaning, Nature, Divisions and Significance of Geography
2. Key Themes in Geography: Location, Place, Movement, Region, Human - Environment
3. Geography as (a) Spatial science; (b) Social science

Unit II: Geometry of the Earth

4. Latitude, Longitude, Time Zones and International Date Line
5. Size and Shape of the Earth.
6. Earth – Sun Geometry: Rotation and Revolution, Earth's Axis Tilt and Solar Altitude

Unit III: Earth Processes and Mechanisms

7. Internal Structure of the Earth: Evidences, Layers and properties of earth's interior
8. Continental Drift: Theory and Evidences
9. Plate Tectonics: Tectonic plates, movements and Mechanisms

Unit IV: Major Earth Features and Landforms

10. Types and Characteristics of Rocks: Igneous, Sedimentary, and Metamorphic
11. Characteristics, Types and distribution of Mountains
12. Characteristics and Types of Plains and Plateaus

SEMESTER II

COURSE TITLE: GEOMORPHOLOGY

Typology of Course: **Subject A-2**
Course Code: **GEODSC2**
LevelofCourse:**100-199**
Total Credits: **4 (Theory 2 + Tutorial 1 + Practical 1)**
Maximum Marks: **100 (60 Theory + 10 Internal Assessment + 30 Practical)**
Course Duration: **Total = 75 hours** (**Lectures – 30 Hours; Tutorial – 15 Hours; Practical – 30 Hours**)

Evaluation: Maximum Marks: **100 (60 Theory + 30 Practical + 10 Internal Assessment)**

- Terminal Examination: 60 Marks
- Internal Assessment: 10 Marks
- Practical Examination: 30 Marks
- Examination Time: 3 Hours

COURCE OBJECTIVE: This course aims at developing an understanding of important geomorphic concepts, processes and mechanisms that control the development of landscapes. It intends to enable students to comprehend the interrelationships of processes, landforms, material and time.

COURSE OUTCOMES: At the end of the course the students will be able to:

- Understand the nature, scope and significance of Geomorphology
- Critically understand the various processes and mechanisms that shape the Earth
- Understand the physical manifestations of the various processes on Earth's surface

PEDAGOGY: This course requires understanding of geomorphic forms and processes. It can be achieved through suitable use of audio – visual aids, photographs, maps, and other forms of illustrations. The field visits, observations and interpretation of landforms shall form the basis to achieve the objectives of the course.

INSTRUCTIONS FOR PAPER SETTER AND CANDIDATES:

1. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10x2= 20 marks).
2. A total of eight questions will be set out of the whole syllabus at least *two* from each unit. The candidates will attempt *four* questions selecting one from each unit and each question will carry 18 marks (Total 4x10= 40 marks). These will be in addition to the compulsory question at serial number 1.
3. Special credit will be given to suitable use of maps and diagrams. Use of unmarked map stencils and colour pens/pencils are allowed.
4. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.
5. For CDOE, reappear/ improvement candidates(s) who have not been assessed earlier for Internal Assessment, the marks secured by them in theory paper will be increased proportionally to maximum marks of the paper in lieu of internal assessment. Paper settermust put note (5) in the question paper.

INSTRUCTIONS FOR PRACTICAL EXAMINATIONS:

1. Each student shall prepare a practical file. They will be required to complete their practical file and get it signed from the class teacher at least 10 days before the commencement of their examination.
2. The practical examination in the form of viva-voce only shall be conducted at the respective college itself except for CDOE. There will be no laboratory exercise at that time of examination.

3. Practical examination at the respective colleges shall be conducted by one internal and one external examiner. The external examiner shall be appointed by the principal of the respective colleges in consultation with the senior most teacher of Geography in the college.
4. For students of CDOE, there will be no viva-voce examination for the candidates. They will be required to submit their Practical Note Book (Practical files) with the Centre for Distance and Online Education (CDOE), Panjab University (Department of Geography) atleast 10days before the commencement of their examination. Their Practical files will be evaluated by two examiners (including at least one from the CDOE).
5. Those students who fail in the practical examination are required to prepare a fresh practical file. However, students who failed in theory paper only or are appearing in improvement examination, their practical marks of previous practical examination will be carried forward.
6. For practical classes, the number of students in one group shall not exceed fifteen.
7. There will be 2 hours of teaching per week for this paper.

