PANJAB UNIVERSITY, CHANDIGARH-160014 (INDIA)

(Estd. under the Panjab University Act VII of 1947 – enacted by the Govt. of India)

SYLLABI

Course Outline for
B.Voc. (Textile & Fashion Technology)

As per NEP 2020

w.e.f Session 2025-26

Course Outline for B.Voc. (TEXTILE & FASHION TECHNOLOGY)
As per NEP 2020 w.e.f. Session 2025-26

Semester-I

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
TFT 101	Core Discipline	Concept of Fashion	4	-	4	80	20	-	-	100
TFT 102	Core Discipline	Basic Fashion Illustration	2	2	4	40	10	40	10	100
TFT 103	Core Discipline	Basic Construction Skills	-	4	4	-	-	80	20	100
AEC / MIL	Ability Enhancement Course	English			2					50
B.Voc. MDSC 101	Multidisciplinary Course	Fundamentals of Information Technology[1]	3	-	3	60	15	-	-	75
SEC I	Skill Enhancement Course	SEC Options[2]			3					75
VAC I	Value-Added Course	VAC Options[3]			2					50
PW I	Project Work	Project Work-I & Viva-Voce	-	2	2	-	-	50	-	50
Total Credits					**24**					**600**

Semester-II

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
TFT 201	Core Discipline	Basic Textiles	4	-	4	80	20	-	-	100
TFT 202	Core Discipline	Textile Designing and Printing	2	2	4	40	10	40	10	100
TFT 203	Core Discipline	Basics of Computer	-	4	4	-	-	80	20	100
AEC / MIL	Ability Enhancement Course	English			2					50
B.Voc. MDSC 201	Multidisciplinary Course	Soft Skills and Personality Development[1]	3	-	3	60	15	-	-	75
SEC II	Skill Enhancement Course	SEC Options[2]			3					75
SIT 201*	Internship	Summer Industrial Training (SIT)*	-	4	4	-	-	100	-	100
Total Credits					**24**					**600**

Job Role – Assistant Designer

* Summer Industrial Training of 2-4 weeks in a relevant Industry after 2nd Semester Examinations during summer break. Training report by the student to be submitted within one week of start of 3rd Semester. Viva-Voce examination to be held within 3 weeks of the start of 3rd semester.

** Minimum Credits required to get Certificate Course in **B.Voc. (Textile & Fashion Technology)** = 48 + 4 #.
#Exit 1: Certificate Course - Student can exit after completion of 1st year having secured 48 Credits and will be awarded a UG Certificate provided they complete a vocational course/internship of 4 credits during the summer vacation of the first year, in addition to the 6 credits from skill enhancement courses earned during first and second semester.

1. Multidisciplinary Courses (MDSC): Annexure I
2. Skill Enhancement Courses (SEC): Annexure II
3. Value Added Courses (VAC): Annexure III

ESSENTIAL COMPONENTS OF COURSE OF B.VOC. TEXTILE & FASHION TECHNOLOGY (SEMESTERS I & II)

PROGRAMME OUTCOMES

PO1. To conduct, analyze and interpret experiments to investigate problems in fashion/garment technology and apply to improve process and product quality

PO2.To introduce the methods of garments construction which includes drafting, cutting and sewing of garments for industrial as well as home production.

PO3. To introduce the basic concepts related to processing and production techniques of fibers, yarns, fabrics and other textiles products.

PO4. Student will adapt their artistic abilities to support their future design careers.

PO5. To develop a systematic, critical approach to problem solving at all levels of the design process.

PO6. Focus on creativity and innovation within the industrial and commercial context. Fashion impacts upon all aspects of our lives and shapes changes our appreciation and understanding of the world around us. Develops skills and knowledge to become a confident fashion learner in a dynamic and exciting environment.

PO7. Students learn about fashion skills and new exciting methods in contemporary fashion design and develop their fashion awareness and knowledge during different skill-based learning process.

SEMESTER I

	COURSE TITLE	CONCEPT OF FASHION
1.	**Course Code**	TFT 101
2.	**Typology of Course**	Core Discipline
3.	**Course Duration/ LP (Lectures) (Practical)**	60 hours of lectures for Theory (1 credit = 15 hours of theory learning based on 4 hrs./week) (1 Semester = 15 weeks)
4.	**Credits**	4 Credits
5.	**Max. Marks and Time**	100 Marks (80 THEORY + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
6.	**Job**	Assistant Designer
7.	**Course Objectives**	To create awareness about clothing culture. To impart knowledge of clothing communication and fashion expression.
8.	**Course Outcomes**	On successful completion of the course, the students will be able to CO1.Competent to develop a good design through application of elements of design CO2.To gain knowledge about design process followed by designers for creating a collection of garments. CO3.To provide skills for development of inspiration and mood boards relevant to a particular theme or season. CO4.To equip students with knowledge of various components of fashion library, identify them in current fashion and apply them in their own designing.
9.	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10.	**Instructions for paper setters and candidates**	i) The syllabus of this paper has been divided into FOUR units. ii) Examiner will set a total of NINE questions comprising two questions from each unit, including Question No.1 (compulsory) of short answer type covering the whole syllabus. iii) The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv) All questions carry equal marks.

