Course Outline for
B.Voc (TEXTILE & FASHION TECHNOLOGY)

as per NEP 2020

w.e.f session 2026-27

Course Outline for B.Voc (TEXTILE & FASHION TECHNOLOGY) as per NEP 2020

Semester-I

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
TFT 101	Core Discipline	Concept of Fashion	4	-	4	80	20	-	-	100
TFT 102	Core Discipline	Basic Fashion Illustration	2	2	4	40	10	40	10	100
TFT 103	Core Discipline	Basic Construction Skills	-	4	4	-	-	80	20	100
AEC / MIL	Ability Enhancement Course	English			2					50
SEC I	Skill Enhancement Course	Common Basket			3					75
IDC I	Interdisciplinary Course	Common Basket			3					75
VAC I	Value-Added Course	Common Basket			2					50
PW I	Project Work	Project Work-I & Viva-Voce	-	2	2	-	-	50	-	50
Total Credits					**24**					**600**

Semester-II

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
TFT 201	Core Discipline	Basic Textiles	4	-	4	80	20	-	-	100
TFT 202	Core Discipline	Textile Designing and Printing	2	2	4	40	10	40	10	100
TFT 203	Core Discipline	Basics of Computer	-	4	4	-	-	80	20	100
AEC / MIL	Ability Enhancement Course	English			2					50
SEC II	Skill Enhancement Course	Common Basket			3					75
IDC II	Interdisciplinary Course	Common Basket			3					75
SIT 201*	Internship	Summer Industrial Training (SIT)*	-	4	4	-	-	100	-	100
Total Credits					**24**					**600**

Job Role - **Sewing Mechanist, , Assistant Fashion Designer, Illustrator (Expert in basic Figure Drawing), Illustrator (Expert in Figure Drawing), Trainer in fashion Institute, Clothing Designer, Fashion Entrepreneur, Assistant in Export house/ Garment industry.**

* Summer Industrial Training of 2-4 weeks in a relevant Industry after 2nd Semester Examinations during summer break. Training report by the student to be submitted within one week of start of 3rd Semester. Viva-Voce examination to be held within 3 weeks of the start of 3rd semester.

** Minimum Credits required to get Certificate Course in **B.Voc (TEXTILE & FASHION TECHNOLOGY)** = 48 + 4 #.

#Exit 1: Certificate Course - Student can exit after completion of 1st year having secured 48 Credits and will be awarded a UG Certificate provided they complete a vocational course/internship of 4 credits during the summer vacation of the first year, in addition to the 6 credits from skill enhancement courses earned during first and second semester.

Semester-III

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
TFT 301	Core Discipline	Sustainable Fashion	4	-	4	80	20	-	-	100
TFT 302	Core Discipline	Basic Draping	2	2	4	40	10	40	10	100
TFT 303	Core Discipline	Children's Apparel	-	4	4	-	-	80	20	100
AEC / MIL	Ability Enhancement Course	English			2					50
SEC III	Skill Enhancement Course	Common Basket			3					75
IDC III	Interdisciplinary Course	Common Basket			3					75
VAC II	Value-Added Course	Common Basket			2					50
PW II	Project Work	Project Work-II & Viva-Voce	-	2	2	-	-	50	-	50
Total Credits					**24**					**600**

Semester-IV

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
TFT 401	Core Discipline	Pattern Making and Grading	4	-	4	80	20	-	-	100
TFT 402	Core Discipline	Fashion and Apparel Designing	4	-	4	80	20	-	-	100
TFT 403	Core Discipline	Traditional textiles and embroideries	2	2	4	40	10	40	10	100
TFT 404	Core Discipline	Garment Construction- I	-	4	4	-	-	80	20	100
AEC / MIL	Ability Enhancement Course	English/MIL			2					50
VAC III	Value-Added Course	Common Basket			2					50
SIT 401	Internship	Summer Industrial Training (SIT)*	-	4	4	-	-	100	-	100
Total Credits					**24**					**600**

Job Role - Fashion Designer, Own Boutique, Fashion Entrepreneur, Costume designer, Dressmaker, Fashion Designer, Own Boutique, Pattern and Product Development, Technical assistant, Fashion Entrepreneur, Sales Manager, Sales representative

* Summer Industrial Training of 2-4 weeks in a relevant Industry after 4th Semester Examinations during summer break. Training report by the student to be submitted within one week of start of 3rd Semester. Viva-Voce examination to be held within 3 weeks of the start of 3rd semester.

** Minimum Credits Required to get Diploma Course in **B.Voc (TEXTILE & FASHION TECHNOLOGY)** = 96 + 4 #.

#Exit 2: Diploma Course - Student can exit after completion of 2nd year having secured 96 Credits and will be awarded a UG Diploma provided they complete a vocational course/internship of 4 credits during the summer vacation of the first year, in addition to the 9 credits from skill enhancement courses earned during first, second and third semester.

Semester-V

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
TFT 501	Core Discipline	Fashion Marketing	4	-	4	80	20	-	-	100
TFT 502	Core Discipline	History of costumes	2	2	4	40	10	40	10	100
TFT 503	Core Discipline	Artistic Fashion Illustration	-	4	4	-	-	80	20	100
TFT 504^	Core Discipline	Accessory Designing	-	4	4*	-	-	80	20	100
TFT 505^	Core Discipline	CAD I	-	4	4*	-	-	80	20	100
TFT 506^	Core Discipline	Construction of Soft Furnishing	2	2	4*	40	10	40	10	100
4*	Value-Added Course	Common Basket			2					50
4*	Project Work	Project Work-III & Viva-Voce			2					50
Total Credits					**24**					**600**

^Any two in 5th Semester

Semester-VI

Paper Code	Type of Course	Subject Name	Credits			Marks				
			Th	Pr	Total	Ext (Th)	Int (Th)	Ext (Pr)	Int (Pr)	Total
TFT 601	Core Discipline	Apparel Industry and Quality Control	4	-	4	80	20	-	-	100
TFT 602	Core Discipline	Research Methodology	4	-	4	80	20	-	-	100
TFT 603	Core Discipline	Textile Science	2	2	4	40	10	40	10	100
TFT 604	Core Discipline	Garment Construction II	-	4	4	-	-	80	20	100

TFT 807^	Core Discipline	Design Illustration-II Men's Wear	-	4	4*	-	-	80	20	100*
Total Credits					**24**					**600**

^Any two in 8th Semester

Job Role - **Fashion Forecaster, Retail Merchandiser, Garment Production Supervisor, Merchandiser, Knitting Specialist, Illustrator, Draping Expert, Designer, technical supervisor**

* Summer Industrial Training of 2-4 weeks in a relevant Industry after 6th Semester Examinations during summer break. Training report by the student to be submitted within one week of start of 7th Semester. Viva-Voce examination to be held within 3 weeks of the start of 7th semester.

ESSENTIAL COMPONENTS OF COURSE OF B.VOC TEXTILE & FASHION TECHNOLOGY (SEMESTERS I & II)

PROGRAMME OUTCOMES

PO1. To conduct, analyze and interpret experiments to investigate problems in fashion/garment technology and apply to improve process and product quality

PO2.To introduce the methods of garments construction which includes drafting, cutting and sewing of garments for industrial as well as home production.

PO3. To introduce the basic concepts related to processing and production techniques of fibers, yarns, fabrics and other textiles products.

PO4. Student will adapt their artistic abilities to support their future design careers.

PO5. To develop a systematic, critical approach to problem solving at all levels of the design process.

PO6. Focus on creativity and innovation within the industrial and commercial context. Fashion impacts upon all aspects of our lives and shapes changes our appreciation and understanding of the world around us. Develops skills and knowledge to become a confident fashion learner in a dynamic and exciting environment.

PO7. Students learn about fashion skills and new exciting methods in contemporary fashion design and develop their fashion awareness and knowledge during different skill based learning process.