COURSECONTENT

Unit I:Foundations to Geomorphology

1. Geomorphology: Nature, Scope and Applications
2. Factors Controlling Landform Development
3. Approaches to Study Landforms

Unit II: Earth Movements and Mechanisms

4. Diastrophism: Epeirogenic and Orogenic Forces and Associated Features
5. Types and Features associated with Folds and Faults
6. Sudden Movements: Mechanisms, Types, Distribution of Volcano and Earthquake

Unit III: Exogenic Processes and Mechanisms

7. Weathering: Types, processes and Contributing Factors
8. Mass Movement: Classification and Characteristics
9. Erosion and Deposition Processes

Unit IV: Geomorphic Processes, Agentsand Dynamics

10. Fluvial Processes and Landforms
11. Glacial Processes and Landforms
12. Aeolian, Processes and Landforms

PRACTICAL EXERCISES

1. Folds: Diagrammatic Representation and Description
2. Faults: Diagrammatic Representation and Description
3. Slope: Measurement Techniques and Analysis
4. Terrian Representation: Block Diagram and Cross Section
5. Morphometric Analysis of Drainage Basin
6. Field Visit: Landform Identification and Mapping

Note: Students under the guidance of class teacher will undertake a field tour to nearby areas for identifying various physical processes, features, and visual interpretation of landforms.The pre-tour activities shall include identification of location/site, planning the visit, and pre- field preparations (discussion, methods and tools to be used during the field visit). Every student will keep a field diary and record their observation during the visits. Each student, upon return, will write a report (including diagrams, photographs, sketches) highlighting the main observations and finding of the field visit. This report will be a part of practical file/record book.

Learning Objectives:
1. To study the basics of Clothing, techniques of anthropometry, sewing machine, sewing tools, and equipment.
2. To study the principles and methods of Human Development and behavior.
3. To acquire an understanding of the lifespan perspective and developmental stages - Infancy and Early Childhood.

UNIT-I

1. **Introduction to Clothing**
   a. Importance and scope of Clothing.
   b. Factors affecting selection of clothing - Age, season, income, occasion, occupation, gender & fashion.
   c. Selection of Clothing for different age groups.
   d. Care and Storage of garments – Cotton, Wool, and Silk.

UNIT-II

2. **Sewing Machine and Anthropometric Measurements**
   a. Tools and Equipment, their use and care - Measuring Tools, Marking Tools, Cutting Tools, Sewing Tools, and Finishing Tools.
   b. Sewing Machine – Parts, Functioning, Maintenance, Defects, and remedies.
   c. Importance and Techniques of Anthropometric measurements.

UNIT-III

3. **Introduction to Human Development**
   a. Importance and scope of Human Development.
   b. Growth and Development.
   c. Principles of development.
4. **Pregnancy and Childbirth**
   a. Pregnancy – Signs & Symptoms, Discomforts, and Complications.
   b. Factors affecting prenatal development.
   c. Developmental Tasks during infancy and Early Childhood.

Semester II
Introduction to Clothing and Human Development
(Practical)

Credit: 1 **Maximum Marks: 25**
Duration of Class: 2 hours per week **Paper: 20 marks**
Duration of Exam: 3 hours **Internal Assessment: 05 marks**

Instructions for Paper Setter and Candidates:

1. The question paper will be set on the spot.
2. The duration of the paper will be three hours.
3. A report on the visit to a Childcare centre is to be submitted.
4. The candidate is required to prepare and submit a practical file.

Content:

1. Sample preparation of the following:
   (a) Tacking, running stitch, hemming, backstitch, press button, hook and eye, fasteners using buttonhole stitch.
   (b) Seams: Flat seam, counter hem, Mantua maker, French seam, run and fell.
   (c) Processes: Continuous wrap, pleats, gathers into a band, tucks.
2. Taking of body measurements.
3. Visit to Crèche/ Daycare Centre and report submission.
4. Case study on developmental milestones of a child aged 2-5 years. Prepare an album and submit.

Human Rights & Duties

Semester-I

Historical and Philosophical Perspectives on Human Rights

HRDDSC1

Maximum Marks :100 marks **Theory : 90 marks** **Internal Assessment: 10 marks**

Course Objectives

The paper seeks, a) to introduce the students to the basic concepts of human rights and duties; b) to acquaint them with the evolutionary and theoretical perspectives of human rights; c) to familiarize them about the development debate; and d) to inform them about the general problems relating to human rights.

Course Outcomes

This course strengthens the philosophical and historical understanding of the students on human rights

Pedagogy of the Course Work: Lectures, assignments, presentations, field visits, documentaries and other media

Instructions for Paper-Setters and Candidates

1. The Syllabus has been divided into four (4) units.
2. There shall be 9 questions in all.
3. The first question shall be short answer type containing 12 short answer type questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be compulsory question.
4. Rest of the paper shall contain four (4) units and each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each. All questions shall carry 18 marks.
5. For the private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
   *Note :*The paper setter must put note (5) in the question paper.