11. Course Content

UNIT – I

Fashion Terminology - Fashion, style, change, fashion cycles, fad, classic, boutique, croquets, fashion trends, haute couture, designer, prêt-a-porter, and silhouette. Elements and Principles of Design in general and special reference to clothing**.**

UNIT – II

Fashion - Definition, importance, factors affecting fashion and difference of fashion and anti-fashion. Fashion - origin, evolution, cycles, lengths and breaks of fashion cycle.

UNIT – III

Fashion theories - trickle down, trickle across and bottom-up theory.
Fashion psychology - first impression, role of social and psychological aspect of clothing.

UNIT – IV

Sociological choice of clothing as affected by nationality, tradition, class consciousness,occupation etc.

12. Suggested Resources for Reading

1. Kathryn Mikelvey, "Fashion sources book", Black wed Science, UK
2. Sharon Le Fate, "Inside Fashion Design", Harper and Row Pub. NY.
3. Carter L, "The changing World of Fashion.
4. Dynamics of fashion by Elaine stone

Note: Latest edition of text books may be used.

COURSE TITLE	BASIC FASHION ILLUSTRATION
1. Course Code	TFT 102
2. Typology of Course	Core Discipline
3. Course Duration/ LP (Lectures)(Practical)	30 hours of lectures for Theory + 6 0 hours of practical (1 credit = 15 hours of theory learning based on 2hrs./week) (1 credit = 30 hours of practical based on 4 hrs./week) (1 Semester = 15 weeks) Groups will be created for the purpose of Practical for each unit
4. Credits	4 Credits [2+2]
5. Max. Marks and Time	100 Marks = (40THEORY+10 IA) + (40 PRACTICAL + 10 IA) i) The exam of this course will be of 3 hours duration. ii) There will be no objective type questions. iii) Students are required to have the knowledge of the developments the subject up to 6 months before the examination. iv) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
6. Job Role	Assistant Designer
7. Course Objectives	To visualize the idea of new design through illustration or sketching.
8. Course Outcomes	On successful completion of the course, CO1. Students are accredited with skills of drawing and usage of various art mediums. CO2. Students are able to create compositions using various color schemes CO3. They will acquire the ability to perform visual research for application of elements in contextof fashion.
9. Pedagogy of the Course Work	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10.Instructions for paper setters and candidates	i) The syllabus of this paper has been divided into FOUR units. ii) Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. iii) The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv) All questions carry equal marks.

11. Course Content

THEORY

UNIT – I

Fashion Illustration: Introduction, History, styles and techniques.
Role of Fashion Illustration in Fashion Industry

UNIT – II

Introduction to art media and its application
Colour - dimensions of colour (hue, value, and intensity), colour wheel, colour schemes: heir importance and applications.

UNIT – III

Elements of art and design - line, form, shape, space, size, textures and colour.
Principles of design-Harmony, Balance, Rhythm, Proportion, Emphasis.

UNIT – IV

Design - definition and types
Digital tools and Technology in fashion illustration

PRACTICAL WORK

- Introduction to art media and its application. Different art media like pencils, pencil colures,crayons, poster colures, erasers, acrylic rendering and shading skills.
- The basic drawing and rendering of equipment's using, pencils, crayons, poster and acrylic colures etc.
- Introduction to basic sketching techniques.
- Free hand sketching of day-to-day objects - flowers, flowerpots, leaves, barks, scenery (natural), houses, and basic geometrical figures composed into interesting composition by combining different shapes (geometric) and all other kinds of drawings (abstract).
- Colour-Preparation of colour wheel, grey scales, colour schemes, tints and shades.
- Figure stylization - Basic croquets, division of the body to make the 8 head figure, 10 head figure, 12 head figure, Fleshing out body.

12. Suggested Resources for Reading

1. Ireland Patrick John, "Fashion Design Drawing & Presentation" Ireland
2. Patrick John, "Fashion design Illustration: Children"
3. Ireland Patrick John, "Fashion Design Illustration: Men"
4. Julian Seaman, "Foundation in fashion design and illustration"
5. Anna Kipper, Fashion Illustration: Inspiration and Technique

Note: Latest edition of text books may be used.

	COURSE TITLE	BASIC CONSTRUCTION SKILLS
1.	**Course Code**	TFT 103
2.	**Typology of Course**	Core Discipline
3.	**Course Duration/ LP (Lectures) (Practical)**	120 hours for practical (1 credit = 30 hours of practical based on 8 hrs./week) (1 Semester = 15 weeks) Groups will be created for the purpose of Practical for each unit
4.	**Credits**	4 Credits
5.	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA)
		i) The exam of this course will be of 3 hours duration. ii) There will be no objective type questions. iii) Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. iv) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
6.	**Job Role**	Assistant Designer
7.	**Course Objectives**	To impart knowledge of machines and tools used for sewing. To impart knowledge of different garment components.
8.	**Course Outcomes**	On successful completion of the course, the students will be able to: 1. gain basic understanding of garments, machines and their use in apparel and fashion industry 2. know about the different size charts and will be able to take measurements of the person 3. Develop an understanding of how different constructional tools help to make a perfect garment. 4. describe their garments in a more professional manner, by using the correct terminology
9.	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10.	**Instructions for paper setters and candidates**	i. The syllabus of this paper has been divided into FOUR units. ii. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. iii. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv. All questions carry equal marks.

11. Course Content

UNIT–I

Introduction to different parts of sewing machine and their care and maintenance
Basic hand stitches: Basting, running, tacking, hand overcast, hemming stitches (plain and blind), slip stitches, tailor, tack, hemming (visible& invisible)

UNIT-II

Type's seams (any5)-plain, Top Stitched, Flat fell, piped seam.
Seam finishes (any3)-overcast, Hem, Edge stitched, bound.
Fullness-darts, tucks (any 3)-pin, cross, group tucking with scalloped effect, Pleats (any 3) - knife, box, kick, gathering by machine, elastic. Ruffles-single, double.

UNIT–III

Plackets and fasteners-continuous, bound, faced and zipper plackets, button and button whole, press button, hook and eye.

UNIT-IV

Making Samples of Sleeves- plain sleeve, puff sleeve (any one type), raglan or cap sleeve. Yokes-simple yoke, yoke supporting fullness. Collars-Peterman collar, shirt collar.

12. Suggested Resources for Reading

1. IMERYS Mathews, "Practical clothing construction" - Part I and II, Cosmic press
2. The complete book of sewing-Dorling Kindersley limited
3. Sewing and knitting - A Readers Digest, step by step guide, Readers Digest Pvt. Limited.
4. Mullick, Prem Lata, "Garment Construction Skills", Kalyani Publishers
5. "Complete Guide to Sewing", Reader Digest.
6. Winfred Aldrich, "Metric Pattern Cutting" Blackwell Science, UK. Cooking G, "Introduction to Clothing Manufacture", Blackwell Science

Note: Latest edition of text books may be used.

	COURSE TITLE	PROJECT WORK-I & VIVA-VOCE
1.	**Course Code**	PW I
2.	**Typology of Course**	PROJECT WORK
3.	**Course Duration/ LP (Lectures) (Practical)**	60 hours for practical (1 credit = 30 hours of practical based on 4 hrs./week) (1 Semester = 15 weeks)
4.	**Credits**	2 Credits
5.	**Max. Marks and Time**	50 Marks (PRACTICAL)
6.	**Job Role**	Assistant Designer
7.	**Course Objectives**	i) To create awareness about clothing culture. ii) To impart knowledge of clothing communication and fashion expression.
8.	**Course Outcomes**	On successful completion of the course, the students will be able to CO1.Design and develop designer article for children.
9.	**Pedagogy of the Course Work**	Practical
10.	**Instructions for paper setters and candidates**	Project Submission and Viva Voce.

11. Course Content

A PROJECT REPORT ON PRODUCT DEVELOPMENT

1. Construction of any one baby boy or baby girl garment.
2. Emphasis should be given to design features (placket/collar/pleats/gathers/ruffles/ fasteners etc.), and finishing of the garment.
3. Submission of product developed and project report.

SEMESTER II

	COURSE TITLE	BASIC TEXTILE
1.	**Course Code**	TFT 201
2.	**Typology of Course**	Core Discipline
3.	**Course Duration/ LP (Lectures) (Practical)**	60 hours of lectures for Theory (1 credit = 15 hours of theory learning based on 4 hrs./week) (1 Semester = 15 weeks)
4.	**Credits**	4 Credits
5.	**Max. Marks and Time**	100 Marks (80 THEORY+ 20 IA) i) The exam of this course will be of 3 hours duration. ii) There will be no objective type questions. iii) Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. iv) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
6.	**Job Role**	Assistant Designer
7.	**Course Objectives**	The objective of this paper is to provide broad understanding about basic concepts and techniques related to textiles. The course covers broader aspects of textiles and fabrics and further relates the importance and impact of textiles in fashion.
8.	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
9.	**Instructions for paper setters and candidates**	i) The syllabus of this paper has been divided into FOUR units. ii) Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. iii) The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv) All questions carry equal marks.
10.	**Course Content**	

UNIT – I

Textile Terminology– Fiber, yarn, elasticity, absorbency, resiliency, drivability, twist, blend, fabric Introduction to textile fibers and their classification based on source and origin: Introduction tithe field of Textiles - major goals- classification of fibers - natural and chemical - primary and secondary characteristics of textile fibers.

UNIT – II

Manufacturing process and the properties of various natural cellulosic fibers – Cotton, and linen manufacturing process and the properties of various natural protein fibers– wool and silk

UNIT – III

Manufacturing process and the properties of different fibers - Viscose rayon - Nylon – Lycra-Spandex

UNIT – IV

Types and uses of yarn –Simple yarn, fancy yarns, textured yarns Yarn properties- yarn linear density, size, count, twist in yarn, twist direction, strength and uniformity Introduction to spinning Woven-basic weaves-Plain (Rib and basket), twill, satin. Non- wovens-felting and bonding**.**

11. Suggested Resources for Reading

1. Corbmann B.P. "Textiles - Fiber to Fabric", International student's edition, Mc Grew Hill book Co.
2. Sewing and Knitting– "A Reader's Digest Step-by-step guide", Readers Digest
3. Joseph J Pretal "Fabric Science" 5th Edition, Fair Child Publications.
4. Randhawa K. Clothing, Textiles & their Care, Pardeep Publications.
5. Sara J. Kadolph & Anna L. Langford, Textiles, Prentice Hall.

