Paper VI

MAPAD-RBC - (RM) 306 – Preparation of Research Proposals
Total Credits: 4 (Theory: 3 lectures + Tutorial: 1 lecture)

Max. Marks: 100
Theory: 80 marks
Int. Ass.: 20marks
Time: 3 Hours

Course Objectives

This paper aims to prepare a research proposal to the students to conduct research in social sciences. It focuses on conceptualization of research proposal, formulation of research problem through literature review. The paper aims to promote ethical awareness, academic honesty, and socially responsible research practices. It will acquaint them with various aspects of ethical practices in research to ensure verifiable and generalized findings in research.

Learning Outcomes

The paper will allow the students to determine (i) concept of research proposal with respect to significance and identification, selection and formulation of research problem; (ii) sources of research literature, techniques, critical analysis, research gaps, development of conceptual framework; (iii) formulation of research objectives, research questions, hypothesis and linking objective to the problem statement; (iv) Research design and approach, Selection of study area, Sampling techniques, Tools and techniques of data collection, and Ethical considerations in research; (v) Preparation of work plan, Phase-wise time schedule, Gantt chart preparation, Budget estimation and justification, and Resource planning.

Pedagogy of the Course Work:

80 per cent of the Course Content would be delivered through Lecture Method and rest 20 per cent would comprise of Unit Test, Snap Test, Assignment and its Presentation, Attendance and Class Room Participation.

Instructions for Paper Setters and Candidates:

The maximum marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks.

- Time allowed will be 3 hours.
- There shall be 9 questions in all.
- The first question shall be compulsory and be short answer type containing 15 shortquestions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 10 short answer type questions carrying 2 marks (10x2 = 20 marks).
- Rest of the paper shall contain 4 units. Each unit shall have two questions and thecandidates shall be given internal choice i.e. the candidates shall have two questionsand the candidates shall attempt one question from each unit i.e. four questions in all.

Each question will carry 15 marks (4x15 = 60 marks).

Preparation of Tentative Research Proposal: Stages, Phases and Time Limits (4 Months Plan)

S. No.	STAGES	TITLE	DURATION
1.	Stage I	Identification and Conceptualization of Research Problem	Duration: 15 days (1–2 weeks)
2.	Stage II	Review of Literature and Research Gap Identification	Duration: 1 month (3–6 weeks)
3.	Stage III	Objectives, Hypotheses and Research Questions	Duration: 15 days (7–8 weeks)
4.	Stage IV	Research Design and Methodology	Duration: 1 month (9–12 weeks)
5.	Stage V	Work Plan, Time Schedule and Budget	Duration: Weeks 13–14 (15 days)
6.	Stage VI	Proposal Writing, Editing and Submission	Duration: Weeks 15–16 (15 days)

Semester – IV

Paper I

MAPAD-DSC-401 –Indian Evidence Act, Bharatiya Sakshya Adhiniyam and Special& Local Laws

Total Credits: 4 (Theory: 3 lectures + Tutorial: 1 lecture)

Max. Marks: 100
Theory: 80 marks
Int. Ass.: 20marks
Time: 3 Hours

Course Objectives:

This paper will provide inputs to the students on various sections of the Indian Evidence Act, 1872 and BhartiyaSakshyaAdhiniyam, 2023 regarding relevancy of facts, oral evidences, documentary evidence, burden of proof and examination of witness. The paper will develop conceptual understanding regarding the Special and Local Laws i.e. Arms Act 1959, Dowry Prohibition Act 1961, Public Gambling Act 1967, Essential Services Maintenance Act 1981, NDPS Act 1985, Motor Vehicles Act, 1988, Prevention of Corruption Act, 1988 and Domestic Violence Act 2005, Thus, the paper ensures the comprehensive study of criminal law related to legality of evidences in crime investigation and trial and special and local laws that are relevant for the study of police administration.

Learning Outcomes:

The students will gain insights regarding the sections of the Indian Evidence Act, 1872 and BhartiyaSakshyaAdhiniyam, 2023 that ensures the authenticity of evidences collected during police investigation. It will develop understanding and skills among the students to determine the relevance of evidences in compliance with the provisions of the criminal laws. Further, the knowledge regarding the Special and Local Laws will enable the students to understand the socio-economic context of laws within which they have been adopted and implemented.

Pedagogy of the Course Work:

80 per cent of the Course Content would be delivered through Lecture Method and rest 20 per cent would comprise of Unit Test, Snap Test, Assignment and its Presentation, Attendance and Class Room Participation.

Paper II

MAPAD-DSC-402 – Forensic Science and Police Administration

Total Credits: 4 (Theory: 3 lectures + Tutorial: 1 lecture)

Max. Marks: 100
Theory: 80 marks
Int. Ass.: 20marks
Time: 3 Hours

Course Objectives:

The paper aims to familiarize the students with the broader concept of forensic science and its relationship with police administration. The paper will develop conceptual understanding regarding the multifarious use of scientific techniques in analysis of evidences during police investigation. It focuses on crime scene management, finger print & foot print analysis, document analysis and handling & packaging of evidences. Further, it highlights the use and significance of light technology and photography in evidence collection and analysis for ensuring reliability in police investigation. It provides insight regarding the use of scientific techniques such as polygraph, brain mapping and narco analysis in gathering oral evidences in objective manner. It also focuses on forensic explosives and forensic ballistics to familiarize the students with the study of explosives and firearms in crime scene investigation.

Learning Outcomes

The students will understand the concept and significance of forensic science in police administration. They will develop comprehension and analytical abilities regarding the application of scientific principles and techniques to draw facts from analysis of evidences related to crime investigation. They will develop procedural and legal understanding about the collection and analysis of different types of evidences i.e. biological and non-biological evidences, fingerprints, footprints, skid marks, documents, explosives and firearms. The students will gain insight regarding application of light technology, photography and scientific investigation techniques to establish legal facts based on scientific principles. They will develop critical understanding and skills to apply scientific principles and techniques in investigation of evidences.

Pedagogy of the Course Work:

80 per cent of the Course Content would be delivered through Lecture Method and rest 20 per cent would comprise of Unit Test, Snap Test, Assignment and its Presentation, Attendance and Class Room Participation.

Instructions for Paper Setters and Candidates:

• The maximum marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks.

MAPAD-DSC-403 – Information & Communication Technology and Police Administration
Total Credits: 4 (Theory: 3 lectures + Tutorial: 1 lecture)

Max. Marks: 100
Theory: 80 marks
Int. Ass.: 20marks
Time: 3 Hours

Course Objective:
The paper aims to develop understanding regarding the relationship between Information and Communication Technology (ICT) and Police Administration. It imparts information regarding the concepts, components, and evolution of ICT in policing. It covers the application of ICT tools and systems in police administration, role of ICT in crime prevention, investigation, and traffic management. In addition, it imparts knowledge regarding the ethical, legal, and security challenges related to ICT in policing. It aims to familiarize the students with future technological trends in law enforcement.

Learning Outcomes
The students will understand the (i) meaning, nature, and components of ICT in policing; (ii) major ICT systems and surveillance technologies used by police; (iii) application of ICT tools to crime detection, investigation, and service delivery and role of digital and cyber forensics in policing and (iv) future trends, ethical concerns, and challenges of ICT in policing. It will allow the students to gain knowledge regarding the significance and recent aids of ICT in undertaking policing functions.

Pedagogy of the Course Work:
