PANJAB UNIVERSITY, CHANDIGARH-160014 (INDIA)

(Estd. under the Panjab University Act VII of 1947 – enacted by the Govt. of India)

SYLLABI

Course Outline for

B.Voc. (Fashion Designing)

As per NEP 2020

w.e.f session 2024-25

Course Outline for B.Voc (Fashion Designing)
As per NEP 2020 w.e.f. session 2024-25

Semester-I

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
FD 101	Core Discipline	Basics of Design	2	2	4	40	10	40	10	100
FD 102	Core Discipline	Garment Construction-I	-	4	4	-	-	80	20	100
FD 103	Core Discipline	Textile Science	3	1	4	60	10	20	10	100
AEC / MIL	Ability Enhancement Course	English			2					50
B.Voc. MDSC 101	Multidisciplinary Course	Fundamentals of Information Technology[1]	3	-	3	60	15	-	-	75
SEC I	Skill Enhancement Course	SEC Options[2]			3					75
VAC I	Value-Added Course	VAC Options[3]			2					50
PW I	Project Work	Project Work-I & Viva-Voce	-	2	2	-	-	50	-	50
Total Credits					**24**					**600**

Semester-II

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
FD 201	Core Discipline	Concepts of Fashion	2	2	4	40	10	40	10	100
FD 202	Core Discipline	Drafting and Pattern Making	2	2	4	40	10	40	10	100
FD 203	Core Discipline	Fashion Illustration-I	-	4	4	-	-	80	20	100
AEC / MIL	Ability Enhancement Course	English			2					50
B.Voc. MDSC 201	Multidisciplinary Course	Soft Skills and Personality Development[1]	3	-	3	60	15	-	-	75
SEC II	Skill Enhancement Course	SEC Options[2]			3					75
SIT 201*	Internship	Summer Industrial Training (SIT)*	-	4	4	-	-	100	-	100
Total Credits					**24**					**600**

Job Role – Junior Apprentice

* Summer Industrial Training of 2-4 weeks in a relevant Industry after 2nd Semester Examinations during summer break. Training report by the student to be submitted within one week of start of 3rd Semester. Viva-Voce examination to be held within 3 weeks of the start of 3rd semester.

** Minimum Credits required to get Certificate Course in Fashion Designing = 48 + 4#.

#Exit 1: Certificate Course - Student can exit after completion of 1st year having secured 48 Credits and will be awarded a UG Certificate provided they complete a vocational course/internship of 4 credits during the summer vacation of the first year, in addition to the 6 credits from skill enhancement courses earned during first and second semester.

1. Multidisciplinary Courses (MDSC): Annexure I
2. Skill Enhancement Courses (SEC): Annexure II
3. Value Added Courses (VAC): Annexure III

ESSENTIAL COMPONENTS OF COURSE OF B.VOC. (FASHION DESIGNING) (SEMESTERS I to VIII)

PROGRAMME OUTCOMES

PO1. Fashion and Fabric Theory Knowledge: Understanding theories and principles of behind fabric constructions and its science; history of art, textile, costumes, fashion theories, styles, marketing and merchandising, of the past and present to appreciate trends, predict appropriate market trends and machine knowledge.

PO2. Knowledge of Different Fashion Technologies: To develop knowledge of different textiles, fashion trends, pattern, digital technology, artistic elements and advanced experimentations.

PO3. To provide experience in responding to market opportunities with creative and innovative products that integrate a set of academic disciplines such as textile materials, design fundamentals, business fundamentals, sourcing, data mining of market information, and new developments in material science and engineering.

PO4. To create an educational environment that approximates the actual conditions in industry by building studios and workshops containing state-of-the-art systems, resources, technologies, and a community of creativity and innovation.

PO5. To develop strong multi-functional teamwork and communication skills using visual and verbal presentation assignments and interfaces with practitioners in the design community and the industry.

PO6 To offer wide possibilities of employability in the field of fabric designing, stitching, knitwear, textile, printing and marketing and as fashion stylist, freelance designers and visual merchandisers.

PO7. Design/Develop Product Prototypes: Design a garment or a product by draping or flat pattern making or by using hands on skill or stitching to construct the product to meet desired specification, performance and capabilities: compatible with client need, trend, market analysis, social and environmental considerations.

