Course Outline for

B.Voc (Fashion Designing)

as per NEP 2020

w.e.f session 2026-27

Course Outline for B.Voc (Fashion Designing)
as per NEP 2020 w.e.f. session 2026-27

Semester-I

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
FD 101	Core Discipline	Basics of design	2	2	4	40	10	40	10	100
FD 102	Core Discipline	Garment Construction-I	0	4	4	-	-	80	20	100
FD 103	Core Discipline	Textile Science	3	1	4	60	10	20	10	100
AEC / MIL	Ability Enhancement Course	English			2					50
SEC I	Skill Enhancement Course	Common Basket			3					75
IDC I	Interdisciplinary Course	Common Basket			3					75
VAC I	Value-Added Course	Common Basket			2					50
PW I	Project Work	Project Work-I & Viva-Voce	-	2	2	-	-	50	-	50
Total Credits					**24**					**600**

Semester-II

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
FD 201	Core Discipline	Concepts of fashion	2	2	4	40	10	40	10	100
FD 202	Core Discipline	Drafting and pattern making	2	2	4	40	10	40	10	100
FD 203	Core Discipline	Fashion illustration-I	0	4	4	-	-	80	20	100
AEC / MIL	Ability Enhancement Course	English			2					50
SEC II	Skill Enhancement Course	Common Basket			3					75
IDC II	Interdisciplinary Course	Common Basket			3					75
SIT 201*	Internship	Summer Industrial Training (SIT)*	-	4	4	-	-	100	-	100
Total Credits					**24**					**600**

Job Role – Junior Apprentice

* Summer Industrial Training of 2-4 weeks in a relevant Industry after 2nd Semester Examinations during summer break. Training report by the student to be submitted within one week of start of 3rd Semester. Viva-Voce examination to be held within 3 weeks of the start of 3rd semester.

** Minimum Credits required to get Certificate Course in Fashion Designing = 48 + 4#.

#Exit 1: Certificate Course - Student can exit after completion of 1st year having secured 48 Credits and will be awarded a UG Certificate provided they complete a vocational course/internship of 4 credits during the summer vacation of the first year, in addition to the 6 credits from skill enhancement courses earned during first and second semester

Semester-III

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
FD 301	Core Discipline	Children's Apparel	0	4	4	-	-	80	20	100
FD 302	Core Discipline	Traditional textiles and embroideries	2	2	4	40	10	40	10	100
FD 303	Core Discipline	Computer Aided designing CAD-I	0	4	4	-	-	80	20	100
AEC / MIL	Ability Enhancement Course	English			2					50
SEC III	Skill Enhancement Course	Common Basket			3					75
IDC III	Interdisciplinary Course	Common Basket			3					75
VAC II	Value-Added Course	Common Basket			2					50
PW II	Project Work	Project Work-II & Viva-Voce	-	2	2	-	-	50	-	50
Total Credits					**24**					**600**

Semester-IV

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
FD 401	Core Discipline	Needle Craft	0	4	4	-	-	80	20	100
FD 402	Core Discipline	Fashion Illustration-II	0	4	4	-	-	80	20	100
FD 403	Core Discipline	Draping and flat pattern making	2	2	4	40	10	40	10	100
FD 404	Core Discipline	Clothing care	2	2	4	40	10	40	10	100
AEC / MIL	Ability Enhancement Course	English/MIL			2					50
VAC III	Value-Added Course	Common Basket			2					50
SIT 401	Internship	Summer Industrial Training (SIT)*	-	4	4	-	-	100	-	100
Total Credits					**24**					**600**

Job Role – Assistant Fashion Illustrator

* Summer Industrial Training of 2-4 weeks in a relevant Industry after 4th Semester Examinations during summer break. Training report by the student to be submitted within one week of start of 3rd Semester. Viva-Voce examination to be held within 3 weeks of the start of 3rd semester.

** Minimum Credits Required to get Diploma Course in Fashion Designing = 96 + 4 #

#Exit 2: Diploma Course - Student can exit after completion of 2nd year having secured 96 Credits and will be awarded a UG Diploma provided they complete a vocational course/internship of 4 credits during the summer vacation of the first year, in addition to the 9 credits from skill enhancement courses earned during first, second and third semester.

Semester-V

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
FD 501	Core Discipline	Introduction to dyeing and printing	2	2	4	40	10	40	10	100
FD 502	Core Discipline	Computer aided designing CAD-II	0	4	4	-	-	80	20	100
FD 503	Core Discipline	Knitting technology	2	2	4	40	10	40	10	100
FD 504^	Core Discipline	Garment Construction-II	0	4	4*	-	-	80	20	100
FD 505^	Core Discipline	Basics of grading	0	4	4*	-	-	80	20	100
FD 506^	Core Discipline	Trims and Accessories	4	0	4*	80	20	-	-	100
VAC IV	Value-Added Course	Common Basket			2					50
PW III	Project Work	Project Work-III & Viva-Voce			2					50
Total Credits					**24**					**600**

^Any two in 5th Semester

Semester-VI

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
FD 601	Core Discipline	Quality control	2	2	4	40	10	40	10	100
FD 602	Core Discipline	Marketing & merchandising	4	0	4	80	20	-	-	100
FD 603	Core Discipline	Sociological, psychological and ethical aspects of fashion	4	0	4	80	20	-	-	100
FD 604	Core Discipline	Visual merchandising	2	2	4	40	10	40	10	100
FD 605^	Core Discipline	Fashion communication	4	0	4*	80	20	-	-	100*
FD 606^	Core Discipline	Fashion Forecasting	4	0	4*	80	20	-	-	100*
FD 607^	Core Discipline	Apparel Manufacturing Technology	4	0	4*	80	20	-	-	100*
Total Credits					**24**					**600**

^Any two in 6th Semester

ESSENTIAL COMPONENTS OF COURSE OF B.VOC (FASHION DESIGNING) (SEMESTERS I toVIII)

PROGRAMME OUTCOMES

PO1. Fashion and Fabric Theory Knowledge: Understanding Theories & Principles of behind Fabric Constructions and its Science; History of Art, Textile, Costumes, Fashion theories, Styles, Marketing & Merchandising, of the past and present to appreciate trends, predict appropriate market trends and machine knowledge.

PO2. Knowledge of different Fashion Technologies: To develop Knowledge of different textiles, fashion trends, pattern, digital technology, artistic elements and advanced experimentations.

PO3. To provide experience in responding to market opportunities with creative and innovative products that integrate a set of academic disciplines such as textile materials, design fundamentals, business fundamentals, sourcing, data mining of market information, and new developments in material science and engineering.

PO4. To create an educational environment that approximates the actual conditions in industry by building studios and workshops containing state-of-the-art systems, resources, technologies, and a community of creativity and innovation.

PO5. To develop strong multi-functional teamwork and communication skills using visual and verbal presentation assignments and interfaces with practitioners in the design community and the industry.

PO6 To Offer wide possibilities of employability in the field of fabric designing, stitching, knitwear, textile, printing and marketing and as Fashion stylist, freelance designers and visual merchandisers.

PO7. Design / Develop product prototypes: Design a garment or a product by draping or flat pattern making or by using hands on skill or stitching to construct the product to meet desired specification, performance and capabilities: compatible with client need, trend, market analysis, social and environmental considerations.

Semester I

1	Course Title	Basics of Design
2	**Course Code**	FD 101
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (40TH/ 40PR + 20 IA) a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Junior Apprentice
8	**Course Objectives**	• To introduce fundamentals of the design used in fashion designing as well as interior designing. • To acquaint students with various aspects of colour. • To enable students to develop new designs using various motifs.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Understanding of visual communication design. **CO2** Analyzing color harmony **CO3.** Applying color harmony in design **CO4.** Creating designs by using principles. **CO5.** Evaluate the designing skills
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.

