SEMESTER II

COURSE TITLE: GEOMORPHOLOGY

Course Code: GEO -DSC

Typology of Course: Discipline Specific Core Course (DSC)

Level of Course: 200-299

Total Credits: 4 (Theory 3+ Tutorial 1)

Maximum Marks: 100 (80 Theory + 20 Internal Assessment)

Course Duration: Lectures- 45 Hours; Tutorial- 15 Hours

Evaluation: Maximum Marks: 100 (80 Theory + 20 Internal Assessment)

- Terminal Examination: 80 Marks
- Internal Assessment: 20 Marks
- Examination Time: 3 Hours

COURSE OBJECTIVES: This course aims at developing an understanding of important geomorphic concepts, processes and mechanisms that control the development of landscapes. It intends to enable students to comprehend the interrelationships of processes, landforms, material and time.

COURSE OUTCOMES: At the end of the course the students will be able to:

- Understand the nature, scope and significance of Geomorphology
- Critically understand the various processes and mechanisms that shape the Earth
- Understand the physical manifestations of the various processes on Earth's surface

PEDAGOGY: This course requires understanding of geomorphic forms and processes. It can be achieved through suitable use of audio-visual aids, photographs, maps, and other forms of illustrations. The field visits, observations and interpretation of landforms shall form the basis to achieve the objectives of the course.

INSTRUCTIONS FOR PAPER SETTER AND CANDIDATES:

1. Question 1 shall be compulsory question which containing 12 short answer type questions shall be set from the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10x2= 20 marks).
2. A total of eight long questions will be set out of the whole syllabus at least *two* from each unit. The candidates will attempt *four* questions selecting one from each unit and each question will carry 15 marks (Total 4x15= 60 marks). These

will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.
4. For reappear/improvement candidates(s), who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will be increased proportionally to maximum marks of the paper in lieu of internal assessment. The paper setter must put note (4) in the question paper.

COURSE CONTENTS

Unit I: Foundations to Geomorphology

1. Geomorphology: Nature, Scope and Applications
2. Factors Controlling Landform Development
3. Classification of Earth Movement; Theory of Isostasy

Unit II: Endogenic Processes and Mechanism

4. Diastrophism: Epeirogenic and Orogenic Forces and Associated Features
5. Types and Features associated with Folds and Faults
6. Sudden Movements: Mechanisms, Types, Distribution of Volcano and Earthquake

Unit III: Exogenic Processes and Mechanisms

7 Weathering: Types, processes and Contributing Factors
8. Mass Movement: Classification and Characteristics
9. Erosion and Deposition Processes

Unit IV: Geomorphic Processes, Agents and Dynamics

10. Fluvial Processes and Landforms
11. Glacial Processes and Landforms
12. Aeolian, Processes and Landforms

Level of Course: 100

Total Credits: 2

Maximum Marks: 50 (40 Theory + 10 Internal Assessment)

Course Duration: Lectures-30 Hours

Evaluation: Maximum Marks: 50 (40 Theory + 10 Internal Assessment)

- **Terminal Examination:** 40 Marks
- **Internal Assessment:** 10 Marks
- **Examination Time:** 3 Hours

Objective: The main aim of teaching English to students is to equip them to use language in an efficient and effective manner. The focus of this paper is two- fold: to teach finer nuances of language through an integrated approach; and to teach composition and grammar through activity based, not rule-based approach.

Pedagogy: Assignments and practical work is an essential part of teaching in addition to classroom lectures.

Text prescribed: T. Vijay Kumar,B.T. Seetha, A.V. Suresh Kumar, Y.L. Srinivas, MacMillan , Delhi (2008) *English at Work* (Selection of Poetry and Prose), Eds.

Section-A (Poetry & Prose)

The examiner will set ten short questions, to be answered in not more than 50-60 words each: There shall be 5 questions each from Poetry and Prose Sections, of the prescribed text, out of which a student shall be required to attempt any five, selecting, atleast 2 from each poetry and prose section. Each question carries 2 marks, (5x2= 10 marks).