Semester I

	COURSE TITLE	BASICS OF DESIGN
1	**Course Code**	FD 101
2	**Typology of Course**	Core Discipline
3	**Course Duration/ LP (Lectures) (Practical)**	30 hours of lectures for Theory + 6 0 hours of practicals (1 credit = 15 hours of theory learning based on 2 hrs./week) (1 credit = 30 hours of practical based on 4 hrs./week) (1 Semester = 15 weeks) 3-groups will be created for the purpose of Practical for each unit
4	**Credits**	4 Credits [2+2]
5	**Max. Marks and Time**	100Marks (40TH/ 40PR + 20 IA) i) The exam of this course will be of 3 hours duration. ii) There will be no objective type questions. iii) Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. iv) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
6	**Job Role**	Junior Apprentice
7	**Course Objectives**	i) To introduce fundamentals of the design used in fashion designing as well as interior designing. ii) To acquaint students with various aspects of colour. iii) To enable students to develop new designs using various motifs.
8	**Course Outcomes**	On successful completion of the course, the students will be able to: CO1. Understanding of visual communication design. CO2. Analyzing color harmony CO3. Applying color harmony in design CO4. Creating designs by using principles. CO5. Evaluate the designing skills
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies, etc.
10	**Instructions for paper setters and candidates**	i) The syllabus of this paper has been divided into FOUR units. ii) Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. iii) The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv) All questions carry equal marks.

11 **Course Content**

UNIT – I

Definition of art: Introduction to art media and its applications, pencils, pencil colours, crayons, poster colour, eraser, acrylic colours and soft pastels.

UNIT – II

Elements of Art: Line, form, texture, colour, light shape, pattern; Principles of design: Balance, Rhythm, Proportion emphasis and Harmony

UNIT – III

Dimension of colours: Colour Wheel, Colour Schemes, Their importance and application

UNIT – IV

Types of motifs and use of motifs in design; Motifs used in Indian textiles.

Practical Work:

UNIT-I

Material, equipment and techniques of drawing and use of these for free hand sketching of day-to-day objects, flower, flowerpots etc.

UNIT-II

Colour wheel: Grey scales and various colour schemes; Making tracings of motifs on butter paper.

UNIT-III

Composition of geometrical, floral and abstract designs; Placement of motifs in repeat enlargement of motifs.

UNIT-IV

Basic Techniques of Sketching in black n white using different qualities of pencil.

12 **Suggested Resources for Reading**

1. Jenner G., “Dress-The Clothing Text Book”, Bennat co. Inc.
2. Ellinwood J.G., “Fashion by Design”, Fairchild Bookm Peoria, New York
3. Mc cullum G.L., “4000Flower and Plant Motifs”, a source book, BT Batiford, London
4. Prakash K, “Textile Design-Traditional and Floral”, Tien Wah press ltd. Singapore
5. Belta E and Drudi K, “Fabric Textures and Patterns”, The Repin Press, Singapore

Note: Latest edition of text books may be used.

	COURSE TITLE	GARMENT CONSTRUCTION- I
1	**Course Code**	FD 102
2	**Typology of Course**	Core Discipline
3	**Course Duration/ LP (Lecture) (Practical)**	1 2 0 hours of practicals (1 credit = 30 hours of practical based on 8 hrs./week) (1 Semester = 15 weeks) 3-groups will be created for the purpose of Practical for each unit
4	**Credits**	4 Credits
5	**Max. Marks and Time**	100 Marks (0 TH/80PR + 20 IA) i) The exam of this course will be of 3 hours duration. ii) There will be no objective type questions. iii) Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. iv) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees.
6	**Job Role**	Junior Apprentice
7	**Course Objectives**	To make the students aware of basic sewing equipment as well as techniques
8	**Course Outcomes**	On successful completion of the course, the students will be able to: CO1. Manipulate the various seams, seam finish and bias finishing techniques. CO2. Customize the fullness methods, placket and fasteners attachments in garment. CO3. Construct the various body parts of a garment.
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10	**Instructions for paper setters and candidates**	i) The syllabus of this paper has been divided into FOUR units. ii) Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. iii) The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv) All questions carry equal marks.

11 **Course Content**

Practical work:

UNIT-I

Introduction to tools used in garment construction- measuring, marking, cutting, sewing and finishing.

Sewing machine: Parts and care

UNIT-II

Basic hand stitches-basting (even, uneven, diagonal), back stitch, hemming (visible, invisible), hand overcast.

Different types of seams- plain, French, run & fell, mantua maker, counter hem, lapped

Seam finishes- overcast, pinked, binding, turned and stitched

UNIT-III

Fasteners-buttons and buttonhole, hooks and eyes, snap buttons.