Semester I

1	**Course Title**	**CONCEPT OF FASHION**
2	**Course Code**	TFT 101
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours** of **lectures** for **Theory** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 THEORY + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Course Objectives**	To create awareness about clothing culture. To impart knowledge of clothing communication and fashion expression.
8	**Course Outcomes**	**On successful completion of the course, the Students will be able to** 1. Competent to develop a good design through application of elements of design 2. To gain knowledge about design process followed by designers for creating a collection ofgarments. 3. To provide skills for development of inspiration and mood boards relevant to a particular themeor season. 4. To equip students with knowledge of various components of fashion library, identify them incurrent fashion and apply them in their own designing. _____.
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

11	**Course Content**	**UNIT – I** **Fashion Terminology** - Fashion, style, change, fashion cycles, fad, classic, boutique, croquie,fashion trends, haute couture, designer, prêt-a-porter, and silhouette. Elements and Principles of Design in general and special reference to clothing**.** **UNIT – II** Fashion - Definition, importance, factors affecting fashion and difference of fashion and anti-fashion. Fashion - origin, evolution, cycles, lengths and breaks of fashion cycle. **UNIT – III** **Fashion theories** - trickle down, trickle across and bottom up theory. Fashion psychology - first impression, role of social and psychological aspect of clothing. **UNIT – IV** Sociological choice of clothing as affected by nationality, tradition, class consciousness,occupation etc.
12	**Suggested Resources for Reading**	**1.** Kathryn Mikelvey, "Fashion sources book", Blackwed Science, UK **2.** Sharon Le Fate, "Inside Fashion Design", Harper and Row Pub. NY. **3.** Carter L, "The changing World of Fashion. **4.** Dynamics of fashion by Elaine stone

1	**Course Title**	**BASIC FASHION ILLUSTRATION**
2	**Course Code**	TFT 102
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practical** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks =(40THEORY+10 IA) + (40 PRACTICAL + 10 IA) a. The exam of this course will be of 3 hours duration. b. There will be no objective type questions. c. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. d. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Course Objectives**	To visualize the idea of new design through illustration or sketching.
8	**Course Outcomes**	**On successful completion of the course,** 5. Students are accredited with skills of drawing and usage of various art mediums. 6. Students are able to create compositions using various color schemes 7. They will acquire the ability to perform visual research for application of elements in contextof fashion.
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

11	**Course Content**	**THEORY** **UNIT – I** Introduction to art media and its application, different art media like pencils, pencil colours,crayons, poster colours, erasers, acrylic rendering and shading skills. **UNIT-II** Colour - dimensions of colour (hue, value, and intensity), colour schemes, their

importanceand applications.

- Design - definition and types.

UNIT III

- Introduction and brief history of fashion illustration
- Changes in fashion illustration in the digital era
  - Importance of illustration in fashion communication

UNIT IV

Influence of photography on fashion drawing

- Role of illustration in fashion forecasting, magazines, and advertising
- Introduction to digital fashion illustration

PRACTICAL

- Learning the usage of various drawing and sketching mediums-pencils, ink, charcoal, brushes, crayons, water colour and poster colours.
- Illustrating pattern details pockets, sleeves, necklines, yokes, skirts, trousers, tops etc., Illustrating different type of ornaments and accessories Illustrating details of ruffles, cowls, shirring, smocking, quilting, draping, gathers, pleats, frills and flounces. Basic concept and types of silhouette.
- Figure stylization - Basic croquets, division of the body to make the 8 head figure, 10 head figure, 12head figure, Fleshing out body. Body Details – Face, Features, hair Styles, Arms, Hands, Legs, Feet and Foot wear. Figure in motion - Geometrical blocks to make different postures, Segregate into postures as normal standing, walking, running and sitting and fleshing of croquis.

1. Ireland Patrick John, "Fashion Design Drawing & Presentation" Ireland
2. Patrick John, "Fashion design Illustration: Children"
3. Ireland Patrick John, "Fashion Design Illustration: Men"
4. Julian Seaman, "Foundation in fashion design and illustration"
5. Parragon, "Fashion Illustration Figure Drawing.

2Note: Latest edition of text books may be used.

1	**Course Title**	**BASIC CONSTRUCTION SKILLS**
2	**Course Code**	TFT 103
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**120 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA) e. The exam of this course will be of 3 hours duration. f. There will be no objective type questions. g. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. h. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Course Objectives**	**To** impart knowledge of machines and tools used for sewing. To impart knowledge of different garment components.
8	**Course Outcomes**	**On successful completion of the course, the Students will be able to** 1. gain basic understanding of garments, machines and their use in apparel andfashion industry 2. know about the different size charts and will be able to take measurements of the person 3. develop an understanding of how different constructional tools help to make aperfect garment. 4. describe their garments in a more professional manner, by using the correct terminology
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

11	**Course Content**	➢ Introduction to different parts of sewing machine and their care and maintenance ➢ Basic hand stitches ➢ Types of seams (any5)-plain, Top Stitched, Flat fell, piped seam. ➢ Seam finishes (any3)-overcast, Hem, Edge stitched, bound. ➢ Fullness-darts, tucks (any 3)-pin, cross, group tucking with scalloped effect, Pleats (any 3)-knife, box, kick, gathering by machine, elastic. Ruffles-single, double. ➢ Plackets and fasteners-continuous, bound, faced and zipper plackets, button and button hole, press button, hook and eye. ➢ Making Samples of Sleeves- plain sleeve, puff sleeve(any one type), raglon or cap sleeve. Yokes-simple yoke, yoke supporting fullness. Collars-Peterman collar, shirt collar.

1	**Course Title**	**PROJECT WORK-I & VIVA-VOCE**
2	**Course Code**	PW I
3	**Typology of Course**	PROJECT WORK
4	**Course Duration/ LP** (Lectures) (Practical)	(1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)**

5	**Credits**	2 Credits
6	**Max. Marks and Time**	50 Marks (50 PRACTICAL)
7	**Course Objectives**	To create awareness about clothing culture. To impart knowledge of clothing communication and fashion expression.
8	**Course Outcomes**	**On successful completion of the course, the Students will be able to**
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10	**Instructions for paper setters and candidates**	

11	**Course Content**	A **PROJECT REOPRT ON PRODUCT DEVELOPMENT** Construction of any one baby boy or baby girl garment. Emphasis should be given to design features (placket/collar/pleats/ gathers/ ruffles/fasteners etc.), and finishing of the garment. Submission of product developed and project report .
12		

Semester II

1	**Course Title**	**BASIC TEXTILES**
2	**Course Code**	TFT 201
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours** of **lectures** for **Theory** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 THEORY+ 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Course Objectives**	The objective of this paper is to provide broad understanding about basic concepts and techniques related to textiles. The course covers broader aspects of textiles and fabrics and further relates the importance and impact of textiles in fashion..
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

11	**Course Content**	**UNIT-I** Textile Terminology– Fibre, yarn, elasticity, absorbency, resiliency, drapability, twist, blend, fabric Introduction to textile fibres and their classification based on source and origin: Introduction tothe field of Textiles - major goals- classification of fibers - natural and chemical - primary and secondary characteristics of textile fibers. **UNIT-II** Manufacturing process and the properties of various natural cellulosic fibres – Cotton, and linen Manufacturing process and the properties of various natural protein fibres– wool and silk **UNITIII** Manufacturing process and the properties of different fibres - Viscose rayon - Nylon – Lycra-Spandex **UNIT-IV** Types and uses of yarn –Simple yarn, fancy yarns, textured yarns Yarn properties- yarn linear density, size, count, twist in yarn, twist direction, strength and uniformity Introduction to spinning Wovens-basic weaves-Plain (Rib and basket), twill, satin. Non-wovens-felting and bonding.

1	**Course Title**	**TETILE DESIGNING & PRINTING**
2	**Course Code**	TFT 202
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practicals** (1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)** **3-groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks =(40THEORY+10 IA) + (40 PRACTICAL + 10 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Course Objectives**	The main objective of this course is to acquaint the students with general techniques of designing & printing. This will help them achieve foundation skills in design as well as get a broader perspective on art, design, media and fashion industries.
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

11	**Course Content**	**THEORY** **UNIT-I** Introduction to Printing, Methods and Types of Printing: Direct, Resist and discharge. Preparation of Fabric for printing. Differences between printing and dyeing. **UNIT-II** Dyes and Stages of dyeing: Fiber, yarn, piece dyeing and product dyeing **Practical** **UNIT-III** **Textile Printing:** Make samples of- Block Printing, Spray Printing, Stencil Printing and screen printing. Creating different texture using any materials.