Course Contents

Unit I: Conceptual Background of Human Rights and Duties

Human Rights : Meaning, Nature and Scope
Duties: Meaning and Types
Interrelationship between Rights and Duties

Unit II: Theoretical Perspectives

Natural Rights
Legal / Positivist
Liberal
Marxist

Unit III: Historical Development of Human Rights

Magna Carta 1215
English Bill of Rights 1689
American Declaration of Independence 1776
French Declaration of the Rights of Man and of the Citizen 1789

Unit IV: International Bill of Rights

Universal Declaration of Human Rights 1948
International Covenant on Civil and Political Rights 1966
International Covenant on Economic, Social and Cultural Rights 1966

Semester-II

United Nations and Human Rights

HRDDSC2

Maximum Marks :100 marks **Theory : 90 marks** **Internal Assessment:10 marks**

Course Objectives

The paper provides an overview of the United Nations human rights architecture and offers basic knowledge regarding the work of various UN human rights mechanisms. It focuses on how the Human Rights Council functions and the various functions taken by the Office of High Commissioner of Human Rights (OHCHR) for the promotion and protection of human rights.

Course Outcomes

The students will get equipped to international human rights advocacy mechanisms within the United Nations System.

Pedagogy of the Course Work: Lectures, assignments, presentations, field visits, documentaries and other media

Course Contents

Unit I

UN Charter Based Bodies and Human Rights: General Assembly; Security Council; Economic and Social Council (ECOSOC); The Secretariat; International Court of Justice.

Human Rights Treaty Based Bodies: State Reporting; General Comments; Inquiries; Complaint Procedures

Unit II

Human Rights Council

1946-2006: From the Commission on Human Rights to the Human Rights Council; Composition, Working Methods, and Mandate; Universal Periodic Review.

Unit III

Office of the High Commissioner for Human Rights (OHCHR)

Structure &Functions: Technical Cooperation Activities; Human Rights Education and Information; Human Rights Components of Peacekeeping Operations.

Unit IV

Universal Periodic Review (UPR) and India

Universal Periodic Review: Process & Procedure; Government of India's Submission for UPR; Role of Working Group on Human Rights in India (WGHR) and the UN.

Journalism & Mass Communication

SEMESTER I

Course Title: INTRODUCTION TO MASS COMMUNICATION
Course Code: **JSMDSC1**
Typology of Course: Discipline Specific Course (DSC)
Level of Course: 100-199
Course Duration: 75 hours
Credits: 04 [Theory (03) + Practical (01)]
Marks: 100 [Theory Exams (65) + Internal Assessment (10) + Practical (25)]

Course Objectives:
The course focuses on imparting an understanding of the basics of communication rooted in traditional Indian media systems. Students will also be introduced to the concept of persuasive communication in the fields of advertising and public relations.

Course Outcomes:
After successful completion of this course, the student should be able to:
1. Ability to identify different forms of communication.
2. Develop a deeper appreciation of Indian perspective of communication.
3. Understand the importance of persuasive communication.

Pedagogy of the Course Work:
Pedagogy of the course involves teaching and learning through classroom lectures, industry interaction and expert lectures. The students will be assessed on the basis of theory exam of 65 marks, continuous internal assessment of 10 marks based on class test, attendance, assignments and class room participation; practical projects of 25 marks based on assignments and projects.

Instructions for paper-setters and candidates:
- The maximum marks for the course will be 100.
- **Theory Exam: 65 marks**
  Time allowed: 03 hours
- There shall be 7 questions in all. The first question is compulsory comprising 10 short answer type questions spread over the whole syllabus to be answered in about 75-100 words each. The candidates are required to attempt 05 questions. Each question shall be of 4 marks. (4 X 05 = 20 marks). Rest of the paper shall comprise of three units with two questions in each. The candidates shall attempt one question from each unit. Each question will carry 15 marks. (3 X 15 = 45 marks)
- **Internal Assessment: 10 marks**
  Snap tests & mid-semesters: 8 marks
  Attendance: Above 80% attendance: 2 marks; 75-80% attendance: 1 mark

Course Content:

Unit-I

- Communication: Definition, elements, process and scope of communication.
- Forms of Communication; Verbal and Non Verbal, Mediated and Non-Mediated.
- Levels of Communication: Intra, Inter, Group, Public and Mass Communication.

Unit-II

- Indian philosophy of communication: *Sadharanikaran, Sahridayata* and *Natyashastra*.
- Understanding traditional media in India: Folk music, dance and drama.

Unit-III

- Concept of Persuasive Communication: Principles of persuasion, AIDA model.
- Definition and concept of Advertising and Public Relations.