Fullness- darts, gathers, pleats, tucks

Basic Neckline finishing

UNIT-IV

Plackets- continuous, two pieces

Pockets- Patch, inseam, bound, flap, kurta

7. Hollen, N and Saddler. J, "Textiles" Mac Millan, London, 1968.

Note: Latest edition of text books may be used.

	COURSE TITLE	TEXTILE SCIENCE
1	**Course Code**	FD 103
2	**Typology of Course**	Core Discipline
	Course Duration/ LP (Lectures) (Practical)	45 hours of lectures for Theory + 3 0 hours of practicals (1 credit = 15 hours of theory learning based on 3 hrs./week) (1 credit = 30 hours of practical based on 2 hrs./week) (1 Semester = 15 weeks) 3-groups will be created for the purpose of Practical for each unit
4	**Credits**	4 Credits [3+1]
5	**Max. Marks and Time**	100 Marks (50 TH/30PR + 20 IA) i) The exam of this course will be of 3 hours duration. ii) There will be no objective type questions. iii) Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. iv) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
6	**Job Role**	Junior Apprentice
7	**Course Objectives**	To acquaint the students with different types of natural and manmade fabrics available and their properties which may affect their use in fashion.
8	**Course Outcomes**	On successful completion of the course, the students will be able to: CO1. Clarify the preparatory processes involved in woven fabric production. CO2. Explain the principles of the sizing process and its methods. CO3. Infer about the basic mechanism of loom and its structure. CO4. Categorize the woven fabrics and its structure CO5. Differentiate the types of looms and jacquard mechanisms involved in woven fabric production
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10	**Instructions for paper setters and candidates**	i) The syllabus of this paper has been divided into FOUR units. ii) Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. iii) The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv) All questions carry equal marks.

11 **Course Content**

UNIT-I

Basic textile terminology, classification of textile fibres properties.
Uses and manufacturing of natural and manmade fibres (cotton, linen, wool, silk, viscose rayon, nylon, acrylic and polyester).

UNIT-II

Spinning- Mechanical and Chemical
Properties of yarns -count, balance, twist.

UNIT-III

Different types of yarns-plain, novelty, textured

UNIT-IV

Different type of fabrics- woven, non-woven, knitted and felted fabric.
Fabric counts and drapeability.

Practical work:

UNIT-I

Fiber identifications – visual, burning, microscopic and solubility test.

UNIT-II

Identification of type of yarn; Determination of twist.

UNIT-III

Evaluation of thread count and dimensional stability of fabric

UNIT-IV

Different types of weaves

Semester II

	COURSE TITLE	CONCEPTS OF FASHION
1	**Course Code**	FD 201
2	**Typology of Course**	Core Discipline
3	**Course Duration/ LP (Lectures) (Practical)**	30 hours of lectures for Theory + 6 0 hours of practicals (1 credit = 15 hours of theory learning based on 2 hrs./week) (1 credit = 30 hours of practical based on 4 hrs./week) (1 Semester = 15 weeks) 3-groups will be created for the purpose of Practical for each unit
4	**Credits**	4 Credits [2+2]
5	**Max. Marks and Time**	100 Marks (40 TH/40PR + 20 IA) i) The exam of this course will be of 3 hours duration. ii) There will be no objective type questions. iii) Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. iv) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
6	**Job Role**	Assistant Pattern Maker
7	**Course Objectives**	i) To create awareness about clothing culture. ii) To impart knowledge of clothing communication and fashion expression.
8	**Course Outcomes**	On successful completion of the course, the students will be able to: CO1. Define Fashion, Fashion terms and concepts. CO2. Describe fashion cycle. CO3. Forecasting fashion trends.
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10	**Instructions for paper setters and candidates**	i) The syllabus of this paper has been divided into FOUR units. ii) Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. iii) The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv) All questions carry equal marks.
11	**Course Content**	

UNIT-I

Fashion Terminology - fashion, style, change, fashion cycles, fad, classic, boutique, croquie, fashion trends, haute couture, designer, prêt-a-porter, and silhouette.
Fashion –Definition and its importance.
Fashion forecasting – Long term and short term.

UNIT-II

Origin and evolution of Fashion
Principles of Fashion

UNIT-III

Factors affecting fashion.
Difference between fashion and anti-fashion.

UNIT-IV

Fashion cycles - Introduction and its stages, length and break in fashion cycle. Fashion theories - Trickle down, trickle across and bottom-up theory.

Practical work:

UNIT-I

Fashion forecasting

UNIT-II

Formation of inspiration board

UNIT-III

Theme board

Colour board

UNIT-IV

Mood board
Client board

2. Larissa Lando, "Fashion Design: Aesthetic Concepts CreateSpace Independent Publishing Platform, 2016
3. Sandra Burke, "Fashion Designer: Concept to Collection" Burke Publishing 2011.