Note: Latest edition of text books may be used.

	COURSE TITLE	TETILE DESIGNING & PRINTING
1.	**Course Code**	TFT 202
2.	**Typology of Course**	Core Discipline
3.	**Course Duration/ LP (Lectures) (Practical)**	30 hours of lectures for Theory + 6 0 hours of practical (1 credit = 15 hours of theory learning based on 2hrs./week) (1 credit = 30 hours of practical based on 4 hrs./week) (1 Semester = 15 weeks) Groups will be created for the purpose of Practical for each unit
4.	**Credits**	4 Credits [2+2]
5.	**Max. Marks and Time**	100 Marks = (40THEORY+10 IA) + (40 PRACTICAL + 10 IA) i) The exam of this course will be of 3 hours duration. ii) There will be no objective type questions. iii) Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. iv) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
6.	**Job Role**	Assistant Designer
7.	**Course Objectives**	The main objective of this course is to acquaint the students with general techniques of designing & printing. This will help them achieve foundation skills in design as well as get a broader perspective on art, design, media and fashion industries.
8.	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
9.	**Instructions for paper setters and candidates**	i) The syllabus of this paper has been divided into FOUR units. ii) Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. iii) The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv) All questions carry equal marks.
10.	**Course Content**	**THEORY** **UNIT – I** Introduction to Dyes Difference between Dyeing and Printing Printing: Types & Methods

UNIT – II

Classification of Dyes

1. Natural Dyes: Vegetable, Animal and Mineral Dyes
2. Synthetic Dyes: Acid, Basic, Direct, Vat, Sulphur, Reactive and Disperse Dyes

UNIT – III

Stages of Dyeing: Fiber, yarn, piece dyeing and product dyeing

Preparation of Fabric for dyeing and printing.

UNIT – IV

Dyeing Auxiliaries:

Dyeing Defects: Bleeding, Crocking, Migration, Fume Fading, Tendering, Frosting and Off Shade

PRACTICAL

Textile Printing:

Make samples of- Block Printing, Spray Printing, Stencil Printing and screen printing. Creating different texture using any materials.

Projects on Printing**:**

1. Block Printing (Ladies Kurta/Suit, Dupatta)
2. Spray printing (T-shirts, Pillow cover)
3. Stencil Printing (Apron/ T shirt, Cushion Covers, Ladies suit, wall Paintings)
4. Screen Printing (Bed Sheet)

11. Suggested Resources for Reading

2. Butterworth. Anderson, F "Tie-dyeing and Batik "London, Octopus Editorial Production by Berkeley Publishers Ltd.
3. Smith, J.L. "Textile Processing: Printing, Finishing and Dyeing".
4. H.Panda. "Modern Technology of Textile: Dyes & Pigments".
5. Sara J Radolph and Anna L Langford "Textiles-Ninth edition", prentice hall
6. Stuart & Robinson "Beginners Guide to fabric dyeing and printing" Technical books, London. Needles, Howard L, Textile Fibres, Dyes, Finishes & Processes**.**

Note: Latest edition of text books may be used

COURSE TITLE BASICS OF COMPUTER

1.	**Course Code**	TFT 203
2.	**Typology of Course**	Core Discipline
3.	**Course Duration/ LP (Lectures) (Practical)**	120 hours for practical (1 credit = 30 hours of practical based on 8 hrs./week) (1 Semester = 15 weeks) 3 Groups will be created for the purpose of Practical for each unit
4.	**Credits**	4 Credits
5.	**Max. Marks and Time**	100 Marks (80 PR + 20 IA) i) The exam of this course will be of 3 hours duration. ii) There will be no objective type questions. iii) Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. iv) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
6.	**Job Role**	Assistant Designer
7.	**Course Objectives**	To impart the basic knowledge in computer field and use of computers in fashion designing. Introduction to the software tools used for the design and the communication of a collection, developing various techniques applied to fashion designing.
8.	**Course Outcomes**	On successful completion of the course, the students will be able to: CO1.Perform case study for identifying interaction a trend on social media and its impact on fashion market. It should be noted that such a study is part of work responsibility of a fashion analyst and merchandiser CO2.They attain skills for handling professional social media accounts as well as proficiency in blog writing. CO3. use the computer for basic purposes of preparing his personnel/business letters, viewing information on Internet (the web), sending mails, using internet banking services etc.,
9.	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10. Instructions for paper setters and candidates		i) The syllabus of this paper has been divided into FOUR units. ii) Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. iii) The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. iv) All questions carry equal marks.

11. Course Content

UNIT – I

Understanding Word Processing: Word Processing Basics; Opening and Closing of documents; Text creation and Manipulation; Formatting of text; Table handling; Spell check, language setting and thesaurus; Printing of word document.