Practical: 25 Marks

- Field based project on any one component of the course: 15 Marks
- Supervised field visits:10 Marks

Suggested Readings

SEMESTER II

Course Title: FUNDAMENTALS OF JOURNALISM
Course Code: **JSMDSC2**
Typology of Course: Major
Level of Course: 100-199
Course Duration: 75 hours
Credits: 04 [Theory (03) + Practical (01)
Marks: 100 [Theory Exams (65) + Internal Assessment (10) + Practical (25)]

Course Objectives:
The paper is designed to introduce students to both the field and the desk aspects of Journalism. They will be sensitized to the role of journalism in democracy and the significance of freedom of speech and expression. They will also be acquainted with the essential basics of news gathering, writing and story structures. Further, they will be trained in editing of both text and images.

Course Outcomes:
1. Ability to gather news
2. Gain an understanding of the editing requirements of different types of copy.
3. Skill to select the right picture and crop it for maximum impact.
4. Skill to frame the appropriate cutline.

Pedagogy of the Course Work:
Pedagogy of the course involves teaching and learning through classroom lectures, industry interaction and expert lectures. The students will be assessed on the basis of theory exam of 65 marks, continuous internal assessment of 10 marks based on class test, attendance, assignments and class room participation; practical projects of 25 marks based on assignments and projects.

Instructions for paper-setters and candidates:

Course Content

Unit-I
- Importance and functions of journalism in democracy.
- Concept of public sphere, public interest, news and news values.
- Constitutional guarantees of Freedom of Speech and Expression [Art. 19 (1)(a) and Art. 19(2)].

Unit-II
- Concept of newsgathering.
- Types of Story Structure: Inverted pyramid, Hour Glass, Nut Graph, Five-Box Approach and Narratives.
- Essentials of writing for Media.

Unit-III

- Concept and significance of Editing.
- Text Editing: Editing for precision, accuracy, clarity, brevity, spelling and grammar.
- Image editing: Selection (Editorial and Technical value), cropping for impact and focus; writing cutlines.

Practical: 25 Marks

- Preparing a file of different types of story structures:15 Marks
- Exercise in text and image editing:10 Marks

Mathematics

Semester-I

MATDSC1:ALGEBRA &TRIGONOMETRY

Credits=4 (L =3, P=1)

One credit would mean either a lecture (L) of 1 Hour/ Week or a practical (P) of 3 hours/week. So, 4 credits would correspond to 3 hours of lectures and 3 hours of practicals per week. Total contact hours in a semester of 15 weeks will be 90 hours. (45 hrs. lectures + 45 hrs. practicals)

Exam Time: 3 hours **Max.Marks:100**

(External: 90 + Internal assessment : 10)

Note: 1.The syllabus has been split into Four Units. The examiner will set in total Nine questions including a compulsory question. The compulsory question (QuestionNo.1)will contain6 parts covering the entire syllabus. Two questions will be set from each Unit.

2. A student will be required to attempt five questions in all, selecting one questions from each Unit and the compulsory question. Each question will carry equal marks.

Objective: The main goal of this course is to deliver basics of Binomial Theorem, Properties of Binomial coefficients . The course introduces the concept of De Moivre's theorem and its applications, eigen values and eigen vectors of a matrix. The objective is to understand nature of solution of a linear system of equations.

Learning Outcomes: The students will be able to determine the sum of infinite Binomial Series, the rank of a matrix, eigen values, eigen vectors and solve linear system of equations using matrices.

UNIT-I

Principle of Mathematical Induction, Recall of Binomial Theorem for positive index, General and Middle terms in Binomial expansions, Properties of Binomial coefficients, Binomial Theorem for any index, Summation of infinite Binomial series.

UNIT-II

Solution of Trigonometric Equations, Sine, Cosine and Projection formulae for triangles,

De Moivre's theorem, applications of De Moivre's theorem including primitive nth root of unity. Expansions of sin nθ , cos nθ , $\sin^n\theta$, $\cos^n\theta$ ($n\in\mathbf{N}$). The exponential, logarithmic, direct and inverse circular and hyperbolic functions of a complex variable.

UNIT –III

Recall of determinant of a matix, Properties of determinants, Hermitian and skew-hermitian matrices, linear dependence of row and column vectors, row rank, column rank and rank of a matrix and their equivalence.

UNIT-IV

Theorems on consistency of a system of linear equations (both homogeneous and non-homogeneous). Eigen-values, eigen-vectors and characteristic equation of a matrix, Cayley-Hamilton theorem and its use in finding inverse of a matrix. Diagonalization.

Note: 1.The syllabus has been split into Four Units. The examiner will set in total Nine questions including a compulsory question. The compulsory question (QuestionNo.1)will contain 6 parts covering the entire syllabus. Two questions will be set from each Unit.

2. A student will be required to attempt five questions in all, selecting one questions from each Unit and the compulsory question. Each question will carry equal marks.