Section-B (Composition & grammar)

1. This question shall have internal choice between poetry and prose based on post reading activities suggested in the prescribed text. In this question, the students shall be asked to write a factual or descriptive paragraph, in not more than 300 words, on various subjects given in the exercise, in the prescribed text. For this purpose they may also be asked to expand proverbs and idioms, as indicated in the text. While setting this particular question, special care has to be taken to ensure that ideas for topics are either borrowed directly from the text or are modified suitable so that viable and feasible topics are given to the undergraduate students, which they can easily handle. The idea is to test a student's understanding of the text and /or general life- situations, and also devise an effective method of assessing

their ability to express themselves in a simple, lucid and correct language. (15 marks)

2. a This question shall contain 8 incomplete sentences, in which the student will be required to fill in the blanks with correct (4) preposition and (4) articles.(8 marks)

COURSE TITLE: ENG 201 ACADEMIC WRITING SKILLS

Course Code: ENG 201

Typology of Course: (SEC)

Level of Course: 100-109

Total Credits: 3 (Theory)

Maximum Marks: 75 (60 Theory + 15 Internal Assessment)

Course Duration: Lectures-45 Hours;

Evaluation :Maximum Marks: 75 (60 Theory + 15 Internal Assessment)

- **Terminal Examination:** 60 Marks
- **Internal Assessment:** 15 Marks
- **Examination Time:** 3 Hours

Objectives: This course aims to develop writing skills for academic purposes which will enable students to write essays, reports and term papers. This involves awareness of the academic style of writing, organisation of material, use of grammar and appropriate vocabulary in an academic context. This course will help students to develop strategies such as presenting ideas with a logical progression, collating information from various sources and writing critically about texts.

Pedagogy: In addition to classroom discussion, practical work and assignments will be an integral part of the paper.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

1. The syllabus has been divided into three units. Question no 1 shall be compulsory and shall have 10 short answer type questions out of which 7 have to be answered in about 25 to 30 words each i.e. 3 mark for each.

(7x3=21). Rest of the paper shall contain 3 units. Each unit shall have two long questions and the candidate shall be given internal choice of attempting one question from each unit I-III. Each question will carry 13 marks.

2. The paper setter would avoid repetition between different type of questions within one question paper.

Unit I

Reading essays, papers or extracts from some journals and books to familiarize students with:

Text Organisation, such as identifying main ideas and supporting ideas in a text, general and specific statements, exemplification, linear and circular structures. Students will look critically at some texts to distinguish fact and opinion, facetious arguments, and make inferences.

Identifying different stages of an academic writing task: definition, details required to build an argument/develop an idea, which includes the gathering of source material, references and quotations; generalization from data, making conclusions.

Unit II

Practicising summarizing, and expansion skill: to condense a longer text into a short one, or developing a short text of a few sentences into a longer, detailed piece.

Other skills: comparing and classifying facts, using relevant examples.

Unit III

Developing language: Correcting and revising sentences with attention to subject-verb agreement, tenses, prepositions, articles, passive forms, cohesive features such as linkers, sentence connection. Vocabulary development through use of Academic Word List (Coxhead 2000, available on the internet) in academic discourse,

Semester-III

GEOGRAPHY
MAJ-A-3: OCEANOGRAPHY
(Also offered as Minor in Sem-III)

Typology of Course: Major Discipline Specific Core
Course code: GEO-OCE-301
Level of the Course: 200 level
Total Credits: 4 (Theory 3 + Tutorial 1)
Maximum Marks: 100 (80 Theory + 20 Internal Assessment)
Course Duration: Total = 60 Hours (Lectures - 45 Hours; Tutorial - 15 Hours)

Evaluation: Maximum Marks: 100 (80 Theory + 20 Internal Assessment)

- **Terminal Examination:** 80 Marks
- **Internal Assessment:** 20 Marks
- **Examination Time:** 3 Hours

Course Objective: The course intends to introduce the students to fundamental concepts of oceanography and enable them to understand the configuration of the ocean bottom, movement and dynamics of ocean water, and its unique ecosystems.

Course Outcomes: At the end of the course the students will be able to:

- Analyze the elements of oceans and relief and its impacts at different scales.
- Evaluate oceanic dynamics and its bearing on planet Earth.
- Synthesize oceanic processes, resources, and their significance.