UNIT – II

Power Point Presentation: Introduction, Objectives , Basics, Using PowerPoint, Opening A Power Point Presentation, Saving A Presentation, Creation of Presentation, Creating a Presentation Using a Template, Creating a Blank Presentation, Entering and Editing Text, Inserting And Deleting Slides in a Presentation, Preparation of Slides , Inserting Word Table or An Excel Worksheet, Presentation of Slides, Viewing A Presentation , Choosing a Set Up for Presentation, Printing Slides And Handouts, Slide Show, Running a Slide Show, Transition and Slide Timings, Automating a Slide Show

UNIT – III

Internet-Concept of Internet, Applications of Internet, connecting to the Internet, Trouble shooting

UNIT – IV

Introduction, Basics of E-mail, what is an Electronic Mail, Using E-mails, Opening Email account, Mail box: Inbox and Outbox, Creating and Sending a new E-mail, replying to an E-mail message, Forwarding an E-mail message, Sorting and Searching emails

12. Suggested Resources for Reading

1. R.K. Taxable: "Introduction to Software Packages" Golgotha Publications. MS–Office 2003, BPB Publications.
2. Jain S. Basic Computer Course, 2014, BPB Publications.

Note: Latest edition of text books may be used.

1	**Course Title**	**SUSTAINABLE FASHION**
2	**Course Code**	TFT 301
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours** of **lectures** for **Theory** (1 credit = 15 hours of **theory learning** based on 4 hrs./week) **(1 Semester = 15 weeks)**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 THEORY + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7.	**Job**	Designer
8	**Course Objectives**	To provide an understanding of the principles of sustainability and their application in the fashion industry. To explore eco-friendly practices, including the use of sustainable materials, zero-waste design, and ethical production processes. To develop awareness of the environmental and social impact of fast fashion and strategies for creating a more sustainable future. To encourage creative problem-solving in designing and producing garments with minimal ecological footprints.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** • Analyze Environmental and Social Impacts a. Critically evaluate the environmental and social challenges posed by the global fashion industry, including waste, pollution, and labor exploitation. • Understand Sustainable Practices a. Demonstrate knowledge of sustainable materials, technologies, and strategies used to minimize the ecological footprint of fashion design and production. • Advocate for Ethical Standards a. Promote ethical practices in the fashion industry, including fair labor standards, cultural inclusivity, and responsible sourcing. • Implement Circular Fashion Principles a. Apply concepts of circular design, such as recycling, upcycling, and zero-waste practices, to create innovative and sustainable fashion solutions.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**UNIT I** **Introduction to Sustainability in Fashion** Definition and principles of sustainability. Overview of the fashion industry's environmental and social impacts. The carbon footprint of textiles and garment production. Water consumption and pollution in dyeing and processing. Waste generation and fast fashion's impact on landfills. **Terminology related to Green Fashion**-Eco – friendly fabrics, organic clothing, Ethical Fashion, Recycled fibres, up– cycled fibres, slow fashion, slow fashion, eco system, green technology. **UNIT II** Overview of eco-friendly textiles (e.g., organic cotton, hemp, Tencel). Recycling and upcycling in fabric production. Biodegradable and biofabricated materials. **UNIT III** • Principles of circular design: reuse, repair, recycle. • Case studies: Brands leading in circular fashion. • Consumer behavior and its role in circular fashion. **Technology and Sustainability** • The role of AI, blockchain, and 3D printing in sustainable fashion. **UNIT IV** Fashion movements and organizations advocating sustainability (e.g., Fashion Revolution). **Cultural Perspectives and Indigenous Practices** • Traditional sustainable fashion practices from various cultures. • The role of indigenous knowledge in modern sustainability. • Challenges and opportunities in preserving cultural heritage.

Sustainable fashion: New Approaches Kirsi Niinimaki (ed) Aalto university publication series d. "Fashionopolis: The Price of Fast Fashion and the Future of Clothes" by Dana Thomas

1	**Course Title**	**BASIC DRAPING**
2	**Course Code**	TFT 302
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practical** (1 credit = 15 hours of **theory learning** based on 2hrs./week) (1 credit = 30 hours of **practical** based on 4 hrs./week) **(1 Semester = 15 weeks)** **groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks =(40THEORY+10 IA) + (40 PRACTICAL + 10 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Designer
8	**Course Objectives**	• To introduce students to the fundamental principles and techniques of draping for garment construction. • To develop skills in manipulating fabric directly on a dress form to create basic garment components such as bodices, skirts, and sleeves. • To enable students to understand the relationship between fabric grain, fit, and garment design. • To foster creativity and precision in transforming two-dimensional fabric into three-dimensional forms.
9	**Course Outcomes**	**On successful completion of the course, students will be able to** • Demonstrate knowledge of the foundational principles of draping and its role in the garment design process. • Identify and utilize essential tools, materials, and equipment required for draping on dress forms. • Prepare fabrics for draping by understanding grainlines, fabric behavior, and marking methods. • Drape fundamental garment elements such as bodices, skirts, and sleeves directly on a dress form. • Achieve proper fit, proportion, and balance in draped garments through accurate pinning, marking, and adjustments.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**THEORY** **TIME: 3 Hours** **UNIT – I** **Introduction to Draping as an Art Form** • Definition and importance of draping in fashion design. • Historical evolution of draping across cultures (e.g., Greco-Roman to contemporary fashion). **UNIT II** **Fabric Theory** • Properties and behavior of different fabrics (e.g., stretch, drape, weight). • Fabric grainlines and their impact on design **UNIT –III** **Dress Forms and Body Proportions** • Anatomy of a dress form and its use in draping. • Understanding body shapes and their influence on garment design. **UNIT IV** **Principles of Draping Design** • Balance, symmetry, and asymmetry in design. • Proportion and scale in garment construction. **PRACTICAL** **TIME: 3 Hours** **Introduction to Draping** History and importance of draping in fashion design. Tools and materials required (dress forms, fabric types, pins, scissors, etc.). Understanding body forms and measurements. **Basic Draping Techniques** Preparing fabric for draping (grainline, marking, pressing). Draping basic bodice front and back. Developing darts and seams. **Draping Skirts** Draping a basic skirt. Variations: A-line, pencil, and flared skirts. **Draping Bodices with Variations** Creating princess seams and yoke designs. Draping asymmetrical bodices. **Draping Sleeves** Basic sleeve draping. Variations: puffed sleeves, bell sleeves, and cap sleeves.