Objective: The main goal of this course is to deliver basics of Limits, Continuity and Differentiability of functions. Besides this differentiation of hyperbolic and inverse hyperbolic with their applications will also be studied. The course will cover the Mean Value Theorems and their applications.

Learning Outcomes: After completing this course the students will be able to compute limits and continuity of various functions. The course will empower the students to compute derivatives of Hyperbolic functions. The students will be able to compute tangents and normals.

UNIT-I

Order properties of real numbers, bounds, l.u.b. and g.l.b. order completeness property of real numbers, Archimedean property of real numbers.

Limits: ε - δ definition of the limit of a function, basic properties of limits, infinite limits,

UNIT-II

Continuous functions, types of discontinuities, continuity of composite functions, continuity of $|f(x)|$, sign of a function in a neighborhood of a point of continuity, intermediate value theorem, maximum and minimum value theorem.

UNIT-III

Hyperbolic, inverse hyperbolic functions of a real variable and their derivatives, successive differentiations, Leibnitz's theorem.

indeterminate forms.

Applications of Derivatives:Tangents and normals, Differentials and Approximations, Errors.

UNIT- IV

Mean value theorems:Rolle's Theorem, Lagrange's mean value theorem, Cauchy's mean value theorem, their geometric interpretation and applications, Taylor's theorem, Maclaurin's theorem with various form of remainders and their applications.

MUSIC

HINDUSTANI MUSIC – VOCAL
MUVDSC1

SEMESTER – I

GENERAL INSTRUCTIONS:

1. In case of the private candidates, there will be no internal assessment and the marks obtained in the external assessment of the practical examination shall be proportionately increased.
2. There would be upto10 students in one section of Practical Class.
3. There should not be more than 10 students in a batch for practical examination.
4. Harmonium can be used while singing Alankars.
5. The candidate can take vocal music along with Instrumental Music/Tabla
6. The candidate can also take Instrumental music along with Tabla/Vocal Music.
7. In all, nine questions will be set. The question paper will be divided into five Units. Four Units will contain two questions each and the candidates are required to attempt four questions selecting by one question from each Unit. **The ninth question of unit V is compulsory & it consists of 13 short answer questions (covering entire syllabus i.e. theory and practical) out of which students have to attempt 09 question of 01 mark each.**
8. While sending the syllabus to paper-setter in theory, the syllabus prescribed for the practical paper should also be sent.

THEORY (3 Hours duration)			:	45 Marks (2 Credit)
PRACTICAL (20 minute duration)			:	45 Marks (2 Credit)
(i)	Choice & Viva	: 35 Marks		
(ii)	Harmonium	: 05 Marks		
(iii)	Tabla	: 05 Marks		
Internal Assessment (Theory + Practical) (05+05)			:	10 Marks
		Total	:	100 Marks (4 Credit)

Theory: Introduction of Hindustani Classical Music. **(30 hours)**

Unit – I

1. Elementary knowledge of the following Musical Terms:-
   Dhwani, Nada, Shruti, Swara, Saptak, Varna, Alankar, Aroh, Avroh, Pakad.
2. Sangeet: Definition and its types.

Unit – II

1. Life Sketch and contribution of Pt. V.N. Bhatkhande.
2. Detailed study of Pt. Vishnu Narayan Bhatkhande's Notation System.

Unit – III

1. Classification of Instruments.
2. Brief study of Tanpura and Its Importance.

Unit – IV

1. Description and Notation writing of Drut Khayal with Alaap and Taans in following Ragas according to Bhatkhande's Notation System:
   a) Alhaiya Bilawal b) Bhoopali

2. Description and Notation writing of following Talas with Thah and Dugun:
   a) Teentaal b) Keherwa

3. Description of non-detailed ragas:
   a) Bilawal b) Deshkar

UNIT-V

The ninth question of unit V is compulsory & it consists of 13 short answer questions (covering entire syllabus i.e. theory and practical) out of which students have to attempt 09 question of 01 mark each.

Practical: Stage Performance and Viva Voce (60 Hours)

1. One Drut Khayal in each of prescribed Ragas in the course with Alaaps and Taans.
2. One Sargam Geet in any of the prescribed Ragas.
3. Ability to play Teentaal on Tabla.
4. Ability to recite bols of the tala prescribed in the course in Thah and Dugun by hand.
5. Ability to play at least three alankaras based on shudh swaras on Harmonium
6. Ability to sing National Anthem.

