ECO-C11: INDIAN ECONOMY –I

Max. Marks: 80 **Time: 3 Hrs.**

Credits: 6

(5 Class Room Teaching + 1 Tutorial)

Objective: The objective of this paper is to acquaint the students with the strategy of economic development of the Indian Economy since Independence. The paper also aims at creating an awareness among the students regarding the contemporary issues pertaining to various sectors of the economy.

Instructions for Paper-setter and candidates:

• The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

• There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Economic Policy: Economic Policy–Definition. Types - Qualitative and Quantitative. Need for Economic Policy - Economic Institutions and Policies in India (only introduction). Problems in Policy making in India.

UNIT – II

Economic Development Strategy in India: Adoption of Planning in India: Objectives, Strategy and Assessment (Plan wise details to be excluded). Need for Economic Reforms - State of the Economy in 1991.NitiAyog- its Objectives and Functions.

UNIT-III

Demography and Economic Development: Theory of Demographic Transition. Demographic Features of India's Population. Population Growth in India – Promoting or Retarding Economic Growth. Urbanisation in India- Extent, Causes and Consequences of Rapid Urbanisation.

UNIT-IV

Structural Changes in India: Changes in Sector Income Distribution and Occupational Structure. Inter-State Disparities in the Pattern of Development - Causes, Indicators and Policy Measures to Remove Regional Imbalances.

Essential Readings:

ECO-C12: DEVELOPMENT ECONOMICS-I

Max. Marks: 80 **Time: 3 Hrs.**
Credits: 6
(5 Class Room Teaching + 1 Tutorial)

Course Description

This is the first part of a two-part course on economic development. The course begins with a discussion of alternative conceptions of development and their justification. It then proceeds to aggregate models of growth and cross-national comparisons of the growth experience that can help evaluate these models. The axiomatic basis for inequality measurement is used to develop measures of inequality and connections between growth and inequality are explored. The course ends by linking political institutions to growth and inequality by discussing the role of the state in economic development and the informational and incentive problems that affect state governance.

Instructions for Paper-setter and candidates:

• The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

• There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT-I

1. Conceptions of Development and Growth

Development in historical perspective: Origin of development in economic thought.

Alternative measures of development (Per capital income, GDP, PQLI and HDI), Documenting the international variation in these measures, Comparing development trajectories across nations and within them.

UNIT-II

2. Development and Underdevelopment

Imperialism and colonialism, new imperialism, neo-colonialism and dependency: its forms and effects

Harrod-Domer Model; Solow model of steady state growth; Endogenous growth theories: Romer and Lucas.

UNIT-III

3. Poverty and Inequality: Definitions, Measures and Mechanisms

Inequality axioms; a comparison of commonly used inequality measures; connections between inequality and development: Kuznets' Inverted U – shaped Curve and Augmented Kuznets' Curve; poverty measurement; characteristics of the poor; mechanisms that generate poverty traps and path dependence of growth processes.

UNIT-IV

4. Political Institutions and the Functioning of the State

The determinants of democracy; Alternative institutional trajectories and their relationship with economic performance; Within country differences in the functioning of the state institutions; State ownership and regulation; government failure and corruption.

State and planning, planning by direction, planning by market, planning in backward areas.

ECO-DSE1: ECONOMICS OF PUBLIC FINANCE

Max. Marks: 80 **Time: 3 Hrs.**
Credits: 6
(5 Class Room Teaching + 1 Tutorial)

Course Description

Public economics is the study of government policy from the points of view of economic efficiency and equity. The paper deals with the nature of government intervention and its implications for allocation, distribution and stabilization.

Inherently, this study involves a formal analysis of government taxation and expenditures. The subject encompasses a host of topics including public goods, market failures and externalities. The paper is divided into two sections, one dealing with the theory of public economics and the other with the Indian public finances.

Instructions for Paper-setter and candidates:

• The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

• There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Theory of Maximum Social Advantage. Private Goods, Public Goods, mixed goods and Merit Goods. Optimal Provision of Public Goods: partial equilibrium approach;

free riding problem. Externalities: Pigouvian and Coarse solutions. Overview of Different Role of Government: Allocation, Stabilization and Distribution.

UNIT – II

Regressive, Progressive and Proportional Taxes. Direct and Indirect Taxes. Incidence of Indirect Taxes. Effects of Taxation: concepts of Deadweight losses and Exeess Burden.

UNIT – III

Types of Government Budgets. Different Concepts of Budgetary Deficits in the Indian Context. Economic and Functional Classification of Central Govt. Budgets.

UNIT- IV

Changing Trends and Pattern of Direct and Indirect Taxes in India. Changing Trends and Pattern of Government Expenditure in India. Recent Tax and Expenditure Reforms in India. Issues Need and objectives of fiscal federalism in India.

ECO-DSE2: INTERNATIONAL ECONOMICS

Max. Marks: 80 **Time: 3 Hrs.**
Credits: 6
(5 Class Room Teaching + 1 Tutorial)

Course Description

This course develops a systematic exposition of models that try to explain the composition, direction, and consequences of international trade, and the determinants and effects of trade policy. It then builds on the models of open economy macroeconomics, focusing on national policies as well as international monetary systems. It concludes with an analytical account of the causes and consequences of the rapid expansion of international financial flows in recent years. Although the course is based on abstract theoretical models, students will also be exposed to real-world examples and case studies.

Instructions for Paper-setter and candidates:

• The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

• There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60)

UNIT- I

What is international economics about? Theories of Absolute Advantage, Comparative Advantage and Opportunity Costs.

Heckscher-Ohlin Theory of Trade – Its main Features, Assumptions and Limitations.

New Approaches to Trade Theory: The Product Cycle Theory, Technology Gap Theory, Intra-industry trade.

UNIT- II

Concept and types of Terms of trade.

Effects of Tariff under Partial Equilibrium Analysis. Non tariff Barriers. Political economy of Non-tariff Barriers.

Economic Integration: Concept and Forms of Regional Integration; Static and Dynamic Effects of Custom Union.

UNIT-III

Foreign Exchange Market: Fixed versus flexible exchange rates, Concept, Role and Types of Foreign Exchange Transactions: Speculation, Arbitrage and Hedging.

The Process of Adjustment in the Balance of Payments under Fixed and Flexible Exchange Rate Systems.

UNIT-IV

International monetary systems: International Monetary Fund; Eurocurrency Market.

Financial Globalization and Financial crises : Causes and case studies.

ECO-C13 : INDIAN ECONOMY- II

Max. Marks: 80 **Time: 3 Hrs.**
Credits: 6
(5 Class Room Teaching + 1 Tutorial)

Objective: The objective of this paper is to acquaint the students with the strategy of economic development of the Indian economy since Independence. The paper also aims at creating an awareness among the students regarding the contemporary issues pertaining to various sectors of the economy.

Instructions for Paper-setter and candidates:

• The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

• There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Agricultural Development: Pattern of Growth of Indian Agriculture since 1950 – Role of Green Revolution, Deceleration in the 1990s – Causes and Future Challenges.

UNIT – II

Industrial Development Strategy: Trends in Growth and Structure of Indian Industry. Critique of Regulatory Industrial Policy Regime (1947-1991). Deregulation and Liberalization of the Private Sector. Privatization – Nature and Extent in India.

UNIT – III

External Sector: Trade Policy during Pre-Reform Period. Globalisation–Meaning and Trade Policy during Post-Reform Period. Liberalized Exchange Rate Management System.

UNIT – IV

Some Contemporary Issues: Service Sector Growth –Sustainability of Services Led

Growth in India. Impact of New Economic Policy on Indian Economy. Consumer Protection Act. Competition Policy of India.

ECO-C14: DEVELOPMENT ECONOMICS-II

Max. Marks: 80 **Time: 3 Hrs.**
Credits: 6
(5 Class Room Teaching + 1 Tutorial)

Course Description

This is the second module of the economic development sequence. It begins with basic demographic concepts and their evolution during the process of development.

The structure of markets and contracts is linked to the particular problems of enforcement experienced in poor countries. The governance of communities and organizations is studied and this is then linked to questions of sustainable growth. The course ends with reflections on the role of globalization and increased international dependence on the process of development.

Instructions for Paper-setter and candidates:

• The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

• There shall be **9** questions in all.

[The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20).

Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT- I

Demography and Development

Demographic concepts; Demographic transitions during the process of development: Theory of Demographic Transition. Gender bias in preferences and outcomes and evidence on unequal treatment within households; migration.

UNIT- II

Land, Labour and Credit Markets

The distribution of land ownership; land reform and its effects on productivity; contractual relationships between tenants and landlords; land acquisition; nutrition and labor productivity; informational problems and credit contracts; microfinance; interlinkages between rural factor markets.

UNIT- III

Environment and Sustainable Development

Defining sustainability for renewable resources; a brief history of environmental change; common-pool resources; environmental externalities and state regulation of the environment; economic activity and climate change.