11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.
12	**Course Content**	**UNIT – I** Definition of art: Introduction to art media and its applications, pencils, pencil colours, crayons, poster colour, eraser, acrylic colours and soft pastels. **UNIT – II** Elements of Art: Line, form, texture, colour, light shape, pattern Principles of design: Balance, Rhythm, Proportion emphasis and Harmony **UNIT – III** Dimension of colours: Colour Wheel, Colour Schemes, Their importance and application **UNIT – IV** Types of motifs and use of motifs in design. Motifs used in Indian textiles. **Practical work:** **Unit-1** 1. Material, equipment and techniques of drawing and use of these for free hand sketching of day-to-day objects, flower, flowerpots etc. **Unit-2** 2. Colour wheel: Grey scales and various colour schemes. 3. Making tracings of motifs on butter paper. **Unit-3** 4. Composition of geometrical, floral and abstract designs 5. Placement of motifs in repeat enlargement of motifs. **Unit-4** 6. Basic Techniques of Sketching in black n white using different qualities of pencil.

13	**Suggested Resources for Reading**	1. Jenner G., “Dress-The Clothing Text Book”, Bennat co. Inc. 2. Ellinwood J.G., “Fashion by Design”, Fairchild Bookm Peoria, New York 3. Mc cullum G.L., “4000Flower and Plant Motifs”, a source book, BT Batiford, London 4. Prakash K, “Textile Design-Traditional and floral”, Tien Wah press ltd. Singapore 5. Belta E and Drudi K, “Fabric Textures and Patterns”, The Repin Press, Singapore **Note: Latest edition of text books may be used.**

1	**Course Title**	**GARMENT CONSTRUCTION- I**
2	**Course Code**	FD 102
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**0 hours** of **lectures** for **Theory + 1 2 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (0 TH/80PR + 20 IA) a) The exam of this course will be of 3 hours duration. b) There will be no objective type questions. c) Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d) Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Junior Apprentice
8	**Course Objectives**	To make the students aware of basic sewing equipment as well as techniques
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Manipulate the various seams, seam finish and bias finishing techniques. **CO2.** Customize the fullness methods, placket and fasteners attachments in garment. **CO3.** Construct the various body parts of a garment.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.

		4. All questions carry equal marks.
12	**Course Content**	**Practical work:** **Unit-1** 1. Introduction to tools used in garment construction- measuring, marking, cutting, sewing and finishing. 2. Sewing machine: Parts and care **Unit-2** 3. Basic hand stitches-basting (even, uneven, diagonal), back stitch, hemming (visible, invisible), hand overcast. 4. Different types of seams- plain, French, run & fell, mantua maker, counter hem, lapped 5. Seam finishes- overcast, pinked, binding, turned and stitched **Unit-3** 6. Fasteners-buttons and buttonhole, hooks and eyes, snap buttons. 7. Fullness- darts, gathers, pleats, tucks 8. Basic Neckline finishing **Unit-4** 9. Plackets- continuous, two piece. 10. Pockets- Patch, inseam, bound, flap, kurta
13	**Suggested Resources for Reading**	1. Vilensky, "Textile Science", CBS Publication, New Delhi, 1999. 2. Mishra S.P., "A Textbook of Fiber Science and Technology", New Age Intl., Delhi 2000. 3. Eric Oxtoby, "Spun Yarns, Technology, Structure and Applications, Wiley-Inter Science, NY, 1978. 4. Corbman, "Textiles: Fiber to Fabric" Mc Graw Hill. 5. Kadolph, S.J, "Textiles", Tenth Edition, Dorling Kindersley, 2009. 6. Tortora, P,G.,"Understanding Textiles", Mac Millan, Publishing Co, New York, 1978. 7. Hollen, N and Saddler. J, "Textiles" Mac Millan, London, 1968. **Note: Latest edition of text books may be used.**

1	**Course Title**	**TEXTILE SCIENCE**
2	**Course Code**	FD 103
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**45 hours** of **lectures** for **Theory + 3 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (50 TH/30PR + 20 IA) a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Junior Apprentice
8	**Course Objectives**	To acquaint the students with different types of natural and manmade fabrics available and their properties which may affect their use in fashion.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Clarify the preparatory processes involved in woven fabric production. **CO2.** Explain the principles of the sizing process and its methods. **CO3.** Infer about the basic mechanism of loom and its structure. **CO4.** Categorize the woven fabrics and its structure **CO5.** Differentiate the types of looms and jacquard mechanisms involved in woven fabric production
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.

