Course Outline for B.Voc (Retail Management)
as per NEP 2020 w.e.f. session 2025-26

Semester-I

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
BRM 101	Core Discipline	Introduction to Retailing	4	-	4	80	20	-	-	100
BRM 102	Core Discipline	Principles of Management	4	-	4	80	20	-	-	100
BRM 103	Core Discipline	Computerised Accounting and Enterprise Resource Planning	4	-	4	80	20	-	-	100
AEC / MIL	Ability Enhancement Course	English			2					50
SEC I	Skill Enhancement Course	SEC Options[1]			3					75
B.Voc. MDSC 101	Multidisciplinary Course	Fundamentals of Information Technology[2]	3	-	3	60	15	-	-	75
VAC I	Value-Added Course	VAC Options[3]			2					50
PW I	Project Work	Project Work-I & Viva-Voce	-	2	2	-	-	50	-	50
Total Credits					**24**					**600**

Semester-II

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
BRM 201	Core Discipline	Retail Stores Operations	4	-	4	80	20	-	-	100
BRM 202	Core Discipline	Inventory Management	4	-	4	80	20	-	-	100
BRM 203	Core Discipline	Personal Selling and Salesmanship	4	-	4	80	20	-	-	100
AEC / MIL	Ability Enhancement Course	English			2					50
SEC II	Skill Enhancement Course	SEC Options[1]			3					75
B.Voc. MDSC 201	Multidisciplinary Course	Soft Skills and Personality Development[2]	3	-	3	60	15	-	-	75
SIT 201*	Internship	Summer Industrial Training (SIT)*	-	4	4	-	-	100	-	100
Total Credits					**24**					**600**

Job Role – Retail Team Leader

* Summer Industrial Training of 2-4 weeks in a relevant Industry after 2nd Semester Examinations during summer break. Training report by the student to be submitted within one week of start of 3rd Semester. Viva-Voce examination to be held within 3 weeks of the start of 3rd semester.

** Minimum Credits required to get Certificate Course in Retail Management = 48 + 4 #.

#Exit 1: Certificate Course - Student can exit after completion of 1st year having secured 48 Credits and will be awarded a UG Certificate provided they complete a vocational course/internship of 4 credits during the summer vacation of the first year, in addition to the 6 credits from skill enhancement courses earned during first and second semester.

1. Skill Enhancement Courses (SEC): Annexure I
2. Multidisciplinary Courses (MDSC): Annexure II
3. Value Added Courses (VAC): Annexure III

Semester-III

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
BRM 301	Core Discipline	Customer Relationship Management	4	-	4	80	20	-	-	100
BRM 302	Core Discipline	Human Resource Management	4	-	4	80	20	-	-	100
BRM 303	Core Discipline	Management Information System	4	-	4	80	20	-	-	100
AEC / MIL	Ability Enhancement Course	English			2					50
SEC III	Skill Enhancement Course	SEC Options[1]			3					75
B.Voc. MDSC 301	Multidisciplinary Course	Entrepreneurship Development[2]	3	-	3	60	15	-	-	75

BRM 403	Core Discipline	Marketing Management	4	-	4	80	20	-	-	100
BRM 404	Core Discipline	International Retailing	4	-	4	80	20	-	-	100
AEC / MIL	Ability Enhancement Course	English			2					50
VAC III	Value-Added Course	VAC Options[3]			2					50
SIT 401*	Internship	Summer Industrial Training (SIT)*	-	4	4	-	-	100	-	100
Total Credits					**24**					**600**

Job Role – Retail Departmental Manager

* Summer Industrial Training of 2-4 weeks in a relevant Industry after 4th Semester Examinations during summer break. Training report by the student to be submitted within one week of start of 5th Semester. Viva-Voce examination to be held within 3 weeks of the start of 5th semester.

** Minimum Credits Required to get Diploma Course in Retail Management = 96 + 4 #.

#Exit 2: Diploma Course - Student can exit after completion of 2nd year having secured 96 Credits and will be awarded a UG Diploma provided they complete a vocational course/internship of 4 credits during the summer vacation of the second year, in addition to the 9 credits from skill enhancement courses earned during first, second and third semester.