Pedagogy of the Course: Conscious efforts to be made to make the students aware of the significance of oceans to human life. The learning shall be based on creative assignments, interactive & innovative activities, discussions, and learning by doing activities.

Instructions for the Paper Setter and Candidates:

1. Question 1 shall be a compulsory question which contains 12 short answer type questions set from the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10 x 2 = 20 marks).
2. A total of eight long questions will be set out of the whole syllabus, with at least two from each unit. The candidates will attempt four questions, selecting one from each unit, and each question will carry 15 marks (Total 4 x 15 = 60 marks). These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussions in the class, term papers, attendance, etc.
4. For reappear/improvement candidates (who have not been assessed earlier for internal assessment), the marks secured by them in the theory paper will be increased proportionally to maximum marks of the paper in lieu of internal assessment. The paper setter must put note (4) in the question paper.

Course Content

Unit-I

Introduction to Oceanography

Meaning, scope, branches, and growth of oceanography
Topography of Ocean Basins
Ocean Deposits: Sources and Types

Unit-II

Physical & Chemical Properties of Sea Water

Temperature: Factors, Characteristics and Distribution
Salinity: Composition, Factors and Distribution
Density: Significance, Controlling Factors and Stratification

Unit-III

Ocean Currents and Dynamics

Ocean Currents: Nature, types and Influencing Factors
Ocean Currents of Pacific, Atlantic & Indian Ocean
El Nino, La Nina and Southern Oscillation.

Unit-IV

Ocean Dynamics and Deposits

Coral Reefs: Distribution, Controlling Factors, Types and Theories
Ocean Waves: Origin, Anatomy and Types
Ocean Tides: Origin and Types

GEOGRAPHY
MAJ-A-4: CARTOGRAPHY

Typology of Course: Major Discipline Specific Core
Course Code: GEO-CAR-302
Level of the Course: 200 level
Total Credits: 4 (Theory 2 + Tutorial 1 + Practical 1)
Maximum Marks: 100 (60 Theory + 20 Internal Assessment + 20 Practical)
Course Duration: Total = 75 hours (Lectures - 30 Hours; Tutorial - 15 Hours; Practical - 30 Hours)

Evaluation: Maximum Marks: 100 (60 Theory + 20 Practical + 20 Internal Assessment)

- **Terminal Examination:** 60 Marks
- **Internal Assessment:** 20 Marks
- **Practical Examination:** 20 Marks
- **Examination Time:** 3 Hours

Course Objective: The course is designed to introduce the concept of cartography and its relevance in Geography. It focuses on explaining the concepts of scale, directions, bearing and map design. It further aims to enable students with necessary skills and techniques to examine, represent, and describe maps.

Course Outcomes: After the completion of this course, students should be able to:

- Comprehend the nature, scope, and significance of cartography
- Read, analyze, and measure directions and bearings
- Demonstrate cartographic knowledge and skills to read, design, and produce maps

Pedagogy of the Course: The introduction of conceptual and practical foundations of cartography shall form the core of teaching and learning. The students are to be encouraged to have active interactions with the teacher and the peer group. The learning shall be based on interactive and practical activities, discussions, and learning by going out in the field. A well-equipped cartographic laboratory with necessary apparatus and datasets will provide the necessary environment to prepare exercises.

Instructions for the Paper Setter and Candidates:

1. Question 1 shall be a compulsory question which contains 12 short answer type questions set from the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10 x 2 = 20 marks).
2. A total of eight long questions will be set out of the whole syllabus, with at least two from each unit. The candidates will attempt four questions, selecting one from each unit, and each question will carry 15 marks (Total 4 x 15 = 60 marks). 3. Internal assessment may include written assignments, snap tests, participation in discussions in the class, term papers, attendance, etc.
4. For reappear/improvement candidates (who have not been assessed earlier for internal assessment), the marks secured by them in the theory paper will be increased proportionally to maximum marks of the paper in lieu of internal assessment. The paper setter must put note (4) in the question paper.

Instructions for Practical Examinations:

1. Each student shall prepare a practical file. They will be required to complete their practical file and get it signed from the class teacher at least 10 days before the commencement of their examination.
2. The practical examination in the form of viva-voce only shall be conducted at the respective Department of University itself. There will be no laboratory exercise at the time of examination.
3. Practical examination at the respective Department shall be conducted by one internal and one external examiner. The external examiner shall be appointed by the principal of the respective Departments in consultation with the senior most teachers of Geography in the Department of University.
4. Those students who fail in the practical examination are required to prepare a fresh practical file. However, students who failed in the theory paper only or are appearing in improvement examination, their practical marks of previous practical examination will be carried forward.
5. There will be 2 hours of teaching per week for this paper.

Course Content

Unit-I

Introduction to Cartography

Meaning, Nature and Scope of Cartography
History of Cartography
Cartography and GIS, Future of Cartography

Unit-II

Scale and Scale Operations

Concept of Scale and methods of its representation
Graphic scales: Plain, Comparative, Time and Diagonal.
Enlargement and Reduction of Maps

Unit-III

Knowing the Directions and Bearings

Concept of North: True, Magnetic and Grid North; Magnetic Declination
Types, Elements, and Applications of Compass; Directions; Method of Finding North
Bearing: Types, Taking Bearings and its conversion, Determining Positions.

Unit –IV

Cartographic Symbolisation and Designs

Basic Map Element: Primary and Secondary Elements
Map Symbolisation: Point, Line and Area Symbols
Map Layouts Design: Lettering & Font, Colours, Features and Symbols

Practical Exercises

1. Construction of scales: plain, comparative, time and diagonal
2. Calculation of True North, Magnetic North, and magnetic declination
3. Bearing and its conversion, determination of positions
4. Methods of Finding north
5. Map symbolisation
6. Map Designing
   (A total of 10 exercises covering the above-mentioned topics shall be prepared by the students)

SEMESTER-IV

GEOGRAPHY
MAJ-A-5: CLIMATOLOGY
(Also offered as Minor in Sem-IV)

Typology of Course: Major Discipline Specific Core
Course Code: GEO-CLI-401
Level of Course: 200 level
Total Credits: 4 (Theory 2 + Tutorial 1 + Practical 1)
Maximum Marks: 100 (60 Theory + 20 Internal Assessment + 20 Practical)
Course Duration: Total = 75 hours (Lectures - 30 Hours; Tutorial - 15 Hours; Practical - 30 Hours)

Evaluation: Maximum Marks: 100 (60 Theory + 20 Practical + 20 Internal Assessment)

- **Terminal Examination:** 60 Marks
- **Internal Assessment:** 20 Marks
- **Practical Examination:** 20 Marks
- **Examination Time:** 3 Hours

Course Objective: This course aims to impart scientific knowledge on climate and weather systems to students for enhancing their understanding of the atmosphere's structure and composition, global atmospheric dynamics, and critical issues related to climate systems.

Course Outcomes: After the completion of this course, students should be able to:

- Define climate and weather elements and their distribution
- Analyse climate and weather processes, mechanisms, and dynamics
- Evaluate the influence of climate and weather systems

Pedagogy of the Course: A conscious effort shall be made to make the students aware of the significance of climate and weather systems to human life. The teaching aids such as PowerPoint slides, photographs, and documentaries shall be used. Students are to be encouraged to have active interactions with the teacher and the peer group on key concepts and practical understanding. The learning shall be based on creative assignments, interactive & innovative activities, discussions, and learning by doing activities.

Instructions for the Paper Setter and Candidates:

1. Question 1 shall be a compulsory question containing 12 short answer-type questions set from the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10x2 = 20 marks).
2. A total of eight long questions will be set from the entire syllabus, with at least two from each unit. The candidates will attempt four questions, selecting one from each unit. Each question will carry 15 marks (Total 4x15 = 60 marks). These are in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in class discussions, term papers, attendance, etc.
4. For reappear/improvement candidates who have not been assessed earlier for internal assessment, the marks secured by them in the theory paper will be increased proportionally to the maximum marks of the paper in lieu of internal assessment. The paper setter must include note (4) in the question paper.