		3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.
12	**Course Content**	**UNIT – I** Basic textile terminology, classification of textile fibres properties. Uses and manufacturing of natural and manmade fibres (cotton, linen, wool, silk, viscose rayon, nylon, acrylic and polyester). **UNIT-II** Spinning- Mechanical and Chemical Properties of yarns -count, balance, twist. **UNIT-III** Different types of yarns-plain, novelty, textured **UNIT-IV** Different type of fabrics- woven, non-woven, knitted and felted fabric. Fabric count and drapeability. **Practical work:** **Unit-1** 1. Fiber identifications – visual, burning, microscopic and solubility test. **Unit-2** 2. Identification of type of yarn 3. Determination of twist. **Unit-3** 4. Evaluation of thread count and dimensional stability of fabric **Unit-4** 5. Different types of Weaves
13	**Suggested Resources for Reading**	1. Vilensky, "Textile Science", CBS Publication, New Delhi, 1999. 2. Mishra S.P., "A Textbook of Fiber Science and Technology", New Age Intl., Delhi 2000. 3. Eric Oxtoby, "Spun Yarns, Technology, Structure and Applications, Wiley-Inter Science, NY, 1978. 4. Corbman, "Textiles: Fiber to Fabric" Mc Graw Hill. 5. Kadolph, S.J, "Textiles", Tenth Edition, Dorling Kindersley, 2009. 6. Tortora, P,G.,"Understanding Textiles", Mac Millan, Publishing Co, New York, 1978. 7. Hollen, N and Saddler. J, "Textiles" Mac Millan, London, 1968. **Note: Latest edition of text books may be used.**

Semester II

1	**Course Title**	**CONCEPTS OF FASHION**
2	**Course Code**	FD 201
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (40 TH/40PR + 20 IA) a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Pattern Maker
8	**Course Objectives**	• To create awareness about clothing culture. • To impart knowledge of clothing communication and fashion expression.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Define Fashion, Fashion terms and concepts. **CO2.** Describe fashion cycle. **CO3.** Forecasting fashion trends.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions

	candidates	from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.
12	**Course Content**	**UNIT – I** Fashion Terminology - fashion, style, change, fashion cycles, fad, classic, boutique, croquie, fashion trends, haute couture, designer, prêt-a-porter, and silhouette. Fashion –Definition and its importance. Fashion forecasting – Long term and short term. **UNIT-II** Origin and evolution of Fashion Principles of Fashion **UNIT-III** Factors affecting fashion. Difference between fashion and anti-fashion. **UNIT-IV** Fashion cycles - Introduction and its stages, length and break in fashion cycle. Fashion theories - Trickle down, trickle across and bottom-up theory. **Practical work:** **Unit-1** 1. Fashion forecasting **Unit-2** 2. Formation of inspiration board **Unit-3** 3. Theme board 4. Colour board **Unit-4** 5. Mood board 6. Client board
13	**Suggested Resources for Reading**	1. Andrew Reilly, *"*Key Concepts for the Fashion Industry (Understanding Fashion)" Bloomsbury Academic 2014 2. Larissa Lando, " Fashion Design: Aesthetic Concepts CreateSpace Independent Publishing Platform , 2016 3. Sandra Burke, "Fashion Designer: Concept to Collection" Burke Publishing 2011. **Note: Latest edition of text books may be used.**

1	Course Title	Drafting and Pattern Making
2	**Course Code**	FD 202
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (40 TH/40PR + 20 IA)
		a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Pattern Maker
8	**Course Objectives**	To impart Knowledge of different methods of pattern making (flat pattern method, draping method and drafting method)
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Infer about pattern-making terminology and steps in taking body measurements. **CO2.** Summarize the pattern drafting techniques and fitting standards for different garments. **CO3.** Generalize the Pattern Draping techniques and its facts. CO4. Predict different pattern grades and fabric grains for cutting. **CO5.** Explain pattern alteration techniques and predict the various kinds of pattern layout.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12 Course Content

UNIT – I

1. Pattern making, Scope, importance and methods of developing patterns: Flat pattern, drafting and Draping.
2. Terminology of fabric- balance, bias, cover, dimensional stability, fabric weight, grain, selvedge & its types.