1. Skill Enhancement Courses (SEC): Annexure I
2. Multidisciplinary Courses (MDSC): Annexure II
3. Value Added Courses (VAC): Annexure III

ESSENTIAL COMPONENTS OF COURSE OF B.VOC (RETAIL MANAGEMENT)

PROGRAMME OUTCOMES

PO1. The course aims to provide comprehensive knowledge and coherent understanding of retail sector operations and link theory with practice in the context of competency development for retail employees.

PO2. The course further aims to provide deeper understanding of the disciplinary, Multidisciplinary, value-added, skill enhancement and ability enhancement courses with practical orientation to make the students ready to make a mark in the industry with strong human and moral values.

PO3. The course will help develop skills related to different job roles such as retail sales associate, team leader, departmental manager and store manager including knowledge required for undertaking self- employment initiatives, and knowledge and mindset required for entrepreneurship involving enterprise creation, improved product development, or a new mode of organization.

PO4. To enhance skills for efficiently using different software, interpret and use various acts and laws related to retail sector.

PO5. To develop communication skills and build confidence to face the challenges of the job market.

Semester I

1	**Course Title**	**Introduction to Retailing**
2	**Course Code**	**BRM 101**
3	**Typology of Course**	**Core Discipline**
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours of lectures for Theory (1 credit= 15 hours of theory learning based on 4hrs./week) (1 Semester=15 weeks)**
5	**Credits**	4 Credits
6	**Max. Marks, Time and Instructions**	

External Theory	Internal Theory	External Practical	Internal Practical
80	20	-	-

Theory Paper:
(4 X 4 marks) = 16 marks
(4 X 16 marks) = 64 marks

i. The exam of this course will be of 3 hours duration.
ii. There will be no objective type questions.
iii. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination.
iv. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees.

Instructions for paper setters and candidates:

i. The syllabus of this paper has been divided into FOUR units.
ii. All questions carry equal marks
iii. Examiner will set a total of **NINE** questions comprising two questions from each unit, including Question No. 1 (**COMPULSORY**) of short answer type covering the whole syllabus. In Question no. 1, students are required to attempt **4 out of 6 short questions of 4 marks each**.
iv. The students are required to attempt **one long question of 16 marks from each unit**.

7	**Job Role**	Retail Team Leader
8	**Course Objectives**	The objective of this paper is to help students to acquire conceptual knowledge of the basics of retailing, evolution of retailing, retailing strategy and global retail markets.

9	**Course Outcomes**	**On successful completion of the course, the students will be able to** CO1. Students will gain a comprehensive understanding of the basics, evolution, and strategic approaches in retailing, including the ability to classify and evaluate different retail formats. CO2. Students will learn to devise and implement retail strategies, understand retail organizational structures, and adapt to dynamic retail environments. CO3. Students will apply merchandising concepts, retail development theories, and business models, particularly in the context of the retail lifecycle. CO4. Students will analyze the characteristics and development of organized and rural retail sectors in India, considering the impact of environmental factors and legislation. CO5. Students will integrate knowledge from multiple disciplines, employing critical and creative thinking to address challenges and opportunities in retailing. CO6. Students will be cognizant of ethical issues and the importance of sustainable practices within the retail industry, prepared to make decisions that balance profitability with social responsibility.
10	**Pedagogy of the Course Work**	Class Room Lecture, Interactive sessions, PPT, Group Discussions, Case Studies etc.

11 Course Content

UNIT – I

Retailing- Meaning, Nature, Classification, Scope and Importance
Factors influencing Retailing, Functions under Retailing, Retailing as a career.

UNIT – II

Developing and applying Retail Strategy, Strategic Retail Planning Process,
Retail Organization, The changing structure of retail, Classification of Retail Units, Retail Formats: Corporate chains, Retailer Corporative and Voluntary system, Departmental Stores,
Discount Stores, Super Markets, Warehouse Clubs.

UNIT – III

Merchandising Mix, Retail Models and Theory of Retail Development, Business Models in Retail, Concept of Life cycle Retail.

UNIT – IV

Emergence of Organized Retailing, Traditional and Modern Retail Formats in India, Retailing in Rural India, Environment and
Legislation for Retailing, FDI in Retailing.

Practical work: Discussion of Case Study on Retail Industry

7	**Job Role**	Retail Team Leader
8	**Course Objectives**	The objective of this paper is to help students to understand the fundamental principles and theories of management, organizational planning and strategy and acquiring, developing and retaining a skilled and diverse workforce.
9	**Course Outcomes**	**On successful completion of the course, the students will be able to:** CO1. Students will understand the core concepts, processes, principles, and significance of management and administration, and will be able to differentiate between the roles of managers at various levels within an organization. CO2. Students will be able to trace and critically evaluate the evolution of management thought, from classical theories to modern management concepts. CO3. Students will master the art and science of planning and decision-making in management, learning to establish objectives through Management by Objectives (MBO) and apply rationality in decision-making processes. CO4. Students will gain the ability to design effective organizational structures, understand departmentation, and manage staffing processes including manpower planning, recruitment, selection, placement, and induction. CO5. Students will explore various theories of leadership and motivation, develop skills to effectively direct teams, and engage with contemporary issues in leadership, including transformational, transactional, charismatic, and visionary leadership. CO6. Students will be equipped to manage strategic change, embrace knowledge management, foster learning organizations, and appreciate the value of managing diversity within the workplace.

10	**Pedagogy of the Course Work**	Class Room Lecture, Interactive sessions, PPT, Group Discussions, Case Studies etc.

11 Course Content

UNIT – I

Introduction: Concept of Management, Process, Principles, Levels, Functions and Significance of Management, Management Vs. Administration, Role of Managers. Evolution of Management Thought: Classical, Neo-Classical Theory, Behavioural Sciences, Approach, Quantitative, Systems and Contingency Approach, Modern Management Thought (Likert, Drucker, Porter, Prahalad).

Planning: Concept, Process and Significance, Types, Relationship between Planning and Controlling. Decision Making; Concept, Types and Process, Effective Decision, Rationality in Decision Making, MBO.

UNIT – II

Organization: Concept, Process and Significance, Principles, Organization Design and Classical Theory, Departmentation, Bases, Span of Control (Classical Theory and Situational Approach), Delegation of Authority, Principles, Centralization and Decentralization, Line and Staff Organization.

Staffing: Concept, Manpower Planning, Recruitment; Concept and Sources Selection; Concept, Selection Process and Tests, Placement and Induction.

UNIT – III

Direction and Motivation: Concept, Principles, Effective Supervision, Techniques. Motivation: Content Theories of Motivation, Current Issues in Motivation.

Leadership: Concept, Difference between Leadership & Management, Theories of Leadership (Trait Theory, Behavioural Theory, Managerial Grid), Contemporary Issues in Leadership (Transformational, Transaction, Charismatic and Visionary Leadership).

UNIT – IV

Coordination: Concepts, Importance, Internal – External Coordination Control: Concept, Steps, Types of Controlling, Techniques of Controlling.

Management in Perspective (A Brief Overview), Management of Strategic Change, Knowledge Management, Learning Organization, Managing Diversity.

7	**Job Role**	Retail Team Leader
8	**Course Objectives**	The objective of this paper is to provide students with a comprehensive understanding of computerized accounting systems including the benefits and limitation of computerized accounting, role of ERP systems in modern organizations and features and functionalities of ERP systems.
9	**Course Outcomes**	**On successful completion of the course, the students will be able to:** CO1. Students will be able to explain the meaning, importance, and differences between computerized and traditional accounting, as well as understand the underlying principles and limitations of computerized systems. CO2. Students will gain the skills to accurately record financial transactions using computerized systems, including the preparation of journals, ledgers, trial balances, cash books, and bank reconciliation statements. CO3. Students will understand the concepts and methods of accounting for depreciation, and be able to prepare final accounts, including trading, profit and loss accounts, and balance sheets for sole proprietorships, using accounting database management tools. CO4. Students will gain comprehensive knowledge of ERP systems, including their functionalities, benefits, typical business process workflows, and their impact on modern business concepts such as e-commerce, business analytics, and service-oriented architecture. CO5. Students will learn to navigate the challenges and considerations involved in ERP implementation, including system purchasing or outsourcing decisions, managing implementation partners, and understanding ERP strategy options and risk mitigation.