Instructions for Practical Examinations:

1. Each student shall prepare a practical file. They will be required to complete their practical file and get it signed from the class teacher at least 10 days before the commencement of their examination.
2. The practical examination in the form of viva-voce only shall be conducted at the respective Department of University itself. There will be no laboratory exercise at the time of examination.
3. Practical examination at the respective Department shall be conducted by one internal and one external examiner. The external examiner shall be appointed by the principal of the respective Departments in consultation with the senior most teachers of Geography in the Department of University.
4. Those students who fail in the practical examination are required to prepare a fresh practical file. However, students who failed in the theory paper only or are appearing in improvement examination, their practical marks of previous practical examination will be carried forward.
5. There will be 2 hours of teaching per week for this paper.

Course Content

Unit -I

Introduction of Climatology

Nature and scope of climatology; elements and controls of weather and climate
Earth's atmospheric composition; factors affecting atmospheric composition
Structure of the atmosphere: thermal and chemical layering

Unit- II

Solar Radiation and Mechanisms

Solar Radiation: measurement, mechanisms of heat transfer, factors affecting insolation Solar Energy and atmospheric interaction mechanisms; Albedo, Heat Budget
Horizontal and vertical distribution of insolation

Unit- III

Atmospheric Pressure and Wind Distribution

Atmospheric Pressure: Measurement and controlling factors
Vertical and horizontal distribution of atmospheric pressure
Global atmospheric circulation; Seasonal and Local Winds

Unit -IV

Atmospheric Processes and Disturbances

Cyclones: Tropical and temperate cyclones
Atmospheric moisture and forms of condensation
Precipitation: processes and types

Practical Exercises:

1. Temperature: Instruments, scales (Centigrade, Fahrenheit, Kelvin), and conversion
2. Temperature Indices: Mean, Maximum, Minimum, and Range
3. Rainfall/Precipitation Measurement Instruments
4. Rainfall Indices: Daily, Seasonal, Annual Rainfall; Rainy Days and Rainfall Intensity

GEOGRAPHY
MAJ-A-6: HUMAN GEOGRAPHY

Typology of Course: Major Discipline Specific Core
Course Title: Human Geography
Course Code: GEO-HMN-402
Level of Course: 200 level
Total Credits: 4 (Theory 3 + Tutorial 1)
Maximum Marks: 100 (80 Theory + 20 Internal Assessment)
Course Duration: Total = 60 Hours (Lectures - 45 Hours; Tutorial - 15 Hours)

Evaluation: Maximum Marks: 100 (80 Theory + 20 Internal Assessment)

- **Terminal Examination**: 80 Marks
- **Internal Assessment**: 20 Marks
- **Examination Time**: 3 Hours

Course Objective: The course aims to develop an analytical lens to critically examine the changing nature of the human world by enabling students to think geographically about key concepts like place, space, and scale. It further focuses on the critical appraisal of key topics such as population dynamics, migration, social and cultural attributes, and political structures.

Course Outcomes: At the end of the course, the students will be able to:

- Comprehend geographical aspects of place and spatial relationships
- Establish the intersection of human geography with other disciplines of social sciences
- Conceptualize and critically relate social, cultural, and demographic landscapes
- Develop a geographic perspective on globalization, development, and sustainability

Pedagogy of the Course: The introduction of conceptual and foundational knowledge shall form the core of teaching and learning. The students are to be encouraged to have active interactions with the teacher and peers for interactive activities and discussions.

Instructions for the Paper Setter and Candidates:

1. Question 1 shall be a compulsory question containing 12 short answer type questions set from the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10x2 = 20 marks).
2. A total of eight long questions will be set from the whole syllabus, at least two from each unit. The candidates will attempt four questions, selecting one from each unit, and each question will carry 15 marks (Total 4x15 = 60 marks). These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussions in the class, term papers, attendance, etc.
4. For reappear/improvement candidates who have not been assessed earlier for internal assessment, the marks secured by them in the theory paper will be increased proportionally to the maximum marks of the paper in lieu of internal assessment. The paper setter must put note (4) in the question paper.