1	**Course Title**	**CHILDREN'S APPAREL**
2	**Course Code**	TFT 303
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**120 hours for practical** (1 credit = 30 hours of **practical** based on 8 hrs./week) **(1 Semester = 15 weeks)** **Groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Designer
8	**Course Objectives**	**To** impart knowledge of machines and tools used for sewing. To impart knowledge of different garment components
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** • Demonstrate knowledge of children's sizing, safety, and comfort requirements when designing and constructing apparel. • Choose fabrics, trims, and notions that ensure durability, comfort, and safety for children's wear, while considering factors like skin sensitivity and ease of care. • Draft, modify, and grade basic and advanced patterns for various children's garments, ensuring accurate fit and ease for movement. • Successfully construct a range of children's garments, including dresses, rompers, trousers, tops, and outerwear, using industry-standard techniques. • Demonstrate proficiency in techniques specific to children's apparel, such as soft finishes for seams, elastic insertion, and applying gathers or pleats.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12 Course Content

UNIT I

A. Drafting of Basic Bodice Block (Child's)

- Introduction to bodice block drafting using standard child measurements.

B. Layette Set

1. **Bib**
   - Drafting a basic bib pattern based on infant measurements.
   - Construction: Layering fabric, finishing edges, and attaching closures (ties, Velcro, or snaps).
2. **Diaper**
   - Drafting a pattern for reusable cloth diapers.
   - Construction: Adding elastic at the waist and leg openings for a snug fit.
3. **Panty and Bloomer**
   - Drafting separate patterns for panties and bloomers.
   - Construction: Inserting elastic at the waist and leg openings for ease and comfort.

UNIT-II

Drafting and Construction of Jabla and Baba Suit/Romper

A. Jabla

1. **Jabla Without Sleeves (Front Open)**
   - Drafting a front-opening bodice pattern.
   - Construction: Sewing side seams and finishing edges with bias binding or facing.
2. **Magyar Sleeve Jabla (Back Open)**
   - Drafting a single-piece pattern incorporating the bodice and sleeves.
   - Construction: Hemming sleeves and adding closures at the back opening.

B. Baba Suit or Romper

1. **Baba Suit (Knickers with Chest Piece Attached)**
   - Drafting:
     - Creating a basic pattern for knickers with a chest piece.
     - Designing straps for fastening at the shoulders.
   - Construction: Assembling the knickers, attaching the chest piece, and finishing edges.
2. **Romper (Alternative)**
   - Drafting: One-piece pattern combining the bodice and shorts with a button or snap opening at the crotch.
   - Construction: Joining bodice and shorts, inserting elastic (optional), and adding fasteners.

UNIT-III

Casual Wear

Designing, Drafting, and Constructing:

- Bermuda shorts.
- Shirt with an open collar and pocket.
- Kurta Pyjama.
- Shorts.

UNIT-IV

Occasional Wear

Designing, Drafting, and Constructing:

- Dhoti Kurta.
- Full-length Gown.
- Gallice Suit (with Pant).

4. Sofhia, Manmeet-"Garment Construction", Kalyani Publication

1	**Course Title**	**PROJECT WORK-I & VIVA-VOCE**
2	**Course Code**	PW I
3	**Typology of Course**	PROJECT WORK
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours** for **practical** (1 credit = 30 hours of **practical** based on 4 hrs./week) **(1 Semester = 15 weekS**
5	**Credits**	2 Credits
6	**Max. Marks and Time**	50 Marks (PRACTICAL)
7	**Job Role**	Assistant Designer
8	**Course Objectives**	To create awareness about clothing culture. To impart knowledge of clothing communication and fashion expression.
9	**Course Outcomes**	On successful completion of the course, Students will be able to have • **Draping Proficiency:** Ability to drape a variety of garments, adapting techniques to different designs and fabrics • **Creative Expression:** Translate design concepts into wearable garments while maintaining technical accuracy. • **Sustainability Awareness:** Incorporate eco-conscious methods into the design and production process.
10	**Pedagogy of the Course Work**	Practical
11	**Instructions for paper setters and candidates**	Project Submission and Viva Voce.