UNIT – II

3. Anthropometric measurements; landmarks and symbol Key, taking body measurements,
4. A study of various sizes and measurements charts.

UNIT – III

5. Methods of dart manipulation- Slash and Spread, Pivot Method
6. Added Fullness Principle, Tucks - plain, cross, shell, released, group. Pleats - knife, box, inverted box and kick, Gathers.

UNIT – IV

7. Fitting and Principles of good fit
8. Fitting problems and remedies related to bodice - Bust- High Bust, Low Bust, Large Bust, small bust , Shoulders- Narrow Shoulder, Broad Shoulder, Square Shoulder, Sloping Shoulder, Round Shoulder
9. Fitting problems and remedies related to Sleeve –large upper arm, narrow sleeve

Practical work:

Unit-1

1. Drafting and pattern making of Adult women bodice block and sleeve block

Unit-2

2. Dart Manipulation

Unit-3

3. Adaptation of basic bodice block into various garments: Ladies shirt, blouse, tunic and Maxi dress.

Unit-4

4. Drafting and pattern making of Lower garments: Salwar, Pyjami , Pants & Petticoat

13	**Suggested Resources for Reading**	1. Helen Joseph Armstrong ,Pattern Making for Fashion Design, 2000., Dorling Kindersley (India) Pvt. Ltd. India, 2. Sandra Betzina ,Fast Fit – Easy Pattern Alterations for Every Figure ,. 2003 3. “Modern sizing for women’s and children’s”; P. Kunick , Philip Kunik Publication London. **References Resources:** 1. “Dress Fitting”; Natalie Bray, Black well science Ltd London. 2. “Dress Patten Designing” Natalie Bray, Black well science Ltd London. **Note: Latest edition of text books may be used.**

1	**Course Title**	**FASHION ILLUSTRATION-I**
2	**Course Code**	FD 203
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**0 hours** of **lectures** for **Theory + 1 2 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (0 TH/80PR + 20 IA) a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Pattern Maker
8	**Course Objectives**	• To make the students aware of fashion sketching • To enable the students to draw and design various garments using fashion figures
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Compose various types of garment and its parts. **CO2.** Design different kinds of accessories and ornaments. **CO3.** Deconstruct the various head theories of human figures, features and different positions of body parts.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1.

		4. All questions carry equal marks.
12	**Course Content**	**Practical work:** **Unit-1** 1. Proportions of human figure (Female, Male and Kids):Developing figures using figure guides on 8.5, 9,10.5 and 12 heads (Front, Back, Side and 3/4th view) **Unit-2** 2. Fleshing of figures 3. Body detailing: face, hands, legs and feet. **Unit-3** 4. Sketching of various garment details- collars, necklines, sleeves, cuff, gathers, pleats and folds. **Unit-4** 5. Rendering: Facial features and Skin rendering.
13	**Suggested Resources for Reading**	1. Ireland P.J., "Fashion Design drawing & presentation" BT Belford, London 1996 2. Elezabeth Drudi, "Figure drawing for fashion design" the pepin press 3. Semester III

1	Course Title	CHILDREN'S APPAREL
2	**Course Code**	FD 301
3	**Typology of Course**	**Core Discipline**
4	**Course Duration/ LP** (Lectures) (Practical)	**0 hours of lectures for Theory + 120 hours of practicals** **(1 credit = 15 hours of theory learning based on 3 hrs./week)** **(1 credit = 30 hours of practical based on 2 hrs./week)** **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 TH/PR + 20 IA) a. The exam of this course will be of 3hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Fashion Illustrator
8	**Course Objectives**	1. Designing, drafting and constructing the following garments for the features Prescribed 2. List the measurements required and materials suitable for the garment 3. Calculate the material required-Layout method and direct measurement Method
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Design and generalize the measurements for the various kids' garments. **CO2.** Prepare patterns and calculate material requirement for the designed kid's wear. **CO3.** Construct the designed kid's garment and calibrate the cost of the garment.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12 Course Content