10	**Pedagogy of the Course Work**	Class Room Lecture, Interactive sessions, PPT, Group Discussions, Case Studies etc.

11 Course Content

UNIT – I

Introduction of Computerised Accounting: Basic of Computerized Accounting : Meaning Importance Difference of Computerized and traditional accounting ; Origin, Meaning, Definition, Need, Importance, Functions, Limitations, Accounting principles, Generally accepted accounting principles, Accounting equation, Double entry system.

Recording Transactions: Journal, Ledger and Trial Balance

UNIT – II

Cash Book and Bank Reconciliation Statement.

Accounting for Depreciation: Meaning, Importance, Methods of providing depreciation (straight line, diminishing, annuity), Reserves and Provisions

Final Accounts: Trading, Profit and Loss Account and Balance Sheet of a Sole Proprietary Concern. Accounting Database Management MS excel and its applications in Accounts and Statistics. Brief Introduction of different software available Tally 6.3 Busy Wings SAP etc.

UNIT – III

Introduction to ERP: Overview, Typical Business Process Workflow in ERP, Fundamentals, Functionalities, Benefits, Modern Business Concepts, E-Commerce, Advance Planning and Scheduling, Business Analytics, Service oriented architecture.

UNIT – IV

Issues, Concerns and Purchasing: Disadvantages of ERP Solutions, Users, Developers, Customers of ERP, Purchasing or Outsourcing, Planning, Purchasing and Selection of ERP, Managing implementation partners, ERP strategy options and risk mitigation.

7	**Job Role**	Retail Team Leader
8	**Course Objective**	The objective of the course is to provide students with a deep understanding of the concepts of management of retail stores and their operations.

9	**Course Outcomes**	**On successful completion of the course, the students will be able to:** CO1. Students will be able to design effective store layouts, understand the principles of retail merchandising, and apply strategies for optimal pricing in retailing, with a strong grasp of the importance of supply chain management in the retail sector. CO2. Students will be able to design effective store layouts, understand the principles of retail merchandising, and apply strategies for optimal pricing in retailing, with a strong grasp of the importance of supply chain management in the retail sector. CO3. Students will gain a deep understanding of the roles and responsibilities of a store manager, including store security, record-keeping, and accounting systems, as well as the ability to effectively handle materials within the store. CO4. Students will learn the processes of recruitment, selection, motivation, evaluation, and compensation of store employees, along with strategies for cost control and minimizing inventory loss. CO5. Students will acquire knowledge about the factors influencing mall establishment and management, gaining insights into the complexities of managing large retail spaces. CO6. Students will understand logistics and information systems within the retail context, enabling them to improve product availability and assortment strategies, and implement quick response systems to meet consumer demands.
10	**Pedagogy of the Course Work**	Class Room Lecture, Interactive sessions, PPT, Group Discussions, Case Studies etc.

11 Course Content

UNIT – I

Store Planning: Design and Layout, Retail Merchandising, Pricing in Retailing, Importance of Supply Chain Management in Retailing; Setting up Retail organization, Size and space allocation, location strategy, Factors affecting the location of Retail, Retail location Research and Techniques.

UNIT – II

Objectives of Good store Design. Store Layout and Space planning, Types of Layouts, role of Visual Merchandiser, Visual Merchandising Techniques, Controlling Costs and Reducing Inventories Loss, Exteriors, Interiors.

UNIT – III

Store Management, Responsibilities of Store Manager, Store Security, Store Record and Accounting System, Coding System, Material Handling in Stores, Mall Management, Factor influencing Mall establishments.

UNIT – IV

Recruitment & Selection of Store Employees, Motivating & Managing Store employee, Evaluation of Store Employee, Compensation & Reward for Store Employees, Cost Control, Inventory loss. Logistic and Information system, Improved product availability, Improved assortments, Strategies, Quick Response System.