12	**Course Content**	**A PROJECT REOPRT ON DRAPING TECHNIQUES** **Draped Basic Bodice and Skirt:** • Create a simple sleeveless bodice and A-line skirt to understand the fundamentals of draping. • Focus on aligning grainlines and shaping darts or princess seams. OR **Gathered Top with Elastic Neckline:** • Experiment with fabric gathering at the neckline and sleeves for a loose, comfortable top. • Incorporate raglan or Magyar sleeves for added style. OR **Sustainable Fashion Draping**: • Work with repurposed fabrics to create a zero-waste garment. • Explore creative fabric placement and minimal cutting for eco-friendly designs.

SEMESTER IV

1	**Course Title**	**PATTERN MAKING AND GRADING**
2	**Course Code**	TFT 401
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours** of **lectures** for **Theory** (1 credit = 15 hours of **theory learning** based on 4 hrs./week) **(1 Semester = 15 weeks)**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 THEORY + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7.	**Job**	Designer
8	**Course Objectives**	**Understand Pattern-Making Principles:** Learn the concepts of body measurements, ease, and their application in drafting basic and advanced garment patterns. **Develop Pattern Drafting Proficiency:**Draft basic blocks (e.g., bodice, skirt, sleeve) and transform them into fashion patterns with style variations.

9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** • **Proficient Pattern Drafting:** Create accurate basic blocks and transform them into various garment styles with advanced techniques. • **Expert Grading Skills:** Scale patterns for multiple sizes using industry-standard grading rules while maintaining proper fit and proportion. • **Problem-Solving and Fit Adjustments:** Analyze and resolve fit issues, ensuring garments are accurate, functional, and aesthetically pleasing. • **Industry Readiness:** Apply sustainable practices, develop efficient layouts, and build a technical portfolio for careers in fashion design and garment production.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12 Course Content

UNIT I

Introduction to Pattern Making

- **Definition and Importance**: Overview of pattern making in fashion design, its role in garment production, and its relationship with design.
- **Types of Patterns**: Basic blocks (bodice, skirt, sleeve, pant), slopers, and commercial patterns.
- **Pattern-Making Process**: From measurements to final garment, the steps involved in pattern development.
- **Tools and Equipment**: Overview of tools used in pattern making, such as rulers, French curves, grading rulers, and pattern paper.

UNIT II

Pattern Manipulation

- **Dart Manipulation**: Techniques such as slash and spread, and pivoting to alter fit and shape.
- **Adding Style Lines**: Creating variations, including princess seams, pleats, tucks, and gathers.

Grading

- **Introduction to Grading**: Definition, importance, and difference between grading and pattern making.
- **Size Charts**: Understanding standard size charts and their role in grading.
- **Grading Rules**: Manual and computerized grading methods, including grading for different body types and garment types.

UNIT III

Fit and Pattern Adjustments

- **Fit Principles**: Understanding the relationship between fit and body shape, including ease, ease control, and fit issues.
- **Common Fit Problems**: Identifying common fit problems such as tightness, gaping, and puckering, and how to adjust patterns to correct them.

		UNIT IV **Pattern Layout and Marker Making** • **Pattern Layout**: Methods for laying out patterns on fabric to maximize fabric usage. • **Grainlines and Fabric Direction**: How grainlines affect fabric performance and garment fit.

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 THEORY + 20 IA)

		• The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7.	**Job**	Designer
8	**Course Objectives**	By the end of the course, students will be able to: 1. Design Fashion Garments 2. Understand Marketing and Merchandising in Fashion 3. Utilize Social Media and Digital Platforms for Promotion 4. Apply Knowledge of Retail and E-Commerce .
9	**Course Outcomes**	Upon successful completion of the **Fashion Design** course, students will be able to: 1. **Understand the Fashion Design Process**: o Demonstrate a comprehensive understanding of the steps involved in the design process, from concept to finished garment. 2. **Apply Design Principles and Elements**: o Effectively apply the elements and principles of design to create aesthetically pleasing and well-constructed garments. 3. **Gain Knowledge of Fabric and Textile Selection**: o Select appropriate fabrics based on their properties and suitability for various design types. 4. **Understand Fashion Marketing and Branding**: o Develop a basic understanding of fashion branding, marketing, and merchandising in both physical retail and e-commerce settings. 5. **Apply Fashion Promotion Strategies**: o Utilize modern promotional techniques, including social media and influencer collaborations, to promote fashion designs.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**UNIT I** **Introduction to Fashion Design** • **Understanding Fashion Design**: Definition, importance, and role in the fashion industry. • **Fashion History**: The evolution of fashion from ancient to modern times. • **Fashion Design Process**: From concept to creation, understanding the steps in the design process. **UNIT II** **Design Principles and Elements** • Elements of Design: Line, shape, color, texture, form, and space. • Principles of Design: Balance, proportion, rhythm, harmony, and emphasis. • Color Theory: Understanding color schemes, color psychology, and the importance of color in fashion design. • Fabric and Textile Knowledge: Types of fabrics, fabric properties, and their application in design. **UNIT III** **Fashion Marketing and Merchandising** • **Fashion Branding:** o The process of building and managing a fashion brand, including brand identity, positioning, and market differentiation. o Key elements of brand development: logos, brand voice, and visual identity. • **Fashion Merchandising:** o Basics of fashion merchandising, understanding retail strategies, and market positioning. o Managing product ranges, setting price points, and creating a product mix that meets consumer needs. **UNIT IV** **Fashion Promotion and Advertising**: • Using social media platforms, influencers, and other marketing techniques to promote fashion collections. • How to create effective advertising campaigns that resonate with consumers. **Retail and E-commerce**: • The role of traditional retail and online stores in the fashion industry. • Trends in e-commerce and the importance of digital strategies for fashion brands.