Prepare the following garments:

Unit-1

1. Bib- Variation in outline shape
2. Panty-plain or plastic lined panty
3. Jabla- without sleeve, front open (or) Magyar sleeve, back opens

Unit-2

4. Baba suit- Knicker with chest piece attached (or)Romper
5. A-Line Frock- double pointed dart, neck line and arm hole finished with facing

Unit-3

6. Summer frock- with suspenders at shoulder line, without sleeve/collars(or) Angel top with raglan sleeve, fullness at neck line
7. Yoke frock- yoke at chest line, with open, puff sleeve, gathered skirt9OR0 frock-with collar, without sleeve, gathered/ circular skirt at waist line(or) Princess line frock

Unit-4

8. Knicker- elastic waist, side pockets.
9. Shirt- open collar, with pocket

13 Suggested Resources for Reading

1. Practical Clothing Constructing-Part I and II, Mary Mathews, Cosmic Press, Chennai(1986)
2. Zarapker System of Cutting- Zarapker. K. R, Navneet Publicationsltd.
3. Cutting and Tailoring course, Gayathri Verma and Kapil Dev, Computech Publications

Note: Latest edition of text books may be used.

1	**COURSE TITLE**	**TRADITIONAL TEXTILES AND EMBROIDERIES**
2	**Course Code**	FD 302
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (40 TH/40PR + 20 IA) a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Fashion Illustrator
8	**Course Objectives**	• To impart knowledge of traditional design and motifs of textiles. • To introduce applications of these motifs on the different textiles. • To sensitize the students to the rich textile heritage of India
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Identify the traditional textiles of India. **CO2.** Associate woven, printed and painted textiles of India. **CO3.** Determine on various traditional embroiders of India.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and

		the entire Compulsory Question No. 1. 4. All questions carry equal marks.
12	**Course Content**	**UNIT – I** Introduction to traditional textiles of various states of India: Punjab, Gujarat, Maharashtra, Karnataka, W. Bengal, U.P. and Tamil Nadu. **UNIT – II** Design characteristics of various dyed, printed and painted textiles. Kalamkari, Sanganeri, Carpets and Durries, Bandhani, Patola, Ikkat. **UNIT – III** Design characteristics of various woven textiles- Paithani Saris, Kanjeevaram Saris, Chanderi, Maheshwari, Jamdani and Baluchari. **UNIT – IV** Introduction, types, their traditional influences, symbolism, basic fabrics, decorative stitches, techniques and their colour combinations: - Kutch - Phulkari - Kantha - Kasuti - Chamba Rumal - Kashida – Chikankari **Practical work:** **Unit-1** • Sample making of following traditional embroideries : Chikankari of Uttar Pradesh, Kashida of Kashmir, Kasuti of Karnataka, Kantha of Bengal, Phulkari of Punjab and Kutch of Gujarat **Unit-2** • Identification of different types of textiles. Collection of traditional motifs and designs used in textiles **Unit-3** • Field visit. **Unit-4** • Collection of motifs and designs of Indian costumes.
13	**Suggested Resources for Reading**	1. Shailaja D. Naik ,"Traditional Embroideries of India" (1995) 2. Rustam; J. Mehta,"Masterpieces of Indian Textiles", (1970),D.B. 1	**COURSE TITLE**	**COMPUTER AIDED DESIGNING (CAD-I)**
2	**Course Code**	FD 303
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**0 hours** of **lectures** for **Theory + 1 2 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (0 TH/80PR + 20 IA) a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Fashion Illustrator
8	**Course Objectives**	To familiarize students with basics of computers
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Articulate the specifications and functions of a computer and its peripherals. **CO2.** Appraise the inevitable role played by computers in various sections of a textile /garment industry. **CO3.** Understand the application of CAD in the areas of textile and garment designing. **CO4.** Discover the use of computers in the field of body measurements.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for**	1. The syllabus of this paper has been divided into FOUR units.