Course Content

GEOGRAPHY
MAJ-A-8: MAP READING AND INTERPRETATION

Typology of Course: Major Discipline Specific Core
Course Code: GEO-MRI-404
Level of Course:200 level
Total Credits: 4 (Theory 2 + Tutorial 1 + Practical 1)
Maximum Marks: 100 (60 Theory + 20 Internal Assessment + 20 Practical)
Course Duration: Total = 75 hours (Lectures - 30 Hours; Tutorial - 15 Hours; Practical - 30 Hours)

Evaluation: Maximum Marks: 100 (60 Theory + 20 Practical + 20 Internal Assessment)

- **Terminal Examination**: 60 Marks
- **Internal Assessment**: 20 Marks
- **Practical Examination**: 20 Marks
- **Examination Time**: 3 Hours

Course Objective: The course is designed to impart practical knowledge about maps and their relevance in Geography. It focuses on honing skills related to map use, map reading, and interpretation. It further aims to enable students with necessary techniques to examine, represent, and describe maps.

Course Outcomes: After the completion of this course, students should be able to:

- Comprehend the nature, types, and usages of maps.
- Demonstrate cartographic knowledge and skills to design and produce maps.
- Read and analyze maps for information extraction.

Pedagogy of the Course: The introduction of conceptual and practical foundations of maps and map reading shall form the core of teaching and learning. The students are to be encouraged to have active interactions with the teacher and the peer group. The learning shall be based on interactive and practical activities, discussions, and learning by going out into the field. A well-equipped cartographic laboratory with necessary apparatus and datasets will provide the necessary environment to prepare exercises.

Instructions for the Paper Setter and Candidates:

1. Question 1 shall be a compulsory question containing 12 short answer-type questions from the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10x2 = 20 marks).
2. A total of eight long questions will be set out of the whole syllabus, with at least two from each unit. The candidates will attempt four questions, selecting one from each unit, and each question will carry 15 marks (Total 4x15 = 60 marks). These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussions in the class, term papers, attendance, etc.
4. For reappear/improvement candidates who have not been assessed earlier for internal assessment, the marks secured by them in the theory paper will be increased proportionally to the maximum marks of the paper in lieu of internal assessment. The paper setter must put note (4) in the question paper.

Instructions for Practical Examinations:

1. Each student shall prepare a practical file. They will be required to complete their practical file and get it signed from the class teacher at least 10 days before the commencement of their examination.
2. The practical examination in the form of viva-voce only shall be conducted at the respective Department of University itself. There will be no laboratory exercise at the time of examination.
3. Practical examination at the respective Department shall be conducted by one internal and one external examiner. The external examiner shall be appointed by the principal of the respective Departments in consultation with the senior most teachers of Geography in the Department of University.
4. Those students who fail in the practical examination are required to prepare a fresh practical file. However, students who failed in the theory paper only or are appearing in improvement examination, their practical marks of previous practical examination will be carried forward.
5. There will be 2 hours of teaching per week for this paper.

Course Content

Unit I

Introduction to Maps

Maps: Meaning, essentials, and classification of maps.
Distribution Maps: Types, Merits, and Demerits of Qualitative Maps.
Chorochromatic and Choroschematic Maps: Construction and Interpretation.

Unit II

Distribution Maps Quantitative Methods

Choropleth: Construction, Interpretation, Merits, and Demerits.
Isopleth: Construction, Interpretation, Merits, and Demerits.
Dot Maps: Construction, Interpretation, Merits, and Demerits.

Unit III

Topographical Maps

Topographical Maps: Classification, Nomenclature, and Numbering.
Reading Conventional signs, Interpretation of Topographical Maps.
Grid Referencing; Measuring distance, directions, elevation, and slope.

Unit IV

Representation of Relief Features from Topographical Maps

Contours: Salient Features, Vertical Interval (VI) & Horizontal Equivalent (HE), Interpolation, Method of drawing profiles. Hachure, Layer Tint, Hill-shading, Spot Height, and Benchmarks. Profiles: Longitudinal, Transverse, Serial, Composite, Superimposed, and Projected.

Practical Exercises

1. Preparing choropleth maps.
2. Drawing isopleth maps.
3. Construction of dot maps.
4. Classification of Survey of India Maps (Old and New Series).
5. Representing Relief Features by Contour.
6. Profiles: Longitudinal, Transverse Profiles.
7. Profiles: Serial, Composite, Superimposed, and Projected.
8. Interpretation of topographical maps (physical and cultural features).