7	**Job Role**	Retail Team Leader
8	**Course Objective**	The objective of the course is to help the students understand the importance and purpose of inventory management, various type of inventory, including raw materials, work-in progress, finished goods, spare parts, inventory cost management strategies and inventory optimization techniques.

9	**Course Outcomes**	**On successful completion of the course, the students will be able to:** CO1. Students will understand the importance, purpose, and scope of inventory control, and will be able to categorize different types of inventory such as raw materials, work-in-progress, and finished goods. CO2. Students will learn strategies for managing various costs associated with inventory, including how to set up an organizational structure for effective inventory management. CO3. Students will gain proficiency in selective inventory control techniques, comprehend economic order quantity (EOQ), safety stocks, and apply forecasting techniques for materials requirement planning. CO4. Students will understand the principles of Manufacturing Resource Planning (MRP-II), Just in Time (JIT) inventory systems, make-or-buy decisions, and the role of outsourcing in inventory management. CO5. Students will learn various inventory optimization techniques and how to manage finished goods inventories, including the use of computers in inventory management and methodologies for performance evaluation of materials functions. CO6. Students will develop analytical skills through ratio analysis on inventory and profit margins, enhancing their decision-making capabilities in the context of core competency and inventory management trends.
10	**Pedagogy of the Course Work**	Class Room Lecture, Interactive sessions, PPT, Group Discussions, Case Studies etc.

11 Course Content

UNIT – I

Inventory: Inventory Management – Inventory Control – Importance and Scope of Inventory Control – Types of Inventory – Costs Associated with Inventory – Organizational set up for Inventory Management.

UNIT – II

Selective Inventory Control: Economic Order Quantity – Safety Stocks – Inventory Management Systems – Forecasting Techniques – Material Requirement Planning and Execution – Ratio Analysis on Inventory – Profit Margin.

UNIT – III

Manufacturing Planning(MRP-II): Just in Time(JIT) – Work in Process Inventories – Make or Buy Decisions – Concept of Outsourcing – Factors Influencing Make or Buy Decisions – Trends in Make or Buy Decisions in context of core competency.

UNIT – IV

Purpose of Inventory: Goods – Types of Goods – Finished Goods Inventories – General Management of Inventory – Stocks _ Types of Stocks – Tracking the Paper Life. Spare Parts Inventories: Use of Computers in Inventory Management – Evaluation of Performance of Materials Function – Criteria and methodology of evaluation.

Semester III

1	**Course Title**	**Customer Relationship Management**
2	**Course Code**	**BRM 301**
3	**Typology of Course**	**Core Discipline**
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours of lectures for Theory (1 credit= 15 hours of theory learning based on 4hrs./week) (1 Semester=15 weeks)**
5	**Credits**	4 Credits
6	**Max. Marks, Time and Instructions**	

External Theory	Internal Theory	External Practical	Internal Practical
80	20	-	-

Theory Paper:
(4 X 4 marks) = 16 marks
(4 X 16 marks) = 64 marks

i. The exam of this course will be of 3 hours duration.
ii. There will be no objective type questions.
iii. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination.
iv. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees.

Instructions for paper setters and candidates:

i. The syllabus of this paper has been divided into FOUR units.
ii. All questions carry equal marks
iii. Examiner will set a total of **NINE** questions comprising two questions from each unit, including Question No. 1 (**COMPULSORY**) of short answer type covering the whole syllabus. In Question no. 1, students are required to attempt **4 out of 6 short questions of 4 marks each**.
iv. The students are required to attempt **one long question of 16 marks from each unit**.

7	**Job Role**	Retail Departmental Manager
8	**Course Objectives**	The objective of this paper is to equip students with a comprehensive understanding of Customer Relationship Management (CRM) principles, strategies, and applications, enabling them to build and maintain effective customer relationships in a dynamic market environment.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** CO1. Students will be able to explain the evolution and strategic importance of CRM, distinguish between CRM and relationship marketing, and analyze the role of CRM in the Indian market context.. CO2. Students will develop insights into the changing nature of customer service and marketing trends, understanding customer lifecycle stages and the impact of rising customer expectations, social trends, and shorter product life cycles on marketing strategies. CO3. Students will gain practical skills in applying CRM strategies at different stages of the customer lifecycle (pre-purchase, purchase, usage, and re-purchase), including techniques for enhancing customer satisfaction, loyalty, and retention using both traditional and digital channels.