	paper setters and candidates	2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.
12	**Course Content**	**Practical work:** **Unit-1** 1. MS Word: (i) Writing a letter in word document; (ii) Formatting, Editing and saving files. **Unit-2** 2. MS Excel: (i) Making Excel spread sheets; (ii) Mathematical operations in excel. **Unit-3** 3. MS Power point : (i) Using PPT to make presentations. 4. Use of Internet: (i) Making an email id.; (ii) Searching different topics **Unit-4** 5. CORELDRAW (a) Study in detail different tools of Coreldraw. (b) Create composition of stripes, checks in various textures and colours. (c) Pick up a costume worn by a famous fashion model. Scan her figure and redesign the texture and colour combination of the dress.

SEMESTER IV

1	**Course Title**	**NEEDLE CRAFT**
2	**Course Code**	FD 401
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**0 hours** of **lectures** for **Theory + 1 2 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (0 TH/80PR + 20 IA)
		a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Fashion Illustrator
8	**Course Objectives**	**Learning of basic surface ornamentation techniques for fashion**
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Produce the hand and machine embroidery samples. **CO2.** Prepare decorative samples using beads or mirrors or sequins or etc. **CO3.** Develop complex fashion accessories by learning to design different accessories manually.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**Practical work:** **Unit-1** 1. Flat Stitches - Running Stitch, Back Stitch, Stem Stitch, Satin Stitch, Couching Stitch, Cross Stitch, herringbone Stitch. **Unit-2** 2. Loop Stitches- Chain Stitch, Lazy-daisy Stitch, Button hole Stitch, Blanket Stitch, Fishbone Stitch, feather Stitch, fly Stitch. 3. Knotted Stitches- French knot Stitch, Double knot Stitch, Bullion knot Stitch. **Unit-3** 4. Decorative designs-Cross Stitch, Tapestry Stitch, Shadow work, Mirror work, English Smocking, Cut work, Sindhi Work. **Unit-4** 5. Patchwork and Appliqué. 6. Making products using above techniques
13	**Suggested Resources for Reading**	1. Abraham T.M. Handicraft of India, Graphics Columbia, New Delhi, 1964, Mulk Raj Anand Marg, Vol. VIII, 1954. 2. Dongerkery, Kamala S. 1	**COURSE TITLE**	**CLOTHING CARE**
2	**Course Code**	FD 404
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (40 TH/40PR + 20 IA) a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Fashion Illustrator
8	**Course Objectives**	To make the students aware about washing and caring of various garments
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1**. Identify suitable methods of washing, drying, ironing and storing. **CO2.** Understand the wash care labels and act accordingly. **CO3.** Appraise the types of equipment used in the care of fabrics **CO4.** Recognize the need for dry cleaning for fabrics. **CO5.** Evaluate the methods and equipments to be used for a better life of clothes
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.

		3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.
12	**Course Content**	**UNIT – I** Laundry soaps – Manufacture of soap and methods, composition of soap, types of soap. Difference between soap and detergents. **UNIT – II** Stiffening Agents: purpose and classification of stiffening Agents Blues and Bleaches **UNIT – III** Washing Machine And Care Labels. Study of different types of house hold/industrial washing - swirling - pressure - tumble wash etc; the various systems of care labeling-washing instruction. **UNIT – IV** Stain Removal: Principles of laundering - stain removal - various solvents for stain removing blood, tea, rust; oil/grease etc. Different methods of washing - application of friction by hand rubbing - scribing -tumble wash. General rules and ways of stain removal. **Practical work:** **Unit-1** 1. Study Labels and tags used in fabrics. **Unit-2** 2. Stain removal **Unit-3** 3. Spot cleaning of woollen garments **Unit-4** 4. Laundry and finishing of garments.

7	**Job Role**	Assistant Fashion Designer
8	**Course Objectives**	• To impart knowledge about knitting technology • To enable students to develop practical skills of knitting
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Outline basics of knitting process and knitting machine process functions. **CO2.** Summarize the warp and weft knitting process and its production techniques. **CO3.** Explain seamless knitting and care of knitted fabric maintenance. **CO4.** Generalize non woven fabric production process and its uses. **CO5.** Infer about technical textiles applications and its types.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus.