		UNIT-IV **Projects on Printing:-** ➢ Block Printing(Ladies Kurta, Dupatta) ➢ Spray printing(T-shirts, Pillow cover) ➢ Stencil Printing(Apron, Cushion Covers, Ladies suit) ➢ Screen Printing(Bed Sheet)

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PR + 20 IA) The exam of this course will be of 3 hours duration. There will be no objective type questions. Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Course Objectives**	To impart the basic knowledge in computer field and use of computers in fashion designing. Introduction to the software tools used for the design and the communication of a collection, developing various techniques applied to fashion designing. .
8	**Course Outcomes**	**On successful completion of the course, the Students will be able to** **1.** perform case study for identifying interaction a trend on social media and its impact on fashion market. It should be noted that such a study is part of work responsibility of a fashion analyst and merchandiser **2.** They attain skills for handling professional social media accounts as well as proficiency in blog writing. **3.** use the computer for basic purposes of preparing his personnel/business letters, viewing information on Internet (the web), sending mails, using internet banking services etc,
9	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
10	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

11	**Course Content**	➢ Understanding Word Processing: Word Processing Basics; Opening and Closing of documents; Text creation and Manipulation; Formatting of text; Table handling; Spell check, language setting and thesaurus; Printing of word document. ➢ Power Point Presentation: Introduction, Objectives , Basics, Using PowerPoint, Opening A Power Point Presentation, Saving A Presentation, Creation of Presentation, Creating a Presentation Using a Template, Creating a Blank Presentation, Entering and Editing Text, Inserting And Deleting Slides in a Presentation, Preparation of Slides , Inserting Word Table or An Excel Worksheet, Presentation of Slides, Viewing A Presentation , Choosing a Set Up for Presentation, Printing Slides And Handouts, Slide Show, Running a Slide Show, Transition and Slide Timings, Automating a Slide Show ➢ Internet-Concept of Internet, Applications of Internet, Connecting to the Internet, Trouble shooting ➢ Introduction, Basics of E-mail, What is an Electronic Mail, Using E- mails, Opening Emailaccount, Mail box: Inbox and Outbox, Creating and Sending a new E-mail, Replying to an E- mail message, Forwarding an E-mail message, Sorting and Searching emails
12	**Suggested Resources for Reading**	**References Resources:** 1. R.K. Taxali: "Introduction to Software Packages" Galgotia Publications. MS–Office 2003, BPB Publications. 2. Jain S. Basic Computer Course, 2014, BPB Publications.

1	**Course Title**	**SUSTAINABLE FASHION**
2	**Course Code**	TFT 301
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours** of **lectures** for **Theory** (1 credit = 15 hours of **theory learning** based on 4 hrs./week) **(1 Semester = 15 weeks)**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 THEORY + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7.	**Job**	Designer
8	**Course Objectives**	To provide an understanding of the principles of sustainability and their application in the fashion industry. To explore eco-friendly practices, including the use of sustainable materials, zero-waste design, and ethical production processes. To develop awareness of the environmental and social impact of fast fashion and strategies for creating a more sustainable future. To encourage creative problem-solving in designing and producing garments with minimal ecological footprints.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** • Analyze Environmental and Social Impacts ○ Critically evaluate the environmental and social challenges posed by the global fashion industry, including waste, pollution, and labor exploitation. • Understand Sustainable Practices ○ Demonstrate knowledge of sustainable materials, technologies, and strategies used to minimize the ecological footprint of fashion design and production. • Advocate for Ethical Standards ○ Promote ethical practices in the fashion industry, including fair labor standards, cultural inclusivity, and responsible sourcing. • Implement Circular Fashion Principles ○ Apply concepts of circular design, such as recycling, upcycling, and zero-waste practices, to create innovative and sustainable fashion solutions.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**UNIT I** **Introduction to Sustainability in Fashion** Definition and principles of sustainability. Overview of the fashion industry's environmental and social impacts. The carbon footprint of textiles and garment production. Water consumption and pollution in dyeing and processing. Waste generation and fast fashion's impact on landfills. **Terminology related to Green Fashion**-Eco – friendly fabrics, organic clothing, Ethical Fashion, Recycled fibres, up– cycled fibres, slow fashion, slow fashion, eco system, green technology. **UNIT II** Overview of eco-friendly textiles (e.g., organic cotton, hemp, Tencel). Recycling and upcycling in fabric production. Biodegradable and biofabricated materials. **UNIT III** • Principles of circular design: reuse, repair, recycle. • Case studies: Brands leading in circular fashion. • Consumer behavior and its role in circular fashion. **Technology and Sustainability** • The role of AI, blockchain, and 3D printing in sustainable fashion. **UNIT IV** Fashion movements and organizations advocating sustainability (e.g., Fashion Revolution). **Cultural Perspectives and Indigenous Practices** • Traditional sustainable fashion practices from various cultures. • The role of indigenous knowledge in modern sustainability. • Challenges and opportunities in preserving cultural heritage.

1	**Course Title**	**BASIC DRAPING**
2	**Course Code**	TFT 302
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practical** (1 credit = 15 hours of **theory learning** based on 2hrs./week) (1 credit = 30 hours of **practical** based on 4 hrs./week) **(1 Semester = 15 weeks)** **groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks =(40THEORY+10 IA) + (40 PRACTICAL + 10 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Designer
8	**Course Objectives**	• To introduce students to the fundamental principles and techniques of draping for garment construction. • To develop skills in manipulating fabric directly on a dress form to create basic garment components such as bodices, skirts, and sleeves. • To enable students to understand the relationship between fabric grain, fit, and garment design. • To foster creativity and precision in transforming two-dimensional fabric into three-dimensional forms.
9	**Course Outcomes**	**On successful completion of the course, students will be able to** • Demonstrate knowledge of the foundational principles of draping and its role in the garment design process. • Identify and utilize essential tools, materials, and equipment required for draping on dress forms. • Prepare fabrics for draping by understanding grainlines, fabric behavior, and marking methods. • Drape fundamental garment elements such as bodices, skirts, and sleeves directly on a dress form. • Achieve proper fit, proportion, and balance in draped garments through accurate pinning, marking, and adjustments.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**THEORY** **TIME: 3 Hours** **UNIT – I** **Introduction to Draping as an Art Form** • Definition and importance of draping in fashion design. • Historical evolution of draping across cultures (e.g., Greco-Roman to contemporary fashion). **UNIT II** **Fabric Theory** • Properties and behavior of different fabrics (e.g., stretch, drape, weight). • Fabric grainlines and their impact on design **UNIT –III** **Dress Forms and Body Proportions** • Anatomy of a dress form and its use in draping. • Understanding body shapes and their influence on garment design. **UNIT IV** **Principles of Draping Design** • Balance, symmetry, and asymmetry in design. • Proportion and scale in garment construction. **PRACTICAL** **TIME: 3 Hours** **Introduction to Draping** History and importance of draping in fashion design. Tools and materials required (dress forms, fabric types, pins, scissors, etc.). Understanding body forms and measurements. **Basic Draping Techniques** Preparing fabric for draping (grainline, marking, pressing). Draping basic bodice front and back. Developing darts and seams. **Draping Skirts** Draping a basic skirt. Variations: A-line, pencil, and flared skirts. **Draping Bodices with Variations** Creating princess seams and yoke designs. Draping asymmetrical bodices. **Draping Sleeves** Basic sleeve draping. Variations: puffed sleeves, bell sleeves, and cap sleeves.

1	**Course Title**	**CHILDREN'S APPAREL**
2	**Course Code**	TFT 303
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**120 hours for practical** (1 credit = 30 hours of **practical** based on 8 hrs./week) **(1 Semester = 15 weeks)** **Groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Designer
8	**Course Objectives**	**To** impart knowledge of machines and tools used for sewing. To impart knowledge of different garment components
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** • Demonstrate knowledge of children's sizing, safety, and comfort requirements when designing and constructing apparel. • Choose fabrics, trims, and notions that ensure durability, comfort, and safety for children's wear, while considering factors like skin sensitivity and ease of care. • Draft, modify, and grade basic and advanced patterns for various children's garments, ensuring accurate fit and ease for movement. • Successfully construct a range of children's garments, including dresses, rompers, trousers, tops, and outerwear, using industry-standard techniques. • Demonstrate proficiency in techniques specific to children's apparel, such as soft finishes for seams, elastic insertion, and applying gathers or pleats.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12 Course Content

A. Drafting of Basic Bodice Block (Child's)

- Introduction to bodice block drafting using standard child measurements.

B. Layette Set

1. **Bib**
   - Drafting a basic bib pattern based on infant measurements.
   - Construction: Layering fabric, finishing edges, and attaching closures (ties, Velcro, or snaps).
2. **Diaper**
   - Drafting a pattern for reusable cloth diapers.
   - Construction: Adding elastic at the waist and leg openings for a snug fit.
3. **Panty and Bloomer**
   - Drafting separate patterns for panties and bloomers.
   - Construction: Inserting elastic at the waist and leg openings for ease and comfort.