10	**Pedagogy of the Course Work**	Class Room Lecture, Interactive sessions, PPT, Group Discussions, Case Studies etc.

11 Course Content

UNIT – I

Customer Relationship Management, Overview and evolution of the concept, CRM and Relationship marketing, CRM strategy, importance of customer divisibility in CRM; CRM in India.

UNIT – II

Overview of Relationship marketing, Types of relationship marketing, customer life cycle; Changing Nature of Marketing and Customer Service, Changing Social Trends, Lesser Government Controls Rising Income Levels, Threats from New Forms, Empowered Customer, Increased Demand, Easy Access to Information, Emerging Trends in Marketing, Shorter Product Life Cycles.

UNIT – III

Enhancing Value of Products and Services, Customer Satisfaction, CRM and Customer Satisfaction, Delighting the Customer, Measuring Relationship at Risk Effects on Customer Loyalty; The Customer Lifecycle,

UNIT – IV

Role of CRM in Pre-purchase Stage, Role of CRM in Purchase Stage, Role of CRM in Usage Stage - Role of CRM In Re-purchase Stage, Role of CRM in Winning Back Lost Customers; Establishing Customer Relationship on the Internet, Technology Issues in CRM Implementation.

7	**Job Role**	Retail Departmental Manager
8	**Course Objectives**	The objective of this paper is to provide students with a foundational understanding of Human Resource Management (HRM) principles, processes, and best practices, preparing them to address challenges in managing and developing human resources in modern organizations.
9	**Course Outcomes**	**On successful completion of the course, the students will be able to:** CO1. Students will gain a solid understanding of HRM fundamentals, including HR planning, job analysis, and job design, and will be able to identify challenges faced by HR managers in contemporary organizations.. CO2. Students will acquire skills in the recruitment and selection process, understand recent trends, and develop the ability to design and evaluate effective training and development programs tailored to organizational needs. CO3. Students will learn to implement performance appraisal methods, recognize factors that enhance appraisal effectiveness, and understand the design and application of Human Resource Information Systems (HRIS) in managing HR data efficiently.
10	**Pedagogy of the Course Work**	Class Room Lecture, Interactive sessions, PPT, Group Discussions, Case Studies etc.

11 Course Content

UNIT – I

Human Resource Management: Introduction, Meaning and Definitions, Brief History, Nature, Functions, Importance and Limitations of HRM. Challenges faced by Modern HR Managers.

Human Resource Planning: Introduction, Definitions, Features, Need for HR Planning, Objectives, Process, Factors affecting HR Planning, Types, Benefits, Problems in HR planning and Suggestions for Making HR Planning Effective, Succession Planning.

Job Analysis and Job Design: Introduction, Objectives, Benefits, Process, Techniques and Problems in Job Analysis. Job Design- Meaning, Objectives and Techniques of Job Design.

UNIT – II

Recruitment and Selection : Meaning and Definitions, Importance and Purpose, Process, Factors Affecting Recruitment, Sources of Recruitment, Methods, Constraints and Challenges of Recruitment. Recent Trends in Recruitment.

Selection: Meaning and Definition, Selection Process and Methods.

UNIT – III

Placement and Induction: Meaning and Problems in Placement. Induction: Meaning, Objectives, Contents, Elements, Procedure and Problems in Induction.

Training and Development: Concepts, Importance, Identification of Training Needs. Types of Training: On the Job and Off the Job Methods of Training. Designing and Evaluation of Training Programmes. Meaning of Development, Difference between Training and Development.

UNIT – IV

Performance Appraisal: Concept, Objectives, Methods of Performance Appraisal; How to Make it Effective.

HR Information System – Meaning, Need, Objectives, Process, Designing of HRIS, Computerized HRIS.