SANSKRIT

Learning Objectives of the Programme

- From the Vedic to Classical Sanskrit, an enormous corpus of texts have been composed, which act as a record of one of the longest surviving human civilisations in the world. Thus a student of Sanskrit language can take a look at ideas, systems, techniques and so forth, spanning across many millennia.
- Despite being an ancient language, Sanskrit has not stopped adapting to the contemporary needs. New experiments are being done on various dimensions of Sanskrit, making it a very dynamic language of today's world.
- With the recent emphasis on Indian Knowledge Systems (IKS), the study of Sanskrit is gaining more importance today. This not only is making way for renewed interest in Sanskrit learning, but is also opening up new employment and entrepreneurial opportunities in Sanskrit.
- Sanskrit is a subject of global interest and research, where various dimensions of Sanskrit, such as social, literary, philosophical, scientific and so forth, are being studied. This calls for a more robust and dynamic participation of Indian Sanskrit scholars, hence providing them a global stage.
- Studying Sanskrit provides an opportunity of overall development of a student. From aesthetics, poetics, philosophy to formal logic and so forth, a student of Sanskrit gets to look at the world in various ways, thinks critically and analyses keenly working towards providing solutions for contemporary problems.

DESCRIPTIVE STATISTICS-I

Objective:

The objective of the course is to gain proficiency in presenting data through frequency distribution, diagrams, and graphical representations. To apply descriptive statistical techniques/methods to real-world datasets and draw meaningful insights. The focus will be both on theoretical as well as practical approach based on descriptive statistics.

Learning Outcomes: On completion of the course, the student will be able to:

1. Understand the origin, development, scope, and importance of statistics.
2. Understand the nature of statistical data.
3. Identify the need for Classification and Tabulation.
4. Understand moments and their relationships, including their effects on the change of origin and scale.
5. Construct frequency tables, interpret the data, and identify the importance of diagrammatic and graphical presentation of data.
6. Explain, evaluate, and interpret various measures of central tendency, dispersion, skewness, and kurtosis.

Note: There will be nine questions in all. Question No. 1 will be compulsory covering the whole of the syllabus and comprising 5 to 7 short answer-type questions. The rest of the eight questions will be set from the four units uniformly i.e. two from each unit. The candidate will be required to attempt five questions in all, selecting one question from each unit and the compulsory one. All the questions will carry equal marks.

UNIT-I

Introduction of Statistics: Origin, development, definition, scope, uses, and limitations.

Types of Data: Qualitative and quantitative data, nominal and ordinal data, time series data, discrete and continuous data, frequency and non-frequency data.

Collection and Scrutiny of Data: Collection of primary and secondary data - its major sources including some government publications, scrutiny of data for internal consistency and detection of errors of recording, classification, and tabulation of data.

UNIT-II

Presentation of Data: Frequency distribution and cumulative frequency distribution, diagrammatic and graphical presentation of data, construction of bar, pie diagrams, histograms, frequency polygon, frequency curve, ogives, stem-and-leaf chart, Box and Whisker plot.

Measures of Central Tendency or Averages: Concepts of central tendency, characteristics for an ideal measure of central tendency, arithmetic mean, median, mode, geometric mean, harmonic mean; partition values - quartiles, deciles, percentiles, and their graphical location along with their properties, applications, merits, and demerits.

UNIT-III

Measures of Dispersion: Concept of dispersion, characteristics for an ideal measure of dispersion. Absolute and relative measures based on: range, interquartile range, quartile deviation, coefficient of quartile deviation, mean deviation, coefficient of mean deviation, variance, standard deviation (σ), coefficient of variation and properties of these measures, root mean square deviation and their relationship, variance of the combined series.

Moments: Moments about mean and about any point and derivation of their relationships, effect of change of origin and scale on moments, Sheppard's correction for moments (without derivation), Charlier's checks; Pearson's β and γ coefficients.

UNIT-IV

Skewness and Kurtosis: Concept of skewness, its types, Absolute and relative (coefficient) measures of skewness with their interpretations, and concept of Kurtosis, its types, and coefficients of kurtosis with their interpretations.

Theory of Attributes: Symbolic notations, dichotomy of data, class frequencies, order of class frequencies, consistency of data, independence and association of attributes, Yule's coefficient of association and coefficient of colligation and their relationship.

STADSC-1: DESCRIPTIVE STATISTICS-I (PRACTICAL)

Notes:

(i) The Practical Question Paper will contain five questions. A student will be required to attempt any three questions, each of 5 marks, in three hours duration.

(ii) The practical of paper B.Sc. STAT-MIN-101 will be based on the following topics:

1. To construct frequency distributions using exclusive and inclusive methods.
2. Representation of data using Bar and pie diagrams.
3. Representation of data using Histogram, Frequency Polygon, Frequency Curve, and Ogives.
4. Graphs: stem-and-leaf display and Box and Whisker Plot.
5. To compute various measures of central tendency.
6. To compute various measures of dispersion.
7. To obtain first four moments for the given grouped frequency distribution.
8. To obtain various coefficients of skewness and kurtosis.
9. To discuss the association of attributes for a 2x2 contingency table using Yule's coefficient of association and colligation.