Course Objectives: The course intends to introduce and familiarize students with the study of Comparative Politics. It engages with different types of political systems with reference to both developed and developing countries. It will also introduce the components and essential information of the course.

Course Outcomes: On completion of the course, the student will be equipped to understand the scope and changing nature of the discipline. The knowledge regarding concepts and the comparative method will enable them to critically analyze and compare different political systems.

Pedagogy of the Course: The students will be assessed based on a written examination comprising 80 marks and continuous internal assessment of 20 marks, based on Unit tests, Snap tests, Attendance, Class assignments, and classroom participation.

Instructions for the Paper Setter and Candidates:

1. **Question 1** shall be a compulsory question, containing 12 short-answer-type questions set from the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10 x 2 = 20 marks).
2. A total of **eight long questions** will be set from the whole syllabus, at least two from each unit. The candidates will attempt four questions, selecting one from each unit, and each question will carry 15 marks (Total 4 x 15 = 60 marks). These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in class discussions, term papers, attendance, etc. For reappear/improvement candidates who have not been assessed earlier for internal assessment, the marks secured by them in the theory paper will be increased proportionally to the maximum marks of the paper in lieu of internal assessment. The paper setter must put note (4) in the question paper.

PUBLIC ADMINISTRATION
PUB-MAJ-A6: ENVIRONMENT ADMINISTRATION

Typology of Course: Major Discipline Specific Core
Course Code: ECO-MB-404
Level of Course: 200 level
Total Credits: 4 (Theory 3 + Tutorial 1)
Maximum Marks: 100 (80 Theory + 20 Internal Assessment)
Course Duration: Total = 60 Hours (Lectures - 45 Hours; Tutorial - 15 Hours)

Evaluation: Maximum Marks: 100 (80 Theory + 20 Internal Assessment)

- **Terminal Examination**: 80 Marks
- **Internal Assessment**: 20 Marks
- **Examination Time**: 3 Hours

Course Objective: The objective of the paper is to provide students an overview of Environment Administration, emphasizing key environmental issues and management strategies. It covers topics such as climate change, pollution control, waste management, and renewable energy.

Course Outcomes:

1. Understand critical environmental concepts like climate change and biodiversity conservation.
2. Learn about the significance and scope of Environment Administration.
3. Explore the necessity and process of Environmental Impact Assessment.
4. Understand the roles of key environmental administrative bodies such as the Ministry of Environment, Forest & Climate Change, and the National Green Tribunal.
5. Gain knowledge of environmental legislation and policies such as the Environment Protection Act, 1986, and the National Environment Policy, 2006.
6. Explore significant international environmental conferences and agreements like the Rio Earth Summit and the Kyoto Protocol.

Pedagogy of the Course: The students will be assessed on the basis of written examination comprising of 80 marks and continuous internal assessment of 20 marks, based on class tests, academic activities, attendance, class assignments, and classroom participation.

Instructions for the Paper Setter and Candidates:

1. Question 1 shall be a compulsory question containing 12 short answer type questions set from the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10 x 2 = 20 marks).
2. A total of eight long questions will be set from the whole syllabus, with at least two from each unit. The candidates will attempt four questions selecting one from each unit, and each question will carry 15 marks (Total 4 x 15 = 60 marks). These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussions in the class, term papers, attendance, etc.
4. For reappear/improvement candidates (who have not been assessed earlier for internal assessment), the marks secured by them in the theory paper will be increased proportionally to the maximum marks of the paper in lieu of internal assessment. The paper setter must put note (4) in the question paper.