Drafting and Construction of Jabla and Baba Suit/Romper

A. Jabla

1. **Jabla Without Sleeves (Front Open)**
   - Drafting a front-opening bodice pattern.
   - Construction: Sewing side seams and finishing edges with bias binding or facing.
2. **Magyar Sleeve Jabla (Back Open)**
   - Drafting a single-piece pattern incorporating the bodice and sleeves.
   - Construction: Hemming sleeves and adding closures at the back opening.

B. Baba Suit or Romper

1. **Baba Suit (Knickers with Chest Piece Attached)**
   - Drafting:
     - Creating a basic pattern for knickers with a chest piece.
     - Designing straps for fastening at the shoulders.
   - Construction: Assembling the knickers, attaching the chest piece, and finishing edges.
2. **Romper (Alternative)**
   - Drafting: One-piece pattern combining the bodice and shorts with a button or snap opening at the crotch.
   - Construction: Joining bodice and shorts, inserting elastic (optional), and adding fasteners.

Casual Wear

Designing, Drafting, and Constructing:

- Bermuda shorts.
- Shirt with an open collar and pocket.
- Kurta Pyjama.
- Shorts.

Occasional Wear

Designing, Drafting, and Constructing:

- Dhoti Kurta.
- Full-length Gown.
- Gallice Suit (with Pant).

1	**Course Title**	**PROJECT WORK-I & VIVA-VOCE**
2	**Course Code**	PW I
3	**Typology of Course**	PROJECT WORK
4	**Course Duration/ LP** (Lectures) (Practical)	(1 credit = 30 hours of **practical** based on 4 hrs./week) **(1 Semester = 15 weeks**

5	**Credits**	2 Credits
6	**Max. Marks and Time**	50 Marks (PRACTICAL)
7	**Job Role**	Assistant Designer
8	**Course Objectives**	To create awareness about clothing culture. To impart knowledge of clothing communication and fashion expression.
9	**Course Outcomes**	On successful completion of the course, Students will be able to have • **Draping Proficiency:** Ability to drape a variety of garments, adapting techniques to different designs and fabrics • **Creative Expression:** Translate design concepts into wearable garments while maintaining technical accuracy. • **Sustainability Awareness:** Incorporate eco-conscious methods into the design and production process.
10	**Pedagogy of the Course Work**	Practical
11	**Instructions for paper setters and candidates**	Project Submission and Viva Voce.

12 Course Content

A PROJECT REOPRT ON DRAPING TECHNIQUES

Draped Basic Bodice and Skirt:

- Create a simple sleeveless bodice and A-line skirt to understand the fundamentals of draping.
- Focus on aligning grainlines and shaping darts or princess seams.

OR

Gathered Top with Elastic Neckline:

- Experiment with fabric gathering at the neckline and sleeves for a loose, comfortable top.
- Incorporate raglan or Magyar sleeves for added style.

OR

Sustainable Fashion Draping*:*

- Work with repurposed fabrics to create a zero-waste garment.
- Explore creative fabric placement and minimal cutting for eco-friendly designs.

SEMESTER IV

1	**Course Title**	**PATTERN MAKING AND GRADING**
2	**Course Code**	TFT 401
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours** of **lectures** for **Theory** (1 credit = 15 hours of **theory learning** based on 4 hrs./week) **(1 Semester = 15 weeks)**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 THEORY + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7.	**Job**	Designer
8	**Course Objectives**	**Understand Pattern-Making Principles:** Learn the concepts of body measurements, ease, and their application in drafting basic and advanced garment patterns. **Develop Pattern Drafting Proficiency:**Draft basic blocks (e.g., bodice, skirt, sleeve) and transform them into fashion patterns with style variations.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** • **Proficient Pattern Drafting:** Create accurate basic blocks and transform them into various garment styles with advanced techniques. • **Expert Grading Skills:** Scale patterns for multiple sizes using industry-standard grading rules while maintaining proper fit and proportion. • **Problem-Solving and Fit Adjustments:** Analyze and resolve fit issues, ensuring garments are accurate, functional, and aesthetically pleasing. • **Industry Readiness:** Apply sustainable practices, develop efficient layouts, and build a technical portfolio for careers in fashion design and garment production.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**UNIT I** **Introduction to Pattern Making** • **Definition and Importance**: Overview of pattern making in fashion design, its role in garment production, and its relationship with design. • **Types of Patterns**: Basic blocks (bodice, skirt, sleeve, pant), slopers, and commercial patterns. • **Pattern-Making Process**: From measurements to final garment, the steps involved in pattern development. • **Tools and Equipment**: Overview of tools used in pattern making, such as rulers, French curves, grading rulers, and pattern paper. **UNIT II** **Pattern Manipulation** • **Dart Manipulation**: Techniques such as slash and spread, and pivoting to alter fit and shape. • **Adding Style Lines**: Creating variations, including princess seams, pleats, tucks, and gathers. **Grading** • **Introduction to Grading**: Definition, importance, and difference between grading and pattern making. • **Size Charts**: Understanding standard size charts and their role in grading. • **Grading Rules**: Manual and computerized grading methods, including grading for different body types and garment types. **UNIT III** **Fit and Pattern Adjustments** • **Fit Principles**: Understanding the relationship between fit and body shape, including ease, ease control, and fit issues. • **Common Fit Problems**: Identifying common fit problems such as tightness, gaping, and puckering, and how to adjust patterns to correct them. **UNIT IV** **Pattern Layout and Marker Making** • **Pattern Layout**: Methods for laying out patterns on fabric to maximize fabric usage. • **Grainlines and Fabric Direction**: How grainlines affect fabric performance and garment fit.

1	**Course Title**	**FASHION AND APPAREL DESIGNING**
2	**Course Code**	TFT 402
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours** of **lectures** for **Theory** (1 credit = 15 hours of **theory learning** based on 4 hrs./week) **(1 Semester = 15 weeks)**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 THEORY + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7.	**Job**	Designer
8	**Course Objectives**	By the end of the course, students will be able to: 1. Design Fashion Garments 2. Understand Marketing and Merchandising in Fashion 3. Utilize Social Media and Digital Platforms for Promotion 4. Apply Knowledge of Retail and E-Commerce .
9	**Course Outcomes**	Upon successful completion of the **Fashion Design** course, students will be able to: 1. **Understand the Fashion Design Process**: o Demonstrate a comprehensive understanding of the steps involved in the design process, from concept to finished garment. 2. **Apply Design Principles and Elements**: o Effectively apply the elements and principles of design to create aesthetically pleasing and well-constructed garments. 3. **Gain Knowledge of Fabric and Textile Selection**: o Select appropriate fabrics based on their properties and suitability for various design types. 4. **Understand Fashion Marketing and Branding**: o Develop a basic understanding of fashion branding, marketing, and merchandising in both physical retail and e-commerce settings. 5. **Apply Fashion Promotion Strategies**: o Utilize modern promotional techniques, including social media and influencer collaborations, to promote fashion designs.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**UNIT I** **Introduction to Fashion Design** • **Understanding Fashion Design**: Definition, importance, and role in the fashion industry. • **Fashion History**: The evolution of fashion from ancient to modern times. • **Fashion Design Process**: From concept to creation, understanding the steps in the design process. **UNIT II** **Design Principles and Elements** • Elements of Design: Line, shape, color, texture, form, and space. • Principles of Design: Balance, proportion, rhythm, harmony, and emphasis. • Color Theory: Understanding color schemes, color psychology, and the importance of color in fashion design. • Fabric and Textile Knowledge: Types of fabrics, fabric properties, and their application in design. **UNIT III** **Fashion Marketing and Merchandising** • **Fashion Branding:** o The process of building and managing a fashion brand, including brand identity, positioning, and market differentiation. o Key elements of brand development: logos, brand voice, and visual identity. • **Fashion Merchandising:** o Basics of fashion merchandising, understanding retail strategies, and market positioning. o Managing product ranges, setting price points, and creating a product mix that meets consumer needs. **UNIT IV** **Fashion Promotion and Advertising**: • Using social media platforms, influencers, and other marketing techniques to promote fashion collections. • How to create effective advertising campaigns that resonate with consumers. **Retail and E-commerce**: • The role of traditional retail and online stores in the fashion industry. • Trends in e-commerce and the importance of digital strategies for fashion brands.