Probability Theory

Objective:

The main objective of the course is to learn different approaches to defining probability methods. Apply probability concepts and techniques to analyze and solve problems in various fields. Also, the aim is to familiarize with random variables, probability functions, and their distributions, including discrete and continuous cases. Gain proficiency in generating functions and understand their properties. The focus will be on a theoretical as well as practical approach.

Learning Outcomes: On completion of this course, students will be able to:

- Understand the concepts of probability, random variables, and independence of random variables.
- Explain and apply various definitions and approaches to probability including classical, relative frequency, statistical, and axiomatic approaches.
- Understand and apply moments generating function, cumulant generating function, and probability generating function.
- Utilize generating functions to compute moments and cumulants.
- Analyze functions of random variables and compute joint, marginal, and conditional probability distribution functions.
- Apply different types of probability approaches to solve problems.

Note: There will be nine questions in all. Question No. 1 will be compulsory covering the whole of the syllabus and comprising 5 to 7 short answer-type questions. The rest of the eight questions will be set from the four units uniformly i.e. two from each unit. The candidate will be required to attempt five questions in all, selecting one question from each unit and the compulsory one. All the questions will carry equal marks.

UNIT-I

Concepts in Probability: Random experiment, trial, sample point, sample space, operation of events, exhaustive, equally likely, mutually exclusive and independent events; Definition of probability - classical, relative frequency, statistical and axiomatic approach.

UNIT-II

Conditional Probability: Addition and multiplication laws of probability and their extension to events. Boole's inequality; Bayes' theorem and its applications.

UNIT-III

Random Variable and Probability Functions: Definition of random variable, discrete and continuous random variable, probability function, probability mass function and probability density functions, distribution function and its properties, functions of random variables, joint, marginal and conditional probability distribution function.

UNIT-IV

Mathematical Expectation: Definition and its properties - moments, addition and multiplication theorem of expectation. Conditional expectation and conditional variance.

Generating Functions: Moments generating function, cumulant generating function, probability generating function along with their properties. Characteristic function.

SEMESTER-I

URDDSC1: Urdu Grammar &Introduction to Poetry forms

4 Credits
L/T/P = 3/1/0
Note: Requires 4-hour direct teaching per week

Max.Marks:100
Theory: 90 marks
Internal Assessment: 10 marks
Duration of Exam.: 3 Hrs. **Credit= 04/100 Marks**

Objectives:
The objective of this course is to develop the comprehensive reading ,writing, learning and speaking of the students through exercise in literature and language .
The course intend to provide knowledge of literature,language and poetry. To enable and motivate the students to learn ,read, write and understand Urdu Language and poetry and also to make the students familiar about Urdu Ghazal.

Outcomes:
1.Inroduction of Urdu Poetry forms i.e. Ghazal,Nazm, Qasida,Marsiya, Rubai And Masanavi.
2. Knowledge of the classical poetry.
3. knowledge of reading and understanding texts of Urdu Language.

UNIT-I

10 Marks	Harf Shanasi (اسمائے حروف اور ان کی آوازیں ،اعراب)	1-حرف شناسی
10 Marks	Wahid –Jama	2-واحد-جمع
10 Marks	Muzakkar-Muannas	3-مذکر -مونّث

UNIT-II

10 Marks	Hum Shakl Alfaz	1- ہم شکل الفاظ
10 Marks	HumAwaaz Alfaaz	2- ہم آواز الفاظ
10 Marks	(Muhawara: Alif- Sheen)	3-محاورے(الف تا شین)

UNIT-III

Short-answer questions: The examiner will set six(6) short questions ,out of which a student must attempt any four (5) . 10 Marks.

شعری اصناف: تعریف اور اور مثالیں

1-غزل(Ghazal) 2- نظم (Nazm) 3- قصیدہ(Qaseeda)
4-مرثیہ (Marsia) 5-رباعی (Rubai) 6- مثنوی (Masnavi)

UNIT-IV

Explanation of Poems: The examiner will set three (3) questions ,out of which a student must attempt any two(2) . 20 Marks.