Course Content

Unit- I

Concepts and Issues: Climate Change, Biodiversity Conservation, Pollution, Ozone Depletion, Waste Management, Global Warming, Renewable Energy
Environment Administration: Meaning, Scope and Significance
Environmental Impact Assessment: Meaning and Need

Unit –II

Environmental Administration: Ministry of Environment, Forest & Climate Change; Central Pollution Control Board – Structure, Functions, and Role
State Pollution Control Board – Structure, Functions, and Role
National Green Tribunal – Structure, Functions, and Role

Unit –III

Environment Protection Act, 1986
National Environment Policy, 2006
National Solar Mission, National Mission for Enhanced Energy Efficiency (NMEEE)

Unit- IV

Important International Conferences on Environment – Rio Earth Summit, 1992, Kyoto Protocol, 1997, The United Nations Framework Convention on Climate Change (UNFCCC), Clean Development Mechanism (CDM)

Course Content

Unit –I

Introduction to Macroeconomics: Meaning, nature and scope. Difference between micro and macroeconomics, Basic issues studied in macroeconomics, Measurement of national income: measuring of GDP, Components of GDP, Real vs Nominal GDP, Problems in measuring national income.

Unit- II

Consumption and Saving Function: Average and Marginal Propensity to Consume/save, Keynes' Psychological Law of Consumption.
Investment Function: Types of Investment, Investment Demand Schedule and Factors Affecting Investment

Decisions, Marginal Efficiency of Capital. Role of Investment Using Investment Multiplier (Static and Dynamic Multiplier).

Unit- III

Determination of Income and Employment: The labour market wage determination (classical and Keynes), aggregate demand and aggregate supply curves, Say's Law of Markets. Principle of Effective Demand. Integrated Classical and Keynesian Theories of Income, Output and Employment.

Unit- IV

Inflation: Meaning, Types and Effects, Cost-Push and Demand-pull Theories of Inflation, Measures to Control Inflation. Monetary and Fiscal Policies for Stabilization.
Trade Cycles: Meaning and Phases.
Money and Banking: Money: Definition, Functions and Role. Major Functions of Commercial Banks and Process of Credit Creation.

Course Content

Unit-I

Differentiation: Simple and Partial Derivatives, Differentiation of Simple functions – Polynomial and Exponential Functions. Maxima and Minima of Functions of One Variable only.
Linear Programming Problem: Solution by Simplex Method.

Unit–II

Theory of Probability: Introduction, Definitions and Use of Addition and Multiplicative Theorem, Conditional Probability and Bayes' Theorem.
Probability Distribution: Binomial Distribution, Poisson Distribution and Normal Distribution.
Sampling Design and Sampling Procedure. Sampling and Non-Sampling Errors.

Unit–III

Regression: Meaning and Significance, Difference Between Correlation and Regression, Simple Linear Regression and Estimation of Parameters (Slope and Intercept). Standard Error.
Time Series: Meaning, Components, Models, Fitting Linear and Quadratic Trend.

Unit–IV

Index Numbers: Fixed Base Index, Chain Base Index, Base Conversion, Base Shifting, Splicing, Deflating, Consumer Price Index.
Interpolation and Extrapolation: Binomial Expansion Method, Newton's Method and Lagrange's Method.

Suggested Practical Work: Use of Microsoft Excel in Solving Simple Data Analysis.

- **Terminal Examination**: 80 Marks
- **Internal Assessment**: 20 Marks
- **Examination Time:** 3 Hours

Course Objective: This course delves into the intricate workings of money and banking within the economy. Understanding their dynamics is crucial, as they influence various channels including markets, institutions, and governmental policies. The present course is designed to acquaint the students fully with the changing role of financial institutions in the process of growth and development. Accordingly, the paper on 'Money and Banking' is an optimal integration of monetary theory, banking and non-banking financial institutions, which combines with itself a systematic discussion of the theory, institutions, and policy with special reference to India.

Pedagogy of the Course Work: 80% Classroom teaching, 20% Internal Evaluation.

Instructions for Paper Setter and Candidates:

1. Question 1 shall be a compulsory question containing 12 short answer type questions set from the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part shall carry 2 marks (Total 10 x 2 = 20 marks).
2. A total of eight long questions will be set out of the whole syllabus, at least two from each unit. The candidates will attempt four questions selecting one from each unit, and each question will carry 15 marks (Total 4 x 15 = 60 marks). These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussions in the class, term papers, attendance, etc.
4. For reappear/improvement candidates (who have not been assessed earlier for internal assessment), the marks secured by them in the theory paper will be increased proportionally to maximum marks of the paper in lieu of internal assessment. The paper setter must put note (4) in the question paper.