1	**Course Title**	**GARMENT CONSTRUCTION I**
2	**Course Code**	TFT 404
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**120 hours for practical** (1 credit = 30 hours of **practical** based on 8 hrs./week) **(1 Semester = 15 weeks)** **Groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Designer
8	**Course Objectives**	• To impart basic to advanced knowledge of pattern drafting and garment construction for women's wear. • To develop skills in taking accurate body measurements and understanding body shapes. • To train students in construction of traditional, casual and contemporary women's garments. • To familiarize students with sewing tools, machines and finishing techniques. • To provide practical experience in cutting, stitching, fitting and alteration of garments.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** ➢ Take correct body measurements and prepare size charts for women's wear. ➢ Draft basic and advanced patterns for blouses, kameez, salwar, churidar, skirts, tops, and dresses. ➢ Construct women's garments with proper seams, darts, tucks, pleats and gathers. ➢ Apply different necklines, sleeves, collars, cuffs and plackets. ➢ Perform fitting, alteration and finishing to achieve proper silhouette and comfort.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	PRACTICAL **UNIT I** • Body measurements and size chart • Drafting of basic bodice block (front & back) • Dart manipulation and neckline variations • Sleeve drafting (plain, puff, cap) **UNIT II** • Drafting, Cutting and construction of: – Top – Kurti / Kameez • Placket, collar and cuff samples • Fitting and simple alterations **UNIT III** • Drafting, cutting and Construction of lower garments: Pants – Palazzo, salwar, skirt • Pockets, waistbands and finishing techniques **U**NIT IV • Construction of designer wear / party wear dress (any one) • Embellishment of dupatta/stole- with any decorative technique e.g applique work, lace, gota, needle work etc. • Quality finishing and presentation • Practical file
13	**Suggested Resources for Reing**	**References Resources:** *Practical Guide to Patternmaking for Fashion Designers* — comprehensive drafting resource covering measurement, block manipulation, collars, sleeves, linings, etc. *Patternmaking for Womenswear, vol. 1: Constructing Base Patterns – Skirts* — focused on flat pattern drafting techniques.

SEMESTER V

1	**Course Title**	**FASHION MARKETING**
2	**Course Code**	TFT 501
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours** of **lectures** for **Theory** (1 credit = 15 hours of **theory learning** based on 4 hrs./week) **(1 Semester = 15 weeks)**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 THEORY + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7.	**Job**	Designer
8	**Course Objectives**	To introduce the fundamentals of marketing and their application within the fashion industry. To develop an understanding of consumer behavior, market segmentation, and fashion buying patterns. To equip students with knowledge of branding, product positioning, and promotional strategies for fashion products.
9	**Course Outcomes**	**On successful completion of this course, students will be able to:** **• Analyze Market and Consumer Trends** a. Evaluate fashion markets, consumer behavior, segmentation, and buying motivations. **• Apply Marketing Mix to Fashion** a. Demonstrate knowledge of product, price, place, and promotion strategies in fashion marketing. **• Develop Brand Identity** a. Create branding, positioning, and communication strategies for fashion labels and retailers. **• Design Marketing Strategies** a. Plan and execute fashion marketing campaigns based on real-world market needs and competitive landscapes.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**UNIT I** **Introduction to Fashion Marketing** • Meaning, nature, scope, and importance of fashion marketing. • Difference between marketing and fashion marketing. • Components of the fashion market and fashion marketing environment. • Market research for fashion: tools, data collection, forecasting. • Consumer behavior: fashion adoption process, fashion leaders, motivation, and buying decisions. **UNIT II** **Fashion Product, Pricing, and Distribution** • Fashion product lifecycle and planning. • Pricing strategies: cost-based, demand-based, competitive, psychological pricing. • Fashion retail formats: boutique, departmental store, e-retail, luxury retail, multi-brand stores. • Distribution channels and supply chain overview. • Fashion buying and merchandising roles. **UNIT III** • Fashion branding: brand identity, brand positioning, brand equity. • Packaging and labelling in fashion marketing. • Advertising and fashion communication. • Sales promotion tools used in fashion. **UNIT IV** • Public relations and celebrity endorsements. • Visual merchandising: store layout, display techniques, customer experience. • E-commerce in fashion, online consumer behavior. • Social media marketing: Instagram, Facebook, influencer marketing.
13	**Suggested Resources for Reading**	e. Fashion Marketing by Mike Easey b. Fashion Marketing & Merchandising by Mary G. Wolfe c. The Fundamentals of Fashion Management by Susan Dillon d. Fashion Buying and Merchandising by Elaine Stone

1	**Course Title**	**HIST0RY OF COSTUMES**
2	**Course Code**	TFT 502
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practical** (1 credit = 15 hours of **theory learning** based on 2hrs./week) (1 credit = 30 hours of **practical** based on 4 hrs./week) **(1 Semester = 15 weeks)** **groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks =(40THEORY+10 IA) + (40 PRACTICAL + 10 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees.
7	**Job Role**	Designer
8	**Course Objectives**	• To introduce students to the evolution of costumes from ancient to modern times across various civilizations. • To understand how geography, culture, politics, and socio-economic changes influenced clothing styles. • To explore traditional Indian costumes and their regional variations.
9	**Course Outcomes**	**On successful completion of the course, students will be able to:** • Understand Historical and Cultural Contexts: Describe the significance of clothing in ancient, medieval, and modern civilizations. • Identify Costume Features: Recognize silhouette, garment structure, accessories, and textile characteristics of different historical periods. • Analyse Influences on Fashion Evolution: Explain how trade, technological advancements, royalty, wars, and social changes shaped costume development**.**
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**THEORY** **TIME: 3 Hours** **UNIT I** • Importance and evolution of costumes • Costumes of Ancient Civilizations: • Egyptian • Greek • Roman **UNIT II** • Influence of climate, culture, and social hierarchy on dress • Textile production and ornamentation techniques **UNIT III** • Indian Costumes Through the Ages • Costumes of: Indus Valley, Vedic and Mauryan Period, Gupta Period, Mughal Era • Traditional textiles and decorative arts **UNIT IV** • Modern & Contemporary Costumes • 1920s, 1950s, 1970s fashion styles • Influence of media, cinema, and globalization **Practical** 1. **Sketching and Rendering** • Egyptian • Greek • Roman • Mughal • • 1920s / 1950s silhouettes (Students will sketch male and female costumes with accuracy in silhouette, drape, and accessories.) 2. **Regional Costume Illustration** Any 2 regional Indian costumes (e.g., Punjab, Rajasthan, Bengal, Tamil Nadu, Nagaland) 3. **Portfolio Preparation** • A compiled portfolio of historical costume illustrations
13	**Suggested Resources for Reading**	*The Chronicle of Western Costume* – John Peacock • *Historic Costume* – Kohler • *Costume & Fashion: A Concise History* – James Laver • *Indian Costumes* – Roshen Alkazi • *Costumes and Textiles of India* – Ritu Kumar

1	**Course Title**	**ARTISTIC FASHION ILLUSTRATION**
2	**Course Code**	TFT 503
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**120 hours for practical** (1 credit = 30 hours of **practical** based on 8 hrs./week) **(1 Semester = 15 weeks)** **Groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Designer
8	**Course Objectives**	• **To develop fundamental and advanced drawing skills** necessary for creating expressive fashion figures, poses, and stylized illustrations. • **To introduce students to various art media and illustration techniques**, including pencil, ink, watercolour, markers, acrylics, and mixed media. • **To train students in rendering fabrics, textures, colours, and surface ornamentation** realistically and aesthetically in fashion sketches. • **To enhance creative visualization and conceptual development skills**, enabling students to transform ideas into impactful artistic illustrations. •
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** ➢ Create accurate fashion croquis using 8-head, 10-head, and stylized figure proportions appropriate for fashion illustration. ➢ Illustrate detailed human anatomy, including face, features, hands, legs, arms, feet, and various hairstyles. ➢ Render fabrics and textures realistically, such as denim, satin, velvet, fur, chiffon, leather, net, and prints. ➢ Use diverse art media effectively, applying techniques of shading, blending, highlighting, layering, and mixed-media rendering.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	PRACTICAL **1. Drawing of croqui and fleshing of figure.** • Eight, ten and twelve headed figure – front, side and ¾th profile Drawing of hands, legs, feet and arms • Facial proportions- eyes, nose, lips and ears Drawing of hair/ hairstyles 2. **Rendering of following textures** by using different colour mediums and techniques- Chiffon, Corduroy, Denim, Fur, Net, Satin, Velvet **3. Sketch and illustrate following accessories (10 TYPES):** o Footwear o Handbags 4. **Figures in Motion** • Gestural drawing for fluid movement • Poses: walking, dancing, turning, sitting, action poses
13	**Suggested Resources for Reing**	**References Resources:** • Singhal R. and Bharati K., "Fashion Rendering", Om Books Internationals, Noida. • "Fashion Drawing Designs", Bookwise India Pvt. Ltd., The Variety Book Depot, New Delhi. • Tortora P., "Encyclopedia of Fashion Accessories", Fairchild Publications Inc. (2003). • Dawber M., "New Fashion NIllustration", BT, Bats ford. • "Pattern Designs for Haute Couture", Wongswang Press Co. Ltd.

