All questions carry equal marks.

11.	**Course Content**	**<u>Word Orientation</u>:** The instructor needs to give an over view of word processor. Details of the four tasks and features that would be covered Using word–Accessing, overview of toolbars, saving files, Using help and resources, rulers, format painter. 1. Using word to create Resume Features to be covered :Formatting Fonts in word, Drop Cap in word, Applying Text effects, Using Character Spacing, Borders and Colors, Inserting Header and Footer, Using Date and Time option in Word. 2. Creating an Assignment Features to be covered:-Formatting Styles, Inserting table, Bullets and Numbering,ChangingTextDirection,Cellalignment,Footnote,Hyperlink, Symbols, SpellCheck, Track Changes 3. Creating a Newsletter Features to be covered:-Table of Content, Newspaper columns, Images from files and clipart, Drawing toolbar and Word Art, Formatting Images, Textboxes and Paragraphs. 4. Creating a Feedback form Features to be covered :- Forms, Text Fields, Inserting objects, Mail Merge in Word. **<u>Excel Orientation:</u>** The instructor needs to tell the importance of Excel as a Spreadsheet tool, give the details **o**f the four tasks and features that would be covered Excel–Accessing, overview of toolbars, saving excel files, 1. Creating a Scheduler Features to be covered:-Gridlines, Format Cells, Summation, autofill, Formatting Text 2. Calculations Features to be covered:-Cell Referencing, Formulae in excel–average, std. deviation, Charts, Renaming and Inserting worksheets, Hyper linking, Count function, LOOKUP/VLOOKUP 3. Performance Analysis Features to be covered :- Split cells, freeze panes, group and outline, Sorting, Boolean and logical operators, Conditional formatting 4. Game(like Cricket ,badminton)Score Card Features to be covered:-Pivot Tables, Interactive Buttons, Importing Data, Data Protection, Data Validation **<u>Presentation Orientation:</u>** 1.Students will be working on basic power point utilities and tools which help them create basic power point presentation. 1. Topic covered includes:-PPT Orientation, Slide Layouts, Inserting Text, Word Art, Formatting Text, Bullet sand Numbering, AutoShapes, Line sand Arrows 2. This session helps students in making their presentations interactive. Topics covered includes: Hyperlinks, Inserting–Images, ClipArt, Audio, Video, Objects, Tables and Charts 3. Concentrating on the in and out of Microsoft powerpoint. Helps them Learn best practices in designing and preparing power point presentation. Topics covered includes: -Master Layouts(slide ,template, and notes),Types

		of views (basic, presentation, slide slotter, notes etc), Inserting – Background, textures,DesignTemplates,Hiddenslides.Autocontentwizard,SlideTransition, Custom Animation, Auto Rehearsing 4. Power point test would be conducted. Students will be given model powerpoint Presentation which needs to be replicated

<tr><td>7.</td><td>Course Objectives</td><td>Understanding Management Basics: The course aims to provide students with a solid grasp of management principles and their historical context. Participants will explore the fundamental functions of management, including planning, organizing, leading, and controlling. This involves understanding how to accomplish tasks through others, leveraging influence, and effectively hiring, engaging, and retaining talent. Building Managerial Skills: The course equips aspiring managers with the essential toolkit required for success. It covers topics such as decision-making, teamwork, and leading change.</td></tr>
<tr><td>8.</td><td>Course Outcomes</td><td>CO1.Differentiating Managers and Leaders: Upon completing the course, you will be able to describe the difference between managers and leaders. Understanding these distinct roles is crucial for effective organizational management.
CO2.Managerial Focus and Skills: You'll explore the focus of a manager's job and learn about the required skills for a new manager's success. This includes competencies such as delegating, objective setting, and problem-solving.
CO3.Hierarchy of Planning and SMART Goals: You learn about the hierarchy of planning and how to set SMART (Specific, Measurable, Achievable, Relevant, Time-bound) goals. Effective planning is essential for achieving organizational objectives.
CO4.Evolution of Leadership and Customer Satisfaction: The course delves into the evolution of leadership</td></tr>
<tr><td>9.</td><td>Pedagogy of the Course Work</td><td>Class Room Lecture, Interactive sessions ,PPT, Group Discussions, Case Studies etc.</td></tr>

11.	**Course Content**	1. **SEO Optimization for a Sample Website** **Objective**: Understand on-site and off-site SEO techniques. **Activity**: Conduct keyword research using Google Keyword Planner. Optimize a sample webpage by adding meta tags, title tags, and alt text. Perform an SEO audit of a small website using SEMrush or Ahrefs. **Outcome**: Students will learn how to improve a website's search engine ranking. 2. **Create and Manage a Social Media Campaign** **Objective**: Implement and monitor a real-life social media campaign. **Activity:** Set up a mock business profile on Facebook or Instagram. Design 3–5 posts using Canva, including one short video. Schedule posts via Hootsuite or Buffer and analyze engagement metrics (likes, comments, shares). **Outcome**: Students gain experience in content creation, campaign planning, and performance monitoring. 3. **Google Ads Campaign Creation** **Objective**: Design and optimize a PPC campaign. **Activity:** Create a Google Ads account and set up a sample campaign. Select keywords, write ad copy, and set a budget with CPC bidding. Analyze campaign metrics like CTR and CPC to make improvements. **Outcome**: Students will learn how to launch and manage a search engine marketing campaign. 4. **Email Marketing Campaign Design** **Objective**: Learn the fundamentals of email marketing. **Activity**: Build an email list using a simple sign-up form in Google Forms or Mailchimp. Create an email campaign with a promotional message, images, and a call-to-action (CTA). Analyze the results (open rate, click-through rate, and conversion metrics). **Outcome**: Students develop skills to design and measure the effectiveness of email campaigns. **5. Create and Test a Landing Page** **Objective**: Understand user experience and conversion optimization. **Activity**: Design a landing page for a product or service using Wix or WordPress. Add elements like headlines, CTAs, images, and forms. Use Google Analytics or Hotjar to evaluate the performance (bounce rate, time on page). **Outcome**: Students will learn how to create a high-converting landing page and evaluate its impact.