Note: Latest edition of text books may be used.

	COURSE TITLE	DRAFTING AND PATTERN MAKING
1	**Course Code**	FD 202
2	**Typology of Course**	Core Discipline
3	**Course Duration/ LP (Lectures) (Practical)**	30 hours of lectures for Theory + 6 0 hours of practicals (1 credit = 15 hours of theory learning based on 2 hrs./week) (1 credit = 30 hours of practical based on 4 hrs./week) (1 Semester = 15 weeks) 3-groups will be created for the purpose of Practical for each unit
4	**Credits**	4 Credits [2+2]
5	**Max. Marks and Time**	100 Marks (40 TH/40 PR + 20 IA)
		i) The exam of this course will be of 3 hours duration. ii) There will be no objective type questions. iii) Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. iv) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
6	**Job Role**	Assistant Pattern Maker
7	**Course Objectives**	To impart Knowledge of different methods of pattern making (flat pattern method, draping method and drafting method)
8	**Course Outcomes**	On successful completion of the course, the students will be able to: CO1. Infer about pattern-making terminology and steps in taking body measurements. CO2. Summarize the pattern drafting techniques and fitting standards for different garments. CO3. Generalize the Pattern Draping techniques and its facts. CO4. Predict different pattern grades and fabric grains for cutting. CO5. Explain pattern alteration techniques and predict the various kinds of pattern layout.
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10	**Instructions for paper setters and candidates**	i) The syllabus of this paper has been divided into FOUR units. ii) Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. iii) The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv) All questions carry equal marks.

11 Course Content

UNIT – I

Pattern making, Scope, importance and methods of developing patterns: Flat pattern, drafting and Draping.
Terminology of fabric- balance, bias, cover, dimensional stability, fabric weight, grain, selvedge and its types.

UNIT – II

Anthropometric measurements; landmarks and symbol Key, taking body measurements
A study of various sizes and measurements charts.

UNIT – III

Methods of dart manipulation- Slash and Spread, Pivot Method
Added Fullness Principle, Tucks - plain, cross, shell, released, group. Pleats - knife, box, inverted box and kick, Gathers.

UNIT – IV

Fitting and Principles of good fit
Fitting problems and remedies related to bodice - Bust- High Bust, Low Bust, Large Bust, small bust, Shoulders- Narrow Shoulder, Broad Shoulder, Square Shoulder, Sloping Shoulder, Round Shoulder
Fitting problems and remedies related to sleeve –large upper arm, narrow sleeve

Practical work:

UNIT – I

Drafting and pattern making of adult women bodice block and sleeve block

UNIT – II

Dart Manipulation

UNIT – III

Adaptation of basic bodice block into various garments: Ladies shirt, blouse, tunic and Maxi dress.

UNIT – IV

Drafting and pattern making of Lower garments: Salwar, Pyjami, Pants & Petticoat

	COURSE TITLE	FASHION ILLUSTRATION-I
1	**Course Code**	FD 203
2	**Typology of Course**	Core Discipline
3	**Course Duration/ LP (Lectures) (Practical)**	1 2 0 hours of practicals (1 credit = 30 hours of practical based on 8 hrs./week) (1 Semester = 15 weeks) 3-groups will be created for the purpose of Practical for each unit
4	**Credits**	4 Credits
5	**Max. Marks and Time**	100 Marks (0 TH/80PR + 20 IA) i) The exam of this course will be of 3 hours duration. ii) There will be no objective type questions. iii) Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. iv) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Pattern Maker
8	**Course Objectives**	i) To make the students aware of fashion sketching ii) To enable the students to draw and design various garments using fashion figures
9	**Course Outcomes**	On successful completion of the course, the students will be able to: CO1. Compose various types of garments and its parts. CO2. Design different kinds of accessories and ornaments. CO3. Deconstruct the various head theories of human figures, features and different positions of body parts.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	i) The syllabus of this paper has been divided into FOUR units. ii) Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. iii) The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv) All questions carry equal marks.

12 **Course Content**

Practical work:

Unit-I

Proportions of human figure (Female, Male and Kids): Developing figures using figure guides on 8.5, 9,10.5 and 12 heads (Front, Back, Side and 3/4th view)

Unit-II

Fleshing of figures
Body detailing: face, hands, legs and feet.

Unit-III

Sketching of various garment details- collars, necklines, sleeves, cuff, gathers, pleats and folds.

Unit-IV

Rendering: Facial features and Skin rendering.