1	**Course Title**	**ACCESSORY DESIGNING**
2	**Course Code**	TFT 504
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**120 hours for practical** (1 credit = 30 hours of **practical** based on 8 hrs./week) **(1 Semester = 15 weeks)** **Groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Designer
8	**Course Objectives**	• To develop creative skills for designing a variety of accessories such as jewellery, handbags, footwear, belts, gloves, and headgear. • To familiarize students with materials, tools, techniques, and ornamentation methods used in accessory creation. • To encourage thematic and cultural inspiration (tribal, ethnic, contemporary, fusion) while designing accessories.
9	**Course Outcomes**	➢ **On successful completion, students will be able to:** • Design and develop fashion accessories based on themes and market trends. • Apply materials and rendering techniques to create accessory prototypes with craftsmanship. • Produce a professional portfolio showcasing accessory design concepts. • Understand cultural and thematic influences in accessory design
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	PRACTICAL ➢ **Material Collection & Documentation** Collection of materials and detailed documentation of accessories based on various themes: Tribal, Ethnic, Contemporary, Traditional, Mughal, Fusion ➢ **Documentation includes:** • History & origin of each theme • Types of accessories used • Materials traditionally used • Motifs, colours, ornamentation • Visual mood boards / inspiration boards ➢ **Surface Decoration Techniques-** Embroidery, Appliqué, Beading, Lacing, Painting, Printing, Mirror work / tribal motifs ➢ Prepare **any TWO** types of accessories from the following list, based on the above themes • Head dress • Footwear • Handbags • Jewellery • Belts • Gloves • Scarves / Hair accessories (optional addition)
13	**Suggested Resources**	• **Genova, Aneta.** *Accessory Design* • **Tortora, Phyllis.** *Encyclopedia of Fashion Accessories.* Fairchild Publications. • **Cunningham, Patricia.** *Fashion Accessories Through the Ages.* • **Ball, Joanne Dubbs & Guttenplan, Howard.** *The Art of Fashion Accessories.*

1	**Course Title**	**CAD I**
2	**Course Code**	TFT 505
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**120 hours for practical** (1 credit = 30 hours of **practical** based on 8 hrs./week) **(1 Semester = 15 weeks)** **Groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Designer
8	**Course Objectives**	o familiarize students with CorelDRAW interface and basic tools for fashion illustration. To develop skills in digital croqui drawing and proportionate figure rendering. To enable students to create women's wear designs with various collars, sleeves, skirts, and trouser details using CAD. To impart knowledge of digital coloring, texture application, and sheet layout. To build foundation for professional portfolio preparation using computer-aided design.
9	**Course Outcomes**	On successful completion of the course, students will be able to: 1. Operate CorelDRAW software for basic fashion illustration and design development. 2. Draw accurate female croquis in different views and poses. 3. Design casual and formal womenswear incorporating a variety of collars, sleeves, skirts, and pocket styles. 4. Prepare digital flat sketches and presentation sheets with proper coloring and textures. 5. Present fashion designs in a professional CAD-based format suitable for portfolios and industry
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**PRACTICAL** **Introduction to CorelDRAW for Fashion Design** • Introduction to CorelDRAW interface and workspace • Drawing tools: Pen, Bezier, Shape, Rectangle, Ellipse • Editing tools: Node editing, Transform, Align, Layers • Color, Fill, Outline, and Texture tools **Digital Croqui Development** • Female croqui (front, back, side views) • Proportion, balance and posture • Creating and modifying poses in CorelDRAW **Womenswear Design Development in CorelDRAW** Designing casual and formal womenswear incorporating: **Collars:** Peter Pan, Cape, Mandarin, Shawl, Shirt **Sleeves:** Puff, Raglan, Kimono, Leg-o-Mutton, Bell **Skirts:** A-line, Gathered, , Circular, Tiered, Yoked **Lower Garments:** Trousers with pocket • Flat sketches and stylized illustrations **Coloring, Textures & Sheet Presentation** • Fabric texture creation and application • Digital coloring, shading and highlights • Layout of design sheets and printing settings
13	**Suggested Resources**	CorelDRAW X8 – The Official Guide by Gary David Bouton (or latest edition) CorelDRAW: The Complete Reference by Gary David Bouton CorelDRAW for Fashion Design by Martin Darvill Fashion Design Illustration: Digital Techniques Using CorelDRAW by Kevin Tallon

1	**Course Title**	**CONSTRUCTION OF SOFT FURNISHINGS**
2	**Course Code**	TFT 506
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practical** (1 credit = 15 hours of **theory learning** based on 2hrs./week) (1 credit = 30 hours of **practical** based on 4 hrs./week) **(1 Semester = 15 weeks)** **groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks =(40THEORY+10 IA) + (40 PRACTICAL + 10 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees.
7	**Job Role**	Designer
8	**Course Objectives**	• To acquaint students with the significance, functional roles, and aesthetic value of soft furnishings in interior spaces. • To develop a clear understanding of various fabrics, materials, tools, and equipment used in the construction of household furnishings. • To enable students to take accurate measurements, draft layouts, and apply appropriate cutting and stitching techniques for different furnishing articles.
9	**Course Outcomes**	**On successful completion of the course, students will be able to:** • Develop an understanding of various types of soft furnishings and their role in enhancing interior spaces. • Familiarize students with fabrics, materials, tools, and equipment used for constructing household furnishings. • Teach students accurate measurement, drafting, cutting, and stitching techniques for different furnishing items. • Enable students to design and construct functional and decorative furnishings such as curtains**,** bed linen, cushion covers, and table linen.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**THEORY** **TIME: 3 Hours** **UNIT I** • Meaning and importance of soft furnishings in interior decoration • Classification of furnishings: functional & decorative • Factors influencing selection of furnishing materials: durability, maintenance, aesthetics, cost **Unit II** • Introduction to fibres and fabrics used in furnishings (cotton, linen, silk, synthetic blends, upholstery fabrics) • Colour, design, texture and their psychological effects in interiors • Measuring tools, drafting tools and equipment used in construction of furnishings • History of Furnishing Fabric used for furnishing Surface embellishment of Furnishing. **Unit III** • Types of curtains: plain curtains, panel curtains, rod pocket, eyelet, pleated, valances • Upholstery: meaning, types, materials (foam, batting, webbing), fabric considerations **Unit IV** • Cushion types: filled cushions, quilted cushions, bolsters, decorative cushions • Cushion covers: envelope, zippered, frilled, piped • Kitchen and bathroom furnishings: aprons, mittens, dish towels, shower curtains • Care and maintenance of different furnishing fabrics **<u>Practical</u>** • Stitching of- o Pillow cover (simple and with flap) o Bed sheet or bed cover with hem finish o Table runner / table cloth with decorative hemming • Table napkins (set of two) with finished corners • Surface embellishment techniques (any one): o Applique o Patchwork o Lace insertion o Fabric painting • Construction of any one type of curtain, such as: o Plain panel curtain o Eyelet curtain o Rod-pocket curtain • Creation of sample swatches of curtain heading styles:(any one) o Box pleats o Pinch pleats o Goblet pleats • Making of a door mat using recycled fabric / patchwork (optional based on time) • Construction of cushion cover (any one): o Envelope style o Zipper style o Piped or frilled • Kitchen or bathroom furnishing (any one): o Apron o Pot holder / oven mitt o Dish towel o Shower curtain (mini sample)
13	**Suggested Resources for Reading**	• Gillow, J. & Bryan, K. – *Traditional Household Textiles* (Excellent for historical background and fabric types) • Franson, J. – *Complete Home Furnishings* • Nayak, P. & Padhye, R. – *Textiles for Interior Design* • Nisha P. – *Home Furnishing: Design & Decoration* (Practical guide for construction of household furnishings)