مطالعہء غزلیات (متن کی تدریس)

1- ولی ؔدکنی: (Wali Dakani) (i)جسے عشق کا تیر کاری لگے (ii) کوچہ یار عین کاشی ہے
2- میر تقی میرؔ: (Meer Taqi Meer) (i)ہستی اپنی حباب کی سی ہے (ii) فقیرانہ آئے صدا کر چلے
3-ولیؔ دکنی اور میر تقی میرؔ کی حیات اور غزل گوئی کا اجمالی تعارف (Life & Works of Wali and Meer Taqi Meer)

Note: Requires 4 -hour direct teaching per week

Max.Marks:100
Theory: 90 marks
Internal Assessment: 10 marks
Duration of Exam.: 3 Hrs. **Credit= 04/100 Marks**

Objectives:

The objective of this course is to provide Complete knowledge of Urdu prose. To enable the students to know about fiction and non fiction difference and to enable the students to know about the main genres of fiction and non fiction prose i.e. Dastaan, Novel, Afsana, Drama, Inshiya and Khaka.
To enable and motivate the students to read, learn and write Urdu prose and to make the students familiar about Urdu prose (Fiction &Non fiction).

Outcomes:

1.Inroduction of Urdu Prose.
2.Knowledge of Urdu Fiction and Non-Fiction Prose.
3.Study of the Dastaan, Novel, Afsana,Inshaiya,Safarnama and Khaka Nigari.
4. Study of Fiction and Non- Fiction develop critical and broad thinking about the society.
5. It enriches the vocabulary and diction of the learner.

UNIT-I

15 marks **(Development of Urdu Dastaan) اردو داستان کا آغاز و ارتقا**

UNIT-II

15 marks **(Development of Urdu Novel) اردو ناول کا آغاز وارتقا**

UNIT-III

15 marks **(Development of Urdu Afsana) اردوافسانہ کا آغاز وارتقا**

UNIT-IV

The examiner will set Four (4) questions ,out of which a student must attempt any Three(3).3*15= 45

اردو افسانے اور ان کا مطالعہ(Study of Urdu Afasana)

15 marks **(Namak ka Darogha: Prem Chand) 1. نمک کا داروغہ : پریم چند**

WOMEN STUDIES

SEMESTER-1

Introduction to Women's Studies

WSTDSC1

Maximum Marks : 100 marks
Theory : 90 marks
Internal Assessment : 10 marks
Time : 3 hours
4 Credits

Objectives: The objective of this course is to conscientise the students about some of the key concepts in women's studies, their meaning from a feminist and gender perspective with special reference to India.

Pedagogy of the Course Work: Lectures, assignments, presentations, field visits, documentaries and other media

Note:

1. The Syllabus has been divided into four (4) units.
2. There shall be 9 questions in all.
3. The first question shall be short answer type containing 12 short answer type questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be compulsory question.
4. Rest of the paper shall contain four (4) units and each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each. All questions shall carry 18 marks.
5. For the private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (5) in the question paper

Course Contents

Unit I: Gender

- Sex and Gender: Definition and Difference
- Social Construction of Gender: From infancy to Adulthood to Old age
- Gender Stereotypes: Genesis and Persistence through Family, School, Peer Group and media

Unit II: Patriarchy

- Definition and Origin of Patriarchy
- Manifestations of Patriarchy:
  a) Preference for Son
  b) Discrimination against girl-child and women in the family
  c) Violence against Women
  d) Discrimination against Women at the Workplace

Unit III: Empowerment

- Definition
- Types of Empowerment-
  a) Social – with reference to women's role in marriage and family
  b) Political-73rd and 74th Constitutional Amendment Acts
  c) Economic – Employment and Property Rights

Unit IV: Women's Studies

a) Definition
b) Rationale for Women's Studies
c) Evolution of Women's Studies
d) Women's Studies as a discipline

SEMESTER-II

Understanding Feminism
WSTDSC1

4 Credits

Objectives:
This course offers the prominent theories that feminists have formulated to explain the matrix of gender inequality from the nineteenth century to the present. It further seeks to introduce the student to the key debates within feminist theories as well as the shifts in feminism.
Note: The students are expected to have a general understanding of the various strands of feminism and not of any specific feminist thinker in this course.

Maximum Marks : 100 marks
Theory : 90 marks
Internal Assessment : 10 marks
Time : 3 hours

Pedagogy of the Course Work: Lectures, assignments, presentations, field visits, documentaries and other media

Note:
1. The Syllabus has been divided into four (4) units.
2. There shall be 9 questions in all.

(a) Definition,
(b) Emergence of Feminism with special focus on
- Women in French Revolution,
- Suffrage Movement in the U.S.A.(with reference to Seneca Falls Convention and Declaration of Sentiments,
- Suffrage Movement in the U.K.

(c) Three Waves of Feminism

Unit II: Strands of Feminism -I
a) Liberal Feminism,
b) Socialist Feminism,
c) Marxist Feminism,

Unit III: Strands of Feminism - II

a) Radical Feminism
b) Post modern Feminism
c) Psycho-analytic Feminism (Freudian).

Unit IV – Strands of Feminism- III

a) Black Feminism
b) Cultural Feminism
c) Feminism and environmental issues