UNIT- IV

Globalization

Globalization in historical perspective; The economics and politics of multilateral agreements; trade, Production patterns and world inequality; Financial instability in a globalized world

ECO-DSE3: HISTORY OF ECONOMIC THOUGHT

Max. Marks: 80 **Time: 3 Hrs.**
Credits: 6
(5 Class Room Teaching + 1 Tutorials)

Objective:

Evolution of economic ideas is both a response to contemporary economic problems and a self-conscious attempt to refine earlier ideas to integrate them as a part of current social thought. The objective of this course is to familiarize the students with the historical evolution of economic ideas into the contemporary economics. The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type). The scripts would be evaluated by the examiners having adequate teaching experience in the paper/options concerned.

Instructions for Paper-setter and candidates:

• The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.

• There shall be **9** questions in all.

The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20). Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Introduction: The Economic Revolution, Scope and Significance of the Study of History of Economic Thought.

Methodology of Economics: Economics as a Scientific Discipline; Techniques of Economic Analysis; Sociology of Economics; Relativist and Absolutism; Deductive and Inductive Methods.

UNIT – II

Mercantilism: Factors Responsible for the Rise of Mercantilism; Views on Trade, Money, Finance and Nation State.

Physiocracy: Rise of Physiocracy; The concept of Natural Order; Net Product and Circulation of Wealth.

UNIT-III

Adam Smith: Theories of Value, Distribution and Growth.

Ricardian Economics: Value Analysis; Theories of Trade and Distribution; Views on Machinery and Employment.

Malthus: Theory of Glut and Glut Controversy.

UNIT – IV

Marxian Economics: Dialectical Materialism and Laws of Dialectics; Mode of Production and its Fundamentals; Historical Materialism and Pre Capitalistic Economic Formations (Primitive Communism, Slavery and Feudalism); Labour Theory of Value; Development and Decay of Capitalism (commodity production, Accumulation, Surplus value and Organic Composition of Capital).

ECO-DSE4: ECONOMICS OF INDUSTRY

Max. Marks: 80 **Time: 3 Hrs.**
Credits: 6
(5 Class Room Teaching + 1 Tutorial)

Objective: In the Contemporary world with globalization and liberalization more and more attention is being given to industry. Since industry performance critically depends on firms' behavior allowing equilibrium outcome, the course intends to provide a rigorous knowledge of different long-run equilibrium outcome of firms under different conditions from the point of view of public policy. The students are also equipped to deal with debates involved in the industrial development in a cogent and analytical manner, particularly in the Indian context. However, it should be noted that Game Theoretic approach to any topic/problem is outside the scope of the present syllabus. The time-tested method of in parting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought through the students writing assignments, tutorials and seminars.
The students would be evaluated at the end of each semester through subjective type questions/answers (both short and essay type).

Instructions for Paper-setter and candidates:
• The maximum marks for the paper will be 100. The question paper will be of 80 marks and continuous evaluation 20 marks. Time allowed will be 3 hours.

The paper-setter must put a note in the question paper in this regard.
• There shall be **9** questions in all.
The first question **compulsory** comprising 15 short answer type questions spread over the whole syllabus. The candidates are required to attempt 10 questions. Each question shall be of **two** marks (10 x 2= 20).
Rest of the paper shall contain four units. Two questions shall be asked from each unit and the candidates shall be given internal choice. The candidates shall attempt one question from each unit. Each question will carry 15 marks (15x4=60).

UNIT – I

Basic Concepts of Firm, Industry and Market; Organizational Forms. Separation of Ownership from Management and Control. Alternative Goals of Firm: Contributions of R Marris and Williamson.

UNIT – II

Elements of Market Structure: 'Sellers and Buyers' Concentration, Product Differentiation, Conditions of Entry. Measurement of Sellers's Concentration.
Determinants: Economies of Scale and Barriers to Entry.
Growth of Firms: Vertical Integration, Diversification; Concepts of Mergers and Acquisitions.

UNIT – III

Oligopolisitic Conduct: Evolution of Market Structure –Conduct – Performance Paradigm, Economics of Advertisement: Concepts, Market Structure and Advertisement: Dorfman –Steiner condition Economics of R & D: Concepts, Measurement and Market Structure and Innovation: incentive and ability issues.

UNIT – IV

Market Structure and Profitability. Issues of Allocative and Productive Efficiency: Degree of Sub Optimal Capacity.