1	**Course Title**	**PROJECT WORK-III & VIVA-VOCE**
2	**Course Code**	PW III
3	**Typology of Course**	PROJECT WORK
4	**Course Duration/ LP** (Lectures) (Practical)	(1 credit = 15 hours of **theory learning** based on 3 hrs./week) (1 credit = 30 hours of **practical** based on 2 hrs./week) **(1 Semester = 15 weeks)**

5	**Credits**	2 Credits
6	**Max. Marks and Time**	50 Marks (50 PRACTICAL)

Course Content

Project Title: Development of an Eco-Friendly Home Décor Pack Using Sustainable Fabrics

❖ **Products to be Developed**

A. Cushion Cover (16" × 16")

- Fabric: Organic cotton or linen
- Construction: Envelope or Zipper style
- Embellishment: Minimalistic block print / Kantha stitches / appliqué using scrap fabric
- Sustainability element: Natural thread + zero-waste cutting layout

C. Plant Pot Cover

- Fabric: Jute or linen (double layered for stiffness)
- Construction: Cylindrical shape with foldable edge
- Embellishment: Simple rope tie or coconut shell button
- Sustainability element: Promotes plant-based décor

C. Table Mat / Placemat (12" × 18")

- Fabric: Organic cotton
- Construction: Doubled fabric with interlining
- Surface design: Tie-dye, block printing, patchwork, or embroidery
- Sustainability element: Low-water natural dye technique

Documentation Required

- Introduction of the project
- Objectives
- Material collection & description
- Design inspiration board (mood board)
- Drafting and measurement details
- Step-by-step construction process (with photos if possible)
- Cost sheet
- Final product display
- Conclusion

SEMESTER VI

1	**Course Title**	**APPAREL INDUSTRY AND QUALITY CONTROL**
2	**Course Code**	TFT 601
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours** of **lectures** for **Theory** (1 credit = 15 hours of **theory learning** based on 4 hrs./week) **(1 Semester = 15 weeks)**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 THEORY + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7.	**Job**	Designer
8	**Course Objectives**	• Provide comprehensive knowledge of the structure and functioning of the apparel industry at national and global levels. • Familiarize students with industrial processes involved in apparel production from fabric to finished garment. • Develop understanding of quality control systems used in apparel manufacturing • Introduce various quality standards, inspections, and testing methods followed in the apparel industry.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** • Explain the organization and workflow of the apparel industry. • Describe apparel production processes, including cutting, sewing, finishing, and packing. • Apply quality control techniques at different stages of garment production. • Identify fabric and garment defects and suggest corrective measures.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	UNIT I INTRODUCTION TO APPAREL INDUSTRY • Overview and growth of the apparel industry • Structure of apparel industry: export, domestic and boutique sector • Apparel manufacturing organizations and departments **UNIT II** APPAREL PRODUCTION PROCESS • Apparel production flow chart • Pre-production processes: ○ Product development ○ Sampling and costing ○ Fabric and trim sourcing • Production processes: ○ Spreading and cutting ○ Sewing and assembly ○ Finishing and packing • Production planning and control (PPC) • Introduction to industrial sewing machines and equipment **UNIT III** QUALITY CONTROL IN APPAREL INDUSTRY • Concept and importance of quality in apparel • Quality control vs Quality assurance • Quality control systems in apparel industry • Fabric inspection systems (4-point system, 10 Point system) **UNIT IV** APPAREL TESTING, DEFECTS AND STANDARDS • Fabric testing: Physical and performance tests Colour fastness and dimensional stability • Garment testing and inspection • International quality standards and certifications • Documentation and reporting in quality control
13	**Suggested Resources for Reading**	Glock, R. E., & Kunz, G. I. (2005). *Apparel Manufacturing: Sewn Product Analysis*. Pearson Education, New Delhi. Cooklin, G. 1	**Course Title**	**RESEARCH METHDOLOGY**
2	**Course Code**	TFT 602
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**60 hours** of **lectures** for **Theory** (1 credit = 15 hours of **theory learning** based on 4 hrs./week) **(1 Semester = 15 weeks)**
5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 THEORY + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7.	**Job**	Designer
8	**Course Objectives**	Introduce students to the fundamental concepts, approaches, and importance of research. Develop understanding of research design, methods, and techniques used in qualitative and quantitative research. Enable students to formulate research problems, objectives, and hypotheses. Familiarize students with data collection tools and sampling techniques.
9	**Course Outcomes**	On successful completion of the course, the Students will be able to Explain the meaning, nature, and types of research. Formulate a research problem, objectives, and hypotheses. Select appropriate research designs and methodologies for a given study. Apply suitable data collection tools such as questionnaires, interviews, and observation schedules.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**Unit I** Research Methodology: Natureand Scope of Research Methodology. Importance of Research in Important Areas. **Unit II** Types of Research: Exploratory Research, Prescriptive Research, Experimental Research. **Unit III** Methods of Data Collection: Primary Data-Secondary data. Designing of a Questionnaire, Sampling- Probabilitysamplingandnon-probabilitysamplingmethods. **Unit IV** Business Reports and Proposals: Introduction, Meaning a Report? Steps in Writing a Routine Business Report, Format of Proposals, Four Key Elements in Winning Business Proposals, Case Studies.

P. and Gupta, M. P., *Business Statistics,* Sultan Chand and Sons. **Note: Latest edition of text booksmay be used.**

1	**Course Title**	**TEXTILE SCIENCE**
2	**Course Code**	TFT 603
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**30 hours** of **lectures** for **Theory + 6 0 hours of practical** (1 credit = 15 hours of **theory learning** based on 2hrs./week) (1 credit = 30 hours of **practical** based on 4 hrs./week) **(1 Semester = 15 weeks)** **groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks =(40THEORY+10 IA) + (40 PRACTICAL + 10 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees.
7	**Job Role**	Designer
8	**Course Objectives**	• To introduce students to basic textile fibres, yarns and fabrics • To develop understanding of fabric construction, dyeing and finishing. • To familiarize students with textile testing, care and maintenance • To build practical skills in identification, dyeing, printing and stain removal
9	**Course Outcomes**	**On successful completion of the course, students will be able to:** After completing the course, students will be able to: • Identify different fibres, yarns and fabrics and their properties • Explain basic processes of yarn formation and fabric construction • Perform simple dyeing, printing and finishing techniques • Apply correct methods of fabric care and stain removal • Prepare a systematic practical file
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**THEORY**	**TIME: 3 Hours**

UNIT I

Introduction to Textile Fibres

• Definition and classification of textile fibres
• Comparison between natural and synthetic fibres

UNIT II

Yarn Formation

• Spinning process – carding, combing, roving
• Types of yarns: simple, ply, novelty yarns

UNIT III

Fabric Construction

Weaving: Plain, Twill, Satin weaves
• Knitting: Warp and Weft knitting
• Non-woven fabrics – basic idea and uses

UNIT IV

Fabric Finishes, Dyeing and Testing

• Objectives of fabric finishing
• Mechanical finishes: calendaring, raising, shearing
• Chemical finishes: bleaching, mercerization, waterproofing
• Introduction to dyeing methods:
– Natural dyes
– Synthetic dyes
Fabric performance tests: strength, absorbency, shrinkage

Practical

- Fibre & Fabric Identification
- Sample study of cotton, wool, silk, polyester, nylon
- Burning test and microscopic observation
- Fabric swatch file with properties and uses
- Preparation of weave samples: Plain, Twill, Satin
- Knitted fabric samples (any two)
- Tie & Dye Printing on cotton fabric
- Batik Printing on cotton fabric
- Block Printing on cotton fabric
- Natural dye experiment (turmeric, tea, etc.)