		3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.
12	**Course Content**	**UNIT – I** 1. Introduction to Knitting Technology 2. Terms used in knitting. 3. Difference between Knits and Woven. **UNIT – II** 4. Hand and machine Knitting 5. Indian Knitting industry-past, present and future. **UNIT – III** 6. Warp and weft knitting, comparison of warp and weft knitting 7. Weft knit stitches-single jersey, rib, purl, interlock, float and tuck stitches 8. Warp knit stitches- underlap, closedlap, openlap, Tricot, Milanese, Rachel knit. 9. Knitted fabric defects **UNIT – IV** Different types of knitting machine needles and their working 11. Knitting machines-weft and warp Knitting machines, flat bed & circular Practical work: **Unit-1** • Preparation of knitting swatches **Unit-2** • Collection of knitted swatches **Unit-3** • Presentation on knit stitches **Unit-4** • Development of Portfolio
13	**Suggested Resources for Reading**	1. Prof. Ajgaonkar D.V,"Knitting Technology"' Univeristy Publishing Co. Mumbai 2. Brackenbury Terry, "Knitting Clothing Technology"' Black well Science, UK 3. Spencer David J, "Knitting Technology"' Pergeman Press, UK. **Note: Latest edition of text books may be used.**

2	**ourse Code**	FD 504
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**0 hours** of **lectures** for **Theory + 1 2 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (0 TH/80PR + 20 IA) a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Fashion Designer
8	**Course Objectives**	To make the students aware about stitching of different elements for a garment.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1.** Describe the functions of a sewing machine and the tools needed for sewing **CO2.** Compare the methods of preparing pattern **CO3.** Appraise the types of sleeve **CO4.** Analyze the types of collars and yokes **CO5.** Appraise the techniques in pattern layout, alteration and grading

10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.
12	**Course Content**	**Practical work:** **Unit-1** 1. Cutting and stitching of sleeves: Basic, bishop, raglan, Kimono and leg o mutton sleeve. **Unit-2** 2. Neckline finishing: scalloped, turtle, Cowl, Halter, off-shoulder and drawstring. 3. Yokes: With and Without Gathers, Wrap front bodice. **Unit-3** 4. Skirts: Dirndl, Dome, Gored and Peg Skirt, Tiered, Circular and Semi-circular. **Unit-4** 5. Collar Finishing: Basic, Peter Pan, Shawl, Convertible and Mandarin collar.

SEMESTER VI

1	**Course Title**	**QUALITY CONTROL**
2	**Course Code**	FD 601
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (40 TH/40PR + 20 IA) a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Quality Supervisor
8	**Course Objectives**	• To impart knowledge about quality control in apparel industry • Learning of quality control techniques in fashion industry.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **CO1**.Explain the testing procedure for various yarn parameters. **CO2.** List out the specifications for various woven and knitted fabrics **CO3.** Differentiate the various systems used for fabric inspection **CO4.** List out the possible defects and its causes in apparel production **CO5.** Differentiate the categories of defects in garment and the various standards followed in apparel testing
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**UNIT – I** Introduction to quality control. Inspection of fabrics, sewing threads, zippers, ancillaries, linings and interlining. In-process inspection. **UNIT – II** Study of various types of defects - yarn and fabric defects. Pilling and raising defects. Defects related to processing and embellishments. **UNIT – III** Quality control through physical testing - bow and skewness, shrinkage, strength, crease recovery, drapability, colour fastness, abrasion resistance, light fastness, colour matching. **UNIT – IV** Tests for non-textile accessories. Final inspection. Statistical quality control. **Practical work:** **Unit-1** • Study of various types of defects - yarn and fabric defects. • Pilling and raising defects. **Unit-2** • Defects related to processing and embellishments. • Defects in embroideries. **Unit-3** • Test for shrinkage, colour fastness, strength, crease recovery, abrasion resistance, pilling, light fastness, colour matching. **Unit-4** • Inspection of labels and packaging.