9	**Course Outcomes**	**On successful completion of the course, the students will be able to:** CO1. Students will grasp the fundamental concepts, evolution, and structure of Management Information Systems (MIS), and gain insights into designing, implementing, and testing effective MIS solutions. CO2. Students will develop the ability to apply MIS to various business functions such as marketing, finance, inventory, and logistics, understanding how MIS supports functional areas and enhances organizational performance. CO3. Students will develop the ability to apply MIS to various business functions such as marketing, finance, inventory, and logistics, understanding how MIS supports functional areas and enhances organizational performance.
10	**Pedagogy of the Course Work**	Class Room Lecture, Interactive sessions, PPT, Group Discussions, Case Studies etc.

11 Course Content

UNIT – I

Concept of Management Information System: Concepts of Information System and Management information systems- Information System design and development-Implementation testing and conversion.

Evolution and element of MIS – Definition – Characteristics and basic requirements of MIS – Structure of MIS- Approaches to MIS development.

UNIT – II

Computerized MIS- Pre- requisites of an effective MIS- Limitations

MIS and Decision support System (DSS): MIS Vs data processing – MIS and decision support system – MIS and information resource management – MIS and Operations Research- Executive information and decision support systems – Artificial intelligence and expert system – MIS in Indian organizations – Recent developments in information technology

UNIT – III

Computers and Communication: Information technology and Global integration –On-line information services – Electronic bulletin board systems – The internet, electronic mail, interactive video – Communication Channels – Communication networks – Local area networks – Wide area networks – Video conferencing- Relevance to MIS

Enterprise resource planning systems (ERP Systems) – Interorganizational information systems – Value added networks – Networking.

UNIT – IV

Functional Information systems: MIS for Research Production - MIS for Marketing - MIS for Personnel - MIS for Finance - MIS for Inventory- MIS for Logistics- MIS for Product Development- MIS for Market Development.

7	**Job Role**	Retail Departmental Manager
8	**Course Objectives**	The objective of the course is to help students understand the concepts of warehousing in the supply chain, inventory management in warehousing, warehousing performance metrics and measurement, warehouse automation and technology and apply warehousing concepts to real-world scenarios.
9	**Course Outcomes**	**On successful completion of the course, the students will be able to:** CO1. Students will understand the key concepts, decision-making processes, operations, and the strategic role of warehousing in the supply chain. CO2. Students will gain a comprehensive understanding of the functions and types of inventory, the cost implications of holding inventory, and the competitive strategy of inventory management within the supply chain. CO3. Students will learn about the necessity and functionality of WMS, including logic for determining locations and sequences, and planning resources for distribution. CO4. Students will be able to apply ABC inventory control methods and understand the management of inventory within multi-echelon and single-echelon networks. CO5. Students will gain insights into the principles and performance measures of material handling systems, including automated storage and retrieval systems. CO6. Students will be adept in applying barcoding and RFID technology in warehousing scenarios, understanding their applications for improving warehouse

		efficiency.
10	**Pedagogy of the Course Work**	Class Room Lecture, Interactive sessions, PPT, Group Discussions, Case Studies etc.

11 Course Content

UNIT– I

Introduction to Warehousing: Concepts – Decision making – Operations – Need for warehousing – Issues affecting warehousing – Various warehousing facilities – Different types of ware houses – Characteristics of ideal ware houses.

UNIT – II

Introduction to Inventory Management: Role in supply chain – Role in competitive strategy - Role of inventory – Functions of inventory - Types of inventory – WIP inventory – Finished goods inventory – MRO inventories – Cost of inventories - Need to hold inventory.

UNIT – III

Warehouse Management Systems: Introduction – The necessity of WMS – Logics of determining locations and sequences – Independent demand systems – Uncertainties in material management systems – Dependent demand systems – Distribution resource planning.

ABC Inventory Control: Managing inventories by ABC – Multi – echelon inventory systems - Managing inventory in multi echelon networks – Managing inventory in single echelon networks. Various approaches – Distribution approaches – The true multi echelon approach.

UNIT – IV

The Principles and Performance Measures of Material Handling Systems: Introduction. Vehicle travel path(time) – Handling time – vehicle utilization – no of loads completed – congestion – Effective performance systems – Fundamentals of various types of material handling systems – automated storage and retrieval systems Bar coding technology and applications RFID technology.