13	**Suggested Resources for Reading**	1. Textiles: Fiber to Fabric – B.P. Corbman (classic introductory book) 2. Introductory Textile Science – Marjory L. Joseph (good basic concepts) 3. Textile Science – Marjery Joseph (another basic textile science text) 4. Fundamentals of Textiles and Their Care – Sushila Dantyagi (focus on care & maintenance)

1	**Course Title**	**GARMENT CONSTRUCTION II**
2	**Course Code**	TFT 604
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**120 hours for practical** (1 credit = 30 hours of **practical** based on 8 hrs./week) **(1 Semester = 15 weeks)** **Groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Designer
8	**Course Objectives**	• To develop basic to advanced skills in drafting, cutting and stitching of men's garments. • To impart knowledge of body measurements, pattern making and fitting techniques for men's wear. • To train students in construction of casual, traditional and formal men's garments. • To familiarize students with tailoring tools, machines and industrial finishing methods.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** ➢ Take correct body measurements for different men's garments. ➢ Draft basic and advanced patterns for shirts, trousers, kurtas, waistcoats and blazers. ➢ Cut and construct men's garments using proper sewing techniques and finishes. ➢ Apply appropriate collars, sleeves, pockets, plackets, waistbands and closures.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**PRACTICAL** • Body measurements and size chart • **Seams & finishes used in men's wear:** Plain seam, French seam, flat-felled seam, top stitch s • **Decorative elements used in men's wear**: Piping, buttons, embroidery placement Drafting of basic blocks: • Men's shirt block • Men's trouser block Drafting & construction of: • Kurta (straight & A-line) • Pajama / Churidar • Bermuda • Layout & fabric consumption • Construction of Men's Shirt: ○ Collar, cuff, placket, yoke, sleeve • Construction of Men's Trouser: ○ Pockets (side, back) ○ Waistband, fly, belt loops • Fitting and alterations

1	**Course Title**	**FASHION PORTFOLIO DEVELOPMENT**
2	**Course Code**	TFT 605
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**120 hours for practical** (1 credit = 30 hours of **practical** based on 8 hrs./week) **(1 Semester = 15 weeks)** **Groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Designer
8	**Course Objectives**	To develop an in-depth understanding of fashion portfolio concepts and professional presentation techniques. To enhance students' creative, analytical, and interpersonal skills. To familiarize students with commercial and industrial aspects of the fashion industry. To prepare students for employment in the fashion and apparel sector or to establish their own entrepreneurial ventures.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** Develop professional fashion portfolios for mass production and high fashion segments. Create and present mood boards, inspiration boards, theme boards, and color forecast boards. Prepare technical documents including spec sheets, flat sketches, and swatch sheets. Design and construct garments based on client profiles and market trends. Demonstrate skills in fashion illustration, design development, and product presentation. Organize and participate in a fashion show, including styling, coordination, and stage presentation.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**PRACTICAL** **Portfolio Development for Mass Production: Menswear, Womenswear & Kidswear** **Categories:** • Casual Wear • Formal Wear • Party / Occasion Wear • Sportswear • Power / Corporate Wear **Portfolio Components:** • Flat Sketches & Technical Drawings • Fabric and Trim Swatch Sheets • Measurement Charts • Specification Sheets • Basic Costing and Size Range • Production Layout and Line Plan **Portfolio Development for High Fashion – Menswear & Womenswear** • Mood Board Preparation • Inspiration Board • Theme Board • Color Forecast Board • Client Profile Sheet • Design Development & Illustration • Construction of one high-fashion garment with complete specification sheet **Fashion Show and Design Presentation** • Concept Planning and Theme Development • Accessories and Makeup Coordination • Choreography and Ramp Walk • Stage Décor, Lighting and Music • Rehearsals, Backstage Management and Final Presentation

The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Designer
8	**Course Objectives**	To develop advanced skills in CorelDRAW for professional fashion illustration and technical design. To enable students to create digital designs for menswear, womenswear, and kidswear with accurate proportions and styling. To impart knowledge of technical flats, spec sheets, and line sheets using CAD. To train students in digital surface design, pattern repeats, and texture rendering. To prepare students for digital portfolio development and fashion show presentation using computer-aided design tools.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** 1. Use advanced CorelDRAW tools for garment illustration, editing, and detailing. 2. Develop male, female, and kids croqui in various poses and design complete outfits digitally. 3. Prepare accurate technical flats, construction details, and specification sheets. 4. Create digital mood boards, color boards, and surface design patterns. 5. Compile a professional CAD-based fashion portfolio and presentation suitable for industry and fashion shows.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**PRACTICAL** **Advanced CorelDRAW Techniques for Fashion** • Advanced node editing and curve control • Creating repeats, patterns and surface designs • Brush, blend, transparency and mesh fill tools **Advanced Garment Illustration (Men, Women & Kids)** • Female, Male and Kids croqui (varied poses) • Party wear, Ethnic wear, Fusion wear, Sportswear • Layering, drape effects and garment detailing **Technical Flats, Spec Sheets & Line Sheets** • Front and back technical flats • Stitch lines, seam symbols, pleats, gathers • Measurement charts and specification sheets • Grading basics and size range presentation **Digital Portfolio & Fashion Show Presentation** • Mood boards, colour boards and trend boards in CorelDRAW • Line sheet, cost sheet and final portfolio compilation
13	**Suggested Resources for Reing**	**References Resources:** 1. Bouton, Gary David. *CorelDRAW: The Official Guide* (Latest Edition). 2. Szkutnicka, Basia. *Technical Drawing for Fashion*. 3. Abling, Bina. *Fashion Illustration*. 4. Tain, Linda. *Portfolio Presentation for Fashion Designers*. 5. McKelvey, Kathryn & Munslow, Janine. *Fashion Design: Process, Innovation and Practice*.

1	**Course Title**	**SURFACE EMBELLISHMENTS**
2	**Course Code**	TFT 607
3	**Typology of Course**	Core Discipline
4	**Course Duration/ LP** (Lectures) (Practical)	**120 hours for practical** (1 credit = 30 hours of **practical** based on 8 hrs./week) **(1 Semester = 15 weeks)** **Groups will be created for the purpose of Practical for each unit**

5	**Credits**	4 Credits
6	**Max. Marks and Time**	100 Marks (80 PRACTICAL + 20 IA) • The exam of this course will be of 3 hours duration. • There will be no objective type questions. • Students are required to have the knowledge of the developments in the subject up to 6 months before the examination. • Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University/College to the examinees
7	**Job Role**	Assistant Designer
8	**Course Objectives**	• To impart practical skills in surface ornamentation techniques. • To develop proficiency in traditional and contemporary embroidery stitches. • To enable students to create value-added textile and apparel products using decorative techniques. • To prepare students for self-employment and industry-based design applications.
9	**Course Outcomes**	**On successful completion of the course, the Students will be able to** Identify and execute basic, loop, and knotted embroidery stitches with neatness and accuracy. Apply decorative embroidery techniques such as mirror work, smocking, cut work, ribbon embroidery, and bead & sequin work. Perform patchwork and basic quilting techniques using appropriate tools and materials. Transfer designs accurately on fabric using traditional and modern methods. Design and develop market-oriented textile and apparel products using suitable surface embellishment techniques. Demonstrate proper finishing, presentation, and quality control in embroidered articles.
10	**Pedagogy of the Course Work**	Class Room Lecture, Laboratory, Interactive sessions, PPT, Practical and Group Discussions, Case Studies etc.
11	**Instructions for paper setters and candidates**	1. The syllabus of this paper has been divided into FOUR units. 2. Examiner will set a total of NINE questions comprising two questions from each unit, including Question No. 1 (compulsory) of short answer type covering the whole syllabus. 3. The students are required to attempt one question from each unit and the entire Compulsory Question No. 1. 4. All questions carry equal marks.

12	**Course Content**	**PRACTICAL** **Basic Embroidery Stitches (Sampler Work)** **Flat Stitches:** Running, Back, Stem, Satin, Kashmiri, Couching, Cross, Herringbone **Loop Stitches:** Chain, Lazy Daisy, Buttonhole, Blanket, Fishbone, Feather, Fly **Advanced & Decorative Embroidery** **Knotted Stitches:** French Knot, Double Knot, Button Knot **Decorative Techniques:** Cross Stitch, Tapestry Stitch, Shadow Work, Mirror Work, Smocking, Cut Work, Sindhi Work, Beads & Sequins Work, Ribbon Embroidery Application of stitches on design motifs. **Patchwork, Quilting & Design Transfer** • Introduction to Patchwork and Quilting • Tools, Materials and Techniques • Preparation of Patchwork Blocks • Quilting Methods (Hand & Simple Machine) • Design Transfer on Fabric using Kerosene Oil Method **Product Development** • Tracing and placement of designs on end-use articles • Preparation of five market-oriented products (any five): ○ Cushion Cover ○ Table Runner / Mats ○ Dupatta / Stole ○ Handbag / Pouch ○ Wall Hanging / File Folder ○ Kurti Panel / Yoke / Border • Combination of embroidery stitches and surface decoration techniques • Finishing and presentation according to market standards