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks =(40THEORY+10 IA) + (40 PRACTICAL + 10 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Designer
8	**Course Objectives**	To create awareness among the students about clothing culture & embroideries of different states. The course aims at understanding the process & stages involved in design development from an initial concept to a final creation. .
9	**Course Outcomes**	**On successful completion of the course, students will be able to** • Understand the History and Significance of Traditional Textiles- Gain knowledge of the historical and cultural importance of textiles in various global traditions. • Master Traditional Dyeing and Printing Techniques- Learn and apply traditional dyeing and printing methods, including resist techniques, block printing, and natural dyes. • Develop Expertise in Weaving Techniques- Understand and apply traditional handloom weaving techniques and regional variations. • Acquire Knowledge in Traditional Embroidery- Learn and practice various traditional embroidery techniques, including regional styles from India, China, the Middle East, and more.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.

	4. All questions carry equal marks.

12	**Course Content**	**THEORY** **TIME: 3 Hours** **UNIT – I** **Introduction to Traditional Textiles** **Definition and Importance of Traditional Textiles** • Understanding traditional textiles and their significance in cultural identity and heritage. • Overview of the role of textiles in different regions and societies. **UNIT II** **Types of Traditional Textiles** Classification of traditional textiles (woven, embroidered, printed, dyed, etc.). **UNIT –III** • Introduction to Traditional Embroideries OF Kashmir, Punjab, Gujrat, Rajasthan, Karnatka, Luckhnow, bengal • Overview of regional embroidery styles, their historical and cultural significance, and common stitches used in each. **UNIT-IV** **Traditional Printing Techniques** • Wood Block Printing: History, tools, and techniques involved in block printing. • Screen Printing and Stencil Techniques: Exploring traditional methods of creating intricate designs. **PRACTICAL** **TIME: 3 Hours** Traditional embroidery-Kashida of Kashmir, Phulkari of Punjab, Gujarat - Kutch embroidery, embroidery of Rajasthan, Kasuti of Karnataka, Chicken work of Lucknow, Kantha of Bengal. **Traditional Printing Practical :** prepare 5 samples using traditional printing techniques, including block printing, stencil printing, and screen printing. Create two final articles incorporating any of the mentioned traditional embroideries and one of traditional printing.

1	**Course Title**	**ACCESSORY DESIGNING**
2	**Course Code**	TFT 404
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**120 hours for practical** (1 credit = 30 hours of **practical** based on 8 hrs./week) **(1 Semester = 15 weeks)** **Groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Designer
8	**Course Objectives**	1. To develop creative skills for designing a variety of accessories, including jewelry, handbags, footwear, belts, gloves, and headdresses. 2. To familiarize students with materials, techniques, and ornamentation methods used in accessory production. 3. To encourage thematic exploration and cultural inspiration in accessory design, such as tribal, ethnic, contemporary, and fusion styles.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** • Students will acquire the ability to design and create fashion accessories that align with specified themes and trends. • They will gain hands-on experience in using materials and techniques to construct accessories with a focus on detail and craftsmanship. • Students will develop a portfolio showcasing creative and professional-quality accessory designs. • They will demonstrate an understanding of cultural influences and thematic relevance in accessory creation.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**Unit I** **Introduction to Accessory Designing** • Understanding the role of accessories in fashion. • Study of accessory categories: Headdress, footwear, handbags, jewelry, belts, gloves, etc. • Overview of design principles applied to accessories. **Unit II** **Collection of Materials and Documentation** • Research and collect materials suitable for accessory design (leather, fabric, metal, beads, etc.). • Thematic documentation of accessory designs based on: ○ **Tribal**: Natural elements, raw textures, earthy colors. ○ **Ethnic**: Cultural motifs, vibrant patterns. ○ **Contemporary**: Minimalist and modern styles. ○ **Traditional**: Historical inspirations and techniques. ○ **Mughal**: Ornate designs, intricate detailing. ○ **Fusion**: Combination of styles from multiple themes. **Unit III** **Designing Accessories** • Create sketches and design concepts for accessories based on chosen themes. • Material selection and prototyping of designs. • Application of ornamentation techniques like embroidery, embossing, beading, etc. **Unit IV** **Project Work** • Create two types of accessories from the following list: ○ Headdress, footwear, handbags, jewelry, belts, or gloves. • **Themes**: Each accessory should reflect one of the specified themes (Tribal, Ethnic, Contemporary, Traditional, Mughals, or Fusion).
